Minimum S.H. Required for Degree 126

The information and computer technology program is accredited by the Association of Technology, Management, and Applied Engineering. Credit toward an information and computer technology major will not be given for any ICTN course with a grade less than C (2.0).

Seeking advising from a Technology Systems Academic Advisor is strongly encouraged as soon as the student is accepted to ECU. Visit the ECU CET advising website for more information.

Students who complete foundation curriculum at the community college through a North Carolina Comprehensive Articulation Agreement AA or AS degree may be required to take additional courses to meet degree requirements. Additional courses taken may result in a 50% tuition surcharge, which occurs after the student has completed 140 s.h. For more information about this, please contact an academic advisor or the Office of the Registrar.

All guides are meant as an example of how a degree can be completed. However, individual plans will be developed for each student in consultation with the academic advisor. Course availability, prior credit, course prerequisites, major requirements, and student needs must be considered in developing the individual academic pathway.

¹Required prerequisite course for upper level ICTN courses.
