Systematic Issues (i.e. incorrect semester hours, course with min grade not met pulling into audit, incorrect course listed in audit, courses not sharing etc.) should not be submitted via the petition process. Please email DEGWRKS@ecu.edu to have programming corrected.

Curriculum changes are not petitions. These are updates to student records that occur in Banner and must be initiated by the school or college. Petitions should not be requested until changes to curriculum are processed.

Course Re-Evaluations are not petitions. To have a course re-evaluated please use the Request for Reevaluation of Transfer Credit form located on the Office of the Registrar's website.

If a petition has been applied and you would like to amend it, please submit a new petition and clearly explain how the petition should be processed.

To delete or correct a petition (that have not been processed), please email DEGWRKS@ecu.edu and ask to remove/correct the petition. Include the student Banner ID.

You will only receive 1 email stating whether the petition has been approved or rejected. Please view details of rejected petition on the petitions tab of the student's audit.
