Minimum S.H. Required for Degree		126	

The BSAP is designed for students interested in employment in technical fields or in graduate study in engineering, business, public health, medicine, environmental science, and related technical fields depending on elective choices.

Students should take MATH 2173 (Calculus III) before entering their Junior Year. Students should also aim to complete the PHYS 2350 & 2360 sequence before Junior Year.

¹Only offered fall of odd years

²Only offered fall of even years

All guides are meant as an example of how a degree can be completed. However, individual plans will be developed for each student in consultation with the academic advisor. Course availability, prior credit, course prerequisites, major requirements, and student needs must be considered in developing the individual academic pathway.
