<b>Supplemental Year at East Carolina University</b>			
Fall Semester	CDFR 4992	9	No Equivalent
	Minor or Structured Electives	3	Transferrable courses may count toward minor or electives
	<b>Total:</b>	<b>12</b>	

Minimum S.H. Required for Degree 120

Retention as a major requires maintaining a GPA of 2.5 and achieving a "C" or better in all CDFR courses.

Freshmen may declare family and community services as their major. Students must achieve and maintain a cumulative 2.5 GPA to remain in the program. Transfer students must have completed at least 12 s.h. at East Carolina University and a minimum GPA of 2.5 to declare. In addition, students must achieve a minimum grade of C (2.0) in all CDFR courses required for the major. Students earning less than a C (2.0) in a prerequisite major course must repeat the course before the subsequent upper level course may be taken.

Students in Family Community Services may select one of two concentrations: family science or child development. The family science concentration is intended for those interested in work with community agencies that provide a broad array of services to families. The child development concentration is intended for those interested in work with community agencies that provide a variety of services to children. (Note: Students who meet course requirements for the certification in family life education must make application to the National Council on Family Relations. The Department of Child Development and Family Relations will verify completion of degree requirements, but meeting other requirements for certification is the responsibility of each student.)

**Suggested Minors & Concentrations:** Spanish, Sociology, Psychology, Special Education, Economics, Gerontology, Political Science, Communication Disorders

*All guides are meant as an example of how a degree can be completed. However, individual plans will be developed for each student in consultation with the academic advisor. Course availability, prior credit, course prerequisites, major requirements, and student needs must be considered in developing the individual academic pathway.*
