This catalog is effective with the beginning of the academic year. All provisions, regulations, degree programs, course listings, courses designated as writing-intensive, and time of offering, etc., in effect when this catalog went to press are subject to revision by the appropriate governing bodies of East Carolina University.

Course Pre and Corequisite Key: P if prerequisite; C if corequisite; P/C if prerequisite or corequisite. When P, C, or P/C is preceded by R, it is recommended but not required.

Distance Education: The **DE** and **DE-P** icons indicate programs that are offered (entirely or partially) through distance education.

Degree Requirements: The courses listed as degree requirements in section 7 may have prerequisites or corequisites beyond those that are listed in section 7. See section 8 for complete course description, including prerequisites and corequisites.

General Education Course Credit Key: Some courses that carry general education credit are identified in the course listing in section 8, using the following notation; however, there may be other courses that also carry general education credit. Courses in a student's major prefix area may not count toward his or her general education requirements.

- | | |
|------------------------------------|------------------------|
| GE:EN = English | GE:HU = Humanities |
| GE:EX = Exercise and Sport Science | GE:MA = Mathematics |
| GE:FA = Fine Arts | GE:SC = Science |
| GE:HL = Health | GE:SO = Social Science |

Semester of Course Offering Key: The semester in which courses are anticipated to be offered is designated in sections 7 and 8 as follows: (F) fall, (S) spring, (SS) summer. If a year is specified, the course is not offered every year but will be offered in the semester and year indicated. OY indicates that the course is offered regularly during odd-numbered years; EY indicates that the course is offered regularly during even-numbered years.

Writing-intensive Course Key: Courses in sections 7 and 8 of this catalog are designated with (WI) if all sections of the course are writing intensive and (WI*) if only selected sections of the course are designated as writing intensive.

Mailing Lists: House Bill 13 of the General Assembly of North Carolina has made mandatory the following requirement concerning mailing lists: "The reviewed, updated, and corrected mailing lists shall be comprised only of those persons and organizations who, within the previous twelve months, have either requested that they be included in such a mailing list or have renewed a request that they be so included." Therefore, institutions, organizations, counselors, libraries, etc., desiring a copy of the catalog or bulletin must make a specific request each year. Address the request to the Office of Admissions, 106 Whichard, East Carolina University, Greenville, NC 27858-4353.

Welcome To **EAST CAROLINA UNIVERSITY**

On July 2, 1908, Former Governor Thomas Jordan Jarvis, considered to be the father of East Carolina University, made the following remark as he broke ground for a teachers training school where Jarvis Dorm now stands:

"We can never begin to calculate the value it will be to North Carolina."

The teachers college, chartered by the North Carolina General Assembly on March 8, 1907, as a two-year normal school, opened its first regular session on October 5, 1909, with 174 men and women students enrolled. The first graduating class received diplomas on June 6, 1911. The years that followed revealed the accuracy of Former Governor Jarvis' statement.

Since its inception in 1907, East Carolina has evolved from a teachers training school to a research-intensive, doctoral II university. The student population has grown from 147 to over 20,000. The campus now includes more than 161 buildings, including the 259,000-square-foot Science and Technology Building. The university currently consists of a College of Arts and Sciences, which comprises fifteen departments and various interdisciplinary programs, five professional colleges, and three professional schools, including the Brody School of Medicine at East Carolina University.

East Carolina University has become the institution that was envisioned by its early leaders, fulfilling its motto, "to serve." Today's leadership continues to build upon the foundation laid by Robert H. Wright, the first president of the university:

"We will give to the rising generation the purest inheritance of the nation and better preparation than has ever been given to a preceding generation. This school is an expression of that determination; it was built by the people, for the people, and may it ever remain with the people, as a servant of the people."

In North Carolina, all public educational institutions that grant baccalaureate degrees are part of The University of North Carolina. Of the sixteen constituent institutions of the multicampus state university, East Carolina University is the third largest. The University of North Carolina includes Appalachian State University, East Carolina University, Elizabeth City State University, Fayetteville State University, North Carolina Agricultural and Technical State University, North Carolina Central University, North Carolina School of the Arts, North Carolina State University, the University of North Carolina at Asheville, the University of North Carolina at Chapel Hill, the University of North Carolina at Charlotte, the University of North Carolina at Greensboro, the University of North Carolina at Pembroke, the University of North Carolina at Wilmington, Western Carolina University, and Winston-Salem State University. The North Carolina School of Science and Mathematics, a residential high school for gifted students, is an affiliated school of The University of North Carolina.

OUR MISSION

East Carolina University, a constituent institution of The University of North Carolina, is a public doctoral university committed to meeting the educational needs of North Carolina and the mid-Atlantic region. It offers baccalaureate, master's, specialist, and doctoral degrees in the liberal arts, sciences, and professional fields, including medicine. The university is dedicated to educational excellence, responsible stewardship of the public trust, and academic freedom. ECU values the contributions of a diverse community, supports shared governance, and guarantees equality of opportunity.

The university's motto is "serve," meaning "to serve." The university seeks to meet that obligation through the interrelated components of its mission: service through education, research and creative activity, and leadership and partnership.

The educational mission is to provide students with a rich, distinctive undergraduate and graduate educational experience. The university is committed to developing each learner's ability to discover, evaluate, and communicate knowledge; to make informed decisions; and to recognize a decision's ethical dimensions. The university also is committed to imparting a sense of citizenship and personal responsibility, fostering lifelong learning, and nurturing an understanding of the interdependencies of people and their environments.

ECU's research mission serves to advance knowledge, to encourage creative activity, to solve significant human problems, and to provide the foundation for professional practice through the support of basic and applied research. The university is committed to integrating research and creative activities in the educational experiences of students. It also is committed to enriching culture and being a leader in innovative research applications.

GENERAL INFORMATION

The service mission of East Carolina University, as an institution with a tradition of strong regional ties and public outreach, is to provide leadership and to engage in partnerships supporting public education, health care and human services, cultural activities, and regional development.

UNIVERSITY POLICIES

See appendix for information on East Carolina University's substance abuse and racial and ethnic harassment policies as well as information on affirmative action, EEO, nondiscrimination, and sexual harassment prevention policies.

DIVISION OF UNIVERSITY ADVANCEMENT

The Division of University Advancement, consisting of the Office of Alumni Relations, the Office for University Advancement, the ECU Foundation, Marketing, and News and Communication Services is responsible for advancing the mission of East Carolina through building positive relationships with external constituents to lead to philanthropic support. The vice chancellor for university advancement leads the division in activities that build the status and prestige of the university and create an environment for philanthropy.

OFFICE OF ALUMNI RELATIONS

The Alumni Association of East Carolina University was organized in June 1912 by the classes of 1911 and 1912, with its purpose "to develop a spirit of cooperation among its members, to increase a spirit of loyalty to its alma mater, and to promote the general welfare of the institution."

The many and varied activities of the Alumni Association include financial support of a variety of university programs, among them three annual faculty awards for excellence in teaching and a number of undergraduate scholarships. Annual alumni gift support also provides for the Alumni Scholars Program, scholarships to attract outstanding high school graduates to East Carolina University.

Alumni are informed of campus and alumni activities through East, The Magazine of East Carolina University.

Further information concerning specific programs and functions may be obtained from the Office of Alumni Relations, Taylor-Slaughter Alumni Center, East Carolina University, Greenville, NC 27858-4353.

OFFICE FOR UNIVERSITY ADVANCEMENT

The Office for University Advancement is managed by the associate vice chancellor for university advancement and is responsible for the organization and direction of programs and volunteers for the purpose of seeking private gift support for university academic programs except for those in the health sciences. The fund raising programs managed by the Office of University Advancement are major gifts, planned gifts, annual giving, and corporate and foundation relations. All fundraising programs are supported by the advancement services functions, including donor stewardship, gift records, database management, prospect research, and administrative support.

The Annual Fund generates gifts for university colleges and schools and the Thomas Harriot College of Arts and Sciences through the Telefund Office and direct mail. Annual gifts of \$1,000 or more are recognized through the Chancellor's Society. Directors of the Major Gifts/Campaigns solicit gifts for special campaigns or programs. Planned giving officers work with donors to maximize gift opportunities from estate and tax planning.

Directors of development work with schools throughout campus. In addition, division staff work with deans, directors, and chairs to support fundraising efforts.

OFFICE FOR UNIVERSITY MARKETING

The university marketing office is responsible for promotion and positioning of the university in a way that builds the public awareness of East Carolina and promotes the university's image.

OFFICE OF NEWS AND COMMUNICATIONS SERVICES

The ECU Office of News and Communications Services, also known as the News Bureau, tells the ECU story through the mass media and its own publications and broadcasts. The office, located in the historic Howard House on East Fifth Street, strives to increase the public's knowledge, understanding, appreciation, and support of the university and its work by providing reports on ECU events, activities, research, teaching, service, policies, and people—students, faculty, staff, and administrators.

In addition to assisting media representatives in the preparation of stories about ECU, the office publishes a semimonthly faculty-staff newsletter, *Pieces of Eight*, and produces an annual magazine that reports research and creative activity at the university. The office operates a hometown news service that reports students' achievements, including academic honors, recitals, internships, art shows, and graduations, to their hometown newspapers.

ECU FOUNDATION, INC.

The foundations receive and manage the private support for academic programs given to East Carolina by alumni, friends, corporations, and foundations. A volunteer board of directors provides guidance, expertise, and support to the president and staff of the foundations.

CAMPUS AND BUILDINGS

The main campus encompasses over 400 acres in an urban setting within the city of Greenville and is convenient to both the downtown area and shopping centers. The campus is a pleasing mixture of architectural styles. Most of the four million square feet of academic, research, and residence facilities have modern appointments and are well equipped. The health sciences campus, located on 70 acres, houses the Brody School of Medicine and is the hub of the university's health sciences program. The west research campus is the newest addition to the university with over 450 acres and is the home for several research and graduate programs.

Since 1993, the university has spent over \$350 million for capital expansion. Joyner Library houses over one million volumes; student services have been enhanced by the renovation of the Gallery in Jones Residence Hall and the addition of Todd Dining Facility and the Student Recreation Center; the health services complex has been expanded by the addition of the Warren Life Sciences Building; the athletic complex has grown with the expansion of Dowdy Ficklen Stadium to a capacity of 45,000 seats and the addition of a new strength and conditioning center, the Murphy Center. Major renovations have been completed on Jarvis Residence Hall, Jones Residence Hall, Student Health Services, the Wright Place, and the Blount Intramural Sports Complex. The university's information technology and computing services department has moved off-campus to a 32,000 square foot campus computing center. The university continues to focus resources on a comprehensive renovation program to incorporate new technology into classroom and lab facilities. In 2000, the university began a six-year capital expansion that will exceed \$200 million. In 2003, the university completed construction of the Science and Technology Building, which comprises 270,000 gross square feet of classrooms and labs to accommodate the College of Technology and Computer Science and the Department of Chemistry. Campus beautification continues to be a priority with the goal of preserving and enhancing the charming character of the campus.

A map of the university campuses with corresponding building key may be found inside the back cover of this publication. The building key for class schedules may be found following the index of this catalog.

CAMPUS LIBRARIES

J. Y. JOYNER LIBRARY

The main campus library at East Carolina University is Joyner Library, a facility containing 1.3 million bound volumes, more than two million pieces of microform, and 12,000 serial titles. The newspaper files on microform are extensive and serve as an important library resource. As a selective depository for United States Government publications, Joyner Library contains over one million international, federal, and state documents and 101,586 maps.

GENERAL INFORMATION

The East Carolina University Archives, a depository for the university's historical, administrative, and legal records, is located in Joyner Library.

The East Carolina Manuscript Collection is located within the special collections department of Joyner Library. This repository contains approximately 4,585 linear feet of records. Holdings of the collection include letters, diaries, speeches, scrapbooks, ledgers, legal and financial records, photographs, and related material dating from 1715 to the present. Active collection development occurs in four basic categories: North Carolina-related materials, military papers, missionary papers, and tobacco records.

Joyner Library's holdings in education, naval and maritime history, and law reference materials are particularly strong. Access to information resources is provided by print, CD-ROM, and on-line services located in the reference department.

The library's Teaching Resources Center houses a variety of curriculum resources for preschool through twelfth grade students.

The Music Library, a branch of Joyner, is located in the A.J. Fletcher Music Center. This library houses more than 65,000 items, including books, scores, video and sound recordings, and periodicals. The library provides reference services, computer searches, a reserve collection, and listening facilities. The Music Library is open seventy-eight hours each week.

All students registered at East Carolina University, regardless of location, have access to electronic library resources, including indexes, full-text databases, and journals through the library's web page at www.lib.ecu.edu. Student status is verified by ECU Exchange e-mail user name and password. Materials may also be obtained through the William E. Laupus Health Sciences Library and Interlibrary Loan Services. Kudzu, a special interlibrary loan service available to ECU students, is a joint system of linked on-line catalogs that allows students, faculty, and staff access to more than 23 million volumes. In addition, several departments at Joyner Library have created a number of value-added services for distance education students; a web page specifically for distance education students linked from the library home page; guides to electronic resources (Ask a Reference Librarian), web-based tutorials, e-mail reference services, and a subject guide database (Pirate Source), the E-Journal Locator, the Virtual Reference Desk, and the North Carolina Periodicals Index.

Joyner Library is open 116 hours each week. Hours are posted on the main entrance of the building. Special hours are posted for holidays and semester breaks. The library maintains a recording of current operating hours that may be obtained by telephoning 252-328-4285.

WILLIAM E. LAUPUS HEALTH SCIENCES LIBRARY

The William E. Laupus Health Sciences Library, located in the Brody Medical Sciences Complex, serves as the primary information resource facility for the university's health science programs. The Health Sciences Library contains approximately 145,814 bound or hard copy volumes, the equivalent of an additional 177,015 volumes in microformat, and receives 1,545 periodical and serial subscriptions.

The library is equipped with more than 100 computers available for public use and supports a growing program of electronic information and services. Reference services, bibliographic instruction, class reserves, historical collections, and a state of the art computer lab are also available. Additional information about library programs, services, and hours may be found by visiting our web site at www.hsl.ecu.edu.

Both Joyner Library and the Laupus Health Sciences Library resources are available through the VirtualLibrary@ECU.

INFORMATION TECHNOLOGY AND COMPUTING SERVICES

Information Technology and Computing Services (ITCS) provides computing, network, and outreach support for academic education, research, and administrative programs on campus. East Carolina University is one of five universities holding membership in Internet2 in North Carolina and is recognized throughout the region as a leader in incorporating technological advances in all phases of operation. ITCS partners with campus departments, other universities, and industry to make strategic investments in the information technology infrastructure.

The core server facility provides a platform for faculty to develop on-line and Internet-enhanced course material so that the content is available to students anywhere in the world. The facility houses Windows Media Server, Digital Resources Collection, and personal web space for faculty instructional material. Blackboard is housed on remote corporate servers, enhancing course management system technical support. Students should be aware that ITCS services provided for distance

education may be impacted by the quality of service rendered by the individual's Internet provider. Students must have a reliable e-mail account and a compatible browser must be used.

More than sixty student computer laboratories that support both discipline-specific applications as well as general computing are located throughout campus. These computer laboratories are all networked and both the Apple and PC platforms are supported throughout the university. Internet access is provided in a Cyber Cafe and through wireless connectivity on campus.

ITCS supports an immersive visualization facility for teaching and learning; a SGI Origin 2000 parallel processing computer for ECU faculty, staff, and graduate students pursuing research objectives; an IP/TV video streaming system that enables the ECU-networked community to access instructive and professional development opportunities, as well as real-time cable broadcasts and satellite programs over the Internet; an advanced videoconferencing Access Grid system that facilitates large-scale distributed meetings, collaborative work sessions, seminars, lectures, tutorials, and training; and a high-speed connection to the Internet. ECU's web portal (OneStop) enables students to access grades, register for classes, and transact many everyday administrative functions on-line.

Information technology assistance is provided through the university-wide Help Desk and computer training courses are offered on a regular basis. Additional information about ITCS and the information technology environment on campus may be obtained by writing the Chief Information Officer, East Carolina University, 209 Cotanche Street, Greenville, NC 27858-4353 or calling 252-328-9000. Students who have technical problems accessing the ECU web page should telephone the ITCS Help Desk at 252-328-6866 or the Student Help Desk at 252-328-4968.

SPONSORED JOURNALS AND PUBLICATIONS

The *Children's Folklore Review*, sponsored by the East Carolina University Department of English, is the official publication of the Children's Folklore Section (CFS) of the American Folklore Society. *The Review*, published twice a year for CFS members throughout the United States and in over a dozen foreign countries, contains information and articles of interest to scholars working with children and their lore.

The *North Carolina Geographer* is published twice yearly and provides high quality articles on the social and physical geography of North Carolina since its inception in 1941. The Geographer provides not only a forum for those interested in such research but also a highly visible testament to the quality research undertaken within the state.

The *North Carolina Literary Review* is published annually by the Department of English and the North Carolina Literary and Historical Association. NCLR publishes poetry, fiction, and nonfiction prose by and interviews with North Carolina writers and articles and essays about North Carolina literature, history, and culture.

Tar River Poetry, an international journal of poetry and reviews, is published twice a year (fall and spring) under the auspices of the Department of English.

OAK RIDGE ASSOCIATED UNIVERSITIES

Since 1992, students and faculty of East Carolina University have benefited from its membership in Oak Ridge Associated Universities (ORAU). ORAU is a consortium of eighty-eight colleges and universities and a contractor for the US Department of Energy (DOE) located in Oak Ridge, Tennessee. ORAU works with its member institutions to help their students and faculty gain access to federal research facilities throughout the country; to keep its members informed about opportunities for fellowship, scholarship, and research appointments, and to organize research alliances among its members.

Through the Oak Ridge Institute for Science and Education (ORISE), the DOE facility that ORAU operates, undergraduates, graduates, postgraduates, as well as faculty enjoy access to a multitude of opportunities for study and research. Students can participate in programs covering a wide variety of disciplines, including business, earth sciences, epidemiology, engineering, physics, geological sciences, pharmacology, ocean sciences, biomedical sciences, nuclear chemistry, and mathematics. Appointment and program length range from one month to four years. Many of these programs are especially designed to increase the numbers of underrepresented minority students pursuing degrees in science- and engineering-related disciplines. A comprehensive listing of these programs and other opportunities, their disciplines, and details on locations and benefits can be found in the ORISE Catalog of Education and Training Programs, which is available at <http://www.orau.gov/orise/educ.htm> or by calling either of the contacts below.

GENERAL INFORMATION

ORAU's Office of Partnership Development seeks opportunities for partnerships and alliances among ORAU's members, private industry, and major federal facilities. Activities include faculty development programs such as the Ralph E. Powe Junior Faculty Enhancement Awards, the Visiting Industrial Scholars Program, consortium research funding initiatives, faculty research, and support programs as well as services to chief research officers.

COMMUNITY OUTREACH SERVICES

CHILD DEVELOPMENT LABORATORY

The Child Development Laboratory (CDL), located in the Department of Child Development and Family Relations in the Rivers Building, serves as a model teacher training and research facility for students and faculty. Accredited by the National Association for the Education of Young Children and licensed by the State of North Carolina as a five-star child care center, the CDL maintains high standards in developmentally appropriate programming for preschool children. The CDL provides high-quality educational services (mornings only) to infants, toddlers, and young children and their families while serving as a training site for students in birth through kindergarten teacher education. Equipped with observation rooms and audio-visual recording equipment, the CDL also functions as a site for student and faculty research. Requests for information should be made to the director, ECU Child Development Laboratory, Department of Child Development and Family Relations, College of Human Ecology, East Carolina University, Greenville, NC 27858-4353; telephone 252-328-6926.

DEVELOPMENTAL EVALUATION CLINIC

The Developmental Evaluation Clinic, located in the Malene Irons Building, was established in 1964 to provide interdisciplinary evaluations of developmentally disabled children. Referral to the clinic may be made by any interested person. The evaluation includes thorough and complete information in the following areas: medical, psychological, social, educational, occupational therapy, physical therapy, speech, hearing, and other areas when deemed appropriate. It involves interpretation of the findings to the parents and assistance in finding and using resources that will be beneficial for the growth and development of the child. Speech therapy, physical therapy, occupational therapy, and nutrition treatment services.

The clinic is involved in training individuals in nursing, social work, psychology, child development, medicine, occupational therapy, physical therapy, and speech and language pathology. Emphasis is placed on service to preschool aged children. The program is funded by the North Carolina Department of Health and Human Services.

Requests for further information should be directed to the Developmental Evaluation Clinic, East Carolina University, Irons Building, Greenville, NC 27858-4353; telephone 252-328-4482.

FAMILY THERAPY CLINIC

The Family Therapy Clinic provides a full range of therapeutic services to individuals, couples, and families while serving as a training site for students in the master's degree program in marriage and family therapy. The Code of Ethics of the American Association for Marriage and Family Therapy regarding confidentiality and the professional practice of marriage and family therapy is rigorously adhered to by all clinic therapists.

Located at 612 East Tenth Street, adjacent to campus, the Family Therapy Clinic is equipped to facilitate observation and supervision and is open twelve months a year. Charges for services at the Family Therapy Clinic are adjusted according to family income. No family is denied services because of an inability to pay. Referrals and requests for information should be made to the director, Family Therapy Clinic, Department of Child Development and Family Relations, College of Human Ecology, East Carolina University, Greenville, NC 27858-4353; telephone 252-328-4236.

OFFICE OF MILITARY PROGRAMS

The East Carolina University Office of Military Programs provides outreach services to the military installations of North Carolina by delivering courses and degree programs to the Armed Forces community. Memoranda of agreement with the

various bases outline the topics, course offerings, and delivery methods of campus-wide programs to the military family.

The Office of Military Programs comprises the Department of Aerospace Studies (US Air Force ROTC) and the Department of Military Sciences (US Army ROTC). Aerospace studies offers a cognate minor for professional officer course for the United States Air Force, and military science offers the professional military education (PME) requirements for the United States Army.

REGIONAL DEVELOPMENT INSTITUTE

The Regional Development Institute is a research and public service agency of the university through which services are delivered to the citizens of eastern North Carolina. Services and research projects designed to foster economic and community development are conducted by a full-time staff, students, and university faculty. Requests for additional information should be directed to the East Carolina University Regional Development Institute, Willis Building, First and Reade Streets, Greenville, NC 27858-4353; telephone 252-328-6650.

REVOLVING EDUCATION AROUND PARTNERSHIPS (REAP)

REAP is a training component of the special education area, College of Education. The program currently serves Pitt County children aged three and four. REAP, established in 1969, provides field placement and internship services for various disciplines on the university campus and community colleges in the area. REAP is located in the Malene Irons Building on the south campus. All referrals and information inquiries should be made to the director, REAP, Malene Irons Building, East Carolina University, Greenville, NC 27858-4353; telephone 252-328-6186.

SPEECH-LANGUAGE AND HEARING CLINIC

The purpose of the East Carolina University Speech-Language and Hearing Clinic is twofold. First, it is a clinical training facility for graduate students who are preparing to become speech-language pathologists or audiologists. To accomplish this, graduate students participate in outpatient diagnostic, treatment, and consultative services throughout the academic school year and during the summer session. During these activities, students are under the direct supervision of fully licensed and certified faculty in the Department of Communication Sciences and Disorders. Second, the clinic is a service facility for the university students and the surrounding communities in eastern North Carolina. Outpatient diagnostic, treatment, and consultant services are offered for all types of speech, language, and hearing disorders, including dialect and foreign accent reduction services. Speech, language, and hearing screening is also provided to all teacher education students prior to their matriculation to the upper-division level of study.

In addition to the above, the Scottish Rite Childhood Language Disorders Program is also a part of the ECU Speech-Language and Hearing Clinic. This program is funded by the NC Scottish Rite Foundation. Services provided include complete diagnostic services for children with language disorders, language learning disabilities, and reading disorders.

The East Carolina University Speech-Language and Hearing Clinic maintains a close liaison with the university's Disability Support Services, providing in-depth diagnostic services for university students in the areas of language proficiency, ability to learn a foreign language, language learning disability, reading/writing learning disabilities, memory deficiency, and other learning deficiencies. The clinic is located in the Belk Building Annex (School of Allied Health Sciences) on Charles Boulevard. Appointments can be made by calling the clinic at 252-328-4405.

TREATMENT AND EDUCATION OF AUTISTIC AND RELATED COMMUNICATION HANDICAPPED CHILDREN (TEACCH)

TEACCH was established by the 1972 General Assembly as a statewide program within the Department of Psychiatry at the University of North Carolina-Chapel Hill Medical School. The Greenville TEACCH Center is in close proximity to the East Carolina University campus. The program works closely with the Developmental Evaluation Clinic and other allied departments at East Carolina University. The center provides a specialized service in the diagnosis and treatment of autism spectrum disorders. The program also provides consultation and training throughout a twenty-seven-county area of northeastern North Carolina. One of the program's goals is for parents to work closely with educators, therapists, and other professionals to improve the autistic person's skills and behavior so that the individual may live at home with the family, attend school, and use services in the local community. The program serves children, adolescents, adults, and their families.

Students in medicine, psychology, special education, child development and family relations, social work, occupational therapy, and similar departments regularly participate in observation and training. Faculty and staff from the center provide lectures,

GENERAL INFORMATION

internships, and practicum experiences as well as volunteer possibilities for students. In collaboration with the Department of Special Education, TEACCH provides joint training for the recipient of the Scott Denton Fellowship. Inquiries should be sent to John M. Dougherty, Director; Greenville TEACCH Center; South Hall Professional Center; 108-D West Firetower Road, Winterville, NC 28590; telephone 252-830-3300; FAX 252-830-3322.

ACADEMIC INTEGRITY POLICY

Academic integrity is expected of every East Carolina University student. Academically violating the Honor Code consists of the following: cheating, the giving or receiving of any unauthorized aid or assistance or the giving or receiving of unfair advantage on any form of academic work; plagiarism, copying the language, structure, ideas, and/or thoughts of another and adopting those as one's original work; falsification, statement of untruth, either verbal or written, regarding any circumstances relating to academic work; and attempting any act which if completed would constitute an academic integrity violation as defined above. Procedures governing academic integrity violations are described in the *East Carolina University Student Handbook* and in the *Faculty Manual*.

No student may drop the involved course or withdraw from school prior to resolving an academic integrity charge.

OFFICE OF INSTITUTIONAL EQUITY

The Office of Institutional Equity administers the Equal Employment Opportunity, Discrimination, Sexual Harrassment, and Affirmative Action policies. Advertising for employee vacancies and search processes are conducted through this office to ensure compliance with EPA and SPA policies and procedures. Other personnel actions are monitored by the office to prevent issues of inequity. Diversity training is available.

Taffye Benson Clayton is the Assistant to the Chancellor EEO/ADA Compliance Officer:

The Office of Intercultural Student Affairs and the Ledonia Wright Cultural Center are under the purvue of the Office of Institutional Equity. More information is available in section 4.

Comprehensive student programs and services promote intellectual, social, and cultural growth in ECU's community of learning. Students are encouraged to participate in a broad range of support services, activities, and programs that accommodate the diverse needs of all students; meet housing, nutrition, and physical and mental health needs; provide the setting for active participation and leadership in one's own learning; assist in developing logical thought processes and sound decision-making skills; and cultivate an appreciation of the arts. Moreover, the university seeks to contribute to the development of the whole individual by fostering in each student a deeper appreciation for lifelong learning, individual responsibility, and human diversity.

Students enrolled in East Carolina University are expected to uphold at all times standards of academic integrity and personal behavior that will reflect credit upon themselves, their families, and East Carolina University. Students are also expected to behave with propriety and to respect the rights and privileges of others. They are expected to abide by the laws of the city, state, and nation and by all rules and regulations of East Carolina University. Failure to do so may result in their being sanctioned by or separated from the university.

Registration at the university implies the student's acceptance of the published academic regulations and all other rules found in any official publication or announcements. University rules and regulations apply to all students. Conduct regulations, including the academic integrity policy, are described in the East Carolina University Student Handbook.

STUDENT HANDBOOK

The East Carolina University Student Handbook, is available on-line at www.ecu.edu/studentlife/cluebook. This publication contains sections entitled Where to Go for Solutions, Academic Calendars, Exam Schedules, University Policies and Regulations, Student Government Association, Judicial System, Residence Hall Policies and Guidelines, Use of University Facilities Policy, Solicitation and Posting Policy, Racial and Ethnic Harassment Policy, Sexual Harassment Policy, and Safety and You.

A printed version may be obtained from the Office of Student Conflict Resolution, Mendenhall Student Center Information Desk, Office of University Housing Services, Neighbor Offices, and the Office of the Associate Provost and Vice Chancellor for Student Life.

CAMPUS SAFETY

Information about criminal activity on the ECU campus, streets and sidewalks adjacent to campus, and in noncampus properties controlled by recognized student organizations is available at www.ecu.edu/studentlife/studentsuccess. This web publication provides information about the security of campus facilities, including residence halls; crime prevention information; information about services and counseling for victims of violence, including sexual assault and domestic violence; and the substance abuse policy.

STUDENT LEADERSHIP DEVELOPMENT PROGRAMS

SLDP provides a variety of leadership training programs for students and student organizations. By taking part, a student will learn to solve problems and make decisions, learn how to work in groups, manage time, and to organize thoughts and ideas to communicate them effectively. These are skills needed on campus and throughout the professional career. Such programs include the Emerging Leaders Program for freshmen, the Advanced Leadership Program for sophomores and seniors, and Seniors ELITE designed to assist senior-level students with the transition from college to life after graduation. SLDP has many more opportunities for students to get involved outside of the classroom. Over 264 student organizations are also registered through the SLDP Office. For more information on the programs and services, or to join a student organization or group, visit SLDP in 109 Mendenhall Student Center or find out more about us at www.clubhouse.ecu.edu.

STUDENT SERVICES

Student services and programs include Adult and Commuter Student Services; Counseling and Student Development; Dining Services; the Office of Institutional Equity; Intercultural Student Affairs; Orientation and the First-Year Experience; Recreational Services; Research, Assessment, and Testing; Ombudsman; Student Health Services; Student Life Advancement; Campus Living; University Unions; and other areas such as judicial affairs, student organizations, student leadership development, fraternities, and sororities.

SECTION 1: STUDENT LIFE

ADULT AND COMMUTER SERVICES

The Office of Adult and Commuter Student Services (ACSS) provides support services and programs which foster successful college experiences for commuters and students over twenty-four years of age. The office provides a resource booklet for new adult, commuter, and graduate students; newsletters and information on day care; transportation; and other community resources. The Pinnacle Nontraditional Student Honorary, an adult student list serve, a peer-helper program, and family activities are also sponsored by ACSS. Office staff serve as advocates for adults and commuters with the ECU community and strive to find effective avenues of communication with this diverse group of students. For more information, visit the office in the lower level of Mendenhall Student Center or call 252-328-6881. Information is also available at www.ecu.edu/studentlife/acss.

CAMPUS LIVING

Campus Living is committed to offering personal and affordable services, supporting the academic mission of the university, and providing opportunities for individual growth within a comfortable environment and caring community. The ECU campus provides a supportive atmosphere in which a student can explore new academic ideas and social experiences. Campus living means meeting new people, some of whom will become good friends for life; living in an environment conducive to studying, where academic assistance is readily available; and taking advantage of numerous benefits, such as convenience, tolasses and campus activities, neighborhood, and lifestyle options that suit one's personality.

A variety of living and dining options are available. Residence halls are located in three neighborhoods on the campus. College Hill, central, and west neighborhoods offer the convenience of living near classrooms, the library, recreational facilities, campus activities, and campus restaurants. The university maintains fifteen residence halls that 5,300 students call home.

Information regarding university housing is available at Campus Living, office suite 100, Jones Residence Hall. Detailed information is available through Campus Living; 252-ECU-HOME (328-4663) or the ECU home page at www.ecu.edu/campusliving. The office also maintains an off-campus apartment listing service.

COUNELING AND STUDENT DEVELOPMENT

The purpose of the Center for Counseling and Student Development is to assist students to make the most of their opportunities for academic and personal development while enrolled in the university. The center offers students counseling in the following areas: personal, academic, career, and alcohol and other drug abuse. In addition to individual counseling, group sessions are conducted for those students who wish to focus on various problems or personal concerns that arise from the stress of university life and interpersonal relations. The center's staff provides both classroom and individual programs for students who wish to improve their study skills. When necessary, tests, and inventories are used to help students ascertain their areas of interest and/or to gain insight into their personal adjustment. Campus and distance education students are entitled to the services provided by the center without charge.

The Center for Counseling and Student Development is open Monday, Wednesday, Thursday, and Friday from 8:00 a.m. to 5:00 p.m. and Tuesday from 8:00 a.m. to 8:00 p.m. Students are encouraged to visit the center, which is located in 316 Wright, telephone 252-328-6661, or access the web page at www.ecu.edu/counseling.

DINING

Campus Dining Services recognizes the importance of variety, value, and convenience, and offers well-balanced, nutritious meals throughout the day at each of its seven locations. Two all-you-care-to-eat dining halls are located near the residential areas of campus. These restaurants serve breakfast, lunch, and dinner Monday through Friday, and brunch and dinner on weekends. Beverage bars and campus cafes offer food on an a la carte basis and are located throughout campus near academic buildings and residence halls. Each has its own distinct menu, atmosphere, and hours of operation. All Foods Fit, a menu of foods lower in fat that meet the American Heart Association's nutritional guidelines, is available at every campus dining location. A staff nutritionist monitors the All Foods Fit menu and assists students with dietary needs.

Campus Dining Services offers several convenient and economical meal plans that can be used in any of ECU's campus restaurants. Each offers a set number of meals each week throughout the semester and Pirate Bucks, a declining balance account. Freshmen living on campus are required to participate in a meal plan program.

In addition to great food, dining services hosts an array of special events, theme meals, ethnic parties, holiday celebrations, and more throughout the year, allowing students from across campus to get together and enjoy good times and great food.

More information about campus dining is available at the ECU Dining Services offices, Todd Dining Hall; telephone 252-ECU-FOOD (328-3663) or visit our web site at www.ecu.edu/dining.

DISABILITY SUPPORT SERVICES

The Department for Disability Support Services works in collaboration with faculty, staff, and departments throughout the university to fulfill the institution's commitment to accessibility. Services and accommodations are designed to meet the individual needs of all students and encompass all aspects of university life. The staff assists students with freshman and transfer transition issues, academic accommodations, academic counseling, and referrals for attendant care and mobility training. Additional program information is available in A-117 Brewster; by telephone at 252-328-6799, and on-line at <http://ecu.edu/studentlife/dss/>.

OFFICE OF INTERCULTURAL STUDENT AFFAIRS

The mission of the Office of Intercultural Student Affairs is to assist in creating an environment that is supportive and conducive to meeting the educational, intellectual, and social needs of multiethnic students on the East Carolina University campus. This is achieved through creative programming efforts such as freshman roundtable, social justice institutes, leadership development opportunities for student organizations, and providing administrative assistance to student organizations. Additionally the director is involved in campus retention and community recruitment initiatives as well as research to enhance those areas.

LEDONIA WRIGHT CULTURAL CENTER

The Ledonia Wright Cultural Center will be intentional in our efforts to parallel the University's mission to increase awareness and promote cultural understanding.

The staff of the Center will work in conjunction with university departments and colleges to produce academic support programs and assist with recruitment, orientation, retention and graduation activities. We also help promote the principles of cultural competence among all at the University.

The cultural center is the heartbeat of East Carolina University's multicultural activity. Educational resources include a reading room/library computer workstations, tutorial services, health and career information booths, genealogy research tools, space for meetings, tours and art exhibitions.

The multicultural programming sponsored by the cultural center includes several ongoing programs and observances such as Dialogue on Diversity, Hispanic Heritage Month, Native American Heritage Month, Deaf Heritage Week, Multicultural Holiday Open House, Martin Luther King, Jr. Celebration, Black History Month, Women's History Month, Asian-Pacific Heritage Month and other special recognitions.

The cultural center hosts receptions and provides meeting facilities for students, staff, and faculty. A kitchen and other space are available for student to relax between classes. For further information, please contact Ledonia Wright Cultural Center at 328-1680 or visit our web site www.ecu.edu/lwcc.

STUDENT HEALTH SERVICE

The Student Health Service (SHS) provides individualized and quality health care and health education for currently enrolled, fee-paying, ECU students. The outpatient clinic provides health care through appointments for the students' convenience and through an urgent care clinic during operating hours. Services include, but are not limited to, routine health care (illness, accidents, physicals, wellness, etc.), mental health, physical therapy, sports medicine, health and wellness education, pharmacy, laboratory, x-ray, allergy vaccine clinic, self-care medication clinic, health insurance, and more.

The Wellness Education section at SHS assists students in examining their current lifestyle behaviors and making informed decisions regarding well being. The office offers information related to alcohol and other drugs, sexuality, nutrition, and men's and women's health issues as well as general health and safety issues. Brochures, pamphlets, books, videos, and CD-ROM resources are available.

The telephone numbers for Student Health Services are as follows: main switchboard 252-328-6841; wellness education 252-328-6794; pharmacy 252-328-6841, ext. 608.

TRANSPORTATION

UNIVERSITY TRANSIT SERVICES

Student Transit, the only student-owned and operated transit system in North Carolina, is funded by student activity fees and provides service to students, staff and faculty at no charge with a valid ECU ID. Extensive bus routes provide timely service to, from and around the campus community including parking lots, off-campus housing and several shopping/service areas each day during the academic sessions. Bus routes and schedules are available on line at www.transit.edu.edu, or at Mendenhall Student Center, Joyner Library and Parking and Traffic Services. For information, please contact ECU Transit at 252-328-4724.

DEPARTMENT OF PARKING AND TRANSPORTATION SERVICES

Regulations governing traffic, parking, registration of motor vehicles, and enforcement are set forth in the *East Carolina University Traffic Ordinance*, which is available at the Department of Parking and Transportation Services, 305 East Tenth Street. All students desiring to utilize campus parking facilities must register their vehicles with Parking and Transportation Services and purchase a parking permit decal. A student desiring to register a motor vehicle not owned by him or herself, a spouse, a parent, or a guardian must obtain special permission from Parking and Transportation Services.

Parking permits allow parking in specific areas. Signs in each lot indicate the permit type authorized for the parking spaces in the lot. Freshmen vehicles are not to be parked on the main campus during the week. On Friday afternoon at 4:00 p.m., registered freshmen vehicles may park only in areas designated by the director of Parking and Transportation Services. Freshmen vehicles must relocate to the freshman parking areas by 12:00 midnight Sunday evening. There are thirty-minute metered loading zones located at the residence halls in which freshmen vehicles are permitted as long as the meter is activated.

The university's towing policy is strictly enforced. Parking on campus is by permit only and the permit must be properly displayed. Unregistered vehicles parking on campus may be towed; vehicles with three or more uncleared parking tickets may be towed; and any vehicle illegally parked in a towing enforced zone may be towed.

There is no overnight visitor parking in the university residence hall areas between Sunday midnight and 4:00 p.m. Friday. Visitors to campus must obtain a visitor's parking permit from Parking and Transportation Services, which operates from 7:30 a.m. to 5:00 p.m., Monday through Friday. After business hours, visitor permits may be obtained from the University Police Department, which operates twenty-four hours a day, seven days a week. Visitors should clear any citations with Parking and Transportation Services before leaving campus. Students are held responsible for uncleared traffic citations traced to their family members. For more information, access www.ecu.edu/parking or telephone 252-328-6294.

BANKING SERVICES

Twenty-four hour automated banking machines are available at Mendenhall Student Center and adjacent to the Rawl Building on the Student Plaza.

STUDENT STORES

Dowdy Student Stores, owned and operated by East Carolina University, is an auxiliary enterprise for the convenience of the university community. The Student Stores stocks books, school supplies, computers, and other tools of the educational process for the students on campus as well as those taking distance education classes. The Student Stores also carries an extensive line of imprinted ECU merchandise featuring apparel, gifts, jewelry, and various accessories. Dowdy Student Stores contributes profits to scholarship programs and is among the top donors to the General Scholarship Fund. Textbooks and other information are available through the Student Stores web site at www.studentstores.ecu.edu or phone 252-328-6731 (toll free: 1-877-499-TEXT).

STUDENT ORGANIZATIONS AND ACTIVITIES

All students, including distance education students, who meet membership criteria are eligible to participate in student organizations and activities. A list of student organizations can be accessed at www.clubhouse.ecu.edu.

STUDENT GOVERNMENT ASSOCIATION

All East Carolina University students are members of the SGA which is the official representative governing body. The

purposes of the SGA are to; provide a means for responsible and effective student participation within the organization and control of student affairs; act in the best interest of the student body and university community; provide an official voice for expressing student opinion; provide a means whereby students can gain experience and training in responsible political participation; investigate student problems, and participate in those decisions affecting students; foster an awareness of the students positions within campus, local, state, national and international communities; provide operational funding to registered campus organizations. Located in 255 Mendenhall Student Center; the Student Government is represented by currently enrolled students in good academic standing that serve on all three branches: Executive, Judicial, and Legislative. SGA highly encourages each student to join in order to allow your voice to be heard.

STUDENT MEDIA

The East Carolinian, the university paper; is published three times weekly by the students. It carries university and alumni news and is designed to furnish an outlet for student expression on all matters pertaining to student educational and social development. The paper is available on-line at <http://www.theeastcarolinian.com>.

Expressions, a periodic magazine, is published by the students. It includes campus news, much of which is of particular interest to minority students. Expressions may be accessed at <http://www.expressions.ecu.edu>.

The Rebel is the university literary magazine published by the students.

WZMB-FM is the student radio station offering news and a variety of musical programs of interest to all segments of the university community.

STUDENT UNION

The Student Union, located in 236 Mendenhall Student Center; serves as the principal student programming organization at East Carolina University. The Student Union is responsible for providing a balanced program of social, cultural, recreational, entertaining programs, and cultural events for the entire university family.

This organization, made up of student volunteers complements the academic arena with a wide variety of diverse events. Any student is eligible to help assist with the programs on the following committees: Films, Popular Entertainment, Spectrum, Visual Arts, Cultural, Marketing and Barefoot on the Mall. These hard working students make a difference at East Carolina University.

UNIVERSITY UNIONS

The Department of University Unions offers a wide variety of programs, services, and facilities dedicated to enhancing the quality of life for the campus community. The Department is housed, for the most part, in Mendenhall Student Center; a 120,000 foot student center offering the central ticket office, information desk, lounges, meeting rooms, study nooks, snack bar, 800-seat theater, bowling alley, billiards area, computer lab, student government offices, student organization offices, social areas, and more to students, staff, faculty, and guests of the university. Other offices in Mendenhall Student Center include Adult and Commuter Students, Inter-Fraternity Council, Pan-Hellenic Council, National Panhellenic Council, Intercultural Student Senate, and the Office of Conflict Resolution.

The Department of University Unions encompasses the Student Union, Student Media, Student Leadership, Wright Auditorium, Office of Cultural Outreach, Central Ticket Office, and Recreation. Through a broad range of co-curricular, cultural, educational, developmental, recreational, and social programs, the department complements the academic programs of the university by providing programs which enhance the educational and cultural experience of students, by providing facilities which serve as laboratories where theoretical and experiential experiences are integrated, and through guidance by a professional staff that assists students to further develop their intellectual capabilities, creative abilities, leadership potential, and citizenship skills. The Department of University Unions seems to serve all constituents of the university as a unifying force in the life of East Carolina University, cultivating enduring regard for and loyalty to the university.

RECREATION

Recreational Services

The Department of Recreational Services is located in the Student Recreation Center and provides a broad and diverse program of wellness-oriented activities to all students, faculty, and staff. Recreational Services strives to enhance positive

SECTION 1: STUDENT LIFE

recreation and wellness lifestyles of the university community and to foster a lifelong commitment to learning skills associated with physical, social, emotional, and mental well being. Recreational opportunities are available in the following program areas. To receive more information on these programs, telephone 252-328-6387.

Adventure: The adventure program offers both single day and multi-day trips every semester such as sea kayaking, rock climbing, backpacking, snow skiing, white water rafting, and surfing. The adventure program also provides workshops on a variety of outdoor skills such as outdoor cooking and trip preparation. Outdoor equipment can be rented at the Adventure Outfitters in the Student Recreation Center. In addition, the adventure program operates a team building and leadership development course through the Rope Team Challenge Course.

Aquatics: The aquatics program provides both group and private swimming lessons for adults and children as well as training and certification in community first aid and safety, CPR for the professional rescuer, and lifeguard training.

ARISE: An adapted recreation and intramural sport enrichment program provides opportunities in recreational activities for individuals with disabilities. ARISE offers adapted sea kayaking and water ski clinics, adapted rock climbing, swimming lessons, wheelchair basketball, WheelPower Dance Troupe, and handcycling.

Club Sports: The club sports program combines recreational opportunities with instruction and competition in a variety of sports related activities. Clubs are developed and organized by students with administrative and financial support provided by Recreational Services. Participants have the opportunity to develop leadership skills as they become involved in the day-to-day operation and management of their club. Active clubs include the following:

Adventure	Racquetball
Bowling	Roller Hockey
Cycling	Rugby (Men's & Women's)
Equestrian	Snowboarding/Skiing

Fitness: The fitness program of Recreational Services provides quality personal training, group fitness classes, seminars, workshops, and lifestyle enhancement classes designed to provide education about a variety of healthy lifestyle options. Personal trainers are nationally certified and can provide new exercise techniques and motivation. Group fitness classes are offered in a variety of class formats, including cycling, kickboxing, step, multi-impact, aqua, and muscle strengthening. Lifestyle enhancement classes include yoga, tai chi, racquetball, and self-defense.

Intramurals: Intramural sports offers a wide variety of competitive and recreational opportunities encompassing team, individual/dual, and special event activities for both men and women. Participation is open to all currently enrolled students and presently employed faculty and staff. Individuals or teams wishing to participate in an intramural sport need to attend the registration meeting for their selected sport. Registration meeting dates and times are published in the program guide each semester; available at the Student Recreation Center.

Student Recreation Center

The 150,000 square foot Student Recreation Center located next to Mendenhall Student Center houses six multi-sports courts, one squash and six racquetball courts, a twenty-eight foot climbing wall, one-seventh mile track, indoor/outdoor pool with lounging area, Center Court juice bar, three exercise studios, 10,000 square foot cardiovascular and weight training area, outdoor adventure center, locker rooms, and administrative offices. The Blount Recreational Sports Complex has eighteen acres of sport fields for flag football, soccer, and softball and is located off of Charles Boulevard behind the Belk Building. These fields are used for intramural and club sports and can be reserved for use by campus groups with advance notice. Currently enrolled students who have paid activity fees are automatically members of the Student Recreation Center

HONOR SOCIETIES, PROFESSIONAL AND SERVICE FRATERNITIES

and may use it by presenting a valid ECU One Card. Distance education students, faculty, staff, ECU alumni, spouses of ECU faculty, staff, and alumni, and student spouses are eligible to purchase memberships to the Student Recreation Center. Guest and dependent day passes are also available for purchase. Dependent children are admitted for free on Fridays and Saturdays when accompanied by a member. For additional information access the web site at www.recserv.ecu.edu.

Mendenhall Student Center Recreation

Bowling, billiards, table tennis, and other tournaments are conducted in Mendenhall Student Center. Additional recreational opportunities are available at the Student Recreation Center through the Department of Recreational Services.

RELIGIOUS ORGANIZATIONS

As a tax-supported institution, East Carolina University neither promotes nor recommends a specific religious faith. The university does, however, encourage the participation of students and faculty members in the activities of their faith.

The groups which carry on regular activities either on campus or in their own student centers off campus are the following:

Apostolic Campus Ministry
Baptist Student Union
Buddhist Meditation and Study Group
Campus Crusade for Christ
Campus Christian Fellowship
Episcopal Campus Ministries
Newman Catholic Student Center
Presbyterian Campus Ministry
Students for Christ
The Cross Culture
The Gift of Life

SPORTS AND ATHLETICS

East Carolina University is a Division I member of the National Collegiate Athletic Association (NCAA) and competes in Conference USA. The following intercollegiate sports are offered.

Men's

Fall-football, tennis, cross country, and soccer
Winter-basketball, diving and swimming, and indoor track
Spring-baseball, tennis, golf, and outdoor track

Women's

Fall-volleyball, tennis, cross country, and soccer
Winter-basketball, diving and swimming, and indoor track
Spring-softball, golf, tennis, and outdoor track

Various sports camps are sponsored for boys and girls. For availability of sport camps held from year to year, please contact the athletic business office.

Intramural and club sports opportunities as well as additional summer sports and adventure camps are available through the Department of Recreational Services.

CULTURAL OPPORTUNITIES

CENTRAL TICKET OFFICE

Located on the main floor of Mendenhall Student Center, the Central Ticket Office provides tickets to a variety of campus-wide programs and events including programs by the Student Union, Ledonia Wright Cultural Center, S. Rudolph Alexander Performing Arts Series, Travel-Adventure Film Series, Family Fare Series, Arts Smart Series, School of Music, Department of Theatre and Dance, Family Weekend, rentals for Wright Auditorium, Student Organization programs, and more. Tickets to home games for football and basketball are also distributed at the Central Ticket Office. Students are required to present an ECU one card to secure complimentary and discount tickets.

CULTURAL AWARENESS

Presenting programs that emphasize minority cultures and interests is the responsibility of the Student Union Cultural Awareness Committee. The committee annually sponsors minority films, a Jewish and International Festival, a Black Arts Festival, and handicapped awareness week programs.

THE ARTS

East Carolina University Poetry Forum

The East Carolina University Poetry Forum conducts an informal workshop in poetry that meets in the Mendenhall Student Center at 8:00 p.m. each first and third Thursday during the months of the academic year. The forum sponsors the visits of established poets: Robert Creely, Patricia Goedicke, William Stafford, James Dickey, Carolyn Kizer, Lucille Clifton, Fred Chappell, and Louis Simpson are among the poets who have read on the ECU campus.

S. Rudolph Alexander Performing Arts Series

Welcome to a world where *culture* isn't only about experiments in a Petri dish or a strand of pearls. Instead, *culture* is about having the opportunity to attend concerts by some of the greatest artists and performers the world can offer. The ECU S. Rudolph Alexander Performing Arts Series presents an annual season of nine of the world's best performers and performances of classical, opera, modern dance, ballet, Broadway, jazz, and more in Wright Auditorium at extremely modest prices. A component of the Department of University Unions, the series has served the university and regional community for more than forty years with cultural arts programming. The series also offers dynamic pre-show dinner/panel programs to help audiences learn more about the performances and the performers. For those who desire an extended opportunity to be involved, opportunities exist for graduate assistantships, marketing internships, and office assistants.

Family Fare Series/Arts Smart Series Cultural Outreach Office, Department of University Unions

Dedicated to providing culturally enriching programs for young audiences, the Family Fare Series offer wholesome, curriculum related plays and concerts for family audiences on Saturday afternoons at Wright Auditorium. Arts Smart, a companion program, offers these performances to school children K-6 from twenty-one eastern NC counties who are bused in on Friday mornings.

Visual Arts Committee

The Student Union Visual Arts Committee presents major touring exhibitions and works by area artists. The annual ILLUMINA Show, featuring works by student artists, is one of the committee's most noteworthy activities and is displayed in Mendenhall Student Center's gallery.

College of Fine Arts and Communication

Art Galleries and Exhibitions

The Leo W. Jenkins Fine Arts Center, which houses the Wellington B. Gray Art Gallery, is operated under the College of Fine Arts and Communication, School of Art and Design. The Gray Art Gallery installs temporary exhibitions of contemporary art, including national and international traveling shows and ECU faculty and student exhibitions.

There are weekly shows by School of Art and Design majors in the Mendenhall Student Center, Baptist Student Center, and Jenkins Fine Arts Center as well as several locations in the community.

Student organizations, such as Craftsmen East, Ceramics Guild, Printmakers Guild, Design Associates, Painting Guild, Visual Arts Forum, Student Chapter NAEA, and other student art groups, hold programs, sales, and exhibitions during the year.

Visiting artists and scholars in contemporary art fields present lectures, seminars, and workshops to supplement the curriculum.

East Carolina Playhouse

The East Carolina Playhouse is the producing arm of the College of Fine Arts and Communication, School of Theatre and Dance. The Fine Arts and Performing Groups Board contributes partial funding for the playhouse to produce a musical (often in conjunction with the School of Music), plays, and a dance concert. Although preference in casting is given to students, roles in the productions are open to faculty and staff members of the university and to citizens of Greenville and the surrounding area. Freshmen are eligible to audition for productions in their first semester. Students and others also take part in all areas of technical production.

School of Music Concerts

The College of Fine Arts and Communication, School of Music annually mounts a vigorous concert program providing musical enrichment for the cultural life of the university community. All events are open to the public and include a faculty recital series; student recitals; a series of concerts by School of Music performance organizations, both instrumental and choral; opera workshop productions; and a series of chamber music concerts. A diversified musical repertoire provides the listener with a wide variety of music. Premiere performances of compositions by student and faculty composers are a feature of many concerts. Visiting artists, composers, and lecturers of international stature conduct master classes for School of Music students and faculty. Frequently scheduled is the presentation of a major choral-orchestral work by the combined forces of the School of Music.

ENTERTAINMENT

Barefoot

A Student Union committee, Barefoot, develops plans and programs to be carried out for the annual, all-day celebration of spring.

Films

Throughout the year films are presented each week on campus. The Films Committee, which is part of the Student Union, selects popular films and presents them each Thursday, Friday, and Saturday night. The committee also selects foreign films and American classics and presents them on Wednesday evenings. Funds to provide the films are made available by the Student Union.

Popular Entertainment Committee

The Popular Entertainment Committee annually presents on campus artists from the world of jazz, folk, rhythm and blues, rock, and popular entertainment. Funds to provide the coffeehouse programs are supplied by the Student Union.

Spectrum

The Spectrum Committee presents programs that are of interest and high entertainment value. Lecturers, hypnotists, mimes, and comedians are but a few examples of this committee's programs.

TRAVEL

Travel-Adventure Film and Theme Dinner Series

Exotic destinations and intriguing sights await participants in ECU's long-lived Travel-Adventure Film Series, which presents narrated travelogues by some of the nation's most respected filmmakers. The annual roster of films take viewers to tucked-away towns and teeming metropolises from every corner of the planet, providing a first-hand look into the diverse cultures and lifestyles to be found the world over. Half the fun of travel is trying out the local cuisine and patrons can enjoy a post film reception featuring delicacies and treats from the featured destination. Films are screened in Hendrix Theatre in Mendenhall Student Center.

Annual New York Adventure

The Student Union hosts an annual trip to New York over Thanksgiving break. Busloads of ECU students, staff, and faculty take the yearly trek for a bite of the big apple at a student-friendly price.

GENERAL INFORMATION

East Carolina University is an equal educational opportunity institution; and, in keeping with this policy, the university makes no distinction in the admission of students, or in any other of its activities, on the basis of race, color, gender, sexual orientation, creed, disability, age, or national origin.

All students who are seeking college credit, whether or not they are working toward a degree, must gain admission to the university. Unless otherwise specified, undergraduate students are admitted to the university by the director of admissions, from whose office application forms may be secured. The completed forms with required evidence of eligibility should be submitted to the Office of Admissions as soon as possible. Applicants should contact the admissions office to determine deadline dates for each academic term.

- Admission to the university does not guarantee admission to individual programs. Individual program admission requirements are described in the specific academic sections.
- Post-baccalaureate students seeking a second undergraduate degree should apply to the Office of Admissions.
- Post-baccalaureate students seeking a graduate degree or nondegree credit only should apply to the Office of the Graduate School.

The university seeks to admit undergraduate students who show evidence of being able to succeed in and benefit from academic programs of the rigor offered. The admission decision is based on those criteria indicative of performance and potential as listed below. The chancellor or his designee may admit students whose special talents indicate success in programs requiring those talents. In addition to the above, the Board of Trustees has authorized the Admissions and Retention Policies Committee, at its discretion, to require a personal interview and/or any test deemed advisable.

Although a satisfactory health certificate is not required for university admission, it is required for on-campus enrollment.

Applicants who have registered in other colleges, universities, or technical institutes (whether or not they earned credit or wish to transfer credit) are required to submit official transcripts of all previous college attendance to the admissions office. All official records must be forwarded from the institution previously attended and must be on file in the admissions office before a student can be admitted. Falsification of the application or any academic records will result in dismissal from East Carolina University.

Transcripts will be evaluated on the basis of East Carolina University requirements, not those of any institutions previously attended. If a transfer student meets all admission requirements, full credit will be awarded for all transfer courses passed with a grade of C or better and for which East Carolina University has equivalent courses. To have a transcript evaluated, the student must have on file in the admissions office an application for admission, the \$50 application fee, and an official transcript from each school previously attended.

Any record submitted for evaluation may be totally or partially disallowed according to East Carolina University policies and regional accrediting association regulations. East Carolina University routinely accepts credit from institutions accredited by regional accrediting associations. Validating examinations may be required in any or all subjects and will be required for work done at institutions not accredited by regional associations if the student wishes to establish such credit. All transfer students must earn a minimum of one-half the hours of credit required for graduation through enrollment in a regionally accredited senior college; a minimum of 30 s.h. and one-half the hours in the major must be completed through enrollment in ECU.

In exceptional cases, students may secure the equivalent of transfer credit by passing previously arranged special examinations in subjects in which they have systematically acquired knowledge under conditions which did not permit their earning transferable credit. Freshmen whose high school records and/or pre-entrance tests show unusual achievement and promise in a subject may take special examinations to receive college credit. (See Advanced Placement and Credit, below.) Limits on the number of semester hours of credit earned by special examination may be imposed by schools or departments. Credit earned by examination may not be used to reduce minimum residence requirements.

Grades transferred from another institution are not considered in computing the GPA at East Carolina University, except in the case of seniors graduating with honors.

ADMISSION REQUIREMENTS

FRESHMEN

Admission requirements for freshmen are listed below:

1. Certificate of graduation (or its equivalent) from an accredited secondary school and a satisfactory scholastic record.
2. Twenty acceptable units of secondary school credit, including in English, four course units emphasizing grammar, composition, and literature; in mathematics, three course units including algebra I, algebra II, and either geometry or a higher-level mathematics course for which algebra II is a prerequisite; in science, three course units, including at least one unit in a life or biological science (for example, biology), at least one unit in a physical science (for example, physical science, chemistry, physics), and at least one laboratory course; and in social studies, two course units, including one unit in US history, but an applicant who does not have the unit in US history may be admitted on the condition that at least 3 s.h. in that subject will be passed by the end of the sophomore year. In addition, applicants graduating from high school after 2003 must have two units in foreign language.

East Carolina University recommends that prospective students complete at least one course unit in the arts. Admission to the university does not guarantee admission to individual programs; individual program admission requirements are described in the specific academic sections.

3. Satisfactory scores on the Scholastic Aptitude Test of the College Entrance Examination Board (P.O. Box 592, Princeton, New Jersey 08540, or P.O. Box 1025, Berkeley, California 94701) or American College Test Assessment (American College Testing Program, P.O. Box 168, Iowa City, Iowa 52240). Applications for either of these examinations should be available at the high school. Official scores should be sent to the Office of Admissions, East Carolina University.
4. A nondeductible, nonrefundable application fee of \$50.

ADDITIONAL ADMISSION REQUIREMENTS FOR STUDENTS ENTERING THE SUCCEED SOONER PROGRAMS

Beginning Summer 2003, East Carolina University initiated a suite of programs designed for outstanding students who wish to move quickly toward completion of their undergraduate education. These new programs provide specialized advising, priority registration, program enrollment, as well as opportunities to learn about post baccalaureate study. Succeed Sooner programs include the following: Degree in Three, MD/7, JD/6, and Integrated and Accelerated Bachelors to Masters. Students accepted into these programs generally meet the following minimum criteria and are, therefore, eligible for the Honors Program (see Section 6):

1. High School cumulative GPA of 3.5 (on 4.0 scale)
2. SAT total score of 1200
3. High school rank in the top 10 percent of the senior class.

Degree in Three and JD/6 will consider for admission students whose high school standing falls slightly below the criteria listed above but whose high school counselors have nominated them for acceptance into the programs. Letters of nomination should be sent to East Carolina University Degree in Three Program, 214 Whitchard Building, East Carolina University, Greenville, NC 27858-4353 or JD/6 Program, 118 Rawl Building, East Carolina University, Greenville, NC 27858-4353. Information about admission to the Integrated and Accelerated Bachelors to Masters programs is available on the web site, www.ecu.edu/succeedsooner; and in the graduate catalog.

TRANSFER STUDENTS General Transfer

General admission requirements for transfer students are listed below:

1. Official transcript(s) from each college, technical institute, or university previously attended showing the following:
 - a. A 2.0 grade point average (GPA) on all transferable hours attempted. (Some professional schools may require a GPA which is higher than that required by the university for admission to their programs.)

- b. Honorable dismissal and eligibility to return to the college or university at which last matriculated. (Attendance only at summer school or evening school does not apply.)

2. Nondeductible, nonrefundable application fee of \$50.

Admission to the university does not guarantee admission to individual programs. Individual program admission requirements are described in the specific academic sections.

It is the student's responsibility to request that all transcripts and other records be forwarded to the admissions office.

NOTE: Transfer students must meet the University of North Carolina subject matter admission requirements by completing high school courses as stated above or by completing 6 degree-creditable semester hours each in English, mathematics, science, and social studies at a regionally accredited institution other than East Carolina University. Those graduating from high school in 2004 must also have 6 hours of foreign language to satisfy the MCR requirements. (See Admission Requirements, Freshmen.) In addition, those who present fewer than 30 s.h. (45 q.h.) of transferable credits with a minimum GPA of 2.0 must have satisfactory high school grades and test scores to qualify as freshmen.

Transfer with Associate Degree

Admission of transfer students with an associate degree is based on the following criteria.

1. The applicant must have earned the associate of arts, associate of science, or associate of fine arts degree with a cumulative 2.0 GPA or higher.
2. The applicant must have earned the degree from a regionally accredited institution.
3. The applicant must have earned a minimum of 16 s.h. or 23 q.h. at the institution conferring the degree.

NONTRADITIONAL STUDENTS

Individuals who are at least twenty-four years of age (nontraditional students) or individuals whose high school class graduated three or more years prior to the expected date of entry and who meet UNC minimum admission requirements may be permitted to enroll in the university under a performance-based admission policy that specifies retention stipulations provided they meet one of the following conditions. (See General Transfer; Note, above.) The student must

1. have had no previous college experience or
2. have had previous college experience but have not been matriculated within the past one year and are eligible to return to the previous institution but do not meet all stated university admission requirements or
3. have had previous college experience, are not eligible to return to the previous institution, and have not been matriculated at the collegiate level for at least three years prior to the expected date of entry.

Individuals enrolled as degree-seeking students under the performance-based admission policy must achieve a minimum cumulative GPA of 2.2 and meet all retention stipulations by the end of the semester in which the twenty-eighth semester hour of degree creditable work is attempted. Failure either to meet the GPA requirement or to satisfy the retention stipulations will result in the student's being ineligible to continue enrollment at ECU. (See Section 5, Academic Regulations, Readmission.)

Students enrolling under this policy must comply with all university policies regarding the payment of tuition and fees and must comply with NC state law concerning health and immunization.

These students are assigned for advisement and registration to the Office of Undergraduate Advising and Academic Support.

An individual enrolled under the performance-based admission policy may not declare a major; compete in intercollegiate athletics, or participate in student exchange programs until all retention stipulations specified in his or her admission letter have been satisfied.

INTERNATIONAL STUDENTS

East Carolina University actively seeks to attract international students into its undergraduate and graduate programs. The presence of these students, with their varied geographic and educational backgrounds, helps promote international goodwill and understanding in North Carolina and provides an opportunity for other university students to further their knowledge and appreciation of the cultures of many lands.

SECTION 2: ADMISSION AND READMISSION

The Office of International Affairs serves as a clearinghouse for the admission of international students. Publications about the university, international student application forms, and other materials are distributed worldwide to prospective students. Academic assessments, financial evaluations, and immigration issues as well as admissions are handled through this office. Students interested in applying from abroad may do so through inquiries to the Office of International Affairs, International Admissions, East Carolina University, Greenville, NC 27858-4353. International admissions information is available on the web site, <http://www.ecu.edu/intlaffairs>.

International students who wish to apply for admission to the university must possess a good working knowledge of English and demonstrate satisfactory achievement on the Test of English as a Foreign Language (TOEFL) or an International English Language Testing System (IELTS). Special application forms are required and are available in the Office of International Affairs. East Carolina University is authorized under federal law to enroll nonimmigrant alien students.

The Office of International Affairs also assists ECU students from other countries with the many matters that are of particular concern to them during their stay in the United States. Inquiries may be directed to the Office of International Affairs, International Student Adviser, East Carolina University, Greenville, NC 27858-4353.

A student from a country other than the United States may apply to the chairperson of the Department of Foreign Languages and Literatures for a departmental certificate of American studies for foreign students. In order to qualify for this certificate, a student must pass a minimum of 14 s.h. of graduate or undergraduate course work with a minimum grade of C. A certificate with distinction shall be awarded to a student who completes a program of 20 s.h. of which at least 14 s.h. are passed with a minimum grade of B.

VETERANS AND CHILDREN OF DECEASED AND DISABLED VETERANS

Veterans and children of deceased and disabled veterans must meet regular admission requirements. They should make preliminary application for any educational benefits due them directly to East Carolina University or to the nearest regional Office of the Veterans Administration well in advance of the desired admission date so that the necessary details and documents may be obtained. (See Expenses and Financial Assistance section.)

POST-BACCALAUREATE STUDENTS SEEKING A SECOND BACCALAUREATE DEGREE OR NONDEGREE CREDIT

Students holding a baccalaureate degree and seeking only nondegree credit should apply to the Office of the Graduate School. Students holding a baccalaureate degree and applying for admission to pursue a second baccalaureate degree should apply to the Office of Admissions. (See freshman or transfer admission requirements, above or visit www.ecu.edu/admissions.)

NONDEGREE STUDENTS

Individuals may be allowed to enroll in the university on a space-available basis as nondegree, auditing, or visiting students if they qualify under one of the categories listed below. For advisement and registration purposes, nondegree and auditing students are assigned to the Office of Undergraduate Advising and Academic Support. Visitors will register with the registrar.

Nondegree

Many individuals desire to take courses for reasons such as certification, needs arising from the workplace, and self-satisfaction. Often such plans do not include working toward a baccalaureate degree. Individuals who have not earned a baccalaureate degree and who desire to participate in this program should contact the Office of Admissions for additional information. Individuals who have earned a baccalaureate degree who wish to enroll as nondegree students should contact the Graduate School for a nondegree graduate application and additional instructions.

Individuals enrolled as nondegree undergraduate students can apply no more than 28 s.h. earned in this status toward an undergraduate degree upon admission to East Carolina University. However, nondegree enrollees may not use those hours to satisfy UNC minimum admission requirements for admission to East Carolina University but may transfer them to another institution.

Auditors

Auditing a course consists of attendance at classes and listening but taking no part in the class. An auditor is not responsible for any assignments, nor is he or she allowed to take any tests or examinations. However, in order to have the audited

course recorded on the official transcript, a student must attend classes regularly. An auditor may not enroll in a participation course (art classes, laboratories, etc.). Under no circumstances will a grade be assigned, evaluations be made, or performance reports be issued on a student auditing a course. Auditing a course or part of a course is contingent upon the approval of the instructor and the appropriate departmental chairperson or school dean. Students may not register to audit a course until the last day of the drop/add period. Persons who wish to attend university classes without earning credit must be admitted to the university before seeking approval to audit any course. Individuals enrolled as nondegree undergraduate students will be assigned to the University College for assistance with registration. The applicants shall then complete the prescribed procedure for registering through the Office of the Registrar and pay the audit fee to the cashier's office before attendance in classes is permitted.

Students regularly enrolled in the university wishing to audit course(s) must initiate the approval process with their adviser. A student may audit no more than two courses in any semester.

Visitors

Students attending another accredited college or university may desire to attend East Carolina University for a limited period of time and then return to their original institutions. Such applicants must complete a visitor's application and have the dean or other appropriate official at the parent institution verify that the applicant is in good standing. This official should specify the courses to be taken at East Carolina University. The student should enroll in only specified courses and then only if the required prerequisite courses or their equivalents have been completed. Enrollment as a visitor will be limited to no more than 28 s.h. earned at East Carolina University. Credit earned as a visiting student cannot be used to establish eligibility for admission to East Carolina University, but up to 28 s.h. earned at East Carolina University may be applied after the student has been admitted.

Summer Session

The university offers two schedules of summer classes for both on-campus and distance education instruction: one eleven-week session, and two five-week terms. Please see the calendars in the preface of this catalog or individual program schedules for dates. (See nondegree, visitor enrollment, above.)

1. For those working toward a degree from East Carolina University, all of the admission requirements must be met. (See freshman or transfer admission requirements, above, or visit www.ecu.edu/admissions.)
2. For any visiting student, a statement must be presented from the dean or registrar of the college or university at which the student is enrolled, verifying good standing and recommending the courses to be taken. (See nondegree, visitors, above.)
3. Students holding a baccalaureate degree and seeking only nondegree credit should apply to the Graduate School.

THE GRADUATE SCHOOL

All questions concerning graduate work, including admission and transfer requirements, should be directed to the dean of the Graduate School. Also, see the graduate catalog.

DUAL UNDERGRADUATE AND GRADUATE ENROLLMENT

Senior undergraduate students may be admitted as nondegree graduate students and enroll for 9 s.h. of graduate credit. The student must have the approval of his or her undergraduate adviser and the graduate program offering the course. The Dual Undergraduate/Graduate Enrollment Form and eligibility criteria may be accessed at www.ecu.edu/gradschool/ecuhtm_files/facinfo.htm.

ADVANCED PLACEMENT

Applicants who present acceptable grades on advanced placement examinations of the College Entrance Examination Board will be given credit or advanced placement in the appropriate subject matter areas. Applicants who complete an international baccalaureate may receive some college credit. Additional information on acceptable examinations and required scores is available in the Office of Admissions.

Credit may also be given for acceptable performance in the appropriate subject matter areas on both the general examination and subject examinations of the College Level Examination Program and Defense Activity Nontraditional

SECTION 2: ADMISSION AND READMISSION

Education Support. Additional information concerning required scores and acceptable tests is available in the Office of Admissions.

Transfer students should submit an official copy of advanced placement and CLEP scores to the Office of Admissions with the application.

PLACEMENT TESTING

Placement tests are given in mathematics, foreign language, and chemistry. However, placement tests will not be administered, nor will placement credit be awarded, in any of the three academic areas in which the student has earned any college credit. Credit earned through placement testing is awarded without grade and without quality points, and no fee is exacted for such credit. (See below.) The student should strive for a high score on placement tests because the resulting reduction in the number of credits to be earned to satisfy minimum requirements for graduation and the time made available for elective courses justify the effort. Tests are scheduled during the summer orientation program and at certain other times as determined by the department concerned. Distance education students may be required to visit the campus to take placement tests. Information pertinent to each area is included in the sections immediately following.

English

Entering freshmen who present a grade of 3 on the College Entrance Examination Board (CEEB) Advanced Placement Examination (language and composition or literature and composition) receive 3 s.h. credit and enroll in ENGL 1200 to complete the composition requirement. Students with scores of 4 or 5 receive 6 s.h. credit and have completed the composition requirement. Honors students who do not take the CEEB Advanced Placement Examination or who present a grade below 3 may enroll in honors sections of ENGL 1100. Quality points will be granted only for those students who complete ENGL 1100 and/or 1200 through regular class attendance.

Foreign Language

To determine the university level of foreign language study at which students may most profitably continue the language(s) they took in high school, a placement test should be taken by all students who have only high school credit in foreign language(s) and wish to earn college level credit at ECU. (See Placement Testing, above.)

Students exercising the option to take the foreign language placement test may enroll in a course one level lower than the placement indication without departmental approval either during drop/add or by the fifth day of class. After successful completion of the course, students will, upon request, receive bypass credit for the course(s) sequentially preceding the one completed. This policy is to be applied to all students regardless of the date of their entry to the university.

Students who take the placement test may also receive bypass credit for language levels 1001 through 1004, but only upon satisfactory completion of validating procedures administered on this campus, as follows:

1. Upon completion of level 1002 with a passing grade, students will receive bypass credit for level 1001.
2. Upon completion of level 1003 with a passing grade, students will receive bypass credit for levels 1001 and 1002.
3. Upon completion of level 1004 with a passing grade, students will receive bypass credit for levels 1001, 1002, and 1003.
4. Upon completion of a course above level 1004 with a passing grade, students will receive credit for levels 1001, 1002, 1003, and 1004.

Entering students who plan to continue language study are strongly advised to do so as soon as possible after admission to the university. Any questions concerning placement and bypass credit should be directed to the chairperson of the Department of Foreign Languages and Literatures.

Students who do not wish to take the placement test in the language they choose to study must enroll in level 1001. Students with college bypass credit in a particular foreign language from another institution are not eligible to take the placement test in that language. Students who wish to study a different language from the one studied in high school may earn credit beginning with level 1001.

Foreign students are not eligible to take the placement test in their native language and receive bypass credit for basic elementary and intermediate level courses in that language. They are encouraged to take advanced courses in their native language; however, they should see the chairperson of the Department of Foreign Languages and Literatures before enrolling.

Mathematics

Students who earn a high score on the math placement test may enroll in one of the following: MATH 1067 or MATH 1065, 1066, 1067, 1083, 1085, or 2127, all of which count toward the general education mathematics requirement. MATH 1050, which also counts toward the general education mathematics requirement, does not require a placement exam score. Students who earn a high score on the math placement test are eligible to receive credit for MATH 1065 (College Algebra) and for MATH 2127 (Basic Concepts of Mathematics) by passing a bypass examination. These bypass examinations are administered either during summer orientation or on registration day of the fall semester. Students who are successful on the MATH 1065 bypass examination will receive 3 s.h. credit and may proceed to the next mathematics course of their choice for which MATH 1065 is a prerequisite. Students who are successful on the MATH 2127 bypass examination will receive 3 s.h. of credit and may proceed to the next mathematics course of his or her choice for which MATH 2127 is a prerequisite. Students contemplating transfer to East Carolina University may make arrangements to take the placement test during the summer program. For other mathematics courses, arrangements may be made for credit by examination by contacting the Department of Mathematics.

READMISSION

REGULAR READMISSION

Any student not enrolled for one or more semesters on the main campus of the university must apply for readmission. Applications for readmission and submission deadlines are available from the Office of Admissions. Readmission to the university does not guarantee readmission to individual academic programs.

TRANSFER READMISSION

Students who have been enrolled at another college or university since their last enrollment at East Carolina University must submit to the Office of Admissions official transcripts indicating that a minimum cumulative C average (2.0 on a 4.0 scale) has been earned on all transferable courses attempted. In order to ensure processing, applicants should submit readmission applications according to the deadline provided by the admissions office. Transfer credit will be evaluated in accordance with established university policy. (See Transfer Credit.)

NONTRADITIONAL STUDENT READMISSION

Nontraditional students admitted under the Performance-Based Admission Policy who fail either to meet the GPA requirement or to satisfy the retention stipulations may not continue enrollment at East Carolina University except under the following conditions:

1. Students may attend summer school at East Carolina University to satisfy retention stipulations.
2. Students may be readmitted under the provisions of the Special Readmission (Forgiveness) Policy to resume progress toward satisfying retention stipulations.
3. Students may be readmitted after completing at an accredited college or university 30 s.h. or 45 q.h. of transferable work with a minimum grade of C on all transferable work.

Duplicate credit will not be granted under any circumstances. In all cases the stipulations specified at the time of initial admission must be satisfied.

FOLLOWING SUSPENSION

See section on academic regulations, academic eligibility standards, for policies on readmission following suspension and the Special Readmission Policy.

GENERAL INFORMATION

Because of the early publication of this catalog, the tuition and fee schedule is omitted. The current university schedule of tuition and fees can be obtained from the cashier's office and the admissions office.

It is estimated that the average student who is a North Carolina resident incurs necessary expenses of approximately \$8,500 for room, meals, tuition, fees, and books during an academic year of two semesters. The costs of meals and textbooks may vary considerably, according to individual requirements. The university operates food service facilities in six locations throughout the campus. Meals are available either under a meal plan or by individual selections at moderate prices. A cost of approximately \$1,100 per semester for meals is an estimate. Students are required to purchase their textbooks. For their convenience, the university owns and operates the Student Stores, located on the ground floor of the Wright Building, where all necessary books and supplies may be purchased. The cost of books will vary with the different curricula; \$400-\$600 per semester is a reasonable estimate.

RESIDENCE STATUS FOR TUITION PURPOSES

The basis for determining the appropriate tuition charge rests upon whether a student is a resident or a nonresident for tuition purposes. Each student must make a statement as to the length of his or her residence in North Carolina, with assessment by the institution of that statement to be conditioned by the following:

Residence. To qualify as a resident for tuition purposes, a person must become a legal resident and remain a legal resident for at least twelve months immediately prior to classification. Thus, there is a distinction between legal residence and residence for tuition purposes. Furthermore, twelve months legal residence means more than simple abode in North Carolina. In particular it means maintaining a domicile (permanent home of indefinite duration) as opposed to "maintaining a mere temporary residence or abode incident to enrollment in an institution of higher education." The burden of establishing facts which justify classification of a student as a resident entitled to in-state tuition rates is on the applicant for such classification, who must show his or her entitlement by the preponderance (the greater part) of the residuary information.

Initiative. Being classified a resident for tuition purposes is contingent on the student's seeking such status and providing all information that the institution may require in making the determination.

Parents' Domicile. If an individual, irrespective of age, has living parent(s) or court-appointed guardian of the person, the domicile of such parent(s) or guardian is, prima facie, the domicile of the individual; but this prima facie evidence of the individual's domicile may or may not be sustained by other information. Further, nondomiciliary status of parents is not deemed prima facie evidence of the applicant child's status if the applicant has lived (though not necessarily legally resided) in North Carolina for the five years preceding enrollment or re-registration.

Effect of Marriage. Marriage alone does not prevent a person from becoming or continuing to be a resident for tuition purposes, nor does marriage in any circumstances insure that a person will become or continue to be a resident for tuition purposes. Marriage and the legal residence of one's spouse are, however, relevant information in determining residuary intent. Furthermore, if both a husband and his wife are legal residents of North Carolina and if one of them has been a legal resident longer than the other; then the longer duration may be claimed by either spouse in meeting the twelve-month requirement for in-state tuition status.

Military Personnel. A North Carolinian who serves outside the state in the armed forces does not lose North Carolina domicile simply by reason of such service. And students from the military may prove retention or establishment of residence by reference, as in other cases, to residuary acts accompanied by residuary intent. In addition, a separate North Carolina statute affords tuition rate benefits to certain military personnel and their dependents even though not qualifying for the in-state tuition rate by reason of twelve months legal residence in North Carolina. Members of the armed services, while stationed in and concurrently living in North Carolina, may be charged a tuition rate lower than the out-of-state tuition rate to the extent that the total of entitlements for application tuition costs available from the federal government, plus certain amounts based under a statutory formula upon the in-state tuition rate, is a sum less than the out-of-state tuition rate for the pertinent enrollment. A dependent relative of a service member stationed in North Carolina is eligible to be charged the in-state tuition rate while the dependent relative is living in North Carolina with the service member and if the dependent relative has met any requirement of the Selective Service System applicable to the dependent relative. These tuition benefits may be enjoyed only if the applicable requirements for admission have been met; these benefits alone do not provide the basis for receiving those derivative benefits under the provisions of the residence

SECTION 3: EXPENSES AND FINANCIAL ASSISTANCE

classification statute reviewed elsewhere in this summary.

Grace Period. If a person (1) has been a bona fide legal resident of the required duration, (2) has consequently been classified a resident for tuition purposes, and (3) has subsequently lost North Carolina legal residence while enrolled at a public institution of higher education, that person may continue to enjoy the in-state tuition rate for a grace period of twelve months measured from the date on which North Carolina legal residence was lost. If the twelve months period ends during an academic term for which the person is enrolled at a state institution of higher education, the grace period extends, in addition, to the end of that term. The fact of marriage to one who continues domicile outside North Carolina does not by itself cause loss of legal residence, marking the beginning of the grace period.

Minors. Minors (persons under eighteen years of age) usually have the domicile of their parents, but certain special cases are recognized by the residence classification statute in determining residence for tuition purposes.

- a. If a minor's parents live apart, the minor's domicile is deemed to be North Carolina for the time period(s) that either parent, as a North Carolina legal resident, may claim and does claim the minor as a tax dependent, even if other law or judicial act assigns the minor's domicile outside North Carolina. A minor thus deemed to be a legal resident will not, upon achieving majority before enrolling at an institution of higher education, lose North Carolina legal residence if that person
 - (1) upon becoming an adult "acts, to the extent that the person's degree of actual emancipation permits, in a manner consistent with bona fide legal residence in North Carolina" and
 - (2) "begins enrollment at an institution of higher education not later than the fall academic term following completion of education prerequisite to admission at such institution."
- b. If a minor has lived for five or more consecutive years with relatives (other than parents) who are domiciled in North Carolina and if the relatives have functioned during this time as if they were personal guardians, the minor will be deemed a resident for tuition purposes for an enrolled term commencing immediately after at least five years in which these circumstances have existed. If under this consideration a minor is deemed to be a resident for tuition purposes immediately prior to his or her eighteenth birthday, that person on achieving majority will be deemed a legal resident of North Carolina of at least twelve months' duration. This provision acts to confer in-state tuition status even in the face of other provisions of law to the contrary; however, a person deemed a resident of twelve months' duration pursuant to this provision continues to be a legal resident of the state only so long as he or she does not abandon North Carolina domicile.

Lost But Regained Domicile. If a student ceases enrollment at or graduates from an institution of higher education while classified a resident for tuition purposes and then both abandons and reacquires North Carolina domicile within a twelve month period, that person, if he or she continues to maintain the reacquired domicile into re-enrollment at an institution of higher education, may re-enroll at the in-state tuition rate without having to meet the usual twelve-month durational requirement. However, any one person may receive the benefit of this provision only once.

Change of Status. A student admitted to initial enrollment in an institution (or permitted to re-enroll following an absence from the institutional program which involved a formal withdrawal from enrollment) must be classified by the admitting institution either as a resident or as a nonresident for tuition purposes prior to actual enrollment. A residence status classification once assigned (and finalized pursuant to any appeal properly taken) may be changed thereafter (with corresponding change in billing rates) only at intervals corresponding with the established primary divisions of the academic year.

Transfer Students. When a student transfers from one North Carolina public institution of higher education to another, he or she is treated as a new student by the institution to which he or she is transferring and must be assigned an initial residence status classification for tuition purposes.

Copies of the most current North Carolina residency manual are available for inspection in the university residence classification section of the admissions office, Joyner Library, and Health Sciences Library. Students are responsible for being familiar with the contents of this source of regulation.

Deadline for Application. Any persons applying for the in-state rate of tuition should complete the current Residence Status Application and return it to the university residency classification office, Office of Admissions, at least three weeks prior to registration day for the semester or term they are seeking in-state tuition.

EXPENSES

ENROLLMENT DEPOSIT

Applicants who are admitted as undergraduate students are required to remit a nonrefundable deposit of \$30 to signify their intention to enroll. All enrolling applicants will receive credit for the \$30 deposit toward their tuition and fees.

Applicants who are accepted for admission to East Carolina University for the fall semester must deposit the \$30 with the university cashier by May 1 or shortly after admission; applicants who are admitted for the spring semester must remit the deposit by November 15. The approval for admission will be tentative until the deposit and all required final academic records are received and reviewed to ensure that admission standards have been met. If the deposit is not received by the deadline, the applicant's acceptance will be continued only if space in the university is available.

FEE PAYMENT SCHEDULE

Returning students or those admitted and registering before the collection of fees begins for the fall or spring semesters will be subject to a late payment fee if tuition and fees are not paid by a published deadline, which usually precedes registration day by about two weeks.

Students admitted to the university as nondegree students and those pursuing graduate degrees and sixth-year certificates will be charged tuition and fees as graduates.

Tuition and fees are subject to revision by The UNC Board of Governors and/or the ECU Board of Trustees, who reserve the right to revise them at any time found necessary or advisable and without prior notice.

No person is allowed to attend class or receive class instruction without being properly registered either for credit or for audit.

See bulletins for summer session and continuing studies fees.

TUITION SURCHARGE

The tuition surcharge of 25 percent applies to all undergraduates seeking a baccalaureate degree at ECU under conditions described below. Credit hours to be included in the total include the following:

1. all regular session degree-creditable courses taken at ECU, including repeated courses, failed courses, and those dropped after the last date to add a course; and
2. all transfer credit hours accepted by ECU (except those taken at another UNC institution through summer school or through degree-credit extension).

Credit hours to be excluded are those earned through: 1) The College Board's AP and CLEP programs or alternative programs; 2) institutional advanced placement, course validation, or any similar procedures for awarding course credit; and 3) a summer session or degree-credit extension division of ECU [distance education].

The credit-hour threshold for imposing the surcharge depends upon the number of hours required to earn the degree. For students earning a first baccalaureate degree in a program that requires no more than 128 s.h., the surcharge is applied to all hours in excess of 140 s.h. For students earning a first baccalaureate degree in a board-approved program that requires more than 128 s.h., the surcharge is applied to all hours that exceed 110 percent of the hours required for the degree. Examples of such programs include those that have been officially designated by the Board of Governors as five-year programs, programs involving double majors, and combined bachelor's/master's degree programs. For students earning a baccalaureate degree other than their first, the surcharge shall be applied to all hours that exceed 110 percent of the minimum additional hours needed to earn the additional baccalaureate degree.

Exemption: *The surcharge will not be imposed on undergraduates who complete a first four-year baccalaureate degree program in eight or fewer regular term semesters or the equivalent or a five-year program taken in ten or fewer regular term semesters or the equivalent.*

INDEBTEDNESS TO THE UNIVERSITY AND RETURNED CHECKS

No degree, diploma, or certificate will be granted or transcript of credits furnished a student until all financial obligations to the university, other than secured student loans, have been paid. A student may not be permitted to register; to attend classes; or to take final examinations after the due date of any unpaid obligations.

SECTION 3: EXPENSES AND FINANCIAL ASSISTANCE

A charge will be imposed by the Office of the Cashier, Student Stores, and other university offices for returned checks. They will also subject the maker to legal action and may jeopardize the privilege of cashing checks on campus.

REFUND POLICY

REFUNDING OF TUITION AND FEES

It is to the financial advantage of all students withdrawing, dropping to part-time status, or dropping to a lower block of credit hours to do so as early in the semester/session as possible. The official withdrawal policy may be found in the academic regulations section of this catalog. Refunds for tuition and required fees (excluding room and board charges which are determined by contractual agreement) will be made as follows for students who withdraw or drop to a lower block of credit hours:

- Through the first week of classes (five class days starting the first official day of classes for the university) tuition and required fees will be refunded at 100 percent minus a \$25 nonrefundable registration/processing fee.
- The second week of classes (six to ten consecutive class days) tuition and required fees will be refunded at 75 percent minus the registration/processing fee.
- The third week of classes (eleven to fifteen consecutive class days) tuition and required fees will be refunded at 50 percent minus the registration/processing fee.
- The fourth week of classes (sixteen to twenty consecutive class days) tuition and required fees will be refunded at 25 percent minus the registration/processing fee.
- Beginning with the fifth week of classes (twenty-first consecutive class day) refunds will not be considered.

If the student wishes to appeal, the process must be initiated in writing to the Office of the Registrar. Distance education students should contact the Office of Student Services, Division of Continuing Studies. Dually enrolled students (distance education and on campus) should notify both offices.

All refunds are subject to the above noted time limitations and will be based on the difference between the amount paid and the charge for the block of hours for which the student is officially registered.

POLICY EXCEPTIONS

There will be no refunds for private music lessons and/or remedial math after the first five class days of each semester.

A separate and extended refund policy exists for first-time federal Title IV financial aid recipients. Refer to financial aid materials or contact the Office of Student Financial Aid.

To officially withdraw from the university, a student must give written notice to the Office of the Registrar. Distance education students should also send written notification to the Division of Continuing Studies.

Any refunds that a student is entitled to shall first be applied to outstanding financial obligations owed the university.

SUMMER SESSIONS

The refund period for withdrawal or reduction in course load is limited to the first week of classes (five class days starting with the first official day of classes for the university). During this period, 100 percent of the tuition and fees will be refunded minus a \$25 registration/processing charge.

FINANCIAL ASSISTANCE

TUITION WAIVER FOR PERSONS AT LEAST 65 YEARS OF AGE

Persons 65 years of age and older who meet the requirements for the in-state rate of tuition and the university requirements for admission can have their tuition and fees waived provided space is available in the course being sought.

VETERANS ADMINISTRATION EDUCATIONAL PAYMENTS

The Offices of Veterans Administration (VA) and Social Security require a minimum course load of 12 s.h. of required courses per semester (except summer session) for payment of full-time benefits to veterans and eligible dependents.

East Carolina University is approved for a student to take up to 56 s.h. of general education courses. After a student

receives the 56 s.h., he or she must declare a major either officially or unofficially for the VA. The 56 s.h. will include transfer credits and credits earned on campus.

After the student declares a major, benefits will be paid only for courses listed in the catalog under that degree/major program. Substitutions are allowed when the major chairperson gives written approval prior to the student's taking the course.

Students declared academically ineligible will be required to remove their probation before educational benefits can be recertified to the VA.

Students may be eligible for an additional allowance under a work-study program. The work-study program allows students to perform work for the VA in return for an hourly wage. They may perform outreach services under the supervision of a VA employee, prepare and process VA paperwork, work in a VA medical facility, or other approved activities. Students must be enrolled at three-quarter or full-time rate.

Students may be eligible to receive a special allowance for individual tutoring if they enter school at one half-time or more. To qualify, students must have a deficiency in a subject, making the tutoring necessary. There is no entitlement charged for tutorial assistance.

Further information is available at the campus veterans affairs office.

UNC CAMPUS SCHOLARSHIPS

In 2002, the North Carolina State Legislature created the UNC Campus Scholarship program, formerly known as the Minority Presence Grant program. The criteria for this scholarship program are being determined by the ECU Office of Institutional Equity. The \$1,500 scholarship award is designed to assist in the diversification of the university's undergraduate student body to include the presence of first generation college students, students from disadvantaged socio-economics backgrounds and traditionally underrepresented populations on our campus.

NATIONAL/INTERNATIONAL FELLOWSHIPS AND SCHOLARSHIPS

East Carolina University maintains an Office of National/International Fellowships and Scholarships to familiarize students with the competitive national and international fellowships and scholarships available to selected students intent on pursuing graduate work. These fellowships and scholarships, for the most part, are for terms long enough to ensure completion of the master's degree, but in some cases they allow for work on the doctoral degree. Among the fellowships and scholarships coordinated by this office are the Barry M. Goldwater Scholarship, the Marshall Scholarships, the Rhodes Scholarships, the Fulbright Grants, and the Harry S. Truman Scholarships (undergraduate only). Interested students should contact the director, Honors Program, D-107 Brewster Building; 252-328-6373.

OFFICE OF STUDENT FINANCIAL AID

Through the use of federal and state funds as well as contributions from its many friends and alumni, East Carolina University makes every effort to assist students in the continuation of their education. The staff of the university Office of Student Financial Aid assists students in obtaining funds from the source best suited to the individual's need.

Three main types of financial assistance are available to qualified students: gift aid, consisting of grants and scholarships; long-term educational loans; and part-time employment. Students classified as nondegree auditors, special students, or visitors are not eligible for financial aid.

Because the primary aim of the financial aid programs is to provide assistance to students who, without aid, would be unable to continue their education, most of the funds are awarded on the basis of financial need. However, in its efforts to strive for excellence, the university offers assistance to some talented students based on merit rather than need.

The university participates in federal programs which provide funds on the basis of financial need as follows:

Federal Pell Grant
Federal Supplemental Educational Opportunity Grant
Federal Parent Loan Program
Federal Perkins Loan

Federal Work-Study Program
Federal Stafford Loan Program
Nursing Student Loan

SECTION 3: EXPENSES AND FINANCIAL ASSISTANCE

Information pertaining to the application process, types of aid available, and academic requirements may be obtained from the East Carolina University Office of Student Financial Aid. Students should contact appropriate deans or departmental chairpersons of intended major areas concerning scholarships that are available in those disciplines.

East Carolina University offers academic programs through traditional on-campus class attendance as well as by distance education classes offered via the Internet and at other locations. Courses are offered in fall and spring semesters, each comprising fourteen weeks plus an additional week at the close of each semester for exams. Both traditional and nontraditional students may be enrolled in on-campus and/or distance education classes.

Summer classes are offered for both on-campus and distance education instruction. There are two summer session schedule formats: one eleven-week session, and two five-week terms. Schedules for fall and spring semesters as well as summer school are located in the front of this catalog and are also available at www.ecu.edu. Students entering the university only for a summer session(s) must meet all admission requirements or be approved visitors from another institution. See Section 3, Admission and Readmission or contact the Office of Admission, www.ecu.edu/admissions, for further information. Graduate students should consult the Graduate School, <http://www.research2.ecu.edu/grad/> for admission requirements.

ACADEMIC INTEGRITY

Academic integrity is expected of every East Carolina University student.

Academically violating the Honor Code consists of the following: cheating, the giving or receiving of any unauthorized aid or assistance or the giving or receiving of unfair advantage on any form of academic work; plagiarism, copying the language, structure, ideas, and/or thoughts of another and adopting those as one's original work; falsification, statement of untruth, either verbal or written, regarding any circumstances relating to academic work; and attempting any act which if completed would constitute an academic integrity violation as defined above. Procedures governing academic integrity violations are described in the East Carolina University Student Handbook and in the Faculty Manual.

No student may drop the involved course or withdraw from school prior to resolving an academic integrity charge.

ACADEMIC ADVISEMENT

Upon admission to the university, students are advised in the appropriate areas as follows:

- On-campus freshmen and sophomore students are advised in the General College, unless otherwise specified below, until a major is declared. (See General College, below.) Students admitted directly into a degree program are advised in that unit. (Consult academic unit.)
- Distance education students are advised by a faculty member in the major program. (Students are assigned to the Division of Continuing Studies, which provides additional on-line services. See Division of Continuing Studies, below. For academic advising, consult the major program unit.)
- The University College advises nontraditional students until retention stipulations have been met. Once they have met stipulations, University College students declare a major or progress to the General College for advisement. (See University College, below.)

To assist campus and distance education students in their academic programs, the university has established in each college, school, and department a system of academic counseling whereby the student is assigned to a faculty member or a professional adviser who serves as his or her adviser. The adviser helps to plan the student's academic program, particularly during registration periods; keeps a record of his or her progress; and is available throughout the year for additional counseling. Teachers seeking licensure should also contact the appropriate school.

Advisers will make every attempt to give effective guidance to students in academic matters and to refer students to those qualified to help them in other matters, but the final responsibility for meeting all academic requirements for a selected program rests with the student. In addition to his or her adviser, the student may obtain help from the chairperson of the major department or the dean of the college or school.

GENERAL COLLEGE

The General College, administered by the Academic Advising and Support Center, functions to advise undergraduate students during their first two years and to prepare them for admission to a degree program. It affords an opportunity for students to explore various disciplines before becoming committed formally to any major. Although a student who enters with a definite career decision will be encouraged to take courses in the area of his or her interests and will be assigned an adviser in that area, the General College does not function to direct a student into a specific major. It functions to give the

SECTION 4: ACADEMIC ADVISEMENT, PROGRESSION, AND SUPPORT

student an opportunity to examine several fields that appeal to him or her while completing the general education requirements.

Students who have not chosen a major are advised through the Academic Advising and Support Center located in A-113 Brewster. To obtain the name of their assigned advisers, students should go to the ECU Onestop (www.onestop.ecu.edu).

Although a General College student may decide on a major before the end of the sophomore year, that decision will not be registered formally until requirements for transfer into the proposed major have been met. After the student has made the decision, he or she may take some of the introductory courses in the major without making the formal declaration of major. Nevertheless, a student in the General College must give primary attention to fulfilling general education requirements.

It should be noted that it is the responsibility of the student to take the courses that are required for the chosen degree. In some programs, particularly those in the sciences and the allied health professions, the student should begin the appropriate science course sequences early in the program. Failure to follow the suggested curriculum may necessitate continuance of course work beyond four years.

During the period that the student is assigned to the General College, the university rule that a student adopt the catalog that is current whenever he or she changes his or her program does not apply. (See Section 5, Academic Regulations.) Except for the requirements for admission to certain programs, the catalog that was current at the time the student entered the General College will apply when he or she leaves the General College and declares a major unless (1) the student elects a later catalog; (2) the student changes his or her program after initial transfer from the General College; or (3) accreditation requirements for the university have been changed.

GENERAL COLLEGE

Degree In Three Program

Students admitted through the Succeed Sooner Degree in Three Program begin during the second summer term before their freshman year. They meet with special advisers in person or via telephone prior to the summer term. During the term, students review and customize their program of study with their academic adviser/mentor. In subsequent semesters, the advisers provide ongoing advising services, including use of the priority registration system. The advisers ensure that students are enrolled in appropriate classes in a timely manner in order to maintain the three-year completion schedule. Degree in Three Program advisers also provide advice on the graduate admission process. (See also Section 6.)

MD/7 Program

Students who meet the criteria for admittance into the MD/7 initiative and indicate they wish to pursue a pre-medical undergraduate program are encouraged to indicate their interest via the web site, www.ecu.edu/succeedsooner. Students participating in this initiative will meet on a regular basis with the pre-health adviser who will help them to tailor their programs and to follow application procedures. Students also will be expected to gain undergraduate experience in research, community and college service, and leadership.

JD/6 Program

Students admitted through the Succeed Sooner JD/6 program indicate their interest via the web site, www.ecu.edu/succeedsooner; and are assigned to the pre-law adviser until they identify an undergraduate major. At that point, students are advised by the major adviser, but are assisted by the pre-law adviser in planning their program of study and following the law school application process.

DIVISION OF CONTINUING STUDIES

The Division of Continuing Studies extends educational opportunities to the people of North Carolina through distance education as well as by administering the university's summer school. In order to fulfill the needs of a widely diversified group of people, credit courses, undergraduate degree completion programs, and graduate degrees are offered at a variety of locations as well as over the Internet. To meet other needs of the service area, college-level noncredit courses, seminars, and workshops in special areas are also offered as an integral part of continuing studies. Division offices are located in Erwin Hall.

In Undergraduate and Graduate Degrees, Minors, and Certificates in section 7 of this catalog, programs that are offered through distance education are indicated with the **DE** and **DE-P** cons. A list of distance education programs may be accessed at www.options.ecu.edu. Classes to be offered during a given semester are posted on-line prior to the beginning of

registration for the upcoming semester at www.registrar.ecu.edu. The posting is available on-line through the drop/add period of the given semester.

Academic regulations and policies, university calendars, and student services described in this catalog are applicable to all students, except where otherwise indicated. The on-line distance education orientation site, www.ecu.edu/elearning/orientation, includes information on e-mail, Blackboard, and information technology policies; academic and administrative services; and library services.

Students must use their assigned ECU e-mail account and a compatible browser to access the ECU e-mail and One Stop web sites. Minimum and recommended technology requirements for on-line programs may be found at www.options.ecu.edu/internet_course/technology.htm. On-line services provided for distance education may be impacted by the quality of service rendered by the individual's Internet provider. Students who have technical problems accessing the ECU web page should telephone the ITCS Help Desk, 252-328-6401. Additional technology requirements are listed in each degree program. Prerequisite skills for individual courses are listed in course descriptions.

UNIVERSITY COLLEGE

Students admitted as nondegree students who do not hold a baccalaureate degree, or through the Performance-Based Admission Policy (nontraditional students), are assigned to the University College. The University College functions to advise nontraditional students until such time as they have satisfied the retention stipulations specified in their letters of admission. At that time, the nontraditional student may transfer to the General College or may apply to a degree program. (See Section on Admission and Readmission, Nontraditional Students.) Both the General College and the University College are administered through the Office of Undergraduate Advising and Academic Support.

OFFICE OF THE OMBUDSMAN

The Office of the Ombudsman is authorized to confidentially receive student complaints, concerns, or inquires about alleged acts, omissions, improprieties, or broader systemic problems. The ombudsman will listen, offer options, facilitate resolutions, informally investigate, and otherwise examine these issues independently and impartially. The office is accessible to all students who have problems that may be academic disputes, campus life issues, or interpersonal in nature.

The Office of the Ombudsman is concerned with safeguarding individual rights and promoting better channels of communication for all students. It is independent of all administrative offices. The ombudsman is not an advocate for any one individual or group, but looks to fairness, adherence to university regulations, due process, and individual responsibility. The office does not replace existing student grievance mechanisms; it supplements them. However, the office can recommend changes in the existing rules and practices when necessary.

The ombudsman functions on an informal basis; the office supplements but does not replace any steps required in formal internal or external procedures. Use of this office is not a requirement in any grievance process or organizational function. The office is located in 204 Whichard. For more information about this service, call the office at 252-328-1744.

STUDENT PROGRESSION

As students matriculate, they are classified as by semester hours of credit as freshman, sophomore, junior, and senior. Students who entered through the General College or University College will choose a major as they near completion of the general education requirements or meet the requirements as specified in a selected degree program. The classification schema, process for declaring a major, and graduation and degrees of distinction requirements follow.

CLASSIFICATION OF STUDENTS

In order to graduate in eight semesters of attendance, a student in a typical degree program (120-128 s.h.) must average 15-16 s.h. of credit per semester. A regular or full-time student is required to schedule at least 12 s.h. per semester. Students who register for no more than 11 s.h. per semester are classified as part-time students. Students will be classified as to class standing as follows:

1-29 semester hours credit: Freshman
30-59 semester hours credit: Sophomore

60-89 semester hours credit: Junior
90 or more semester hours credit: Senior

SECTION 4: ACADEMIC ADVISEMENT, PROGRESSION, AND SUPPORT

Students must meet grade (quality) point requirements to be eligible for readmission for a succeeding semester at East Carolina University. (See Academic Eligibility Standards, below.)

GENERAL COLLEGE PROGRAM

The program of the General College consists of the freshman- and sophomore-level courses that satisfy the requirements in general education for baccalaureate degrees. In some majors, notably music, art, and the sciences, sequence course work which must be taken in the freshman and sophomore years requires that some general education requirements be postponed until the junior year. Suggested course sequences and other advising information may be found in the *Undergraduate Advising Student Manual*.

GENERAL EDUCATION REQUIREMENTS FOR ALL BACCALAUREATE DEGREE PROGRAMS

General education requirements are designed to engender a broad liberal arts base upon which to add the depth of study in the major. Some courses that carry general education credit are identified in the course listings using the following notation; however, there may be other courses that also carry general education credit. Courses in the student's major prefix area may not count toward his or her general education requirements.

- GE:EN = English

GE:EX = Exercise and Sport Science

GE:FA = Fine Arts

GE:HL = Health
- GE:HU = Humanities

GE:MA = Mathematics

GE:SC = Science

GE:SO = Social Science

English 1100,1200 (GE:EN) 6 s.h.	Mathematics (GE:MA) 3 s.h.
Health (GE:HL) and Exercise and Sport Science (GE:EX) 3 s.h.	Three hours of mathematics at least equivalent to MATE 1067 or MATH 1050 or 1065 or 1066 or 1067 or 2127
(Select at least one course in each area.)	or
Humanities and Fine Arts (GE:HU) (GE:FA) 10 s.h.	three hours of logic at least equivalent to PHIL 1500
(Humanities and fine arts majors must meet the humanities and fine arts requirement outside their major field.) Select at least one course in humanities and one course in fine arts from the following areas:	(If logic is used to satisfy this requirement, it may not be used to satisfy the humanities requirement for the baccalaureate degree.)
Humanities (GE:HU)	Science (GE:SC) 8 s.h.
Literature (English or American)	(Science majors must meet the science requirement outside their major field.) At least one course must require laboratory work. Select one or more courses from the following departments:
Literature in a foreign language or in translation	Biology
(See Departments of English and Foreign Languages and Literatures. Foreign languages 1001-1004 will not meet this requirement.)	Chemistry
Philosophy	Geology
Selected Linguistics Courses	Physics
Fine Arts (GE:FA)	Social Sciences (GE:SO) 12 s.h.
Art	(Social science majors must meet the social science requirement outside their major field.) Select courses from at least three of the following areas:
Dance	Anthropology
Music	Communication
Speech	Economics
Theatre Arts	Geography
	History
	Political Science
	Psychology
	Sociology

Certain honors and interdisciplinary courses may be used to satisfy certain general education requirements. (See course listings in section 8.) For a listing of courses generally used to meet these requirements, see "General Education Goals, Objectives, and Courses Meeting the Requirement," a document published in *Taking Charge: Your Academic Planner*. The planner is distributed at orientation and is also available in the Student Stores.

DECLARATION OR CHANGE OF MAJOR AND MINOR

A student who desires to declare or change his or her program of study involving transfer from one college, school, or department of the university to another should

1. obtain his or her advising folder from the current adviser;
2. have the academic record reviewed in the receiving department, the change of major/minor recorded in the student data base, and a new adviser assigned; and
3. deliver the advising folder to the new adviser.

DECLARING A MAJOR

To declare a major, a student must complete the admission requirements for the program and complete the formal admission process as specified by the program. Students may choose to earn a baccalaureate degree, two baccalaureate degrees simultaneously (dual degree), or a double major. Students who hold a baccalaureate degree and wish to pursue a second undergraduate degree will follow the requirements for a dual or second major; below. (See Academic Requirements for Degrees, below.)

Student athletes and pre-health/pre-law students are assigned to academic advisers in their majors. Athletics, Pre-health, and Pre-law Offices, as appropriate, continue to provide monitoring and support in helping these students to meet their program requirements.

DECLARING A MINOR

If a degree program requires a minor, the minor must be identified at the time the student declares his or her major and must be approved by the major chairperson or dean or his or her designee. All BA degrees require a minor unless the degree requirements include a concentration and/or specified cognates. (See Academic Requirements for Degrees and Minors, below.)

TRANSFER FROM THE GENERAL COLLEGE

A student assigned to the General College is eligible for transfer from the General College to other schools and departments in accordance with requirements specified in the following paragraphs. Students should also consult the departmental listings for requirements in addition to the basic pattern and for additional courses which are required in the freshman and sophomore years.

TRANSFER FROM THE UNIVERSITY COLLEGE

A student assigned to the University College is eligible to transfer either to the General College or to a school or department upon submission of appropriate documents and removal of any deficiencies. The student's record will be reviewed, and upon acceptance the student will be assigned to the appropriate unit.

TRANSFER TO THE THOMAS HARRIOT COLLEGE OF ARTS AND SCIENCES

Transfer to departments in the Thomas Harriot College of Arts and Sciences is possible when the following conditions are met: the student will have no more than 10 s.h. of general education requirements remaining at the end of the semester in which transfer is requested; the student has at least a C average in introductory courses in the proposed major field; the student is not on academic probation; and the student has met additional requirements of the academic unit.

TRANSFER TO PROFESSIONAL SCHOOLS

Admission, readmission, or transfer to professional schools is not guaranteed by admission to the university or by completion of the general education program. Students should contact the professional school of their choice to obtain admission, readmission, or transfer requirements and application deadlines.

A student who is not on probation may transfer to the College of Education (except elementary and middle grades education) or the College of Human Ecology during the second semester in residence. A student may transfer to the School of Music during the first semester after successfully completing an audition.

SECTION 4: ACADEMIC ADVISEMENT, PROGRESSION, AND SUPPORT

TRANSFER FROM A PROFESSIONAL SCHOOL TO THE GENERAL COLLEGE

A student who is initially assigned to a professional school may transfer to the General College.

ACADEMIC REQUIREMENTS FOR DEGREES AND MINORS

BACCALAUREATE DEGREE REQUIREMENTS

The bachelor's degree may be conferred by the university upon the student's application when the student has earned the minimum number of semester hours of credit required for the degree by the major department or school, has met the general education requirements, and has fulfilled all requirements of the major/minor program. (See department and school listings. Also see following paragraphs for additional requirements.)

The university does not award degrees solely because a student successfully completed the required courses. Violations of the student code of conduct, including both academic and nonacademic violations, may result in a degree not being awarded. For example, when the student has disciplinary charges pending, the degree may be withheld or the awarding of the degree may be delayed.

A degree from East Carolina University comprises a minimum of 120 s.h. A minimum of 30 s.h. and at least one-half of the total hours required in the major discipline must be completed through enrollment in East Carolina University. The required resident study does not need to be accomplished in consecutive semesters. One-half of the minimum semester hours required in the student's program must be earned through enrollment in a regionally-accredited senior college.

Each academic unit will ensure that its majors complete at least one course which exposes them to cultural diversity. Courses which meet this requirement will be designated by the respective unit.

Writing-intensive course work is described below.

DUAL OR SECOND DEGREE REQUIREMENTS

A student may choose to earn simultaneously two degrees (e.g., BA and BS or BS and BFA, etc.). To satisfy the requirements for dual baccalaureate degrees at East Carolina University, the student must complete the requirements for one baccalaureate degree program and also complete a minimum of an additional 30 s.h. through course enrollment at ECU for the other degree. The student will be advised by both departments and a separate senior summary completed by each.

General education requirements for one degree may be used to satisfy the general education requirements for the other degree. However, all other degree requirements, including a foreign language, must be met and may not be waived. All dual degree students will be required to complete at least 3 s.h. of writing intensive course work in each major. Students who wish to satisfy the requirements for a BS degree in teacher education may use the same major for both degrees provided the university offers a teacher certification program in that major.

A student who currently holds a baccalaureate degree may enroll in a second baccalaureate degree program. The student must meet the curriculum requirements for the second undergraduate degree in the catalog under which he or she enters or in some subsequent catalog and must complete a minimum of 30 s.h. No student will be permitted to complete the second degree under a catalog issued more than three years prior to the date of completion of the second degree.

In evaluating curriculum requirements for the second undergraduate degree, the academic unit offering the second degree will determine whether general education requirements from the first undergraduate degree satisfy general education requirements for the second degree. However, any foreign language requirements for the second degree must be fully met and may not be waived. All second degree students will be required to complete at least 3 s.h. of writing intensive course work in the major.

A student pursuing a second undergraduate degree must maintain a minimum 2.0 GPA. In determining the GPA, only attempted hours toward the second degree will be counted. Grade points earned in the first degree will not apply in determination of academic eligibility while a student is enrolled for a second degree. However, the GPAs from the first and second undergraduate degrees will be used in the consideration of a degree with distinction.

DOUBLE MAJOR REQUIREMENTS

The double major comprises a primary major and a secondary major. The student desiring to double major will be advised in the department offering the primary major. However, the chairperson, or director, or dean of the unit offering the secondary major also must review the requirements for the second major and sign the senior summary sheet. The double major may count any number of hours from the primary major toward the secondary major of the double major. The number of hours applicable toward a second major should not be limited.

If the primary major is part of a non-BA degree program and the secondary major is identified in the curriculum for the BA degree, neither additional general education requirements for the BA degree nor a foreign language requirement will apply. Courses taken to meet general education requirements may be used to satisfy requirements for the secondary major or a minor, except where prohibited, but not for the primary major. (See specific major requirements for restrictions.) Double major students, however, are not required to complete additional writing-intensive course work.

ADDITIONAL REQUIREMENTS FOR ALL DEGREES

Writing Intensive Requirement

Students enrolling at East Carolina University must fulfill the writing across the curriculum requirement prior to graduation. To do so, each student must complete a minimum of 12 s.h. of writing intensive courses, including ENGL 1100, 1200; at least one 3 s.h. writing intensive course in the major; and any other 3 s.h. writing intensive course of the student's choice. All second degree students will be required to complete at least 3 s.h. of writing intensive course work in the major. Writing intensive courses/sections are identified each semester in the course schedule listing will be designated WI on the student's transcript. If a writing course (a course whose primary content is writing according to its course title and description) is accepted in transfer by number and credit hour for a writing-intensive course at East Carolina University (e.g., ENGL 3880, ITEC 3290, etc.), the transferred credit hours will count as writing intensive for ECU degree requirements.

Cultural Diversity Requirement

Each academic unit will ensure that its majors complete at least one course which exposes them to cultural diversity. Courses which meet this requirement will be designated by the respective unit.

Cognate and Professional Course Requirements

Many baccalaureate programs have requirements in addition to course work in general education, in the major field, and in the minor field. These additional requirements may be labeled cognate courses or professional courses required for teacher certification. Cognates, minor courses, and courses used for the second major may be used to satisfy general education requirements, except where prohibited; professional courses required for teacher certification may not be used to satisfy general education requirements. One-half of the minimum semester hours required in the student's program must be earned through enrollment in a regionally-accredited senior college.

ADDITIONAL REQUIREMENTS FOR BA DEGREE

All candidates for the BA degree must complete a foreign language through level 1004 as part of their degree requirements. The number of required credits for a major shall not be fewer than 30 s.h. or more than 36 s.h. A candidate for the BA degree must declare a minor if required. Some BA degrees require a concentration and/or specified cognates instead of a minor. However, a BA degree may require a minor and a concentration and/or specified cognates. The number of required credits for a minor shall not be fewer than 24 s.h. or more than 30 s.h.

SPECIAL REQUIREMENTS FOR BS DEGREE FOR STUDENTS PREPARING TO TEACH

A minimum GPA of 2.5 is required for admission to and retention in the teacher education program. Additionally, PRAXIS I and computer competency requirements must be met. Students will complete a senior-year portfolio, which includes a technology product. To qualify for a North Carolina teacher license, the student must complete the following: a history course; a literature course; MATE 1067 or MATH 1065 or 1066 or 1067 or 2127; PSYC 1000; and PSYC 3206 for secondary and K-12 programs. All teacher education majors should consult their advisers to select appropriate courses which may be required as cognates in their academic discipline. MATH 1050 is not accepted.

East Carolina University requires academic concentrations for all majors in elementary education; middle grades education;

SECTION 4: ACADEMIC ADVISEMENT, PROGRESSION, AND SUPPORT

business, career, and technical education; health education; and physical education. Academic concentration requirements are listed in the College of Education subsection. Students should consult their departmental adviser for specific information about this component of their program.

Professional credits for majors in elementary education; middle grades; science education; business, career, and technical education; and special education are listed in Section 7, College of Education: Requirements for Students Preparing to Teach. For majors in secondary education, birth through kindergarten, and K-12 programs, see BS degree curricula for students preparing to teach under appropriate department or school. Minors are required in some fields but not in others. Students should check the major requirements presented in the department and school listings to determine if a minor is required in a particular field.

MINOR REQUIREMENTS

Major, minor, cognate, core curriculum, and/or certification requirements are presented in the department and school listings. If the degree program requires a minor, the minor must be identified at the time the student declares his or her major and must be approved by the major chairperson or dean or his or her designee. A minor shall not be fewer than 24 s.h. or more than 30 s.h. of credit. All BA degrees require a minor unless the degree requirements include a concentration and/or specified cognates; however, some BA degrees may require a concentration or cognates in addition to a minor.

GRADUATION REQUIREMENTS

Every student should confer with his or her academic adviser and/or the major department/school administrator or designee about program and degree requirements. At least two semesters prior to graduation, each student must, in consultation with the unit administrator or designee, complete a senior summary sheet to be forwarded to the Office of the Registrar and complete the application for graduation on a form that is available in the Office of the Registrar, departmental offices, the cashier's office, and on the Internet.

All requirements must be met by the official graduation date of East Carolina University. A student may expect to be allowed to obtain a degree in accordance with the requirements set forth in the regulations in force when he or she enters the university or under subsequent regulations published while he or she is a student. However, a student is restricted in choice to the requirements of one specific catalog. Undergraduate students who enter the university under the regulations of a catalog have a period of five years, inclusive and continuous, in which to claim the degree requirements of that catalog. Students pursuing a second undergraduate degree must select a catalog issued no more than three years prior to completion of the second degree program.

In order to graduate, all students must have earned a minimum cumulative and major GPA of 2.0. If a student completes required courses in his or her major and takes other courses in that field as electives, these additional courses, as well as cognate courses, will also be counted in computing the major GPA. Grades made on courses taken at other colleges and universities will not be considered except in the calculation of graduation with honors, but official transcripts must be on file in the Office of the Registrar.

DEGREES WITH DISTINCTION

Based on all work attempted, three degrees with distinction are granted to graduating undergraduate students as follows:

"Summa Cum Laude" for a cumulative average of 3.90

"Magna Cum Laude" for a cumulative average of 3.60

"Cum Laude" for a cumulative average of 3.50

FIRST UNDERGRADUATE DEGREE

Degrees with distinction are granted to transfer students under the following conditions.

1. The student must complete through enrollment in East Carolina University at least one-half the minimum number of hours required for the degree.
2. The student must have the required average on all work taken through enrollment in this university.
3. The student must have a cumulative average that meets the requirements for the appropriate degree with distinction on all work attempted (all ECU and transfer work, including courses where the grade replacement policy has been applied). If transfer work includes grades of D or F, those

SECOND UNDERGRADUATE DEGREE

Second undergraduate degrees with distinction are awarded under the following conditions.

1. The student must complete a minimum of 30 s.h. through enrollment in East Carolina University.
2. The student must have a minimum GPA of 3.5 on course work for the second degree and a cumulative average that meets the requirement for the degree with distinction on all course work attempted for the first degree as well as for the second degree.
3. If transfer work includes grades of D or F, those grades will be included in the calculation of honors.

ACADEMIC SUPPORT SERVICES

OFFICE OF UNDERGRADUATE ADVISING AND ACADEMIC SUPPORT

The Office of Undergraduate Advising and Academic Support assists students through tutoring, supplemental instruction, academic referral, academic enhancement workshops, and workshops for students on warning or probation. The office staff can provide information on academic policies and procedures and information about academic support programs provided in academic units and other areas. Students may drop by the center located in B-103 Brewster Building, telephone 252-328-6001, or access the center's web site at www.ecu.edu/unstud.

ORIENTATION AND THE FIRST-YEAR EXPERIENCE

The Office of Undergraduate Advising and Academic Support assists students with transition to the university and encourages an interactive program with family and their students to enhance a mutual understanding of life at East Carolina University. With the assistance of virtually all departments within the university community, the office provides academic and student life information for all new students and family.

The purpose of orientation is to inform students about the academic requirements of the university and to prepare them for the educational process. During orientation, students may take placement tests in mathematics, foreign languages, and chemistry so that they may register for the appropriate levels in these areas. Orientation provides the opportunity for family and students to become knowledgeable about student life programs offered at East Carolina University. Participants also become acquainted with faculty, staff, student leaders, and other new students and family.

New students may need additional help with the adjustment to college and the pursuit of academic success during their first year at ECU. To assist with this transition, the first-year experience program provides activities that will help students succeed in five areas: academic achievement, health and well-being, leadership, relationships, and life philosophy.

For more information about orientation or the first-year experience, telephone 252-328-4173, or access the web page at www.ecu.edu/orientation.

FRESHMAN SEMINAR

The Office of Undergraduate Advising and Academic Support, through the College of Education, offers COAD 1000, Student Development and Learning in Higher Education to freshman while enrolled in their first two semesters of college. The course meets twice weekly and helps incoming freshman transition to college life. While in the course, students focus on the development of academic skills, learning processes, and career decision-making skills. Students who successfully complete the course are awarded 1 s.h. of graduation credit.

OFFICE OF PARENT SERVICES

The Office of Parent Services is designed to serve as a one-stop source of information and referral for parents and families. In addition, the office serves as a liaison between parents, families, and the university, and works to encourage ongoing parent and family involvement during a student's college career at ECU. For more information about the Office of Parent Services, telephone 252-328-2888, e-mail parents@mail.ecu.edu or access the web page at <http://ecu.edu/parents/>.

UNIVERSITY WRITING CENTER

The University Writing Center provides support for all writing assignments in the university except for those in ENGL 1100 and 1200, which are supported by assistance offered by the Department of English's First-Year Writing Studio. The hub of the University Writing Center is in 2026 Bate Building, however, satellite locations are offered across campus wherever

SECTION 4: ACADEMIC ADVISEMENT, PROGRESSION, AND SUPPORT

writing intensive courses are taught. Students are encouraged to visit any site of the University Writing Center at least twenty-four hours before an assignment is due to discuss a piece of writing with a trained writing consultant. Students may access additional resources, including the on-line writing lab for students enrolled in distance education courses, through the University Writing program web site: <http://www.ecu.edu/writing>.

STUDENT PROFESSIONAL DEVELOPMENT

COOPERATIVE EDUCATION

Cooperative Education is an academic support program that integrates work experience with college studies over the course of a student's collegiate program. College studies and work assignments combine to produce an overall learning experience that enhances the student's academic program and gives direction to his/her career development. Available to undergraduate and graduate students in all academic areas, the program provides a number of immediate and long-range opportunities

- to gain experience in a chosen field;
- to open doors to future employment;
- to apply classroom knowledge and skills;
- to work with professionals;
- to obtain academic credit, if appropriate; and
- to earn money for college expenses.

To participate, students must have earned a minimum cumulative GPA of 2.0 on college work completed. To remain in the program, students must perform work satisfactory to their employers and maintain an acceptable cumulative grade point average. All university regulations apply to coop students.

Work assignments, which are tailored to the needs of the student and the employer, are coordinated with the university academic calendar. Work experience may be scheduled during mornings, afternoons, or various days of the week under the parallel coop plan; for full semesters under the alternating program; or for summer only. In many cases it is possible, with advanced planning, to arrange a coop program that will not delay graduation.

Inquiries or requests for further information and descriptive brochures should be directed to the Office of Cooperative Education, 2300 Bate Building, East Carolina University, Greenville, NC 27858-4353; telephone/fax 252-328-6979/252-328-4394; e-mail coop@mail.ecu.edu; web site www.ecu.edu/coop.

CAREER SERVICES

Career Services provides programs and services to assist students with the transition from academic to the world of work by preparing students for life after graduation. Career Services offers services which include career counseling, workshops and seminars on career-related subjects, assistance with resume writing and interviewing, and opportunities for graduate assistantships, practicum, and internships. The center also offers students an easy-to-use computerized guidance program that helps clarify values, explores occupation options, and develops educational plans.

Career Services is open Monday through Friday 8:00 a.m. to 5:00 p.m. For more information visit Career Services, 701 East Fifth Street, telephone 252-328-6050, or access the web page at [www.ecu.edu/career services](http://www.ecu.edu/career%20services). While some services are available via the web, others may be available only on campus.

OFFICE OF INSTITUTIONAL EQUITY

The Office of Institutional Equity articulates and implements diversity and equity initiatives in order to fulfill the university's commitment to achieving and maintaining a multicultural campus environment. In order to serve an increasingly diverse community, the office comprises Disability Support Services, Intercultural Affairs, and the Ledonia Wright Cultural Center; and provides oversight for the Diversity Task Force and the ADA Advisory Committee as well as the Committees on Affirmative Action Advisory and Review, University Diversity, Martin Luther King Day, and the Status of Women. The Office of Institutional Equity also administers employment compliance policies and procedures. More information on these and other activities and responsibilities is included in the General Information section of this catalog.

TESTING CENTER

The Testing Center, operated by the Office of Institutional Planning, Research, and Effectiveness administers several national testing programs, including the PRAXIS, American College Testing, Allied Health Professions Admission Test, College-Level Examination Program, Law School Admission Test, Medical College Admission Test, Miller Analogies Test, Pharmacy College Admission Test, and Scholastic Assessment Tests. Local, state, and national licensing and certification examinations are administered by the office. Upon request, the office will administer individually arranged exams such as correspondence tests for other colleges and employer personnel examinations. Further information is available from the Testing Center, D-102 Brewster; telephone 252-328-6811.

THE CATALOG

The catalog of East Carolina University, issued early in the summer of each year, is intended to give the description of the work of the university and such a digest of its regulations as is needed by students. Although the courses announced and the regulations given are fairly continuous from year to year, neither of them may be valid after the issuance of a new catalog.

Ordinarily, a student may expect to earn a degree in accordance with the requirements of the curriculum described in the catalog in force when he or she first entered the university or in any subsequent catalog published while he or she is a student, but the faculty of the university reserves the right to make changes in curricula and in regulations at any time when in its judgment such changes are for the best interest of the students and of the university.

Students should refer to the requirements of their respective schools or department for information about their programs of study and confer with their advisers whenever problems arise. The student is expected to follow the program outlined as closely as possible, particularly in the first two years when satisfying basic degree requirements and prerequisites for advance standing. Students may not be admitted to or change to a specified degree program before the degree program requirements have been published in the official catalog.

Some courses listed in sections 7 and 8 indicate an anticipated semester of offering; however, because of faculty availability and other constraints, there is no guarantee that courses will be offered at the specified times. Students should consult their adviser and departments concerning availability issues. While general education credit is indicated for some courses, general education credit may also be available for other courses. Contact the offering department or the Office of Undergraduate Advising and Academic Support for clarification. Courses in a student's major prefix area may not count toward his or her general education requirements.

CHANGING CATALOGS

If a student elects to meet the requirements of a catalog other than the one in force at the time of his or her original entrance, he or she must meet all requirements of the selected catalog. A student who changes degree program or major will be expected to meet all of the requirements of the new program of the catalog in force at the time of the change, except for students who do not declare a major upon entrance and who may meet the requirements of the catalog in force at the time of their entrance to East Carolina University.

During the period that the student is assigned to the General College, the university rule that a student adopt the catalog that is current whenever he or she changes his or her program does not apply. Except for the requirements for admission to certain programs, the catalog that was current at the time the student entered the General College will apply when he or she leaves the General College and declares a major unless (1) the student elects a later catalog; (2) the student changes his or her program after initial transfer from the General College; or (3) accreditation requirements for the university have been changed. No student pursuing his or her first baccalaureate degree or double major will be permitted to graduate under a catalog issued more than five years prior to the date of his or her graduation. No student pursuing a second baccalaureate degree will be permitted to graduate under a catalog issued more than three years prior to the date of his or her graduation.

Academic advisers will offer guidance to students in academic matters and refer students to those qualified to help them in other matters. The final responsibility for meeting all academic requirements for a selected program rests, however, with the student. The provost and vice chancellor for academic affairs has authority on all established curricular matters.

OFFICIAL ANNOUNCEMENTS

The university maintains approximately 100 official bulletin boards at key locations on campus and also maintains an official bulletin board on the ECU home page on the Internet. Through consecutively numbered official announcements, academic departments and other divisions of the university communicate essential and timely information to students; it is the responsibility of the student to read and know the contents of those announcements which affect his or her program.

CLASS ATTENDANCE AND PARTICIPATION REGULATIONS

Students are expected to attend punctually all lecture and laboratory sessions and field experiences and participation in course assignments and activities as described in course syllabus. Absences are counted from the first class meeting, and

SECTION 5: ACADEMIC REGULATIONS

absences because of late registration will not be automatically excused. The student is held accountable for the work covered in each class meeting.

Each instructor shall determine the class attendance policy for each of his or her courses. This policy, along with other course requirements, will be presented to the class, preferably in writing, at the beginning of the semester or summer school term.

The Student Health Service does not issue official written excuses for illness or injury except in the case of a final examination when a grade of incomplete (I) is recommended. Upon request, however, the Student Health Service will confirm that the student has received medical care. If a faculty member needs additional information regarding the nature and/or scope of an illness or injury, the student must authorize the release of the information by signing a release of information form in the Student Health Service.

Instructors are expected to recognize and honor university-excused absences, i.e., treat the absence as an excused absence. Instructors may require that students provide reasonable advanced notice of a university-excused absence, when possible. If required by the instructor, verification of a university-excused absence may be obtained by the student by contacting the Office of the Provost or his or her designee.

The death of an immediate family member or student participation in religious holidays may be considered an excused absence under university policy. Should such a circumstance occur, and the faculty member desires verification, the student should contact the Office of the Provost or his or her designee for a university-excused absence and provide documentation of the particulars.

University-excused absences may be authorized by the Office of the Provost or his or her designee for activities as follows:

1. participation in authorized university activities as an official representative of the university (i.e., sporting events, delegate to regional or national meetings or conferences, participation in and necessary travel to and from university-sponsored performances);
2. participation in activities directly related to university course work and part of the course requirements; or
3. participation in other activities deemed by the Office of the Provost or his or her designee to meet the spirit of these requirements by furthering the mission and enhancing the reputation of East Carolina University.

To qualify for a university-excused absence, as in 2., above, an activity must

- be directly related to the course work;
- be of a nature that prevents it from being accomplished at a time that does not conflict with a class;
- be announced on the first day of class with complete information regarding date, time, purpose, and duration;
- be limited to one per course per term; and
- be submitted by the course instructor, through the appropriate departmental chairperson, director, or dean, to reach the Office of the Provost or his or her designee not later than one month prior to the start of the term.

Except as provided above, requests for a university-excused absence should be submitted, whenever possible, to the Office of the Provost or his or her designee at least a week prior to the scheduled absence. Requests submitted after the fact will be disapproved unless circumstances made prior approval impossible or unreasonable.

COURSES

SELECTION OF COURSES

Since most undergraduate degrees require 126 s.h., a student must average approximately 16 s.h. per semester to graduate in four years. Students are encouraged to be mindful of this recommended course load when developing class schedules.

An undergraduate student is not permitted to select courses more than one classification level above the student's own classification. There are occasions, however, on which exceptions to this regulation may be deemed desirable and necessary by the student's adviser and/or dean. Under these circumstances, a student will be allowed to register for courses two or more levels above the student's classification if the registration or schedule change form contains the initials of the adviser and/or dean written on the line with the course that is involved in the regulation.

Five-thousand-level (5000-5999) courses are graduate courses. Undergraduate students may be admitted to five-thousand-level courses if they have completed the stated prerequisite(s) or with the written permission of the instructor, chairperson

of the department, the director of the school, or the dean of the college in which the course is offered.

Only students who have been admitted to pursue graduate work on a degree or nondegree basis will be permitted to enroll in courses numbered 6000 or above. A senior within 6 s.h. of graduation who has been admitted to a graduate degree program may take a 6000-level course while completing undergraduate degree requirements but only for graduate credit.

Prerequisites are stated as integral parts of various programs, entrance requirements for degree programs, and sequential progression into subject matter. Students are not allowed to enroll in courses for which they have not met the prerequisites.

Elective courses in any curriculum may be taken from any field and are decided upon in consultation with the adviser.

COURSE LOAD

To improve graduation rates, the North Carolina General Assembly (Senate Bill 27, Section 89(a), 1993 Session Laws) mandated that the "Board of Governors shall require constituent institutions to set a goal of increasing to 15 the average number of credit hours per term taken by full-time undergraduates."

Fall and Spring Semesters

The minimum number of semester hours required for a baccalaureate degree at East Carolina University is 120; most degrees typically require 126 s.h. or fewer. (Any exceptions are indicated in the degree requirements listed in the undergraduate catalog.) Students who satisfactorily complete an average of 15-16 credit hours per semester should be able to obtain their degrees in four years or eight semesters. Some factors which may extend an individual student's time for completion of a degree are averaging fewer than 15-16 credit hours per semester; repeating courses, failing to meet course prerequisites, changing majors, taking unnecessary or inappropriate courses, withdrawing from school, dropping or failing courses, adding minors or double majors, and becoming academically ineligible to continue enrollment. Participation in internships, practica, cooperative education, and study abroad programs may or may not extend the number of semesters for graduation.

A student may take 18 s.h. of credit per semester without restrictions. With the approval of the adviser and the chairperson, director, or dean, a student who has earned an average of B in all work may take 19 or 20 s.h. per semester. The approval for extra-hour load must be signed on the registration form by the chairperson, director, or dean concerned. A student desiring to enroll for more than 20 s.h. must secure, in addition to the above signatures, approval from the Office of Undergraduate Advising and Academic Support.

A student with a minimum grade point average (GPA) of 2.0 and in the semester or summer term of graduation may take extra hours with the approval of the chairperson, director, or dean and the Office of Undergraduate Advising and Academic Support.

It is suggested that students who work more than 20 hours per week carry no more than 9 s.h. of course work and that students who work 15-20 hours per week carry no more than 12 s.h. of course work.

Summer Terms

A student may take 7 s.h. each summer term without restrictions. With the written approval of the Office of Undergraduate Advising and Academic Support, a student who has earned an average of B in all work may take extra hours.

COURSE SUBSTITUTIONS

Only under unavoidable and exceptional circumstances will substitution for or exemption from the prescribed curricula be permitted. If it becomes necessary to request deviation from the prescribed course of study, the student should consult the dean of the college, director of the school, or the chairperson of the department of the student's major. The dean, director, or departmental chairperson will petition by letter to the registrar for substitutions or exceptions sought and will state the reasons for the change.

Any deviations from the applicable published degree requirements must have the approval of the appropriate departmental chairperson, school director, or college dean and approval of the Office of Undergraduate Advising and Academic Support. Students transferring from other colleges who desire to substitute courses taken elsewhere for courses prescribed at the university must submit such petition.

SECTION 5: ACADEMIC REGULATIONS

COURSE REPETITION

Only under extenuating circumstances will a student be allowed to repeat a course in which he or she has earned a grade of C and then only with the written approval of his or her unit administrator and the Office of Undergraduate Advising and Academic Support. A student who repeats a course he or she has passed in order to raise the grade will receive the original grade, hours attempted, hours earned, and grade points. The student will also receive the raised grade, hours attempted, and grade points. The raised grade, or last grade, stands. A grade of F as the raised grade will result in the loss of the original hours and grade points; a student receiving an F as the raised grade must repeat the course if credit is required for graduation. A student who repeats a course he or she has failed will receive the failure (hours attempted and no grade points) and the raised grade with hours attempted, hours earned, and grade points.

INDEPENDENT STUDY COURSES

Independent study is defined as any program of study without direct instruction in a classroom setting (excluding internships). It may include directed readings, special topics courses, or independent study of an existing course. The use of independent study should be limited to two occasions: when a student wishes to pursue a topic of study which is not available in an approved course or when a course is needed to satisfy graduation requirements but the course is not being offered in a timely manner to satisfy those requirements. Independent study and correspondence credits may not exceed 15 percent of the total hours required for the degree. Credit earned through independent study cannot be used to reduce the minimum residence requirement.

All independent study courses should be set up as a part of the departmental schedule of courses for the respective term. Independent study sections of normally offered courses should be appropriately noted by the section number.

REGISTRATION AND SCHEDULE CHANGES

To be admitted officially, a student must apply, be accepted, and receive a letter of acceptance. Orientation programs are provided in the summer and immediately before each semester to assist new students in enrolling in the university. The student then reports to the office of the school or department to which he or she has been assigned. A faculty adviser will supply further information. To register, a student must complete an on-line registration schedule and have it approved by the adviser and entered into the computer via a terminal operator. Telephonic and web registration requires registration codes obtained from the adviser and are available to currently enrolled students. To complete the process and be officially registered and entered on the class roll, a student must pay fees to the cashier's office. No person will be admitted to any class unless officially registered either for audit or for credit. Students are expected to complete registration (including the payment of all required fees) on the dates prescribed in the university calendar.

Students who register during the early registration period are required to pay their fees and secure their official schedules during the stipulated period prior to registration day. Students who fail to pay fees by this date will have their schedules canceled.

Please note that distance education students may not utilize web or telephonic registration for classes offered through the Division of Continuing Studies. The schedule of distance education classes is available prior to each registration period at www.options.ecu.edu. To register for a course, a student must contact his or her adviser, assigned department, or the department offering the course.

EARLY REGISTRATION

Early registration is a time designated each semester for currently enrolled or readmitted students to meet with their advisers to review their records and plan their courses for the upcoming semester. The student will complete an on-line registration schedule and have it approved by the adviser and entered into the computer via a terminal operator, telephonic registration, or web registration. (New freshmen and transfers entering fall and spring semesters register after completion of the appropriate orientation session.)

DROPPING AND ADDING COURSES

During Schedule Change Period

During the first five days of classes (Mondays through Fridays) of the fall and spring semesters, a student may drop or add a course or courses to his or her schedule. The student should discuss schedule changes with his or her adviser prior to

making the changes via terminal operator; web, or telephonic registration. On the day following the five-day schedule change period, a student may make final additions to his or her schedule. See below for instructions on requesting schedule changes after the scheduled change period.

During the summer; the schedule change period is limited to the first two days of classes each term. On the day following the two-day schedule change period, a student may make final additions to his or her schedule in accordance with the policies outlined above for the regular semesters. Course drops during this drop/add period do not count against a student's course drop allocation. (See course Drop Allocation, below.)

After Schedule Change Period

During the first 40 percent of the regularly scheduled class meetings of a course (including the meeting for the final examination), a student may, at his or her own option, drop the course. After consultation with his or her adviser; the student secures the signature of the adviser on the schedule change form and takes it to the Office of the Registrar for processing. Distance education students should contact the Office of Student Services in the Division of Continuing Studies. For regular semester-length courses, the drop period is limited to the first thirty days of classes of the semester. For five-week block courses or regular summer term courses, the drop period is limited to the first ten days of classes for the semester or summer term. The same 40 percent drop-period rule applies to block courses of other lengths as well. It is the student's responsibility to consult official university bulletin boards, documents, and/or the web to determine the appropriate drop period for such block courses. Ordinarily, a student may drop up to four courses or a smaller prorated number in pursuit of a university degree. (See Course Drop Allocations, below.) Extenuating circumstances, however, can warrant consideration for drop by exception, as explained below.

Students may petition the Office of the Registrar for drops by exception (drops after the 40 percent drop period, drops beyond student's allotted number; and drops not counted against the allotted number). Poor performance in course work; missed deadlines; change of major; or a course grade's adverse effect on the student's grade point average, probationary standing, or other eligibility is not in itself a sufficient basis for exception. Requests for exceptions will not be considered after the last regularly scheduled class meeting prior to the final examination for the course(s) in question except where earlier requests could not have been expected. Petitions for drops by exception will typically be granted only for medical or counseling reasons related to the course(s) to be dropped and will be considered by the Office of the Registrar upon receipt of appropriate documentation. Students whose petitions for drops by exception are denied by the Office of the Registrar may appeal the decision to the Student Academic Appellate Committee.

Course Drop Allocations

In pursuit of a degree at East Carolina University, a student may drop up to four courses (outside the schedule change period). Students may use these drops between the schedule change period and the last day to drop term-length courses without a grade. Drops not used roll forward to the following term. The number of course drops is prorated on the student's credit hours (both ECU and transferred) at the time of implementation or the student's initial matriculation as follows:

First Undergraduate Degree

0-29 s.h. of credit-4 course drops	60-89 s.h. of credit-2 course drops
30-59 s.h. of credit-3 course drops	90 or more s.h. of credit-1 course drop

Second Undergraduate Degree

A student who needs no more than	31-59 s.h. of credit-2 course drops
30 s.h. of credit-1 course drop	60 or more s.h.-3 course drops

COURSE CREDITS

The university operates on the semester plan. The fall and spring semesters are each approximately fourteen weeks in length plus one week for exams at the close of each semester. The summer session is offered in two formats: two five-week terms and one eleven-week session. Credit hours to be earned in each course are noted for each course listed.

Courses offered in nontraditional formats, e.g., concentrated or abbreviated time periods, must be designed to ensure an opportunity for preparation, reflection, and analysis concerning the subject matter. At least one calendar week of reflection and analysis should be provided to students for each semester hour of undergraduate credit awarded. Credit will not be

SECTION 5: ACADEMIC REGULATIONS

allowed for courses which substantially duplicate courses already completed.

CREDIT BY EXAMINATION

Students currently or formerly enrolled in the university may obtain credit by examination for a course in which they have had no class attendance or semester standing provided the course has been determined by the offering department or school to be an appropriate class for credit without attendance. Permission to take the examination must be obtained in advance from the college dean, school director, or departmental chairperson in which the course is offered and must be approved by the Office of the Registrar. Examinations are not permitted in courses in which a student has previously been enrolled as a regular student or as an auditor; (No person is allowed to attend class or receive class instruction without being properly registered either for credit or for audit.) Distance education students may be required to come to campus to take the examination. The applicant must pay to the university cashier in advance of the examination a fee of \$10 per semester hour; this fee is not refundable. The petition, receipted by the university cashier, must be shown to the instructor conducting the examination. The instructor administers and reports the results of the examination to the Office of the Registrar within one week of the date of approval. Credits earned under this regulation are recorded with the grade achieved on the examination. Credit earned by examination may not be used to reduce the minimum residence requirement.

CREDIT BY TRANSFER

Upon Admission

A student transferring to the university from another college or university will have transcripts evaluated by the Office of Admissions during the admissions process. Credit will be awarded for all transferable courses for which a grade of C or better was earned. This evaluation will then be reviewed by the student's academic unit. It is only upon the review by the academic unit that the student will know what additional courses are necessary to meet degree requirements. All courses and grades transferred become a part of the student's transcript. Courses in which the student received a grade of D or F will be used in the calculation of degrees with distinction.

Students who have satisfactorily completed basic military training may receive credit for the exercise and sport science and/or health courses required for general education upon submitting a DD-214 or DD-295 to the Office of Admissions. Students who have completed service schools while on active duty with the military may request an evaluation through the Office of Admissions. Credit will be awarded in accordance with the American Council on Education recommendations provided that the credit recommended is at the baccalaureate level; is applicable to the general education requirements, to the student's declared major field of study, or to the elective hours prescribed within the student's designated program of study; and is comparable to courses offered at East Carolina University. Students who have prior military training (active duty, JROTC, College ROTC, reserve, or National Guard) may be eligible for 6 s.h. of credit if pursuing a commission through the AFROTC, AROTC, Marine Corps Platoon Leaders course, or Coast Guard Basic Program. Additional information may be obtained from the Office of Admissions.

While Enrolled in East Carolina University

Approval must be granted in writing by the student's dean, director, or departmental chairperson and the Office of Undergraduate Advising and Academic Support prior to enrollment for transfer of any course taken at any other institution. An official transcript must be submitted to the Office of the Registrar immediately upon completion of the course(s). Only courses in which the student earns a C or better will be accepted in transfer. Permission is limited to 18 s.h. credit per semester or 7 s.h. credit per summer term. For purposes of this policy, correspondence courses are distinguished from distance education courses.

- Approval will not be granted if the student has less than a cumulative GPA of 2.0 at East Carolina.
- Approval will not be granted if the student is ineligible to return to the university because of disciplinary action.
- Approval will not be granted if the student has any outstanding obligations to any department or office of the university.
- Approval will not be granted for courses in which credit has been previously earned.
- Approval will not be granted for correspondence courses in the student's major field.
- Approval will not be granted for correspondence courses beyond 15 percent of the total hours required for graduation. (See Independent Study, below.)

With specific authorization as indicated below, approval may be granted in the following instances:

- If the student has been previously enrolled in a comparable course, specific approval must be granted by the chairperson of the department offering the course and the Office of Undergraduate Advising and Academic Support.
- If the student has attained junior standing and wishes to attend a two-year institution, specific approval must be granted by the Office of Undergraduate Advising and Academic Support.
- If the student has previously completed 60 s.h. or more at a two-year institution, specific approval must be granted by the Office of Undergraduate Advising and Academic Support prior to permitting the transfer of additional credit from a two-year institution.
- If the student wishes to be enrolled concurrently at ECU and in correspondence courses, extension courses, or courses at another institution, both the academic unit and the Office of Undergraduate Advising and Academic Support must grant specific approval.

CREDIT TO RESTORE ACADEMIC ELIGIBILITY

Students who have a GPA of less than 2.0 or who are academically ineligible to return to East Carolina University must complete at an accredited institution 30 s.h. or 45 q.h. of transferable work and maintain a minimum grade of C on all transferable work in order for the credit to be acceptable in transfer to East Carolina University. Although credit may be allowed for courses the equivalent of which the student was previously enrolled in at East Carolina University, duplicate credit will not be granted under any circumstances. For additional regulations applying to transfer credit, see Section 2, Admission and Readmission.

EXAMINATIONS AND QUIZZES

FINAL EXAMINATIONS

Final examinations will be held at the close of each term in all courses. There will be no departure from the printed schedule of examinations. Changes for individual emergencies of a serious nature will be made only with the approval of the instructor; the student's major chairperson, director, or dean. The departmental chairperson, school director, or the college dean will, if a serious emergency is believed to exist, forward a written request to the Office of the Registrar, setting forth the nature of the emergency. A student who is absent from an examination without an excuse may be given a grade of F in the course. The instructor may issue an incomplete (I) in the case of a student absent from the final examination who has presented a satisfactory excuse or an official university excuse from the Office of the Provost or his or her designee.

INTERMEDIATE TESTS AND QUIZZES

Students who are absent from intermediate tests and quizzes with an excuse acceptable to the instructor or an official university excuse from the Office of the Provost or his or her designee will be given a makeup test or an excuse from taking the test at the discretion of the instructor.

RE-EXAMINATIONS

Re-examination for the purpose of removing a failure is permitted only in the case of graduating seniors who are in their last term before their scheduled commencement and who are passing the course at the time the final examination is given. Only one re-examination per course is permissible.

A grade change resulting from re-examination must be on file in the Office of the Registrar one week after the originally scheduled examination.

GRADING SYSTEM

GRADE POINTS AND GRADE POINT AVERAGE

A grade (quality) point system based on all hours attempted at East Carolina University is used to calculate student scholarship. The following grade symbols are currently in use for all undergraduate courses: A-excellent, B-good, C-average, D-barely passed, F-failed (Course must be repeated to secure credit.), I-incomplete, N-audited. A grade of I is given for a deficiency in quantity, not quality, of work.

Grade points are computed by multiplying the number of semester-hour credits by four for courses in which a grade of A is

SECTION 5: ACADEMIC REGULATIONS

earned, by three for a grade of B, by two for a grade of C, by one for a grade of D. No grade points are given for a grade of F, but hours attempted are recorded for each attempt of a given course. (See Grade Replacement Policy, below.) The GPA is obtained by dividing the total number of grade points earned by the total number of semester hours attempted.

CHANCELLOR'S LIST, DEAN'S LIST, AND HONOR ROLL

Each semester, outstanding scholarship is recognized in the following manner:

The Chancellor's List is composed of the names of all full-time undergraduates who make four grade (quality) points per credit hour (4.0) on all work taken with no incomplete grades.

The Dean's List is composed of the names of all full-time undergraduates who make at least three and one-half grade (quality) points per credit hour (3.5) on all work taken with no grade below C and no incomplete grades.

The Honor Roll is composed of the names of full-time undergraduates who make at least three grade (quality) points per credit hour (3.0) on all work taken with no grade below C and no incomplete grades.

GRADE APPEALS

A student wishing to contest a course grade should first attempt to resolve the matter with the instructor who determined the grade. The student may appeal the instructor's decision by submitting a written appeal to the instructor's departmental chairperson, school director, or college dean not later than the last day for undergraduate students to drop semester-length courses during the next regular semester. The instructor's chairperson, director, or dean, as appropriate, shall review the student's request with the faculty member and either concur with the grade or request that the faculty member reassess the grade. The final decision shall rest with the faculty member responsible for the course grade.

CHANGE OF GRADE

A change in grade, other than I (incomplete), for any reason, must be made within one year from the date the original grade was received.

REMOVAL OF INCOMPLETES

A grade of I must be removed during the next semester (not counting summer session) in which the student is enrolled in the university, or it automatically becomes a failure. The instructor will set a time for the removal of the incomplete, in no case later than three weeks prior to the end of the semester. Instructors must submit the proper removal of incomplete form to the Office of the Registrar at least two weeks prior to the end of the semester. If the student does not return to school, the I must be removed within one year, or it automatically becomes an F. An incomplete may not be removed by repeating the course. If a student enrolls in a course in which he or she has an incomplete, the I will automatically become an F. No student will be allowed to graduate with an incomplete on his or her record.

GRADE REPLACEMENT POLICY

A student is permitted to use the Grade Replacement Policy a maximum of three times for 1000- and 2000-level courses in which he or she has earned a grade of D or F. For example, a student may replace a grade in three different courses or may replace a single course grade a maximum of three times or a combination thereof not to exceed the limits of the policy. Approval to use the policy will not be given if a student wishes to repeat a course after he or she has successfully completed an advanced course covering the same or similar material, for example, a course in the same academic discipline for which the repeated course is a prerequisite.

To replace a grade, the student should request a grade replacement on the on-line registration form, the schedule change form, or the grade replacement form; register for the course during the registration period; and submit the form to the Office of the Registrar. For the student to implement the policy, the form should be submitted no later than the last day of classes of the semester in which the student retakes the course. Although the original grade will not be used in determining the GPA of the student, the original grade will remain on the student's permanent academic record and will be included in the calculation for consideration for honors. The replacement grade, or last grade, stands. Students receiving an F on the replacement grade must repeat the course if credit is required for graduation. In the event that the original grade was a D, no additional credit hours will be awarded.

ACADEMIC ELIGIBILITY STANDARDS

Retention requirements are based on hours attempted at East Carolina University and/or transfer hours from another institution. The minimum academic requirements to avoid probation and/or suspension are as follows:

1-29 attempted hours and/or transfer hours, 1.6 GPA	75 or more attempted and/or transfer hours, 2.0 GPA
30-59 attempted hours and/or transfer hours, 1.8 GPA	Second undergraduate degree, 2.0 GPA
60-74 attempted hours and/or transfer hours, 1.9 GPA	

A student who possesses a baccalaureate degree and who is working toward a second baccalaureate degree must maintain a minimum cumulative GPA of 2.0 on all work attempted on the second baccalaureate degree. Certain academic programs require a GPA greater than 2.0 for admission. (See specific major requirements.)

ACADEMIC STANDING CODES

Grade point calculations are made and the report is posted to the web. Grades are mailed to the student at the end of each semester and each summer term upon written request (for each semester/term) from the student. The report indicates the following academic standing codes as appropriate:

1. Removed from Academic Probation
2. Academic Warning: This code indicates that the student is not performing at an acceptable level for progression toward graduation. (Warning is assigned to students whose cumulative grade point average is less than 2.0 [required for graduation] but meets the minimum GPA required for his or her retention period.)
3. Academic Probation: This code indicates that the student has not met the required academic standards. If the deficiency is not removed by the end of the next semester of enrollment, the student will be suspended unless, during the semester of probation, the student earns a 2.5 or higher GPA on 12 or more attempted hours or the student's cumulative GPA results in a deficit of 5 or fewer quality points from the total required by the retention period and the number of attempted hours. Letter designations (A, B, C, D) following the probation number 3 indicate a probation period after a suspension.
4.
 - A. Academic Suspension: This code indicates the first time that the student's scholastic performance has not met the requirements necessary to continue enrollment. The student is suspended for one semester followed by readmission on probation.
 - B. Academic Suspension: This code indicates the status of a student who has become academically ineligible for a second time. A student becoming ineligible a second time will be suspended for one academic year (two consecutive semesters).
 - C. Academic Suspension: This code indicates the status of a student who has become academically ineligible for a third time. If a third suspension occurs, the student will be readmitted only by successful appeal to the Student Academic Appellate Committee.
 - D. Nontraditional Student Suspension: This code indicates the status of a student who has become academically ineligible because of failure to satisfy retention stipulations within the limits established by the Performance-Based Admission Policy. For readmission options available to students in this status, see Special Readmission (Forgiveness) Policy under Readmission, below.

Students on probation or suspended from the university are encouraged to attend summer school at East Carolina University in order to progress toward good academic standing.

WARNING AND PROBATION

A student will be placed on academic warning if his or her cumulative GPA is less than 2.00 but meets the minimum GPA required for his or her retention period.

A student will be placed on academic probation if he or she does not meet the current academic standards, above.

A student will remain on academic warning or probation until the required GPA is obtained or the student is suspended.

SECTION 5: ACADEMIC REGULATIONS

INTERVENTION STRATEGIES

A student who has been placed on academic warning or probation shall

- receive a written notification of academic warning or probation and the appropriate indication will be made on the student's university record;
- be required to meet with the adviser and attend an academic review session conducted by the Office of Undergraduate Advising and Academic Support or his or her academic unit prior to registration for the next academic term (fall or spring); and
- complete with the adviser, unit representative, or other university representative an academic review form, identifying possible actions or strategies which the student will use during the warning/probationary semester to improve academic standing. (This form must be signed by the student and the adviser or unit representative and a copy given to the student and a copy maintained in the advising folder or unit office.)

SUSPENSION

The student who fails to meet the required GPA while on probation will be suspended from the university unless the student

- earns at least a 2.5 GPA on a minimum of 12 attempted hours in the current probationary semester or two summer terms,
- earns quality points on attempted hours during the current probationary semester or two summer terms such that his or her cumulative quality points result in a deficit of no more than 5 quality points from the total quality points required for the retention period and the hours attempted, or
- is readmitted by the Student Academic Appellate Committee following submission of an appeal to that committee.

Evidence of participation in the intervention program prescribed by the academic unit to which the student is assigned or by the Office of Undergraduate Advising and Academic Support is considered.

Appeals Of Suspension

Students who have completed the required intervention strategies are eligible to appeal for exception to suspension.

A student who wishes to appeal his or her suspension must appeal in writing to the Student Academic Appellate Committee. The appeal form or letter must be received in the Office of the Registrar by 5:00 p.m. according to the following schedule:

- Appeals for fall semester: Examination day of the second summer term
- Appeals for spring semester: Last day for examinations for fall semester

The appeal should contain the following:

- rationale for the appeal;
- documentation of personal, family, or medical problems; and, where available,
- a copy of the intervention plan signed by the adviser or departmental representative.

Continuing students who have served a portion of their suspension and who wish exemption from the remainder may submit a letter of appeal. This letter must be received according to the deadlines stated in the previous paragraph. The Student Academic Appellate Committee normally will not approve appeals from ineligible students unless they are based on personal or family problems of an extreme nature or on evidence of substantial academic improvement.

In considering appeals for readmission for the fall semester, the committee normally expects students to attend summer school to demonstrate academic improvement.

READMISSION

Following Suspension

Following an initial suspension of one semester and readmission to the university on academic probation, the student who fails to meet the required GPA while on probation will be suspended from the university for two semesters unless he or she earns at least a 2.5 GPA on a minimum of 12 attempted hours in the current probationary semester or two summer terms, has a total quality point deficit of 5 or fewer for the retention period and hours attempted, or is readmitted by the Student Academic Appellate Committee.

Following the second suspension and readmission to the university on academic probation, the student who fails to meet the required GPA will be suspended from the university for an indefinite period of time, not less than three academic years, unless he or she earns at least a cumulative GPA of 2.5 on a minimum of 12 attempted hours in the current probationary semester or two summer terms, has a total quality point deficit of 5 or fewer for the retention period and hours attempted, or is readmitted by the Student Academic Appellate Committee.

A student may remove academic deficiencies only by attending East Carolina University. Quality points do not transfer.

Special Readmission (Forgiveness) Policy

East Carolina University students who have been out of school for a minimum of three consecutive academic years (six semesters, summer sessions excluded) may request special readmission. Such requests must be submitted in writing according to application deadline dates as specified above.

Students who have been enrolled at another college or university since their last enrollment at East Carolina University must submit to the Office of Admissions official transcripts indicating that a minimum cumulative C average (2.0 on a 4.0 scale) has been earned in all transferable courses attempted. No transfer credit will be awarded for courses taken at any institution of higher education during the initial three consecutive academic years. For courses taken in subsequent years, only those in which the student received a grade of C or better will be accepted for transfer credit at ECU. The sole exception is that students may attend ECU during summer sessions for credit.

Subsequent GPAs of students readmitted under this policy will be computed without inclusion of previous course work in which a grade below C was received; credit toward graduation will not be allowed for such course work. However, this work will be included in calculations for consideration for honors.

A student may be readmitted under the Forgiveness Policy only one time. Those readmitted under this policy are on academic probation for the first 19 s.h. of attempted course work. At the end of the term in which the nineteenth semester hour is attempted, a minimum cumulative C average must have been earned at East Carolina University since readmission. Failure to meet this stipulation will result in the student's being ineligible, except for summer school, until such time as the C average is obtained.

OFFICIAL WITHDRAWAL

Students desiring to withdraw officially from the university should apply for withdrawal to the Office of the Registrar. After the student has obtained the signatures of the various officials designated on the form, the student must submit the form to the Office of the Registrar for final approval. Distance education students should notify the Office of Student Services in the Division of Continuing Studies. Students withdrawing for medical/counseling reasons should complete the procedure within thirty days after the last class attendance. All other students withdrawing should complete this procedure immediately after the last class attendance. After classes have ended, no withdrawal, except in the case of severe medical emergency, can be filed.

During the first thirty class days of a semester, a student may withdraw from school without receiving grades for courses in which he or she is enrolled. After the first thirty class days, a student withdrawing from school shall receive a grade of F for all classes which he or she is failing at the time unless a determination is made in the Office of Undergraduate Advising and Academic Support or by the director of continuing studies, as appropriate, that the failures were caused by circumstances beyond the student's control.

STUDENT EDUCATIONAL RECORDS

POLICY ON POSTING GRADES

As soon as they are determined at the end of each semester or summer term, grades are posted electronically. Students may secure their grades via the automated voice response system (252-328-2149) using their pin number; and via the OneStop (www.onestop.ecu.edu) using their exchange userid and password. In compliance with the Family Educational Rights and Privacy Act, faculty are not allowed to post grades by Social Security Number or any other personally identifiable characteristic. Upon receipt of a written request each semester or term to the Office of the Registrar, a report of grades is sent to the student at his or her permanent home address. Questions about final examination grades should be directed to the instructor who determined the grade.

SECTION 5: ACADEMIC REGULATIONS

TRANSCRIPTS OF RECORDS

Requests for transcripts of a student's record should be addressed to the Office of the Registrar. For each copy, there is a fee of \$5. A transcript will not be issued for a student who is financially indebted to the university.

PRIVACY OF STUDENT EDUCATIONAL RECORDS POLICY

The university policy for the administration of student educational records is in accordance with the provisions of the Family Educational Rights and Privacy Act, also known as the Buckley Amendment or FERPA. This policy provides that the student has a right of access to student educational records maintained by the university or any department or unit within the university. The policy also protects the confidentiality of personally identifiable information in student records. A copy of the university policy dealing with the privacy of student educational records is maintained in each professional school and academic department within the university. Each member of the faculty should be thoroughly familiar with this policy and comply with its provisions.

ACCESS TO STUDENT EDUCATIONAL RECORDS

In compliance with the Family Educational Rights and Privacy Act of 1974, it is the policy of the university that students have the following rights in regard to official educational records maintained by the university.

1. Each student has the right to inspect and review any and all official educational records, files, and data maintained by the university and directly related to the student and not related to other students.
2. The university will comply with the request from a student to review his or her records within a reasonable time, but in any event not more than forty-five days after the request is made. Any inquiry pertaining to student records should be directed to the Office of the Registrar.
3. A student who believes that his or her educational records contain inaccuracies or misleading information or that his or her right of privacy is violated on the basis of information contained in such records has the right to a hearing to challenge such information and to have it removed from his or her record or to include in the record his or her own statement of explanation. Any complaint pertaining to student records should be made directly to the Office of the University Attorney, telephone 252-328-6940.
4. The university will not release any information from student records to anyone (except those agencies noted in item 5., below) without the prior written consent of the student. The consent must specify the records or information to be released, the reasons for the release, and the identity of the recipient of the records.
5. Legitimate educational interest is a demonstrated "need to know" by those officials of an institution who act in the student's educational interest. They include: faculty, administration, clerical and professional employees, and other persons who need student record information for the effective functioning of their office or position. The following criteria shall be taken into account in determining the legitimacy of a University official's access to student's records:
 - a. The official must seek the information within the context of the responsibilities that he or she has been assigned.
 - b. The information sought must be used within the context of official University business and not for purposes extraneous to the official's area of responsibility to the University.
6. Information from the student's records may be released without the written consent of the student in the following situations:
 - a. in compliance with a court order or subpoena;
 - b. requests from school officials who have a legitimate educational interest in the information (a school official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position including law enforcement unit personnel and health staff);
 - c. requests from other departments or educational agencies who have legitimate educational interest in the information, including persons or companies with whom the University has contracted (such as an attorney, auditor, collection agent, or The National Student Clearinghouse);
 - d. requests from officials of other colleges or universities at which the student intends to enroll provided the student is furnished with a copy, if he or she so desires, so that he or she may have an opportunity to challenge the contents of the record;
 - e. requests from authorized representatives of the US Comptroller General or the administrative head of a federal educational agency in connection with an order or evaluation of federally supported educational programs;
 - f. requests in connection with a student's application for receipt of financial aid;

- g. requests from parents of a dependent student as defined in Section 152 of the Internal Revenue Code of 1954; or
- h. requests from appropriate persons in connection with an emergency if the knowledge of such information is necessary to protect the health or safety of the student or other persons.

A student has the right to file a complaint at any time with the US Department of Education. However, it is expected that the student normally would exhaust the available administrative remedies for relief according to the university grievance procedures before filing such a complaint.

CHANGE OF NAME AND ADDRESS

It is the obligation of every student to notify the Office of the Registrar of any change in name or address in writing. Students may also change their address via the Tools Section of OneStop. Failure to do so can cause serious delay in communication with the student.

RELEASE OF DIRECTORY INFORMATION

The university routinely makes available in an annually updated printed directory and in an on-line directory certain information about its students. This policy is for the convenience of students, parents, other members of the university community, and the general public. In compliance with the Family Educational Rights and Privacy Act of 1974, the university will continue this policy of releasing directory information, including the following: the student's name, address (including e-mail address), telephone listing, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most recent previous educational agency or institute attended by the student. If any student does not wish this directory information released without prior consent, the student must notify the Office of the Registrar in writing within seven days after registration day of the current term of enrollment.

SCHOLAR PROGRAMS

EC SCHOLARS

EC Scholars is a merit-based program designed to enhance the university experiences of young men and women who have demonstrated the potential to become scholars and community leaders. Each March, the Office of Admissions identifies eligible, incoming freshmen and the top fifty are invited, along with their parents, to visit campus for Scholars Weekend. Over the course of this weekend, teams composed of ECU faculty and administrators, donors, and high school guidance counselors interview the applicants. From the group, twenty scholars are selected, each receiving a full scholarship award of up to \$10,000 per year for four years. Included among the current scholarships are four Early Assurance Awards (to the Brody School of Medicine) and up to four Alternate Early Assurance Awards.

For more information on EC Scholars, contact the program director; D-107 Brewster Building, or telephone 252-328-6373.

THE HONORS PROGRAM

The Honors Program is a university-wide endeavor that exists to ensure superior undergraduate students an exceptional educational experience, beginning with their first day in college. Eligible students accepted by the university are often contacted while they are still in high school. Currently enrolled students with a GPA of 3.3 are also invited to participate in the program, which each semester offers honors sections of many regular introductory courses (in such disciplines as English, history, anthropology, and psychology) and special, often interdisciplinary, honors seminars designed to meet general education requirements. Many of these seminars are team-taught. In the HNRS course listing, general categories of the seminars are included; the precise topics and semesters in which the seminars are offered will be determined by honors student requests and faculty proposals. Students may take seminars with the same number twice for credit, if the topics are different. All honors seminars except the laboratory carry writing intensive credit.

To complete general education honors, students must complete 24 s.h. with a minimum grade of B and earn a minimum cumulative GPA of 3.3. After completion of general education honors, students with a 3.5 GPA or better may earn university honors in their major by completing a 6 s.h. senior project such as a thesis, field experience, community service, portfolio, or co-teaching semester: beginning with fall 2004 semester; one course in service-learning will also be required of all Honors graduates. The Honors Program also comprises the Office of National/International Fellowships and Scholarships, which familiarizes students with the competitive national and international fellowships and scholarships available to selected students intent on pursuing graduate work. These fellowships and scholarships, for the most part, are for terms long enough to ensure completion of the master's degree, but in some cases they allow for work on the doctoral degree.

For further information on qualifications and specific offerings, students should contact the director; D-107 Brewster Building; or telephone 252-328-6373. The Honors Program is a member of the National Collegiate Honors Council and its regional and state affiliates and participates in national honors exchange programs.

UNDERGRADUATE RESEARCH

ECU, in keeping with its commitment to excellence in undergraduate education, has reaffirmed its priority of undergraduate research. Towards this end, the Office of Undergraduate Research was created. The director and the Committee on Undergraduate Research establish guidelines and award grants to eligible undergraduates who are engaged in research projects under the supervision of faculty. The Office is also charged with coordinating the annual undergraduate research and creative activities symposium and offering student research workshops.

For further information, students should contact the director; D-107 Brewster Building, or telephone 252-328-6373. ECU is a member of the UNC-Consortium of Undergraduate Research and the Council of Undergraduate Research.

NORTH CAROLINA NURSE SCHOLARS

The North Carolina Nurse Scholars Program was established in 1989 by the North Carolina General Assembly. The program provides college scholarship loans for outstanding high school graduates and other persons interested in pursuing higher education to become registered nurses. Recipients are chosen on the basis of academic performance, evidence of leadership and extracurricular participation, and the promise of service as a registered nurse in North Carolina. Awards can be made in full-time pre-nursing freshman; full-time pre-nursing sophomores; junior nursing students, who are nontraditional baccalaureate nursing students; community college transfer enrolling as juniors; other juniors in a baccalaureate nursing

SECTION 6: SCHOLAR, LEADERSHIP, AND INTERNATIONAL PROGRAMS

program; and to RNs enrolled full-time in a baccalaureate degree in nursing completion program. A scholarship recipient is required to practice in North Carolina as a full-time registered nurse for a full year for each year of scholarship assistance received.

Interested students may contact the College Foundation of North Carolina web site at www.cfnc.org, or contact the School of Nursing at 252-328-6075 or their high school guidance counselor. Applications are due February 15 of each year.

NORTH CAROLINA TEACHING FELLOWS

The North Carolina Teaching Fellows Program, the most ambitious teacher recruitment program in the nation and one of the most prestigious scholarship awards in North Carolina provides a \$26,000 scholarship to 400 outstanding high school seniors interested in teaching. Teaching Fellows participate in academic seminars, leadership development opportunities, professional internships, and social and cultural experiences. Throughout the four years, ECU Teaching Fellows also work as tutors, travel, participate in the Honors Program, perform service work, plan recruitment initiatives, and serve on various committees.

Teaching Fellows are licensed in the following areas: birth-kindergarten, elementary education (K-6), middle grades education (6-9), secondary education (9-12), and K-12 (art, music, exercise and sports science). Following graduation from college, the student agrees to teach for four years in one of North Carolina's public schools, charter schools, or government schools.

High school students interested in becoming North Carolina Teaching Fellows should consult their high school guidance counselor. Applications are to be submitted in early fall of the senior year of high school. For further information on application deadlines or more program information, please see the following web sites, <http://www.coe.ecu.edu/teachfel.org>, or telephone the ECU Teaching Fellows Office at 252-328-4126.

SUCCEED SOONER PROGRAMS

DEGREE IN THREE PROGRAM

The Degree In Three Program provides high caliber, highly motivated students the opportunity to finish their undergraduate degree in three years. The program is particularly appropriate for students with AP (Advanced Placement), IB (International Baccalaureate), and/or dual-enrollment credit. In general, program students have decided on a major and plan to attend graduate or professional school immediately following graduation, or desire to get an early start on their careers. This university-student partnership guarantees automatic acceptance into the ECU Honors Program. The program's admission standards are higher than those of four-year students. (See section 2 for admission requirements.)

Program students are assigned special advisers who ensure that they get the classes they need in order to maintain the specified three-year program completion schedule. Students begin the program during the five-week second term of the summer school. During this term, they meet with their academic advisers to customize their program of study, earn 6-7 s.h. credit toward their baccalaureate degree, learn more about graduate and other advanced program admission requirements, and become familiar with the university and other students in the program. Special housing is available during this beginning summer term.

Most Degree In Three students will enroll in classes year-round. The typical three-year student will take 15-18 s.h. each fall and spring semester and 6-12 s.h. for three summers (two, five-week terms each summer). AP, IB, and dual enrollment credits received at point of admission reduce required summer attendance. Students should understand that finishing their degree in three years may involve less variety in choosing general education and elective course work.

For more information about the Degree In Three Program, access the web site at <http://www.ecu.edu/threeyeardegree>.

MD/7 PROGRAM

East Carolina University, in conjunction with The Brody School of Medicine (BSOM at ECU), is pleased to offer a pre-med initiative that allows highly qualified students to complete both their undergraduate and medical degrees in only seven years (the MD/7 program). Under this plan, qualified ECU students may apply to BSOM at the end of their sophomore year. All four previous semesters must be completed at ECU, and should include all prerequisite courses for medical school (see web site for list). Accepted MD/7 students are assured a place in the entering class of the Brody School of Medicine the following year if they successfully complete their junior year of undergraduate studies at ECU and fulfill all other MD/7

EARLY ENTRY INTO ECU GRADUATE PROGRAMS

requirements. Upon successful completion of the first year of medical studies, MD/7 students are awarded their appropriate bachelor's degrees.

Admission to the MD/7 program will be highly competitive. Eligible students are North Carolina residents who have entered the University with a SAT score of 1200 or greater (or an ACT score of at least 27) and completed their freshman and sophomore years at ECU with a prerequisite science and overall GPA of at least 3.5, along with a minimum GPA of 3.5 in the required prerequisite courses. Students with SAT scores of 1300 or higher may not have to take the Medical College Admission Test (MCAT) to apply for the MD/7 program. This decision is at the discretion of the medical school's admissions office. MD/7 applicants with SAT scores of less than 1300 must take the MCAT and achieve a minimum score of 10 in all three numerically graded sections to be eligible for MD/7 application. Four slots in each BSOM entering class will be reserved for MD/7 students, who will be selected from the eligible pool after review of their applications and interviews by the BSOM Admissions Committee.

The BSOM Admissions Committee considers a number of variables in addition to indicators of intellectual ability in evaluation of applicants. Exposure to different fields of medicine, knowledge of medically-related issues and problems, altruism evidenced by community service, eventual career plans, and compatibility with the mission of BSOM are all important aspects that frequently determine the outcome of an individual's application. Also required are letters of recommendation from ECU faculty that can provide insight into a student's academic performance and personal qualifications for a career in medicine. Students should meet regularly with the ECU pre-medical advisers to discuss the process of application.

To fulfill the requirements for their undergraduate degrees, accepted MD/7 students must have accumulated a minimum of 96 credits by the end of the junior year, including the majority of those required for the major and the minor, as well as those needed to fulfill all distribution requirements for graduation. A portion of this 96-credit requirement may be satisfied by AP credits, but the 96-credit requirement must include the following minimum number of graded credits: Biology, 8; Chemistry, 8*; Math, 3; and Physics, 4. Please note that the minimum required graded credits are not sufficient to meet the prerequisites for medical school. Students must also maintain a cumulative GPA of at least 3.5 through the end of the junior year. (See the Succeed Sooner web site for more information.)

*Chemistry 2750, 2753 and Chemistry 2760, 2763 must be completed at ECU unless the student receives a special waiver for this requirement from the BSOM Admissions Committee.

JD/6 PROGRAM

East Carolina University has teamed with several outstanding law schools to offer the JD/6 Program. The JD/6 allows participants to finish their undergraduate degree in three years and be considered for early admission into one of ECU's partner law schools. Current partners include: Chicago-Kent College of Law at the Illinois Institute of Technology; the School of Law at the University of Missouri-Columbia; the Norman Adrian Wiggins School of Law at Campbell University; and the Tulane University Law School. (See web site for updated information.) Students are assigned a special pre-law adviser who assists them in their preparation for law school; students also receive priority registration.

Students who earn a 3.5 GPA may sit for the Law School Admissions Test (LSAT) in June after the second year in the three-year program. If their LSAT score meets the admission requirements of one of our law school partners (generally a 160), students will be considered for admission to law school and notified of their standing by August of their senior year. For more information, visit the web site at www.ecu.edu/succeedsooner or call (252) 328-6335.

EARLY ENTRY INTO ECU GRADUATE PROGRAMS

The Integrated Bachelor's/Master's Program and the Accelerated Master's Program provide two options for students to be admitted to graduate programs earlier in their undergraduate studies than usual. (Updated information about participating degree programs is available on the Succeed Sooner web site at www.ecu.edu/succeedsooner.)

In the Integrated Bachelor's/Master's Program, qualified undergraduate students may apply for graduate admission and enroll in up to 12 hours of graduate credit to count toward completion of both the bachelor's degree and the master's degree. Students choosing this program complete their undergraduate degree in the three-year program or in the traditional four-year program. For example, qualified students can integrate the bachelor's degree in exercise and sports science and the master's degree in physical therapy. Other combinations are available; students should discuss their goals with their advisers, the Graduate School, and/or the Degree in Three office. Students receive the undergraduate degree prior to completion of the master's degree.

SECTION 6: SCHOLAR, LEADERSHIP, AND INTERNATIONAL PROGRAMS

In some structured integrated programs, students receive both degrees upon completion of the master's degree. One such integrated program is the BSA/MSA. Students designate the integrated degree upon admission and complete the combined bachelor's and master's program in five years, receiving both degrees upon graduation. Students cannot receive the BSA only; students opting out of the BSA/MSA program change to a BSBA degree. A combination BA is psychology and MSOT in Occupational Therapy will be offered beginning in Fall 2004. Students in this program apply after 75 hours and must maintain the required GPA for continuation. After five years, students receive both degrees. Students can identify other combined programs by visiting the Succeed Sooner web site at www.ecu.edu/succeedsooner.

The Accelerated Master's Degree Program results in only one degree, the graduate degree. This program requires students to commit very early in their study to the combined degree program. With satisfactory progress, the students complete their general education and program core requirements and move directly into the master's program. The first such program at East Carolina University is one of the options for earning the master's degree in Occupational Therapy. In this program, for example, students enter the university through the Health Services and Occupational Therapy Option. With satisfactory progress, they move into their graduate study. Upon completion of this five-year program, they earn only one degree, the MSOT in Occupational Therapy. This program option reduces the total number of hours in the students' program. In the OT example, the accelerated program option reduces the program from approximately 196 semester hours (undergraduate degree plus graduate degree) to 162 semester hours (combined degree). The School of Nursing offers an accelerated program for transferring students with the RN. The RN/MSN results in one ECU degree: Master of Science in Nursing (MSN). (See www.nursing.ecu.edu.)

INTERNATIONAL PROGRAMS

INTERNATIONAL AFFAIRS

East Carolina University views the creation of international awareness as an essential obligation of the contemporary university. It provides academic and co-curricular programming which allows students to attain the knowledge and skills to comprehend the world within a broad, flexible, and sensitive conceptual framework that takes into account the reality of interdependence among countries and of international structures. The university aims to produce liberally educated citizens of this and other countries capable of coping with the complexity and diversity of the world in which we live. The International House is located at 309 Ninth Street; telephone 252-328-1936.

International Admissions and Services

The Office of International Affairs coordinates ECU's international student recruitment and admissions program, working with its own staff and others within the university to expand the international representation within its degree-seeking student body. International Affairs coordinates the international studies minor, which is a university-wide opportunity for students to add this dimension to their degree program. Additionally, the office offers all students and faculty a variety of opportunities to participate in international travel and learning experiences through summer-, semester-, or year-abroad programs. Fulbright and other scholarship or fellowship opportunities, teaching and research, or work experiences are a few of the activities addressed for students and faculty.

Students from countries other than the United States may apply to the chairperson of the Department of Foreign Languages and Literatures for a departmental certificate of American studies. (See Department of Foreign Languages and Literatures for requirements.)

Study Abroad and Exchange Programs

East Carolina University is a member of several consortia which are designed to facilitate and promote the exchange of students within the US and abroad. Students can attend more than 150 foreign institutions or almost 120 institutions throughout the US by utilizing these exchanges. Of special interest is the fact that these exchanges permit students to study elsewhere while paying East Carolina University tuition and fees; thus, study abroad costs are often no more than the costs of studying at home. Participation in these programs is an excellent way of experiencing other areas of the United States and the world. Information and applications are available and processed through the Office of International Affairs.

In addition to the exchange programs, East Carolina University has numerous summer and longer-term study-abroad programs offered at its own tuition and fee rates. Programs in other countries are being added regularly. Study abroad programs from other North Carolina institutions, and institutions throughout the US are also available to East Carolina

University students. The Office of International Affairs assists students in identifying and applying to programs of interest, utilizing its large resource library to find the best opportunities, and coordinates East Carolina study abroad activities.

The Thomas W. and Izabel B. Rivers Endowment Fund

The endowment fund established by Thomas W. and Izabel B. Rivers promotes the internationalization of ECU through support for students to study abroad, to attract international degree-seeking students to the university, and to assist faculty to engage in scholarly activities overseas. Awards are made throughout the year, as decided by a faculty panel. Information and applications are available through the Office of International Affairs.

Additionally, International Affairs coordinates the Rivers Distinguished Chair of International Affairs program. It ensures that throughout each academic year outstanding scholars are in residence, assisting schools or departments as well as faculty in the internationalization process through teaching, research, and conferences.

LEADERSHIP PROGRAMS

BB&T CENTER FOR LEADERSHIP DEVELOPMENT

The mission of the center for leadership development is to explore and to enhance decision making among leaders, professionals, and entrepreneurs facing critical change in their environment. While the specific and long-term focus of the center will remain under study, the initial, constant, and common objective in all programs is to provide insights from thought leaders operating at the leading edge of strategic issues in society.

A personalized instructional framework will be used in a variety of settings, including the seminar, conference, and academic course format. The center's role as an integral part of the university's commitment to excellence and service to the region has created an immediate opportunity to serve professionals seeking additional knowledge as well as students studying and exploring the way leaders and professionals function.

Requests for further information should be addressed to the director, BB&T Center for Leadership Development, 1100 Bate Building, East Carolina University, Greenville, NC 27858-4353; telephone 252-328-6190.

STUDENT LEADERSHIP DEVELOPMENT PROGRAMS

Realizing that a fulfilling campus experience can assist in the recruitment, retention, and graduation of academically proficient and talented students, the Office of Student Leadership Development Programs supports the academic mission of the university by providing quality leadership education experiences and providing assistance to benefit extra-curricular student organizations.

Student leadership development programs offer a wealth of programs, including workshops, seminars, and speakers on various topics related to leadership. In addition, the office is home to a leadership library and numerous resources for student leaders and student organizations. For more information, telephone 252-328-4796 or visit www.clubhouse.ecu.edu.

DEGREE IN THREE PROGRAM AND MD/7 PARTICIPATING PROGRAMS

ECU's Degree In Three Program provides high caliber, highly motivated students the opportunity to finish an undergraduate degree in three years. The program is particularly appropriate for students with AP (Advanced Placement), IB (International Baccalaureate), and/or dual-enrollment credit. (See appropriate sections of catalog for information on admission requirements and advisement as well as a description in section 6.) Degree programs participating in the Degree In Three Program are noted by an asterisk (*) in the Undergraduate and Graduate Degree Programs listing below. Consult the web site at www.ecu.edu/threeyeardegree, for updates.

The MD/7 Program allows superior students the opportunity to complete the undergraduate degree and MD in seven years. Seven degree programs are currently participating in this highly competitive program: Biology, Chemistry, Environmental Health, Health Education and Promotion Pre-Health option, Neuroscience, Physics, and Applied Physics.

PRE-PROFESSIONAL AND TWO-YEAR CURRICULA

Students desiring to enter the fields of dentistry, engineering, law, medicine, ministry, optometry, pharmacy, and veterinary medicine may take their pre-professional training at East Carolina University. The courses of study are based on the requirements of various professional schools and recommendations of national organizations qualified to represent their respective fields. Since there are minor differences in admission requirements, a student should know the requirements of the school he or she expects to attend. For further information, students should consult the appropriate advisers. Students in pre-medical, pre-dental, pre-optometry, and pre-veterinary curricula should register their interest with the pre-health professions adviser in the Office of Undergraduate Advising and Academic Support, B-103 Brewster.

PRE-ENGINEERING CURRICULUM

Beginning Fall 2004, East Carolina University will offer a Bachelor of Science in Engineering with a concentration in systems engineering. Students interested in other engineering programs may complete a pre-engineering sequence of courses at ECU and then transfer to another school to complete their degree. Additional information is available through the Department of Industrial Technology. The following is a typical sequence of courses for pre-engineering students during their first two years:

First Year

Fall: ENGL 1100; MATH 2171; CHEM 1150, 1151; DESN 2034, 2035; 3 s.h. of electives chosen from history, political science, literature, anthropology, psychology, sociology, philosophy, and religion 17 s.h.
Spring: ENGL 1200; MATH 2172; CHEM 1160, 1161; PHYS 1251, 2350 16 s.h.

Second Year

Fall: MATH 2173; PHYS 1261, 2360; CSCI 2510 or 2600; 6 s.h. of electives chosen from history, political science, literature, anthropology, psychology, sociology, philosophy, and religion 17-18 sh.
Spring: ECON 2113; MATH 4331; 6-9 s.h. of electives chosen from history, political science, literature, anthropology, psychology, sociology, philosophy, and religion 15 s.h.

PRE-HEALTH PROFESSIONS CURRICULUM

Philosophies of education and specific pre-medical and pre-dental course requirements vary among medical and dental schools, but all emphasize the sciences (mathematics, chemistry, biology, and physics), communication skills, social sciences, and the humanities. An understanding of concepts and a vocabulary in the sciences are mandatory, for medicine is based on principles stemming from these disciplines. Among American medical and dental schools, the most common requisites are physics, biology, general and organic chemistry, and English.

Most medical and dental schools recommend that students plan to obtain a four-year degree before initiating medical training. Students majoring in the sciences should try to obtain as broad a background in the social sciences and humanities as possible. Conversely, students majoring in a nonscience area should take more than the minimum science courses. Students wishing to attend medical or dental school should ascertain the requirements and recommendations of schools of their interest and select the specific courses required. The following specific courses are suggested as a part of, or in addition to, the requirements for the major: MATH 1065; BIOL 1100, 1101, 1200, 1201; CHEM 1150, 1151, 1160, 1161, 2750, 2753, 2760, 2763; PHYS 1250, 1260 or 2350, 2360; 1251, 1261.

In addition to the standard four-year, pre-professional bachelor's track for application to medical school, students may also choose to participate in the MD/7 initiative. This is a highly competitive accelerated program that allows students to compete for a chance to earn both the bachelor's and the MD degree in seven years (3+4). If they are one of the limited number chosen for early admission to medical school, they will be awarded their undergraduate degree after the successful completion of their first year of medical studies.

Participating programs in the MD/7 initiative include Biology, Chemistry, Health Education and Promotion (Pre-Health Professions Options), Environmental Health, Neuroscience, Physics, and Applied Physics. A student would complete the pre-health curriculum as part of, or in addition to, the requirements from one of the above named programs of study and the general education requirements.

Participation in the MD/7 initiative will also involve first selection for shadowing opportunities and volunteer options in the medical arena, as well as a strong academic base at the undergraduate level. Whether a student chooses to compete for early admission or to pursue the typical four-year undergraduate track, the MD/7 initiative is dedicated to providing an excellent undergraduate course of study for highly talented students who wish to pursue a career in the medical profession. Please refer to section 6 of the catalog for a description of the MD/7 initiative including selection criteria.

PRE-LAW CURRICULUM

Students who intend to go to law school are encouraged to pursue an undergraduate education that prepares them to understand the world in which they live, to express themselves well, and to reason accurately and logically. Pre-law students are encouraged to choose an undergraduate degree program with courses they will enjoy and in which they will excel. Law school admission is highly competitive, and law schools favor students with high grade point averages and high Law School Admission Test (LSAT) scores. Pre-law students who are eligible to participate in the Honors Program may do so. Honors Program eligibility for entering freshman is a 3.5 GPA and 1200 SAT; for current students, eligibility is a 3.3 GPA.

For highly motivated students who wish to accelerate their admission to law school by completing their undergraduate degree in three years, the university offers the JD/6 Program. Partner law schools (list available on the pre-law web site) have agreed to consider JD/6 students for early admission to law school.

For further information and/or assistance, contact the pre-law adviser at 252-328-6335 or visit the web site at www.ecu.edu/prelaw.

PRE-OPTOMETRY CURRICULUM

Three years of college to include the following courses: ENGL 1100, 1200; BIOL 1100, 1101, 1200, 1201, 3220, 3221; CHEM 1150, 1151, 1160, 1161, 2750, 2753, 2760, 2763; MATH 1065, 2121, 2122, 2228; PHYS 1250, 1251, 1260, 1261; and two psychology courses.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

SECTION 7: ACADEMIC PROGRAMS

PRE-PHARMACY CURRICULUM

Students interested in transferring to schools of pharmacy should ascertain the specific requirements and recommendations of those schools. Assistance can be obtained by consulting the pre-pharmacy adviser in the Department of Chemistry.

PRE-THEOLOGY CURRICULUM

Students interested in seminary or divinity school may consult with Dr. Calvin Mercer; director of religious studies, A-440 Brewster; telephone 252-328-4310; e-mail mercerc@mail.ecu.edu; or visit the web site www.ecu.edu/religious. A religious studies minor is currently available. Students may pursue a bachelor's degree in multidisciplinary studies with a concentration in religious studies.

PRE-VETERINARY CURRICULUM

Three years of college to include the following courses: BIOL 1100, 1101, 1200, 1201, 2300, 3220, 3221, 3310, 3311; CHEM 1150, 1151, 1160, 1161, 2750, 2753, 2760, 2763; ENGL 1100, 1200; MATH 1065, 2121, 2122, 2228; PHYS 1250, 1251, 1260, 1261; and 6 s.h. of business courses.

INTERDISCIPLINARY MINORS

GERONTOLOGY MINOR

Linner Griffin, Center on Aging, Associate Director for Educational Programs, 112 Ragsdale Building

The gerontology minor augments major fields of study with an overview of issues confronting elderly people and their service providers. In recognition that aging can be viewed from a variety of perspectives, courses from several academic programs are available. Special topics courses with aging as their primary content may be counted toward the minor. Inquiries should be directed to the associate director for educational programs. The minor requires **24 s.h.** of credit. A maximum of 6 s.h. may count toward general education requirements and the gerontology minor.

MULTIDISCIPLINARY MINOR

The multidisciplinary minor, designed for students who have interests not met by existing minors, requires **24 s.h.** credit, 9 s.h. of which must be above 2999. The theme-focused minor should normally comprise courses from three to five disciplines and should not reproduce existing disciplinary or other multidisciplinary minors. Courses should exclude the student's major. A declared major who is interested in the multidisciplinary minor and who has completed a minimum of 30 s.h. should discuss with his or her adviser the theme around which the minor will be developed and submit a written plan to the faculty member assigned by the student's major department to oversee the multidisciplinary minor and to that department's chair. (Please note that the Multidisciplinary Studies director is not involved with this minor; for multidisciplinary degrees, see below.) Criteria for the plan include thematic unity and coherence and clarity of educational objectives. The plan must be approved before the student has completed 80 s.h. and before submission of the senior summary, to which a copy of the approved plan will be attached. The student will complete the course of study under the supervision of his or her adviser.

DEPARTMENT OF AEROSPACE STUDIES (US AIR FORCE ROTC)

Chairperson, 306 Wright Annex

Students may obtain consent of the chairperson of the Department of Aerospace Studies prior to enrolling in an aerospace studies course if prerequisites for the course have not been met.

Reserve Officer Training Programs

In 1948, the Board of Trustees of East Carolina University entered into an agreement with the Department of the Air Force to establish and maintain a US Air Force Reserve Officer Training Corps.

The Department of Aerospace Studies is an integral academic subdivision of East Carolina University and includes all US Air Force ROTC activities conducted at the institution as stipulated in the contract with the US Air Force. The purpose of the Department of Aerospace Studies is to prepare students, through a permanent program of instruction, to serve as commissioned officers in the US Air Force.

Aerospace Studies students have unique opportunities to participate in optional special activities including: Introductory Flight Training, Arnold Air Society, Silver Wings, Color Guard, Base Visits, and paintball and other morale activities. There are also a wide variety of optional professional development training programs available including: Operation Air Force; Pentagon Internship; Nurse Orientation; Army Airborne Training; Field Engineering and Research Lab; Combat Survival Training; Foreign Language Immersion; Medical Orientation; and Air Force Academy Freeball and Soaring.

Air Force ROTC is an educational opportunity designed to prepare men and women to become Air Force officers while completing an undergraduate, graduate, or other professional degree program. Air Force ROTC is designed to prepare students to assume positions of increasing responsibility and importance in the modern Air Force. There are two primary routes to an Air Force ROTC commission—three- and four-year programs. Please contact the Department of Aerospace Studies to learn more about limited opportunities to compete in a one- and two-year program.

Upon successful completion of their respective program and graduation, cadets will be commissioned second lieutenants in the US Air Force. The United States Air Force offers a wide variety of challenging professional opportunities. Just a few include: Pilot, Navigator, Maintenance, Missile Operations, Missile Maintenance, Research Engineering, Mathematics, Nuclear Physics, Computer Operations and Development, Law, Health Services, Physician, Nursing, and Management including Personnel, Intelligence, Communications and Electronics, Supply, Transportation, Finance, Security Forces, Information, Education, Munitions, Air Traffic Control and many, many more.

Students with prior military service or nursing, chemistry, biology, physics, computer science, mathematics candidates are highly encouraged to apply and ask about scholarship opportunities.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

(GE:EN)=English; (GE:EX)=Exercise and Sport Science; (GE:FA)=Fine Arts; (GE:HL)=Health; (GE:HU)=Humanities; (GE:MA)=Mathematics; (GE:SC)=Science; (GE:SO)=Social Science

SECTION 7: ACADEMIC PROGRAMS

How to Apply for AFROTC

1. Students applying for the three- and four-year programs register for Air Force ROTC in the same manner and at the same time they register for other university courses.
2. Students interested in applying for other programs must contact the chairperson of the Department of Aerospace Studies. Generally, the student must have two academic years of study remaining after completion of the six-week field training course, either at the undergraduate or graduate level or a combination of the two.

Qualifications

A student must meet the following requirements before he or she can enroll in the Air Force ROTC:

General Military Course (GMC): Freshman, Sophomores, and Graduate Students with at least three semesters remaining.

1. Be enrolled as a full-time student at East Carolina University or be classified as a visiting student by the registrar.
2. Be a citizen of the United States.
3. Be at least fourteen years old.
4. Have no obvious disqualifying medical defects.
5. Inform the chairperson of the Department of Aerospace Studies if he or she is a former serviceman or servicewoman or has received previous military schooling (e.g., high school ROTC). The student may not be required to complete the entire general military course.
6. AFROTC physical fitness requirements must be met before attending field training.

The General Military Course (GMC) represents the first half of the program and it is taken during the Freshman and/or Sophomore (or graduate equivalent) year(s). This program allows students to participate in Air Force ROTC for up to two years with no commitment unless on an Air Force ROTC scholarship. As a GMC cadet, students will learn more about the Air Force and the historical development of airpower. The last half, called the Professional Officer Course is competitive and is taken during the Junior and Senior (or graduate equivalent) years. These courses cover leadership skills and national defense policy.

Professional Officer Course (POC): Juniors, Seniors and Graduate Students with at least two semesters remaining.

1. Complete the Air Force ROTC general military course during the freshman and sophomore years of college.
2. Successfully complete the Air Force Officer Qualification Test (AFOQT).
3. Meet the medical requirements for a commission.
4. Be selected upon the basis of all test scores and GPA by a selection board at ROTC headquarters, Maxwell Air Force Base, Alabama.
5. Successfully complete a four-week field training course at a US Air Force base (may be postponed under certain conditions).
6. Have approval from the chairperson of the Department of Aerospace Studies.
7. Be in good academic standing with the university.
8. Meet AFROTC physical fitness requirements.

The Professional Officer Course (POC) is highly competitive so students are encouraged to apply early. The leadership and national defense policy courses are the same as those offered the last of the three- and four-year programs.

AFROTC College Scholarship Program

Scholarships are available to students on a competitive basis and are awarded based on academic performance, SAT/ACT scores, physical fitness test, medical exam, a personal interview, and Air Force Officer Qualifying Test (AFOQT) scores. Scholarships pay for college tuition, books, lab fees, plus a monthly allowance. Many different types are available. Many scholarships are available in majors identified as critical by the US Air Force (typically in computer science, mathematics, and physics). Students interested in these scholarships should contact the Department of Aerospace Studies, 310 Wright Annex, East Carolina University, Greenville, NC 27858-4353. High school students should contact their guidance counselor for

Academic Status of Courses in Aerospace Studies

General Military Course (GMC). This program is primarily for cadets enrolled in the four-year program. There is no military obligation to students enrolled in the GMC who are not on scholarship. It requires four semesters for completion, for which 8 s.h. of credit will be allowed. AERO credits may be applied toward other degree requirements in the following manner, provided individual certification requirements are met.

Students may substitute all AERO semester hours earned for free electives.

Professional Officer Course (POC). This program is primarily for cadets who have met all qualifications. It requires four semesters for completion, for which 16 s.h. are allowed. Credits earned in this portion of the AERO curriculum may be applied toward other degree requirements as follows:

- 1. Students may substitute all AERO credits earned for free electives.
- 2. After AERO credits have been substituted for a minimum of one-half of the total number of free electives available to a student, he or she may substitute remaining credits for specific courses in his or her field of study upon approval of his or her adviser.
- 3. AERO courses may help satisfy the full-time student status requirements of the Veterans Administration (VA) for GI Bill Educational Benefits.

Cognate Minor for Professional Officer Course

The cognate minor for professional officer course requires **28 s.h.** of credit as follows:

- 1. **Required 3000- and 4000-level AERO courses, professional officer course (not including laboratories) 12 s.h.**
- 2. **Cognates (Choose a minimum of one from at least six of the following seven areas. The chairperson of the Department of Aerospace Studies may approve other courses from these areas.) 16 s.h.**

SECTION 7: ACADEMIC PROGRAMS

DEPARTMENT OF MILITARY SCIENCE (US ARMY ROTC)

Lt. Col. Susan K. Donaldson, Professor of Military Science, 343 Rawl Building

Army Reserve Officer Training Corps Program

The Dept. of Military Science is an integral academic subdivision of the Office of Military Programs and offers unique instruction designed to apply the principles of leadership. Students are challenged early in their ROTC training to develop sound judgment, accept responsibility, learn basic managerial principles, and gain self-confidence.

The mission of the Department of Military Science is to train college men and women to become commissioned officers in the US Army, Army National Guard, and/or US Army Reserve. The US Army ROTC program consists of a two-year basic course (freshman and sophomore level) and a two-year advanced course (junior and senior level), which includes a 32-day summer camp prior to the final year. Service veterans are eligible for placement into the advanced course if they are classified as academic juniors. The basic course has no military obligation or commitment.

Upon successful completion of the ROTC program and graduation from college, the cadet will be commissioned as a second lieutenant and may serve on active duty or in either the US Army National Guard or the US Army Reserve. The university recognizes outstanding US Army ROTC students as Distinguished Military Graduates.

Required uniforms and military science texts for the Basic Course are provided by the federal government at no cost to the student. Elective credit is received for all courses. During the last two academic years of the program, cadets will receive \$350-400 per month.

Eligibility

All university students may enroll in the military science basic course without an obligation to the US Army. To be eligible for participation in the advanced course, an applicant must be enrolled as a full-time student at East Carolina University; be in good academic standing with the university; be physically qualified; must have satisfactorily completed the basic course or an equivalent; and must have a minimum of two years remaining as a full-time student at either the undergraduate or graduate level. In addition, applicants must be commissioned by their thirtieth birthday.

How to Apply for Army ROTC

Students applying for the four-year program must register for US Army ROTC in the same manner and at the same time as they register for other university courses. The courses are listed under Military Science (MLSC) in the course listing section of this catalog.

Students interested in applying for the two-year program must contact a US Army ROTC representative in 346 Rawl. The student must have at least two academic years of study remaining at the undergraduate or graduate level. Exceptions may be made.

Army ROTC College Scholarship Program

The Department of Military Science offers three- and two-year college scholarships for students enrolled at East Carolina University. Scholarships are offered in the amount of \$16,000 per year and include laboratory expenses, incidental fees, and \$300 per semester for books and supplies. Students also receive ten payments of \$250-400 a month in nontaxable pay during each annual period of the scholarships. To apply for a three- or two-year US Army ROTC scholarship, a student should contact the ECU US Army ROTC enrollment officer in 346 Rawl; telephone 252-328-4180. Four-year scholarships are available to incoming freshmen who apply during high school and who meet requirements.

Simultaneous Membership Program (SMP)

SMP allows students to be members of the US Army National Guard or the US Army Reserve and US Army ROTC at the same time. Students enlisted in the US Army National Guard and US Army Reserve may take advantage of this program and enroll directly into the advanced course. Advanced ROTC SMP students receive full in-state tuition and are paid approximately \$180 per month for one weekend of Army Reserve or National Guard training, plus \$3,500 - 4,000 a year

The courses listed as degree requirements may have prerequisites or corequisites that are not indicated. See section 8.

subsistence allowance from the ROTC advanced course. In addition, they receive \$1,000 per year tuition assistance from the North Carolina National Guard. They serve as officer trainees in their guard or reserve units under the close supervision of a commissioned officer.

Professional Military Education (PME) Requirements

The professional education component, required for a commission, comprises a baccalaureate degree and at least one undergraduate history course. Students must also complete the Enhanced Skills Training Program (ESTP) within the Department of Military Science.

PURPOSE

A community of scholars dedicated to the intrinsic value of learning, the Thomas Harriot College of Arts and Sciences is the liberal arts college of East Carolina University. The college is a federation of departments in the traditional academic disciplines—the humanities and fine arts, the natural sciences and mathematics, and the social sciences—and also includes creative and professional programs, academic centers and institutes, and interdisciplinary programs allied to the liberal arts. College faculty are committed to excellence in teaching and advising, in research or creative productivity, and in professional service.

The college provides major and minor studies in the liberal arts at the undergraduate level and major studies at the master's and doctoral levels. In addition, as the university's cornerstone academic program, the college provides general education in the liberal arts for all students. College courses introduce students to traditions of learning and inquiry, present them with information essential for performing societal and professional roles, and challenge them to examine the values which guide the organization and application of human knowledge. All courses are designed to develop students' thinking, writing, research, and mathematical skills and their lifelong commitment to continuing education.

In addition to its liberal arts programs, the college offers select professional certification programs related to its traditional academic disciplines. Students majoring in these programs learn the basic theories and practices in their fields while preparing themselves for leadership roles and careers.

The curricula of the college are constantly examined, updated, and enhanced. Consequently, in the spirit of the liberal arts, the more than 13,000 students enrolled annually in college courses have access to current ideas and information from professors whose learning never ceases.

CURRICULA

The Thomas Harriot College of Arts and Sciences offers the following degrees and academic programs:

Bachelor of Arts (BA) (See departments for subjects and areas.)

Bachelor of Science (BS) (See departments for subjects and areas.)

Bachelor of Science in applied physics (BSAP)

Preprofessional and Two-Year Curricula

The general education requirements for these programs are listed in Section 6, Undergraduate Studies; requirements in the field of the student's major are listed below and subsequently by departments.

The classical studies minor is an interdisciplinary program in the Thomas Harriot College of Arts and Sciences. The minimum requirement is **24 s.h.**, which includes required courses in history and either Latin or Greek. The program, with electives in art, classical studies, English, foreign languages, history, philosophy, and religious studies, is designed to encourage students to study all aspects of the ancient civilizations of Greece and Rome. A maximum of 6 s.h. from each of the following may count toward the classical studies minor: courses used to satisfy the general education requirements; LATN or GRK courses used to satisfy the foreign language requirement for the BA degree; directed readings in LATN or GRK; and study abroad programs approved by the director. Additional courses beyond those listed may be approved by the director if they significantly advance the student's understanding of classics. No semester hours counted toward the student's major may count toward the classical studies minor. In many cases, prerequisites for courses listed below will be waived by the

SECTION 7: ACADEMIC PROGRAMS

GREAT BOOKS

John A. Stevens, Director, 3314 Bate Building

The minor in great books requires a minimum of **24 s.h.** and is an interdisciplinary program housed within the Thomas Harriot College of Arts and Sciences consisting of seminars on themes in the humanities, natural and social sciences and the arts. The purpose of the great books seminar is to introduce students to a Socratic way of learning through dialogue. Students read original works analytically and advance positions which are put to the test by their colleagues and the instructor. The instructor acts to introduce and guide discussion, but more as a moderator than as a lecturer. Knowledge does not pass only from teacher to student through lecture; it is discovered together through dialogue. Requirements include a minimum of 9 s.h. of courses above the 2999 level. A maximum of 6 s.h. may be used to satisfy general education requirements and requirements for the great books minor. A course may not count toward the student's major and the great books minor. A major option is available through the BA/BS in Multidisciplinary Studies. See director for more details.

1. Core 9 s.h.

Choose 3 of the following:

GRBK 2000. Introduction to the Great Books (3) (GE:HU) (F)

MULTIDISCIPLINARY STUDIES

Calvin Mercer, Director, C-300 Brewster Building

Multidisciplinary Studies is a university-wide program administered by the Thomas Harriot College of Arts and Sciences. The goals of the program are to foster multidisciplinary study among various schools and departments, enable motivated students to pursue degrees in specialized or new fields, and encourage undergraduates to pursue research interests while working closely with faculty. Honors are awarded to students who earn a 3.5 GPA in approved major courses. There are two Multidisciplinary Studies options.

The "Individual Concentration" is designed for the student (1) who has clear interests and objectives that overlap schools, departments, degrees, or concentrations; (2) whose interests and objectives cannot reasonably be met through existing majors, minors, and electives; and (3) whose program is not fashioned in order to bypass a requirement of an existing program. A course of study is developed by the student in consultation with faculty in the appropriate disciplines and the director of Multidisciplinary Studies. A formal proposal, including the list of faculty who will supervise the student, is submitted to the Multidisciplinary Studies Committee. To begin the process, interested students should contact the director of Multidisciplinary Studies for procedures and guidelines. The major must be approved early enough in one's academic career in order to have time to adhere to program guidelines. To declare a major, students must have completed 30 s.h. with a minimum cumulative 2.0

The courses listed as degree requirements may have prerequisites or corequisites that are not indicated. See section 8.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive. Semester of course offering is not guaranteed.

Anticipated semester of course offering: (F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)= Even Year

ARTS AND SCIENCES INTERDISCIPLINARY PROGRAMS

GPA and the student's proposal must be approved by the Multidisciplinary Studies Committee. Program requirements include MULT 3500 and 4999; students may not be enrolled in these courses without admission to the program.

The "Structured Concentrations" are approved by the Multidisciplinary Studies Committee and are provided in areas where there has been clear evidence of significant student demand. For "Structured Concentrations," students take a prearranged curriculum that is approved by a recognized academic committee with oversight in that disciplinary area. Requirements include the completion of interdisciplinary courses, comparable to MULT 3500 and 4999, which address interdisciplinary methods and topics. Current "Structured Concentrations" are: Classics, Neuroscience, and Religious Studies. Students interested in one of these programs should contact professors: John Stevens, Classics; Larry Means, Neuroscience; or Calvin Mercer, Religious Studies.

The nature of this program requires that the student be highly motivated and disciplined and that faculty advising the student be closely involved in the process from the proposal preparation stage through the completion of the program. The program is not a general studies degree and program guidelines prohibit approval into the program of students who have not developed a coherent and academically respectable course of study that meets program guidelines.

BA in Multidisciplinary Studies

Minimum degree requirement is **120 s.h.** of credit as follows:

1. **General education requirements (See Section 4, General Education Requirements for all Baccalaureate Degree Programs.)** **42 s.h.**
2. **Foreign language through level 1004** **12 s.h.**
3. **Core** **30 s.h.**
MULT 3500. Research in Multidisciplinary Studies (3) (WI) (P: Admission to MULT; consent of program director) or comparable structured concentration course.
MULT 4999. Seminar in Multidisciplinary Studies (3) (WI) (P: MULT 3500; consent of program director) or comparable structured concentration course.
A minimum of 24 s.h. of approved courses in the major.
4. **Minor or approved structured electives** **24 s.h.**
5. **A minimum of 24 s.h. from Sections 3 and 4 must be above 2999.**
6. **Free electives to complete requirements for graduation.**

BS In Multidisciplinary Studies

Minimum degree requirement is **120 s.h.** of credit as follows:

1. **General education requirements (See Section 4, General Education Requirements for all Baccalaureate Degree Programs.)** **42 s.h.**
2. **Core** **42 s.h.**
MULT 3500. Research in Multidisciplinary Studies (3) (WI) (P: Admission to MULT; consent of program director) or comparable structured concentration course.
MULT 4999. Seminar in Multidisciplinary Studies (3) (WI) (P: MULT 3500; consent of program director) or comparable structured concentration course.
A minimum of 36 s.h. of approved courses in the major.
3. **Minor or approved structured electives** **24 s.h.**
4. **A minimum of 24 s.h. from Sections 2 and 3 must be above 2999.**
5. **Free electives to complete requirements for graduation.**

NEUROSCIENCE STUDIES

Larry W. Means, Director, 133 Rawl Building

Students pursuing a BS Multidisciplinary Major in Neuroscience who are also participating in the MD/7 program must meet all the specified requirements for their major. In addition, the student will need to fulfill the pre-health concentration by taking

BIOL 1100/1101, BIOL 1200/1201, PHYS 1250/1251, and PHYS 1260/1261. If the student is accepted for admission to the Brody School of Medicine under the MD/7 program, the first year of medical studies will count toward fulfilling the remaining hours of electives as required for graduation.

The neuroscience minor is designed to provide students with an introduction to the study of neuroscience at the various structural and functional levels of analysis, including molecular; cellular; integrative, and behavioral. (Students interested in a neuroscience major should see multidisciplinary studies, described above, and contact the neuroscience program director.) The minor requires completion of core courses (20 s.h.), a laboratory course (2 or 3 s.h.), and an elective course (2-5 s.h.). In the event that courses required for the minor are also required for the student's major, neuroscience elective courses should be taken so that a minimum of 24 s.h. of unique neuroscience courses are completed for the minor. The major adviser should send a potential minor to the director for advising. The minimum requirements for the minor are **24 s.h.** as follows:

1. Core 20 s.h.

BIOL 1100, 1101. Principles of Biology I (4,0) (F,S,SS) (GE:SC)

NORTH CAROLINA STUDIES

E. Thomson Shields, Director, 2112 Bate Building

The minor in North Carolina studies is an interdisciplinary program that requires **24 s.h.** credit and provides students with a comprehensive natural and cultural history of North Carolina and a knowledge of the contemporary conditions and issues that history has created. The program requires an introductory course, a senior research seminar, a series of core courses, and electives drawn from the following disciplines: anthropology, biology, English, geography, geology, history, and political science. Courses taken to meet general education requirements cannot be used to satisfy the requirements of the North Carolina studies minor. The student's minor program must be approved by the director of the North Carolina studies program.

1. Core 15 s.h.

ENGL 4230. North Carolina Literature (3) (WI) (S-OY) (GE:HU) (P:ENGL 1200)
 GEOG 3055. North Carolina (3) (F) (GE:SO)
 HIST 3100. North Carolina History (3) (FS) (GE:SO) or 5135. Problems in North Carolina History (3) (S) (WI*)
 (P:HIST 1050, 1051; or consent of instructor)
 NCST 2000. Introduction to North Carolina Studies (3) (F)
 NCST 4000. Windows on North Carolina's Past (3) (S) (P:NCST 2000; 6 s.h. in NCST; or consent of director) or
 4010. Contemporary Issues and Problems in North Carolina (3) (S) (P:NCST 2000; 6 s.h. in NCST; or consent of director)

2. Electives (Choose from at least two of the areas listed below.) 9 s.h.

No more than 3 s.h. of course work in the student's major field will be acceptable for credit toward the minor.
 Additional courses beyond those listed below will be accepted if they significantly further the student's understanding of North Carolina studies; prior approval by the director is required for additional courses.
 ANTH 3005. North American Indians (3) (EY) (GE:SO) (P:ANTH 1000 or 2010 or 2200 or consent of instructor)

RELIGIOUS STUDIES

Calvin Mercer, Director, C-300 Brewster Building

Religious studies is a nonsectarian and interdisciplinary program designed to provide students with an understanding of religion as historical and cultural phenomena. Courses offered explore religion in its various dimensions – aesthetic, anthropological, ethical, historical, literary, philosophical, political, psychological, and sociological. Students interested in obtaining a major or double major in religious studies can do so through the multidisciplinary studies program. Interested students should contact the director of religious studies for information. The religious studies minor requires **24 s.h.** credit. The major adviser should send a potential minor to the director for advising. Requirements for the minor are listed below. A maximum of 6 s.h. may be used to satisfy general education requirements and requirements for the religious studies minor. No course work in the student's major field of study will be accepted for credit toward the minor. Study-abroad programs

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

BA in Women's Studies

The women's studies major is an interdisciplinary degree program that includes courses on women and gender offered by the women's studies program as well as through traditional disciplines and departments. The purpose of women's studies is to offer a contemporary as well as a historical perspective on women's contributions to selfhood, family, and society; identify,

critically examine, and evaluate the assumptions made about women by tradition; and discover, acquire, and accumulate knowledge about women in order to empower understanding of their lives, their roles, and their humanity. Women's studies balances traditional Western cultural assumptions with international women's perspectives, including those of minorities, the disabled, and the economically deprived. The requirements for the major include an introductory women's studies course; electives chosen from the arts, humanities, natural and social sciences, and professional schools; and a core of women's studies courses, including a capstone experience of a senior seminar and internship or directed readings. Women's studies majors are encouraged to combine women's studies with another major. Minimum degree requirement is **126 s.h.** of credit as follows:

- 1. General education requirements (See Section 4, General Education Requirements for all Baccalaureate Degree Programs.) 42 s.h.**

For students electing women's studies as part of a double major, the director may give consent that a maximum of 6 s.h. of the women's studies major be waived or double counted.

Women's Studies Minor

The minor in women's studies is an interdisciplinary academic program with courses designed to complement and enrich students' work in their major fields. To ensure flexibility in each student's **24 s.h.** program and thus assure the possibility of coordinating with the major, the women's studies minor comprises a 6 s.h. core, which includes a course that introduces the student to the discipline and a senior seminar which helps the student synthesize what she or he has learned, and 18 s.h. of electives. A course may not count toward the student's major degree and the women's studies minor.

- 1. Core 6 s.h.**
- WOST 2000. Introduction to Women's Studies: Humanities (3) (FS,SS) (GE:HU) or WOST 2200. Introduction to Women's Studies: Arts (3) (GE:FA) or WOST 2400. Introduction to Women's Studies: Social Sciences (3) (GE:SO)

Anthropology Minor

The minor in anthropology requires **24 s.h.** of credit as follows:

1. Core 12 s.h.

ANTH 1000.Introduction to Anthropology (3) (F,S,SS) (GE:SO)

Minimum of one course from each of the anthropology subfields listed in the BA degree, 4., above.

2. ANTH electives 12 s.h.

Certificate in Forensic Anthropology

The course of study for the certificate in forensic anthropology provides a basic understanding of skeletal biology and human osteology, procedures for the search and recovery of human remains, methods of individual identification from the human skeleton, time since death estimation, and manner of death. The student is also provided with knowledge of forensic anthropology for those interested in careers in applied, non-academic anthropology.

A minimum cumulative 2.5 GPA is required for admission. The student must maintain a 2.5 average in the certificate courses to receive the forensic anthropology certificate. The certificate requires **16 s.h.** of credit as follows:

1. Core 13 s.h.

ANTH 3077.Archeological Methods (3) (F) (P:ANTH 2000 or consent of instructor)

ANTH 3026.Forensic Anthropology (3) (S) (P:ANTH 2015, 2016 or consent of instructor)

CHEM 2650.Organic Chemistry for the Life Sciences (4) (F)

Other electives may be approved by the Department of Anthropology.

Anthropology Honors Program

A student wishing to enter the honors program in anthropology must be a junior majoring in anthropology, have a minimum cumulative 3.0 GPA and a minimum 3.5 GPA in anthropology, and have completed a minimum of 20 s.h. in anthropology. (Exception may be made at the discretion of the dept chair.) A student in the honors program shall enroll, as part of his or her regular curriculum, in ANTH 4550 during the second semester of the junior year and ANTH 4451 in the senior year. Each honors student will carry out an extensive program of carefully supervised reading and research in one of the areas of anthropology.

The courses listed as degree requirements may have prerequisites or corequisites that are not indicated. See section 8.

DEPARTMENT OF BIOLOGY

Ronald J. Newton, Chairperson, BN-108 Howell Science Complex

Charles A. Singhas, Director of Undergraduate Studies, BN-108C Howell Science Complex

Admission Requirements

In order to declare a major in biology or biochemistry, a student must satisfy general education requirements as stated in the catalog for transfer to departments in the Thomas Harriot College of Arts and Sciences and must have a minimum cumulative 2.0 GPA in all biology and chemistry courses below the 3000 level.

Core Curriculum

The core curriculum in biology is intended to give all biology majors a background in molecular biology, diversity, evolution, ecology, and genetics. BIOL 1100, 1101, 1200, 1201, 2250, 2251, 2300, 4999 constitute the core curriculum. A choice of electives permits a student to pursue in depth an area or areas of particular interest. Lecture courses having laboratory components that carry independent credit may or may not be required as corequisites (see appropriate catalog descriptions). Laboratory components carrying no credit are corequisites. Minimum degree requirement is **126 s.h.** of credit.

BS in Biology

1. General education (See Section 4, General Education Requirements for all Baccalaureate Degree Programs), including those listed below 42 s.h.

CHEM 1150, 1151. General Chemistry and Laboratory I (3,1) (F,S,SS) (GE:SC) (P: Chemistry placement test or passing grade in CHEM 0150; P/C: MATH 1065)

CHEM 1160, 1161. General Chemistry and Laboratory I (3,1) (F,S,SS) (GE:SC) (P: CHEM 1150, 1151; C for 1160: CHEM 1161; C for 1161: CHEM 1160; RC: MATH 1083 or 1085)

MATH 1065. College Algebra (3) (F,S,SS) (GE:MA) (P: Appropriate score on mathematics placement test)

2. Core 16 s.h.

BIOL 1100, 1101. Principles of Biology and Laboratory I (3,1) (F,S,SS) (GE:SC) (P/C for 1101: BIOL 1100)

BIOL 1200, 1201. Principles of Biology and Laboratory II (3,1) (F,S,SS) (GE:SC) (P/C for 1201: BIOL 1200)

BIOL 2250. Ecology (3) (F,S,SS) (P: BIOL 1100, 1101, 1200, 1201)

BIOL 2251. Ecology Laboratory (1) (F,S,SS) (P: BIOL 1100, 1101, 1200, 1201; C: BIOL 2250)

BIOL 2300. Principles of Genetics (3) (F,S,SS) (P: 2 BIOL courses)

BIOL 4999. Senior Topics (1) (F,S) (P: Senior standing in BIOL major)

3. Recommended electives 24 s.h.

The following elective areas are recommended to guide students in choosing biology electives consistent with their academic goals. Students may concentrate in one of the specified areas, below, or choose a more general course of study. A maximum of 6 s.h. of BIOL 3550, 4504, 4514, 4550, 5995 may count toward biology electives without consent of dept. chair or director of undergraduate studies.

Ecology/Environmental Biology:

BIOL 3070, 3071. Survey of Plants and Fungi (4,0) (P: 3 s.h. of science with a lab)

BIOL 3230, 3231. Field Botany (4,0) (F,S,SS) (P: 3 s.h. of general biology with a lab)

BIOL 3240, 3241. Field Zoology (4,0) (F) (P: BIOL 1060 or 2250)

BIOL 3310, 3311. Cellular Physiology (4,0) (F,S,SS) (P: 1 organic CHEM or biochemistry course)

BIOL 3320. Principles of Animal Physiology (3) (F,S,SS) (P: 2000-level organic CHEM or biochemistry course)

BIOL 3321. Principles of Animal Physiology Laboratory (1) (C: BIOL 3320)

BIOL 3660. Introduction to Marine Biology (3) (F,S,SS) (P/C: BIOL 2250, 2251)

BIOL 3661. Introduction to Marine Biology Laboratory (1) (F,S) (C: BIOL 3660)

BIOL 4200, 4201. Population and Community Ecology (4,0) (4200: WI) (S) (P: BIOL 2250, 2251, 2300; CHEM 1150, 1151; RP: CHEM 1160, 1161; MATH 2121 or 1 statistics course)

BIOL 4300, 4301. Ecosystem Ecology (4,0) (WI) (F) (P: BIOL 2250, 2251)

BIOL 4504, 4514. Research Problems in Biology (2,2) (WI,WI) (F,S,SS) (P: Consent of instructor)

BIOL 5070, 5071. Ornithology (4,0) (F) (P: 8 s.h. in BIOL)

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

(GE:EN)=English; (GE:EX)=Exercise and Sport Science; (GE:FA)=Fine Arts; (GE:HL)=Health; (GE:HU)=Humanities; (GE:MA)=Mathematics; (GE:SC)=Science; (GE:SO)=Social Science

4. Cognates 22 s.h.

- CHEM 2750. Organic Chemistry I (3) (F,S,SS) (P: CHEM 1160, 1161; C: CHEM 2753)
- CHEM 2753. Organic Chemistry Laboratory I (1) (F,S,SS) (C: CHEM 2750)
- CHEM 2760. Organic Chemistry II (3) (F,S,SS) (P: CHEM 2750; C: CHEM 2763)
- CHEM 2763. Organic Chemistry Laboratory II (1) (F,S,SS) (P: CHEM 2750, 2753; C: CHEM 2760)
- MATH 2121. Calculus for the Life Sciences I (3) (F,S,SS) (GE:MA) (P: MATH 1065 or 1077 with a minimum grade of C)
- MATH 2122. Calculus for the Life Sciences II (3) (F,S,SS) (P: MATH 2121)
- PHYS 1250, 1260. General Physics (3,3) (F,S,SS) (GE:SC) (P for 1250: MATH 1065 or 1066; P for 1260: PHYS 1250)
- PHYS 1251, 1261. General Physics Laboratory (1,1) (F,S,SS) (GE:SC) (C for 1251: PHYS 1250 or 2350; C for 1261: 1260 or 2260)

5. Research skills (Choose one area.) 8-9 s.h.

Students contemplating graduate school should consider admission requirements before selecting a research skills area.

- Foreign language through level 1003.
- Quantitative and Communication Skills (1 course each in scientific writing, statistics, and computer programming.)
Recommended courses:
ENGL 3820. Scientific Writing (3) (WI) (F,S,SS) (P: ENGL 1200) or ITEC 3290. Technical Writing (3) (WI) (F,S,SS) (P: ENGL 1200) or a course in scientific writing
MATH 2228. Elementary Statistical Methods I (3) (F,S,SS) (P: MATH 1065 or equivalent)
DSCI 2223. Introduction to Computers (3) (F,S,SS) or CSCI 2510. Introduction to Computer Science I (3) (F,S,SS) (P: MATH 1065 or 1066) or ACCT 2401. Financial Accounting (3) (F,S,SS) (P: MATH 1065 or 1066 or 2119 or 2121 or 2171)
- Relevant cognate area—courses chosen to meet this requirement must be planned through consultation with a faculty adviser and approved in advance by the dept chair and the dept director of undergraduate studies.
- Recommended for microbiology and molecular biology/biotechnology:
CHEM 2250, 2251. Quantitative and Instrumental Analysis (3,2) (WI,WI) (F,S) (P: CHEM 1160, 1161; 1 organic CHEM course)
DSCI 2223. Introduction to Computers (3) (F,S,SS) or CSCI 2510. Introduction to Computer Science I (3) (F,S,SS) (P: MATH 1065 or 1066)

6. Electives to complete requirements for graduation.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

(GE:EN)=English; (GE:EX)=Exercise and Sport Science; (GE:FA)=Fine Arts; (GE:HL)=Health; (GE:HU)=Humanities; (GE:MA)=Mathematics; (GE:SC)=Science; (GE:SO)=Social Science

SECTION 7: ACADEMIC PROGRAMS

Biology Requirements for Students Participating in MD/7 Initiative

Students pursuing a BS in Biology who are also participating in the MD/7 Program must meet all the specified core requirements for their major and cognate courses of MATH 2121, MATH 2122, CHEM 2750/2753, CHEM 2760/2763, PHYS 1250/1251, and PHYS 1260/1261. Students who complete these courses will also have fulfilled the pre-health concentration. In addition to the core requirements students will also complete 16 hours of Biology electives at the undergraduate level. If the student is accepted for admission to the Brody School of Medicine under the MD/7 Program, Doctoring I will count as Internship BIOL 5995 to be repeated once for 2 hours credit, ANAT 7210 will count in lieu of BIOL 5450/5451, Medical Genetics will count in lieu of BIOL 4040 with all other medical school courses during the first year counting as the remaining 20 hours of electives as required for graduation.

BS in Biochemistry

Minimum degree requirement is **126 s.h.** of credit as follows:

1. General education (See Section 4, General Education Requirements for all Baccalaureate Degree Programs), including those listed below 42 s.h.

CHEM 1150, 1151. General Chemistry and Laboratory I (3,1) (F,S,SS) (GE:SC) (P: Chemistry placement test or passing grade in CHEM 0150; P/C: MATH 1065)

CHEM 1160, 1161. General Chemistry and Laboratory I (3,1) (F,S,SS) (GE:SC) (P: CHEM 1150, 1151; C for 1160: CHEM 1161; C for 1161: CHEM 1160; RC: MATH 1083 or 1085)

MATH 1065. College Algebra (3) (F,S,SS) (GE:MA) (P: Appropriate score on mathematics placement test)

2. Core 45 s.h.
Biology:

BIOL 1100, 1101. Principles of Biology and Laboratory I (3,1) (F,S,SS) (GE:SC) (P/C for 1101: BIOL 1100)

BIOL 1200, 1201. Principles of Biology and Laboratory II (3,1) (F,S,SS) (GE:SC) (P/C for 1201: BIOL 1200)

BIOL 2300. Principles of Genetics (3) (F,S,SS) (P: 2 BIOL courses)

BIOL 3310, 3311. Cellular Physiology (4,0) (F,S,SS) (P: Organic CHEM or biochemistry course)

BIOL 5800, 5810. Principles of Biochemistry I, II (3,3) (P: CHEM 2760, 2763)

BIOL 5821. Principles of Biochemistry Laboratory I (1) (P/C: BIOL 5800 or 5810)

Chemistry:

CHEM 2250, 2251. Quantitative and Instrumental Analysis (3,2) (WI,WI) (F,S) (P: CHEM 1160, 1161; one organic CHEM course)

CHEM 2750. Organic Chemistry I (3) (F,S,SS) (P: CHEM 1160, 1161; C: CHEM 2753)

CHEM 2753. Organic Chemistry Laboratory I (1) (F,S,SS) (C: CHEM 2750)

CHEM 2760. Organic Chemistry II (3) (F,S,SS) (P: CHEM 2750; C: CHEM 2763)

CHEM 2763. Organic Chemistry Laboratory II (1) (F,S,SS) (P: CHEM 2750, 2753; C: CHEM 2760)

CHEM 3950, 3951. Physical Chemistry and Laboratory I (4,1) (WI,WI) (S) (P: PHYS 1261, 2360; MATH 2173; CHEM 2250, 2251)

CHEM 3960, 3961. Physical Chemistry and Laboratory II (4,1) (WI,WI) (F) (P: CHEM 3950, 3951)

3. Cognates 25-27 s.h.

MATH 1083. Introduction to Functions (3) (F,S,SS) (GE:MA) (P: Consent of dept chair) or MATH 1085. Pre-Calculus Mathematics (5) (F,S,SS) (GE:MA) (P: MATH 1065 with a minimum grade of C)

MATH 2171. Calculus I (4) (F,S,SS) (GE:MA) (P: MATH 1083 or 1085 or 2122 with minimum grade of C)

MATH 2172. Calculus II (4) (F,S,SS) (GE:MA) (P: MATH 2122 with a minimum grade of C or MATH 2171)

MATH 2173. Calculus III (4) (F,S,SS) (GE:MA) (P: MATH 2172)

PHYS 1251, 1261. General Physics Laboratory (1,1) (F,S,SS) (GE:SC) (C for 1251: PHYS 1250 or 2350; C for 1261: 1260 or 2260)

PHYS 2350, 2360. University Physics (4,4) (F,S,SS) (GE:SC) (P: MATH 1085; C: MATH 2121 or 2171)

4. Electives (Choose from the following.) 6 s.h.

BIOL 3100, 3101. Basic Laboratory Methods for Biotechnology (3,0) (F,SS) (P: BIOL 2300; CHEM 1160, 1161)

BIOL 3220, 3221. Microbiology (4,0) (F) (P: BIOL 1200, 1201; 1 organic CHEM course)

BIOL 5510, 5511. Transmission Electron Microscopy (4) (P: Senior standing as a BIOL major or consent of instructor)

The courses listed as degree requirements may have prerequisites or corequisites that are not indicated. See section 8.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive. Semester of course offering is not guaranteed.

Anticipated semester of course offering: (F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)= Even Year

P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P,C, or P/C

BIOL 5520,5521. Scanning Electron Microscopy and X-Ray Analysis (2,0) (P: Senior standing as a BIOL major or consent of instructor)
 BIOL 5870. Molecular Genetics (3) (P: BIOL 2300; RP: BIOL 3220, 3221, 5810)
 BIOL 5900,5901. Biotechniques and Laboratory (2,3) (P: BIOL 3100, 3101, 5870; consent; RP: BIOL 5810)
 MATH 4331. Introduction to Ordinary Differential Equations (3) (FS) (P: MATH 2173)

5. Electives to complete requirements for graduation.

Biology Minor

Minimum requirement for biology minor is **24 s.h.** of credit as follows:

- 1. Core 15 s.h.**
 BIOL 1100, 1101. Principles of Biology and Laboratory I (3,1) (FS,SS) (GE:SC) (P/C for 1101: BIOL 1100)
 BIOL 1200, 1201. Principles of Biology and Laboratory II (3,1) (FS,SS) (GE:SC) (P/C for 1201: BIOL 1200)
 BIOL 2250, 2251. Ecology and Ecology Laboratory (3,1) (FS,SS)
 BIOL 2300. Principles of Genetics (3) (FS,SS) (P: 2 BIOL courses)
- 2. BIOL electives 9 s.h.**

Minor programs consisting of course sequences in particular areas that include a minimum of 24 s.h. can be arranged with the approval of the biology undergraduate curriculum committee.

Biology Honors Program

Biology majors who maintain a minimum GPA of 3.5 may participate in the department's honors program. This program is designed for exceptional students wishing to use their creative abilities to pursue indepth inquiries (research, co-teaching, field work, internships, etc.) into the biological sciences, the topic of inquiry being determined by the student in consultation with a faculty mentor/sponsor. Participation in the program is by mutual agreement between the student and the faculty mentor and requires enrollment in a minimum of 6 s.h. of credit selected from BIOL 3550, 4550, 4504, 4514, 5995. While grades will be awarded independently for each research/honors course in which the student enrolls, graduation with honors requires the student to submit the final product of activity for critical review by the departmental honors review board. (Students should note that no more than 6 s.h. of credit in honors or research courses may be counted for biology elective credit.)

DEPARTMENT OF CHEMISTRY

Chia-yu Li, Chairperson, 300 Science and Technology Building

Admission Requirements

Students enrolled at East Carolina University or transferring from other institutions who have a minimum 2.0 GPA and a minimum grade of C in CHEM 1150, 1151, 1160, 1161 and MATH 1065 may apply for admission as chemistry majors. Students who hold a baccalaureate degree qualify for admission to the chemistry degree program if they have completed comparable courses as described above with a minimum grade of C as part of their first degree.

BA in Chemistry

The BA program provides a flexible major designed to provide the student with a broad education in chemistry appropriate for further study in a wide range of fields, such as business, medicine, pharmacy, and law as well as careers dependent on a basic knowledge in chemistry. The BA in Chemistry, in conjunction with two semesters of laboratory-based biology courses, satisfies the course requirements for application to most US medical schools. It is different than the BS degree in the required chemistry, math, and physics courses. Any of the required major courses or cognates, however, may be replaced by courses that cover the same topics at a more advanced level. For example, CHEM 3950, 3960 may be taken instead of CHEM 3850. It is the student's responsibility to ensure that the prerequisites for such courses have been met. Minimum degree requirement is **126 s.h.** of credit as follows:

- 1. General education (See Section 4, General Education Requirements for all Baccalaureate Degree Programs), including those listed below 42 s.h.**

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.
 (GE:EN)=English; (GE:EX)=Exercise and Sport Science; (GE:FA)=Fine Arts; (GE:HL)=Health; (GE:HU)=Humanities; (GE:MA)=Mathematics;
 (GE:SC)=Science; (GE:SO)=Social Science

SECTION 7: ACADEMIC PROGRAMS

MATH 1065. College Algebra (3) (F,S,SS) (GE:MA) (P: Appropriate score on mathematics placement test)
PHYS 1250, 1260. General Physics (3,3) (F,S,SS) (GE:SC) (P for 1250: MATH 1065 or 1066; P for 1260: PHYS 1250)
PHYS 1251, 1261. General Physics Laboratory (1,1) (F,S,SS) (GE:SC) (C for 1251: PHYS 1250 or 2350; C for 1261: 1260 or 2360)

2. Foreign language through level 1004 12 s.h.

3. Core 30 s.h.

CHEM 1150, 1151. General Chemistry and Laboratory I (3,1) (F,S,SS) (GE:SC) (P: Chemistry placement test or passing grade in CHEM 0150; P/C: MATH 1065)
CHEM 1160, 1161. General Chemistry and Laboratory I (3,1) (F,S,SS) (GE:SC) (P: CHEM 1150, 1151; C for 1160: CHEM 1161; C for 1161: CHEM 1160; RC: MATH 1083 or 1085)
CHEM 2250, 2251. Quantitative and Instrumental Analysis (3,2) (WI,WI) (F,S) (P: CHEM 1160, 1161; one organic CHEM course)
CHEM 2750. Organic Chemistry I (3) (F,S,SS) (P: CHEM 1160, 1161; C: CHEM 2753)
CHEM 2753. Organic Chemistry Laboratory I (1) (F,S,SS) (C: CHEM 2750)
CHEM 2760. Organic Chemistry II (3) (F,S,SS) (P: CHEM 2750; C: CHEM 2763)
CHEM 2763. Organic Chemistry Laboratory II (1) (F,S,SS) (P: CHEM 2750, 2753; C: CHEM 2760)
CHEM 3450, 3451. Elementary Inorganic Chemistry and Laboratory (3,1) (WI,WI) (S) (P: CHEM 2250, 2251)
CHEM 3850, 3851. Introduction to Physical Chemistry (4,1) (WI,WI) (F) (P: CHEM 1160, 1161; MATH 2122 or 2172; PHYS 1260, 1261)

4. Cognates 6-13 s.h.

MATH 2121. Calculus for the Life Sciences I (3) (F,S,SS) (GE:MA) (P: MATH 1065 or 1077 with a minimum grade of C) and MATH 2122. Calculus for the Life Sciences II (3) (F,S,SS) (P: MATH 2121) or MATH 1083. Introduction to Functions (3) (F,S,SS) (GE:MA) (P: Consent of dept chair) or MATH 1085. Pre-Calculus Mathematics (5) (F,S,SS) (GE:MA) (P: MATH 1065 with a minimum grade of C) and MATH 2171. Calculus I (4) (F,S,SS) (GE:MA) (P: MATH 1083 or 1085 or 2122 with minimum grade of C) and MATH 2172. Calculus II (4) (F,S,SS) (GE:MA) (P: MATH 2122 with a minimum grade of C or MATH 2171)

5. Electives to complete requirements for graduation.

Chemistry Requirements for Students Participating in MD/7 Initiative

Students pursuing a BA in Chemistry who are also participating in the MD/7 Program must meet all the above-specified requirements for their major and the math cognate. In addition, the student will need to fulfill the pre-health concentration by taking BIOL 1100/1101, BIOL 1200/1201, PHYS 1250/1251 and PHYS 1260/1261. If the student is accepted for admission to the Brody School of Medicine under the MD/7 Program, the first year of medical studies will count toward fulfilling the remaining 28 hours of electives as required for graduation.

BS in Chemistry

The BS degree in chemistry is the appropriate program for students considering advanced degree programs in chemistry, biochemistry, and other related fields or a professional career in chemistry. Graduates of this program meet certification requirements of the American Chemical Society. Students are strongly encouraged to pursue undergraduate research with a faculty member. Up to 6 s.h. of undergraduate research may be applied toward degree requirements. Information regarding undergraduate research may be obtained from the Director of Undergraduate Studies. Students completing the BS degree are encouraged to consider some of the following courses as electives: COMM 2410 or COMM 2420; ITEC 3290 or ENGL 3820; MATH 2228, 3256, 4331; CHEM 4515, 4516, 4517; advanced 5000-level courses in chemistry; and BIOL 5800 or 5810. Minimum degree requirement is **126 s.h.** of credit as follows:

1. General education (See Section 4, General Education Requirements for all Baccalaureate Degree Programs), including those listed below 42 s.h.

MATH 1065. College Algebra (3) (F,S,SS) (GE:MA) (P: Appropriate score on mathematics placement test)
PHYS 1251, 1261. General Physics Laboratory (1,1) (F,S,SS) (GE:SC) (C for 1251: PHYS 1250 or 2350; C for 1261: 1260 or 2360)
PHYS 2350, 2360. University Physics (4,4) (F,S,SS) (GE:SC) (C for 2350: MATH 2121 or 2171; P for 2360: PHYS 2350)

The courses listed as degree requirements may have prerequisites or corequisites that are not indicated. See section 8.
(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive. Semester of course offering is not guaranteed.
Anticipated semester of course offering: (F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)= Even Year

SECTION 7: ACADEMIC PROGRAMS

Chemistry Honors Program

The Department of Chemistry Honors Program provides an opportunity for outstanding chemistry majors to do intensive study and research in areas of special interest. A student desiring to enter the honors program must be a junior or senior majoring in chemistry and possess a minimum GPA of 3.2 in all courses taken at East Carolina University as well as in all chemistry and cognate courses. Before participating in the honors program, students must notify the Director of Undergraduate Studies in chemistry and select a project supervisor from the chemistry faculty. Program participants are expected to select a topic of mutual interest to both the student and project supervisor; research the topic through the scientific literature, and then conduct independent research on the topic. Upon completion of the research, the student must submit a detailed written research report and make an oral presentation on the honors project. Course requirements: CHEM 4103; a minimum of 5 s.h. research and/or independent study from: CHEM 4505, 4506, 4507, 4515, 4516, 4517.

Bachelor of Science and Accelerated MS in Chemistry

Students working toward a BS degree in chemistry have the opportunity to earn an MS degree in two or three additional semesters of study. These students are encouraged to begin research projects as undergraduates and take advanced classes that can be used to waive some MS course requirements. As seniors they may be granted early admission to the MS program and would be eligible to receive paid teaching assistantships. To be enrolled in the MS program as a senior, a student must be within 6 s.h. credit of completing all undergraduate degree requirements. Applications to the MS program should be submitted during the first semester of the senior year and must include GRE scores.

DEPARTMENT OF ECONOMICS

Richard E. Ericson, Chairperson, A-428 Brewster Building

BA in Economics

Economics majors are required to earn a minimum grade of C in each of the following courses: ECON 2113, 2133, 3144, 3244. Minimum degree requirement is **120 s.h.** of credit as follows:

- 1. General education (See Section 4, General Education Requirements for all Baccalaureate Degree Programs), including those listed below 42 s.h.**
MATH 1065. College Algebra (3) (F,S,SS) (GE:MA) (P: Appropriate score on mathematics placement test) or MATH 1066. Applied Mathematics for Decision Making (3) (F,S,SS) (GE:MA) (P: Appropriate score on mathematics placement test or approval of dept chair)

English Minor

Required ENGL courses (exclusive of freshman composition) 24 s.h.

A minimum of 12 s.h. must be selected from courses numbered above 2899. CLAS 3460 may be counted.

ENED 4323 and 4324 may not be counted, nor may both ENGL 2710 and 2730 be counted. Students interested in minoring in English should consult with the director of undergraduate studies in the department to plan their minor programs.

Department Certificate in Business and Technical Communication

For licensure, students must register with the department and maintain a minimum average of B.

1. Core 3 s.h.

ENGL 3880. Writing for Business and Industry (3) (WI) (F,S,SS) (P: ENGL 1200)

2. Electives Minimum of 12 s.h.

SECTION 7: ACADEMIC PROGRAMS

English Honors Program

The Department of English Honors Program provides an opportunity for outstanding English majors to do intensive research in areas of special interest. In order to qualify for the honors program, a student must have a minimum cumulative and major 3.0 GPA. Students participating in the honors program enroll in ENGL 4550 and 4555 in consecutive semesters of their senior year. After extensive reading on a topic of his or her choice and appropriate consultation with an adviser chosen from among the senior faculty members, the student submits a paper on a topic related to his or her reading and takes an oral examination covering the area of the research.

Summer Program in England

The Department of English offers a summer program of study in London, England. Students may earn 6 s.h. credit toward graduation. Interested students should contact the director of undergraduate studies in English.

DEPARTMENT OF FOREIGN LANGUAGES AND LITERATURES

Sylvie D. Henning, Chairperson, 3324 Bate Building

French, German, or Hispanic studies majors who are interested in gaining work experience in business, industry, or government under the cooperative education program should see the department chair:

BA or BS in Foreign Languages, including Preparation for the Accelerated MBA Program

1. Core 15 s.h.

- FREN 2330. Review of Grammar (3) (P: FREN I 004 or equivalent)
- FREN 3500. Introduction to Literature (3) (P: FREN 2330)
- Choose 9 s.h. from:
 - FREN 2 I 08. Culture and Communication (3) (P: FREN I 004)
 - FREN 2440. Readings in the Culture of France I (3) (GE:HU) (P: FREN I 004)
 - FREN 244 I. Readings in the Culture of France II (3) (GE:HU) (P: FREN I 004)
 - FREN 2442. Readings in the Francophone Cultures of the Americas (3) (GE:HU) (P: FREN I 004)
 - FREN 2443. Readings in the Francophone Cultures of Africa (3) (GE:HU) (P: FREN I 004)

2. FREN electives above 2999 9 s.h.

German Minor

Students interested in minoring in German should consult with the departmental German adviser to plan their minor program. The German minor requires **24 s.h.** of credit as follows:

1. Core 18 s.h.

- GERM 22 I 0. Intermediate German Composition and Conversation I (3) (P: GERM I 004 or consent of dept chair)
- GERM 22 I I. Intermediate German Composition and Conversation II (3) (P: GERM I 004 or consent of dept chair)
- GERM 2300. Introduction to German Literature (3) (GE:HU) (P: GERM I 004 or consent of dept chair)
- GERM 2420. Culture of the German-Speaking World (3) (GE:HU) (P: GERM I 004 or consent of dept chair)

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

Hispanic Studies Minor

Students interested in minoring in Hispanic studies should consult with the departmental Hispanic adviser to plan their minor program. The Hispanic studies minor requires **24 s.h.** of credit as follows:

1. Core	15 s.h.
SPAN 2222. Intermediate Spanish Conversation (3) (F) (P: SPAN 1004 or consent of dept chair; RC: SPAN 2330) or SPAN 3220. Advanced Oral Communication Through Multimedia (3) (P: SPAN 2222 or consent of dept chair) SPAN 2330. Intermediate Composition and Review of Grammar (3) (P: SPAN 1004 or consent of dept chair; RC: SPAN 2222) SPAN 2440. Spanish Culture and Civilization (3) (WI*) (P: SPAN 2222 or 2330 or consent of dept chair) SPAN 2441. Latin-American Culture and Civilization (3) (P: SPAN 2222 or 2330 or consent of dept chair) SPAN 2550. Approaches to the Study of Hispanic Literature (3) (GE:HU) (P: SPAN 2222 or 2330 or consent of dept chair)	
2. SPAN electives above 2999	9 s.h

Departmental Certificate in Spanish Translation

The certificate in Spanish translation provides a course of study that prepares the student in the special skills involved in the role of translator. The award of the certificate provides evidence of practical competence in translating written texts to or from Spanish; interpretation of spoken Spanish is not involved. There are four required translation courses that must be satisfactorily completed, following which students may take a demanding final proficiency examination. Satisfactory performance on the examination entitles the student to receive the certificate in translation. Those students whose performance is judged only adequate may receive credit for completing the course sequence, but will not be awarded the certificate. The certificate requires **12 s.h.** credit as follows:

- SPAN 3340. Introduction to Translation (3) (P: SPAN 3330 or consent of dept chair; RC: SPAN 3335)
- SPAN 4340. Intermediate Translation (3) (P: SPAN 3335, 3340; or consent of dept chair)
- SPAN 5340. Advanced Translation I (3) (P: SPAN 4340)
- SPAN 5940. Advanced Translation II (3) (P: SPAN 5340)

Departmental Certificate of American Studies

Students from countries other than the United States may apply to the chairperson of the Department of Foreign Languages and Literatures for a departmental certificate of American studies. In order to qualify for this certificate, a student must pass a minimum of 14 s.h. of graduate or undergraduate course work with a minimum grade of C. A certificate with distinction shall be awarded to a student who completes a program of **20 s.h.**, of which at least 14 s.h. are passed with a minimum grade of B.

Foreign Language Placement Tests

Students who have previously studied French, German, Italian, Japanese, Latin, and Spanish should take the respective placement test in order to ensure that they continue their study at the appropriate level. (See Section 3, Admission: Placement Testing.) While it may be possible to satisfy the foreign language requirement by completing 12 s.h. of Japanese, no guarantee can be given that the necessary courses will be offered.

The courses listed as degree requirements may have prerequisites or corequisites that are not indicated. See section 8.
(VI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive. Semester of course offering is not guaranteed.

4. **Minor** **24 s.h.**
Selected from aerospace, biology, business administration, computer science, economics, geology, industrial technology, information processing, leisure systems studies, military science, planning, public administration, statistics, or any other appropriate minor with consent of the dept chair.
5. **Electives to complete requirements for graduation.**

Geography Minor

Minimum requirement for the minor in geography is **24 s.h.** of credit as follows:

Minimum of one course from each of the geography categories listed in the BS in applied geography degree, 2., above
Minimum of 6 s.h. of GEOG electives above 2999

Geography Honors Program

The honors program in geography is designed for outstanding geography majors who wish additional challenge and recognition in pursuing scholarly work in a sub-field of geography. A student wishing to enter the honors program in geography must be a junior majoring in geography, have a minimum cumulative 3.0 GPA, have a minimum 3.3 GPA in geography, and have completed a minimum of 21 s.h. in geography. Exceptions to these requirements may be made at the discretion of the departmental chairperson. A student in the honors program is encouraged to enroll, as part of her/his regular curriculum, in GEOG 4900 during the second semester of the junior year, and GEOG 4901 in the first semester of the senior year. Each honors student will carry out an extensive program of carefully supervised reading and research in one of the areas of geography, leading to the preparation of a senior honors thesis. To receive honors, a student must complete both GEOG 4900 and GEOG 4901 with at least a B. Further details about the honors program are available in the departmental office, Brewster A-229.

Certificate in Atmospheric Science

This course of study for the Atmospheric Science certificate provides theoretical and technological competencies that prepare students to measure, analyze, and predict the atmospheric environment. The program enhances basic and applied research capacity at the undergraduate level. A minimum cumulative 2.5 GPA is required for admission. The student must maintain a B average in the certificate courses to remain in the program and receive the Atmospheric Science certificate. The certificate requires a minimum of **15 s.h.** of credit as follows:

1. **Core** **12 s.h.**
GEOG 2200. Weather and Climate (3) (FS)
GEOG 3510. Physical Meteorology (3) (F) (P: GEOG 2200 or consent of instructor)

Certificate in Geographic Information Science

The course of study for the geographic information science (GIS) certificate provides theoretical and technological competencies that prepare students to develop and manage geographic information projects and to interpret and implement GIS as a decision support system. The program enhances basic and applied research capacity at the undergraduate level. A minimum cumulative 2.5 GPA is required for admission. The student must maintain a B average in the certificate courses to

History Honors Program

A student desiring to enter the honors program in history must be a second semester junior majoring in history; possess a minimum cumulative and major 3.0 GPA; and have a minimum of 20 s.h. in history (exceptions may be made at the discretion of the dept chair). Furthermore, a student engaged in the history honors program shall be enrolled as a part of the regular curriculum in HIST 4550 and 455 I, starting the sequence the spring semester of the junior year and concluding at the end of the first semester of the senior year. Upon completion of the two courses, the student will receive 6 s.h. credit in advanced history.

Each honors scholar will carry out an extensive program of carefully supervised reading and research in one of nine areas of history: Colonial America; Nineteenth-Century America; Twentieth-Century America; Ancient and Medieval; Europe, 1500-1815; Europe, 1815 to Present; Asia; Latin America; Africa.

A history honors award is given annually to the history honors program student who completes and defends the most outstanding honors paper:

DEPARTMENT OF MATHEMATICS

Gail Ratcliff, Chairperson, 124 Austin Building

Admission Requirements

Students enrolled at East Carolina University or transferring from other institutions may be considered for admission to the Department of Mathematics as a mathematics major provided the following departmental requirements are met. To elect mathematics as a major, the student must have a minimum cumulative 2.0 GPA and a minimum grade of C in all mathematics courses taken below the 3000 level.

Readmission

Students previously admitted to the Department of Mathematics who have been out of school more than three academic years and students who were previously enrolled in the university but not admitted to the department must meet the requirements outlined in the section above.

Students applying for readmission to the university who were previously admitted to the Department of Mathematics and who have been out of school no more than three academic years must have a minimum 2.0 GPA to be eligible for readmission to the department.

Second Degree Students

Students who hold a baccalaureate degree qualify for admission to the Department of Mathematics upon admission to the university.

The courses listed as degree requirements may have prerequisites or corequisites that are not indicated. See section 8.
(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive. Semester of course offering is not guaranteed.

BA in Mathematics

Credit toward a mathematics major will not be given in any MATH course or in CSCI 2510 or 2600 with a grade less than C. The degree offers three concentration areas: mathematics, computer science, and statistics. The mathematics concentration requires a minor and the computer science and statistics concentrations require specified cognates in lieu of a minor. Minimum degree requirement is **126 s.h.** of credit as follows:

- 1. General education (See Section 4, General Education Requirements for all Baccalaureate Degree Programs.) 42 s.h.**
- 2. Foreign language through level 1004 12 s.h.**

Mathematics Honors Program

The mathematics honors program is open to students with exceptional mathematical ability who have completed MATH 2173. Acceptance in the program entitles the student to register for MATH 3550, 3551, 4550, 4551.

DEPARTMENT OF PHILOSOPHY

George Bailey, Chairperson, A-327 Brewster Building

BA in Philosophy

Minimum degree requirement is 120 s.h. of credit as follows:

- 1. General education (See Section 4, General Education Requirements for all Baccalaureate Degree Programs.) 42 s.h.
- 2. Foreign language through level 1004 12 s.h.
- 3. Core 30 s.h.
Choose a minimum of 12 s.h. of PHIL above 2999
The department encourages majors to enroll in junior-senior courses as soon as they are eligible.
- 4. Minor and electives to complete requirements for graduation.

Philosophy Minor

The philosophy minor requires 24 s.h. credit. While there are no required courses, a minimum of 9 s.h. of the 24 s.h. must be above PHIL 2999.

Philosophy Honors Program

The purpose of junior-senior honors in philosophy is to encourage independent research and scholarship and to give students an opportunity to better prepare themselves for graduate study. Under the direction of one member of the department, a student enrolled in this program (PHIL 3550, 4550) carries on studies (as based on a reading list), prepares for a comprehensive examination at the end of the junior year, and writes a thesis during the first semester of the senior year. Students who have an interest in this program should come to the departmental office in A-327 Brewster Building for details.

The courses listed as degree requirements may have prerequisites or corequisites that are not indicated. See section 8.
(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive. Semester of course offering is not guaranteed.
Anticipated semester of course offering: (F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)= Even Year
P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P, C, or P/C

DEPARTMENT OF PHYSICS

John Sutherland, Chairperson, N-209 Howell Science Complex

Proficiency Requirements

A minimum grade of C in PHYS 2350 and 2360 is required before a student may take any physics course for which PHYS 2360 is prerequisite.

BA in Physics

The BA is designed for students interested in employment in nontechnical fields or in graduate study in the social sciences, business, and the humanities depending on elective choices. Minimum degree requirement is **126 s.h.** of credit as follows:

1. **General education (See Section 4, General Education Requirements for all Baccalaureate Degree programs), including those listed below 42 s.h.**
MATH 1065. College Algebra (3) (F,S,SS) (GE:MA) (P: Appropriate score on mathematics placement test) or equivalent
2. **Foreign language through level 1004 12 s.h.**
3. **Core 19 s.h.**
PHYS 125 I, 126 I. General Physics Laboratory (1,1) (F,S,SS) (GE:SC) (C for 125 I: PHYS 1250 or 2350; C for 126 I: PHYS 1260 or 2360)
PHYS 2350, 2360. University Physics (4,4) (GE:SC) (C for 2350: MATH 212 I or 217 I; P for 2360: PHYS 2350)

MATH 2173. Calculus III (4) (F,S,SS) (GE:MA) (P: MATH 2172)
5. **Minor and electives to complete requirements for graduation.**

BS in Physics

The BS is a traditional physics program designed for students interested in graduate study in physics or engineering. Minimum degree requirement is **126 s.h.** of credit as follows:

1. **General education (See Section 4, General Education Requirements for all Baccalaureate Degree Programs), including those listed below 42 s.h.**
CHEM 1150, 1151. General Chemistry and Laboratory I (3,1) (F,S,SS) (GE:SC) (P: Chemistry placement test or passing grade in CHEM 0150; P/C: MATH 1065)
CHEM 1160, 1161. General Chemistry and Laboratory II (3,1) (F,S,SS) (GE:SC) (P: CHEM 1150, 1151; C for 1160: CHEM 1161; C for 1161: CHEM 1160; RC: MATH 1083 or 1085)
MATH 1065. College Algebra (3) (F,S,SS) (GE:MA) (P: Appropriate score on mathematics placement test) or equivalent
2. **Core 40 s.h.**
PHYS 125 I, 126 I. General Physics Laboratory (1,1) (F,S,SS) (GE:SC) (C for 125 I: PHYS 1250 or 2350; C for 126 I: PHYS 1260 or 2360)
PHYS 2350, 2360. University Physics (4,4) (GE:SC) (C for 2350: MATH 212 I or 217 I; P for 2360: PHYS 2350)

Physics Requirements for Students Participating in MD/7 Initiative

Students pursuing a BA or BSAP in Physics who are also participating in the MD/7 Program must meet all the above-specified requirements for their major and the math cognate. It should also be noted that students coming in under the MD/7 Program in Physics will need to have obtained prior credit for MATH 1065 and MATH 1085. In addition, the student will need to fulfill the pre-health concentration by taking BIOL 1100/1101, BIOL 200/201, CHEM 1150/1151, CHEM 1160, 1161, CHEM 2750/2751 and CHEM

The courses listed as degree requirements may have prerequisites or corequisites that are not indicated. See section 8.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive. Semester of course offering is not guaranteed.

Anticipated semester of course offering: (F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)= Even Year

P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P,C, or P/C

2760/2763. If the student is accepted for admission to the Brody School of Medicine under the MD/7 Program, the first year of medical studies will count toward fulfilling the remaining 28 hours of electives as required for graduation.

Physics Minor

Minimum requirement for physics minor is **24 s.h.** credit as follows:

1. **Core** **10 s.h.**
 PHYS 125 I, 126 I. General Physics Laboratory (1,1) (F,S,SS) (GE:SC) (C for 125 I: PHYS 1250 or 2350; C for 126 I: PHYS 1260 or 2260)
 PHYS 2350, 2360. University Physics (4,4) (GE:SC) (C for 2350: MATH 212 I or 217 I; P for 2360: PHYS 2350)
2. **PHYS electives above 2999** **14 s.h.**

Bachelor of Science and Accelerated MS in Physics

Students working toward a BS degree in physics have the opportunity to earn an MS degree in two or three additional semesters of study. These students are encouraged to begin research projects as undergraduates and take advanced classes that can be used to waive some MS course requirements. As seniors they may be granted early admission to the MS program and would be eligible to receive paid teaching assistantships. To be enrolled in the MS program as a senior, students must be within 6 s.h. credit of completing all undergraduate degree requirements. Applications to the MS program should be submitted during the first semester of the senior year and must include GRE scores.

Political Science Honors Program

Participation in the honors program is by invitation only and is limited to seniors who have obtained a minimum cumulative 3.5 GPA. A minimum grade of B on POLS 455 I is a prerequisite for admission to POLS 4552. Students completing both segments of the program with a minimum grade of B earn the recognition honors in political science on their academic records and are regarded as the most accomplished scholars among all political science majors.

DEPARTMENT OF PSYCHOLOGY

Michael Brown, Interim Chairperson, 115 Rawl Building

BA in Psychology

In order to declare a major in psychology, an undergraduate must have a minimum cumulative GPA of 2.0. A faculty adviser will be assigned to each student to aid in planning an overall program. A student desiring to minor in psychology should consult the major department faculty adviser or the chairperson of the Department of Psychology to determine the most appropriate sequence of courses for the minor. Undergraduate students majoring in psychology are encouraged to minor in biology, business, chemistry, child development and family relations, mathematics, philosophy, or sociology or to take a composite minor approved by the faculty adviser and chairperson. Minimum degree requirement is **126 s.h.** of credit as follows:

1. General education (See Section 4, General Education Requirements for all Baccalaureate Degree Programs), including those listed below 42 s.h.

MATH 1065. College Algebra (3) (F,S,SS) (GE:MA) (P: Appropriate score on mathematics placement test)

2. PSYC electives 9 s.h.

Psychology Honors Program

In order to enter the honors program in psychology, a student must be a second semester junior majoring in psychology; must have completed a minimum of 80 s.h. with a minimum cumulative 3.0 GPA; must have completed at least 20 s.h. in psychology with at least a B in PSYC 2101, 2210 and with a minimum 3.5 GPA in psychology. After admission to the honors program by the director of undergraduate studies in psychology, the student will take PSYC 4601 during the second semester of the junior year and PSYC 4602 the first semester of the senior year. This sequence will satisfy the requirement for a capstone course and will qualify the student for honors in psychology if at least a B is earned in each course.

Integrated Undergraduate/Graduate Degree Program
in Psychology and Occupational Therapy

The integrated Undergraduate/Graduate Degree Program in Psychology and Occupational Therapy provides a means by which highly qualified undergraduate students may complete both a BA degree in psychology and the professional master's degree in occupational therapy in five years. Students must be approved by both participating departments and must apply to the graduate school as an integrated undergraduate/graduate student after 75 credits of undergraduate work is completed; permission to pursue the integrated degree program does not guarantee admission to the Graduate School. Incoming students must meet requirements for the honors program and must maintain a cumulative grade point average (GPA) of 3.5/4.0 at East Carolina University. Students who complete the program will receive an undergraduate degree in psychology upon completing all required courses, typically at the end of the first year of the graduate occupational therapy program. Interested students should consult the current ECU Graduate School Catalog and the Department of Occupational Therapy for additional information.

The total number of hours for undergraduate and graduate programs combined is 181 credits. Fifteen semester credits of graduate courses count towards both the undergraduate and graduate degree. Required courses include: foreign language (12 credits), general education courses, including PHIL 1110, 1175, 1500, 1180, or 2275, CHEM 1120, SOCI 2110, ANTH 1000 or 2200; HIMA 3000, BIOL 1050, 1051, 2140, 2141, 2150, 2151; Psychology major courses including PSYC 1000, 3206, 4375, 3226, 2210, 3311, 4000, and 12 credits of psychology electives; OCCT 3000, 6000, 6001, 6002, 6003, 6004, 6005, 6006, 6007, 6008, 6009, 6080, 6100, 6150, 6200, 6250, 6500, 6600, 6300, 6350, 6550, 6400, 6450, 6455, and 6650, 6660 or BIOS 6022, OCCT 7000.

BA Psychology/Master of Arts in Teaching in Elementary Education

This provides an opportunity for students to earn a Bachelor of Arts (B.A.) degree in psychology through the Harriot College of Arts and Sciences along with a Master of Arts in Teaching (M.A.T.) degree and teacher certification in elementary education through the College of Education. Students can complete the B.A./M.A.T. in five years or less. Students who are completing the BA degree over four years may make an application to the program during their junior year or the fall semester of the senior year. Students who are seeking admission to the program while completing the accelerated three-year BA program in psychology should apply when they complete approximately 75 hours of coursework. Interested students should consult the ECU Graduate Catalog and the MAT Program Coordinator in the College of Education for more information.

Sociology minors are encouraged to consult with the Department of Sociology when registering for SOCI electives.

Sociology Honors Program

The honors program in sociology is designed for outstanding sociology majors who wish additional challenge and recognition in pursuing scholarly or service work in an area of sociology. Students in the program enroll in SOCI 4550, 4551 in consecutive semesters. In consultation with the student, the dept chair will appoint a faculty adviser and two faculty reviewers to comprise an honors committee that will approve, supervise, and evaluate the work of the student. Under the guidance of this committee, the student will undertake extensive reading, research, or service activities resulting in the writing of an honors paper. The honors paper will be presented to, and orally defended before, the honors committee. To qualify for the program, a student must be a senior; have the approval of the dept chair; and have a minimum cumulative and major 3.5 GPA.

The courses listed as degree requirements may have prerequisites or corequisites that are not indicated. See section 8.

SCHOOL OF ALLIED HEALTH SCIENCES

Stephen W Thomas, Dean, 302-C Belk Building

Admission

Admission to the university does not guarantee admission to the School of Allied Health Sciences. Students applying for admission to the professional programs of this school must have completed the application process as specified by the departments prior to the date set by the respective departments. Inquiries should be directed to the chairperson of the individual departments, School of Allied Health Sciences.

Curricula

The School of Allied Health Sciences offers BS degree programs in clinical laboratory science, health information management, occupational therapy, physician assistant, rehabilitation services, and speech and hearing sciences; minors in alcohol and drug studies and in sign language studies/pre-interpreter preparation; a MS in rehabilitation counseling, occupational therapy, vocational evaluation, speech-language and auditory pathology, and substance abuse counseling; a MPT in physical therapy; and a PhD in communication sciences and disorders. (See graduate catalog for graduate degrees.)

DEPARTMENT OF COMMUNICATION SCIENCES AND DISORDERS

Gregg D. Givens, Interim Chairperson, 107 Belk Annex 1

BS in Speech and Hearing Sciences

The undergraduate program emphasizes the normal processes of speech, hearing, and language and allows the student to explore other academic areas of interest. Since in most states the master's degree is the minimum level of preparation for persons seeking professional careers in this field, the BS degree does not qualify the student to work professionally but is designed to prepare the student for graduate studies. Admission to the university does not assure admission to the program. Students are initially admitted to the General College. In order to be considered for admission to the program, the student must have a minimum cumulative 2.5 GPA and must have completed CSDI 2100 with a minimum grade of B. The student must also be interviewed prior to formal admission into the program. These requirements are generally completed by the end of spring semester of the sophomore year. Majors must maintain a cumulative 2.5 GPA and a 2.5 GPA for all required CSDI courses. All CSDI courses must be passed with a minimum grade of C. A major earning a D in any CSDI course must petition the Department of Communication Sciences and Disorders for probationary continuation and will be required to repeat the course. Minimum degree requirement is **121 s.h.** of credit as follows:

1. General education requirements (See Section 4, General Education Requirements for all Baccalaureate Degree Programs), including those listed below 42 s.h.

BIOL 1050. General Biology (3) (F,S,SS) (GE:SC)

BIOL 1051. General Biology Laboratory (1) (F,S,SS) (GE:SC)

Speech and Hearing Sciences Minor

A minor in speech and hearing sciences is designed to provide the student with an overview of the nature of human communication, including its origin, development, and processes. The director of undergraduate studies of the Department of Communication Sciences and Disorders should be consulted for the schedule plan of the minor. The minor requires **24 s.h.** as follows:

CSDI 2100. Introduction to Communication Disorders (3) (F,S)

CSDI 3010. Phonetics (3) (F)

CSDI 3020. Language Development (3) (F)

CSDI 3030. Speech Science: Anatomy, Physiology, and Acoustics (3) (F)

CSDI 3050. Acquisition and Development of Phonology and Articulation (3) (S)

CSDI 3105. Hearing Science (3) (S)

CSDI 4100. Introduction to Audiology (3) (F)

CSDI 4110. Aural Rehabilitation (3) (S)

Sign Language Studies/Pre-Interpreting Minor

The sign language studies/pre-interpreting minor will assist students with the development of communicative competencies in American Sign Language. The minor will also provide an awareness and appreciation of deaf culture as well as professional standards required of an interpreter. There are two options for completing the minor: sign language studies (24 s.h.) and pre-interpreting (28 s.h.).

Sign Language Studies Option

The sign language studies option is designed for those students who are interested in learning American Sign Language and about the issues faced by the deaf community. This option requires **24 s.h.** as follows:

ASLS 2020. Sign Languages Studies I (3) (F,S,SS)

ASLS 2030. Sign Language Studies II (3) (F,S,SS) (P: ASLS 2020)

ASLS 2040. Deaf Culture and the Community (3) (F,S,SS)

ASLS 3060. Sign Language Studies III (3) (F,S,SS) (P: ASLS 2030 or consent of instructor)

ASLS 3070. Introduction to Interpreting for the Deaf (3) (F) (P: ASLS 2040, 3060; or consent of instructor)

ASLS 3080. Sign Language Studies IV (3) (F,S,SS) (P: ASLS 3060 or consent of instructor)

CSDI 2100. Introduction to Communication Disorders (3) (F,S,SS)

Choose a 3 s.h. course approved by the director of the Department for Disability Support Services.

Pre-Interpreting Option

The pre-interpreting option is for students who are interested in the profession of interpretation for the deaf and is designed to provide them with the preliminary cognitive and processing skills needed in interpreting. For information about this minor, contact the Department for Disability Support Services at 252-328-6799 (Voice/TTY). Minimum requirement is **28 s.h.** as follows:

COLLEGE OF BUSINESS

Ernest B. Uhr, Dean, 3119 Bate Building

Richard L. Kerns, Associate Dean

Rick Niswander, Associate Dean

Louis H. Zincone, Jr., Associate Dean

The College of Business provides an environment where students, faculty, and business professionals can pursue the acquisition of applied and theoretical knowledge relevant to the operation of profit and nonprofit organizations. The college, which consists of five departments, offers the BSBA degrees in decision sciences, finance, management, management accounting, and marketing; the five-year BSA/MSA and a stand-alone MSA program in professional accounting; and the MBA degree. The college also offers a tax option in the professional accounting program as well as health care and apparel textiles options in the MBA program. Graduates are expected to be prepared to be managers and analysts in large and small organizations that operate on both a profit and nonprofit basis. In addition, the faculty is engaged in the expansion of knowledge through research. The college supports the business practitioner through the Division of Professional Programs, Bureau of Business Research, Small Business Institute, and applied research projects in both graduate and undergraduate classes. The college supports primary and secondary education in the state through its Center for Economic Education.

Accreditation

The undergraduate and master's business programs are accredited by AACSB International. Since the primary objective of accreditation and the College of Business is to foster high quality in education for business administration and management, most of the school's resources are dedicated to its degree programs. Consequently, non-business majors will not be permitted to enroll in more than 30 s.h. of undergraduate course credit offered by the College of Business.

Admission

Students enrolled at either East Carolina University or other institutions may be considered for admission to the College of Business, if the following requirements have been met.

1. Completion of a minimum of 45 s.h. or 60 q.h.
2. Cumulative GPA of 2.5 on 4.0 scale.
3. Completion of courses listed below or equivalent course work with a minimum grade of C in each and a 2.5 average over the eight courses: ACCT 2401, 2521; ECON 2113, 2133; FINA 2244; DSCI 2223; MATH 1066, 2283.

Students who desire to pursue the BSA/MSA or BSBA degree must be admitted to the College of Business before they enroll in 4000-level business courses. Preference in registration will be given to declared majors and intended majors with a minimum 2.5 GPA. Students not admitted to the College of Business may take a maximum of 30 s.h. total of 2000- and 3000-level business courses. However, special permission from the accounting chairperson is required for 3000-level accounting courses for non-business majors.

The admission of a student seeking a second undergraduate degree in the College of Business must be approved by the chair of the department in which the student will concentrate. At the time of such approval, the chair will also approve the specific courses which will lead to the receipt of the second degree.

Readmission

Students applying for readmission to the university who were previously enrolled in the College of Business and who have been out of school no more than three academic years must have a minimum GPA of 2.0 to be eligible for readmission to the College of Business.

Students previously enrolled in the College of Business who have been out of school more than three academic years and students who were previously enrolled in the university but not in the College of Business must meet the requirements for admission outlined in the section above.

Transfer Credit for Upper-Level Courses

The College of Business will not accept for credit upper-level courses (numbered 3000 and 4000 at East Carolina University) taken at a junior or community college. The department chair will determine the applicability of upper-level courses taken at Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

BSBA in Management Accounting

The BSBA in management accounting does not satisfy the educational prerequisites nor provide a comprehensive program of training for professional certification. Students aspiring to achieve professional certification should refer to the requirements for the BSA/MSA degree program. Students pursuing the BSBA in management accounting must earn a minimum grade of C in accounting courses to satisfy any upper-level accounting course prerequisites. Also, to graduate, students must earn a minimum grade of C and a minimum cumulative GPA of 2.0 in all 3000- and 4000-level accounting courses taken. Minimum degree requirement is **120 s.h.** of credit as follows:

- 1. General education requirements (See Section 4, General Education Requirements for all Baccalaureate Degree Programs), including those listed below 42 s.h.

BSA/MSA (Five-Year, Combined Degree Program in Accounting)

The master of science in accounting provides academic preparation for professional careers in accounting. Students who successfully complete all program requirements are jointly awarded the BSA and MSA degrees at the end of five years of study.

Students who have been admitted to both the College of Business and the Department of Accounting may apply for admission to the BSA/MSA program during their sixth semester. Acceptance decisions are made after completion of 90 s.h. and are based on academic performance appropriate for graduate studies, score on the Graduate Management Admissions Test (GMAT), letters of recommendation, and other relevant information. Admission to the graduate program is a prerequisite to enrollment in any graduate course.

Applications for direct admission into the MSA program are invited from students with undergraduate degrees in accounting and from students with degrees in areas other than accounting. Required courses and other program requirements for each applicant must be individually determined. Minimum degree requirement for the combined program is **150 s.h.** of credit as follows:

1. General education requirements (See Section 4, General Education Requirements for all Baccalaureate Degree Programs), including those listed below 42 s.h.

A minimum grade of C is required to satisfy any upper-level accounting prerequisites.

The Department of Accounting will not accept for credit upper-level courses (those numbered 3000 or above at ECU) taken at a junior college or community college. The department chairperson will determine on an individual basis the extent to which upper-level courses taken at senior colleges may be used to meet degree requirements at East Carolina University. All other East Carolina University Graduate School and College of Business requirements must be followed. **Students not completing the entire curriculum will be required to meet the BSBA requirements in order to receive a bachelor's degree. The BSA degree may not be awarded separately from the MSA.**

The courses listed as degree requirements may have prerequisites or corequisites that are not indicated. See section 8.

General Business Concentration

The concentration in general business offers students the opportunity to acquire a general overview of the skills necessary to manage human and physical resources. Although primarily designed for distance education students, students on campus may choose this concentration. Enrollment in this concentration will be limited by the resources available. Distance education students will receive priority in enrollment in distance education courses.

SECTION 7: ACADEMIC PROGRAMS

Bachelor's and Accelerated MBA Program

Students in fields other than business who are interested in careers in private or public sector management may complete the BA or BS and, if qualified, may complete the master of business administration in one additional year. The typical MBA program requires two years, or 60 s.h., beyond the four-year bachelor's degree. However, the accelerated program allows the student to meet up to 27 s.h. of the MBA by waivers, on a course-by-course basis, if the equivalent undergraduate courses are completed with a grade of A or B. The remaining 33 s.h. of the MBA may then be completed in two semesters and a summer session (two summer terms).

As part of the general education requirements, minor field, concentration, and electives, the student will prepare for the accelerated MBA program by completing the following courses with a grade of A or B: ACCT 2401*, 2521*; COMM 2420; DSCI 2223*, 3063; ECON 2113*, 2133; ENGL 3880; FINA 2244*, 3724*; MGMT 3202*, 3352; MKTG 3832*; MATH 1066, 2283*. Completion of the courses marked with an asterisk (*) will qualify students for a minor in business administration as part of the undergraduate degree. Students in programs which require ENGL 3820; ITEC 3290; MATH 2119, 2122, or 2172; and MATH 2228 may substitute these courses for the comparable courses above. Students who are unable to complete the entire program should consult their adviser or the assistant dean of graduate programs in the College of Business for the most appropriate combination of courses.

There is a separate entry process for admission to the MBA program. Students must consult the assistant dean for graduate programs in the College of Business at the beginning of their senior year about the entry requirements.

COLLEGE OF EDUCATION

Marilyn A. Sheerer, Dean, 154 Speight Building

John A. Swope, Associate Dean

Vivian M. Covington, Director of Teacher Education

The mission of the College of Education is the preparation of professional educators and allied practitioners, including professionals in business information systems, counseling, instructional technology, and librarianship. Significant to this mission is a strong commitment to three important, related areas, all of which are realized through partnerships and other endeavors: the encouragement and nurturing of professional growth for educators and allied practitioners at all levels and in all areas of the educational endeavor; a continuing emphasis on and support for scholarship and research/creative activity, and service in all areas of professional education. Critical to such commitment is the promotion of effective teaching, staff participation in the improvement of schools; and, in concert with other state agencies, the development and creation of educational policy for North Carolina.

The College of Education offers baccalaureate degree programs through the Departments of Business, Career, and Technical Education, Curriculum and Instruction, and Mathematics and Science Education. All teacher education programs are accredited by the National Council for the Accreditation of Teacher Education (NCATE) and the North Carolina Department of Public Instruction.

Admission

A faculty adviser will be assigned to each student to assist in program planning. Undergraduate teacher education majors may also be required to complete an approved academic concentration as part of their programs of study. Additional information about academic concentrations and specific program requirements is available in departmental offices. Teacher education is a program that requires formal admittance. Teacher education majors will become official teacher education candidates once they have been fully admitted to Upper Division.

Once enrolled in a teacher education program and prior to admission to the upper division of study, students will be required to have a minimum cumulative 2.5 GPA, post passing scores on PRAXIS I, and meet technology competency requirements. Students must maintain a 2.5 GPA for retention in the upper division of all teacher education programs. Additional information concerning admission to the upper division is available in the Office of Teacher Education, 105 Speight.

Requirements for Students Preparing to Teach

The purpose of teacher education at East Carolina University is to prepare professional educators through partnerships who are academically and technically proficient, reflective in practice, committed to the intellectual empowerment of others, and guided by the larger democratic purposes of American education.

Elementary, Middle Grades, and Special Education

See Section 4, Undergraduate Studies, Requirements for Baccalaureate Degree Programs and Special Requirements for the BS Degree for Students Preparing to Teach. See Licensure, below. See also the Department of Curriculum and Instruction. As part of their programs, majors will also complete an approved academic concentration from the list presented below. Students should consult their departmental adviser for specific program requirements.

Secondary Education

See Section 4, Undergraduate Studies, Requirements for Baccalaureate Degree Programs and Special Requirements for the BS Degree for Students Preparing to Teach. See Licensure, below. See also the Departments of Business, Career, and Technical Education, Curriculum and Instruction, and Mathematics and Science Education as well as departments and schools outside the College of Education offering this degree.

Students who aspire to complete the requirements for a BS degree in secondary teacher education must complete all general education requirements, the requirements stipulated by the department of the academic major, and the following professional credits: EDTC 4001; EDUC 3200; EDUC 4400 or PSYC 4305; READ 3990 or 5317; SPED 4010; unit prefix 2123, 4323, 4324, 4325. Majors in some programs will also complete an approved academic concentration from the list presented below. Students should consult their departmental adviser for specific program information.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

(GE:EN)=English; (GE:EX)=Exercise and Sport Science; (GE:FA)=Fine Arts; (GE:HL)=Health; (GE:HU)=Humanities; (GE:MA)=Mathematics; (GE:SC)=Science; (GE:SO)=Social Science

SECTION 7: ACADEMIC PROGRAMS

UNC-OP has mandated Teacher Education concentrations be reduced from 24 to 18 hours effective with Fall 2004 freshman and transfer students. Consult with your advisor for appropriate courses.

ACADEMIC CONCENTRATIONS

A maximum of 6 s.h. may be counted toward general education.

Anthropology (24 s.h.)

ANTH 2000. Archaeology Around the World (3) (F,S) (GE:SO)

ANTH 2010. Societies Around the World (3) (F,S,SS) (GE:SO)

ANTH 2015. Introduction to Biological Anthropology (3) (WI*) (F,S) (RP:A BIOL course)

Choose 6 s.h. from:

ANTH 3002. Cultures of East Asia (3) (GE:SO) (P:ANTH 1000 or 2010 or 2200 or consent of instructor)

ANTH 3003. Cultures of Africa (3) (OY) (GE:SO) (P:ANTH 1000 or 2010 or 2200 or consent of instructor)

ANTH 3004. Cultures of the South Pacific (3) (EY) (GE:SO) (P:ANTH 1000 or 2010 or 2200 or consent of instructor)

ANTH 3005. North American Indians (3) (EY) (GE:SO) (P:ANTH 1000 or 2010 or 2200 or consent of instructor)

ANTH 3016. Cultures of the Caribbean (3) (S) (GE:SO) (P:ANTH 1000 or 2010 or 2200 or consent of instructor)

ANTH 3017. Cultures of Mexico and Guatemala (3) (OY) (GE:SO) (P:ANTH 1000 or 2010 or 2200 or consent of instructor)

ANTH 3018. Cultures of South and Central America (3) (EY) (GE:SO) (P:ANTH 1000 or 2010 or 2200 or consent of instructor)

GEOG 2100. World Geography: Developed Regions (3) (F,S,SS) (GE:SO)

GEOG 2110. World Geography: Less Developed Regions (3) (F,S,SS) (GE:SO)

Choose 9 s.h. ANTH electives of which 6 s.h. must be above 2999

Biology (24 s.h.)

BIOL 1050. General Biology (3) (F,S,SS) (GE:SC)

BIOL 1051. General Biology Laboratory (1) (F,S,SS) (GE:SC)

BIOL 1060. Environmental Biology (4) (F,S,SS) (GE:SC)

BIOL 2130. Survey of Human Physiology and Anatomy (4) (F,S,SS) (P:BIOL 1050, 1051; or 1100, 1101)

BIOL 2131. Survey of Human Physiology and Anatomy Laboratory (1) (F,S,SS) (P/C:BIOL 2130)

BIOL 3230, 3231. Field Botany (4,0) (F,S,SS) (P: 3 s.h. of general BIOL with a lab) or BIOL 3240, 3241. Field Zoology (4,0) (F) (P:BIOL 1060 or 2250)

Choose 7 s.h. BIOL electives above 2999

Chemistry (44 s.h.)

CHEM 1150, 1151. General Chemistry and Laboratory I (3,1) (F,S,SS) (GE:SC) (P:Chemistry placement test or passing grade in CHEM 10150; P/C: MATH 1065)

CHEM 1160, 1161. General Chemistry and Laboratory II (3,1) (F,S,SS) (GE:SC) (P:CHEM 1150, 1151; C for 1160: CHEM 1161; C for 1161: CHEM 1160; RC: MATH 1083 or 1085)

CHEM 2250, 2251. Quantitative and Instrumental Analysis (3,2) (WI,WI) (F,S) (P:CHEM 1160, 1161; 1 organic CHEM course)

CHEM 2650. Organic Chemistry for the Life Sciences (4) (F) (P:CHEM 1160, 1161)

CHEM 2651. Organic Chemistry Lab for the Life Sciences (1) (F) (C:CHEM 2650)

CHEM 3450, 3451. Elementary Inorganic Chemistry and Laboratory (3,1) (WI,WI) (S) (P:CHEM 2250, 2251)

CHEM 3850, 3851. Introduction to Physical Chemistry (4,1) (WI,WI) (F) (P:CHEM 1160, 1161; MATH 2122 or 2172; PHYS 1260, 1261)

MATH 1065. College Algebra (3) (F,S,SS) (GE:MA) (P:Appropriate score on mathematics placement test)

MATH 2121. Calculus for the Life Sciences I (3) (F,S,SS) (GE:MA) (P:MATH 1065 or 1077 with a minimum grade of C)

MATH 2122. Calculus for the Life Sciences II (3) (F,S,SS) (P:MATH 2121)

PHYS 1250, 1260. General Physics (3,3) (F,S,SS) (GE:SC) (P for 1250: MATH 1065 or 1066; P for 1260: PHYS 1250)

The courses listed as degree requirements may have prerequisites or corequisites that are not indicated. See section 8.

SECTION 7: ACADEMIC PROGRAMS

UPPER DIVISION OF TEACHER EDUCATION

Prior to enrolling in selected professional education courses (see departmental requirements) and applying for the internship experience, all students must be admitted to the upper division of teacher education. Application for admission is normally completed during the second semester of the sophomore year or first semester of the junior year. Transfer students must have completed at least 12 s.h. at East Carolina University before they are eligible to apply.

Steps in admission to upper division include:

1. Satisfactory completion of 16-hour early field experience with minimum grade of C, normally as part of departmental 2123 courses.
2. Passing scores on PRAXIS I: Reading, Writing, Mathematics of the Praxis Series.
3. A minimum GPA of 2.5 on a 4.0 scale for all college work attempted at East Carolina University. Students must also meet minimum academic major grade point average requirements. (See catalog or adviser.)
4. Satisfactory completion of a speech and hearing screening.
5. Satisfactory completion of essay and departmental interview.
6. Completion of computer competencies. (See adviser.)

Internship

Internship is the culminating aspect of the professional component of teacher preparation. The internship provides students opportunities to synthesize and apply previous learning and experience; to develop and apply analytical and problem-solving skills to the various activities of teaching, including self-evaluation; and to grow professionally through observing, planning, and teaching with an outstanding teacher.

Applications for admission to the internship must be submitted to the internship coordinator in the major department one year prior to the semester in which the student will complete internship requirements. Assignments will be located within the Latham Clinical Schools Network. Students are strongly discouraged from working during their internship. For applications and more detailed information, consult *Welcome To Teacher Education Handbook*, available in the student stores and online.

Administration of the internship is provided by clinical experiences coordinators, who work with the director of teacher education, department chairs, the teacher education staff, and local school personnel.

A minimum grade of C in the internship and a minimum 2.5 GPA is required for licensure.

Additional Requirements for Interns in Selected Program Areas

In addition to meeting the requirements of all secondary education majors, art majors must have earned a minimum grade of C in ART 385 I, 3860.

Prior to the internship, elementary education majors must have completed the following courses with a minimum grade of C: EDUC 3200; EDUC 4400 or PSYC 4305; ELEM 2123, 3235, 3236, 3250, 4525, 4550, 4551; MATE 3223; READ 3204, 3210; SCIE 3216; SPED 4010.

English education majors must have attained a minimum cumulative and major 2.5 GPA. They must have successfully completed ENED 4960; READ 3990; EDTC 4001; PSYC 3206; 4305 or EDUC 4400. They must have earned a minimum grade of C in ENED 2123; ENGL 2710, 3710, 3810.

Middle grades education majors must have successfully completed ENGL 2000. They must have earned a minimum grade of C in EDUC 3200; MIDG 2123, 3001, 3010, 3022, 4001, 4010; PSYC 4305 or EDUC 4400; READ 3990 or 5317; SPED 4010; and two methods courses (4319).

Music education majors must have a minimum cumulative and major 2.5 GPA. They must have earned a minimum grade of C in MUSC 2123 and in each course of their major methods sequence, MUSC 3217, 3227, 4323; or MUSC 3237, 3247, 4333; and must also have successfully completed EDUC 3200; 4400 or PSYC 4305; and SPED 4010.

The courses listed as degree requirements may have prerequisites or corequisites that are not indicated. See section 8. (WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive. Semester of course offering is not guaranteed. Anticipated semester of course offering: (F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)= Even Year P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P, C, or P/C

Special education majors must have earned a minimum grade of C in EDUC 3200; ELEM 3250; READ 3204; all SPED courses taken; and in COMM 2410 or 2420. They must have also successfully completed MATE 3218 and MUSC 3048.

Other secondary education and special subjects majors must have a minimum major 2.5 GPA. They must have earned a minimum grade of C in both the departmental early experience and methods courses as well as have successfully completed EDUC 3200. With the exception indicated above for music education, only 4323 departmental courses are acceptable for meeting the methods course requirement (4611 for FREN and GERM; 4641 for SPAN). (Note: The methods course, EDUC 4400, and SPED 4010 should be taken concurrently.)

LICENSURE

To be eligible for teacher licensure in North Carolina, the student must complete the following: a history course; a literature course; MATE 1067 or MATH 1065 or 1066 or 1067 or 2127; PSYC 1000; and PSYC 3206 for secondary and K-12 programs. Candidates must complete the requirements of an approved competency-based teacher education program designed to meet the requirements for the professional studies components of programs in secondary areas, special areas, or career and technical education. For a clear NC teaching license, a passing PRAXIS II score is required for all areas except B-K, dance and theater. When the programs have been properly planned, coordinated, and implemented, and when these credits and experiences have been verified by the appropriate unit, the dean of the College of Education or designee recommends the issuance of the proper teacher; special services personnel, or administrative license or certificate. Licensure requirements are beyond degree requirements.

Out-of-state applicants who are seeking licensure, in-state residents who are prepared in institutions outside the state, and in-state and out-of-state teachers seeking to change, upgrade, and/or add fields or subjects to their present license must submit their credentials to the appropriate academic department or school and to the director of teacher education for evaluation toward the competency-based teacher education program for North Carolina.

DEPARTMENT OF BUSINESS, CAREER, AND TECHNICAL EDUCATION

Ivan G. Wallace, Chairperson, 2318 Bate Building

The mission of the Department of Business, Career, and Technical Education is to prepare and develop professionals in workforce preparedness education and information technologies. The department offers undergraduate programs of study in business education, marketing education, and information processing/administrative services. Minors are offered in information processing and distribution technology; merchandising.

The department may accept up to 30 s.h. of lower-level (numbered 1000-2999 at ECU) technical credit from a community college or technical or junior college toward some of its BS degree options. Transfer students must meet the requirements of the degree option they elect.

The department is a member of the National Association for Business Teacher Education (NABTE).

SECTION 7: ACADEMIC PROGRAMS

DEPARTMENT OF CURRICULUM AND INSTRUCTION

David A. Powers, Chairperson, 122 Speight Building

The mission of the Department of Curriculum and Instruction is to prepare pre-service and in-service teachers in the areas of Elementary Education, English Education, History Education, Middle Grades Education, and Special Education. The department faculty is committed to providing comprehensive programs, rich in clinical experiences, and designed to produce teachers who are reflective practitioners who provide professional service to the community, the state, and the nation. Bachelor of Science degrees are offered in Elementary Education, English Education, History Education, Middle Grades Education, and in two areas of Special Education: General Curriculum and Adapted Curriculum. The Reading, Foundations, and Research program areas are also housed within the Department of Curriculum and Instruction and provide support for the university's teacher education programs.

Reading Clinic and Center

The Reading Clinic provides learning opportunities for preservice and inservice teachers to acquire competencies in diagnosis and remediation of reading disabilities. Children with reading difficulties are assigned individually to a teacher for tutorial and clinical experience. READ 3205, 3206, or 5313 are required for a total credit of 3 or 4 s.h.

The Reading Center is designed to aid college students with reading difficulties. Listed as READ 0092, no credit, the class meets two hours per week for one or two semesters depending upon the student's need; READ 1031, 1 s.h. credit, is an individualized course designed to increase reading power, efficiency, and study skills; three additional courses are also offered through the Reading Center: READ 1032, 1033, 1034.

SCHOOL OF ART AND DESIGN

Arthur J. Haney, Interim Director, Jenkins Fine Arts Center

Phil Phillips, Associate Director

BA in Art and Design

Art studio concentrations are offered in painting, sculpture, ceramics, printmaking, communication arts, textile design, fabric design, weaving design, wood design, and metal design. Minimum degree requirement is **120 s.h.** of credit as follows:

- 1. General education requirements (See Section 4, General Education Requirements for all Baccalaureate Degree Programs), including the following 42 s.h.**
PHIL 2271. Introduction to Philosophy of Art (3) (WI*) (FS) (GE:HU)
- 2. Foreign language through level 1004 12 s.h.**
- 3. Common core 30 s.h.**
ART 1005. Design I (3) (FS,SS) (GE:FA) (P:ART major or administrative approval)
ART 1015. Design II (3) (FS,SS) (P:ART 1005, 1020 with a minimum grade of C; ART 1905; or administrative approval)
ART 1020. Drawing (3) (FS,SS) (GE:FA) (P:ART major or administrative approval)
ART 1030. Figure Drawing (3) (FS,SS) (P:ART 1005, 1020 with a minimum grade of C; ART 1905; or administrative approval)
ART 1905. The Dimensions of Art (3) (FS) (GE:FA) (P:ART major)
ART 1906. Art History Survey (3) (FS) (GE:FA) (P:ART 1905)
ART 1907. Art History Survey (3) (FS) (GE:FA) (P:ART 1905)
Choose 6 s.h. art surveys outside the concentration
Choose a 3 s.h. art history elective
- 4. Art concentration courses to include survey (See specific studio concentration course description,) 15 s.h.**
- 5. Art electives 12 s.h.**
Electives may be in any art prefix, including art history. Choose a minimum of 6 s.h. outside the area of concentration; however, the 6 s.h. may not comprise two courses from the same area.
- 6. Electives to meet minimum requirements for graduation.**
- 7. Individual program areas require a portfolio review for acceptance into the area after the student has completed the survey course and one upper-level studio course but not more than two courses. Students submitting portfolios to communication arts concentrations must demonstrate a minimum cumulative GPA of 2.6 in the survey and all studio art concentration courses attempted. Entrance is competitive and space is limited. Students not accepted into their preferred program or area of concentration should be prepared to seek alternative areas of concentration and/or degree programs.**
- 8. A senior show and slides of work exhibited are requirements for graduation.**

BA in Art History and Appreciation

Minimum degree requirement is **120 s.h.** of credit as follows:

- 1. General education requirements (See Section 4, General Education Requirements for all Baccalaureate Degree Programs), including the following 42 s.h.**
ANTH 1000. Introduction to Anthropology (3) (FS,SS) (GE:SO)
HIST 1030. World Civilizations to 1500 (3) (WI*) (FS,SS) (GE:SO)
HIST 1031. World Civilizations Since 1500 (3) (WI*) (FS,SS) (GE:SO)
PHIL 2271. Introduction to Philosophy of Art (3) (WI*) (FS) (GE:HU)
Choose two from:
ENGL 3460. Classical Mythology (3) (F) (GE:HU) (P:ENGL 1200)

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

(GE:EN)=English; (GE:EX)=Exercise and Sport Science; (GE:FA)=Fine Arts; (GE:HL)=Health; (GE:HU)=Humanities; (GE:MA)=Mathematics; (GE:SC)=Science; (GE:SO)=Social Science

ART 3990. Art History and Its Methods (3) (WI*) (P:ART 1906, 1907; P for nonmajor: Consent of instructor)

Choose three courses which cover art before 1800

Choose three courses which cover art after 1800

(African art will be counted in the latter category; history of prints and drawings may be counted in either category.)

4. Concentration area (Choose one.) 21 s.h.

Liberal Arts:

Choose 6 s.h. of additional art history electives

Choose 15 s.h. electives from anthropology, English, foreign languages, history, philosophy, or area studies

Studio Art:

ART 1015. Design II (3) (F,S) (P:ART 1005, 1020 with a minimum grade of C; ART 1905; or administrative approval)

ART 1030. Figure Drawing (3) (F,S) (P:ART 1005, 1020 with a minimum grade of C; ART 1905; or administrative approval)

Choose 9 s.h. art surveys

Choose 6 s.h. art electives (may be taken in art history)

5. Electives to meet minimum requirements for graduation.

6. A senior paper in art history and an exit exam are requirements for graduation.

BFA in Art and Design

Concentrations are offered in painting, sculpture, ceramics, printmaking, communication arts/graphic design, communication arts/illustration, communication arts/photography, textile design, fabric design, weaving design, wood design, and metal design. Minimum degree requirement is **126 s.h.** of credit as follows:

1. General education requirements (See Section 4, General Education Requirements for all Baccalaureate Degree Programs), including the following 42 s.h.

PHIL 2271. Introduction to Philosophy of Art (3) (WI*) (F,S) (GE:HU)

Course Limitations Prior to Portfolio Review

For the BA degree and BFA art education degree, up to two courses beyond the survey in the selected area may be taken before a portfolio submission is required. For the BFA degree, up to four courses beyond the survey in the selected area may be taken before a portfolio submission is required. Students will not be accepted into specific concentrations after completing the above number of courses. Exceptions are by administrative decision only.

The courses listed as degree requirements may have prerequisites or corequisites that are not indicated. See section 8.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive. Semester of course offering is not guaranteed.

Anticipated semester of course offering: (F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)= Even Year

P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P,C, or P/C

Transfer Student Information

Students wishing to transfer art credits after acceptance to East Carolina University (See Section 3, Admission, Transfer) must have their course work evaluated for transfer credit. In order to determine the appropriate application of art course credit to degree requirements at ECU, the School of Art and Design will evaluate each art course according to the following:

1. Art courses for which transfer credit is requested must be listed on the School of Art transcript form. The items to be included are title of the course, number of the course, semester or quarter credit hours, and full name of instructor.
2. A catalog or copies of appropriate pages describing the transfer course must be submitted.
3. For foundation credit, examples of work or slides showing all studio projects completed must be submitted.
4. For upper-level credit, a minimum of six and a maximum of fifteen examples of work or slides for each studio course to be evaluated must be submitted. These examples should show the entire range of projects completed in each course. Each item or slide must be labeled to identify the class in which it was produced.
5. Art history course credit must be accompanied by a listing of texts used and submission of copies of papers written for art history; the latter requirement may be waived in lieu of an interview with the curricular coordinator.
6. Credit transferred from two-year institutions will only be applicable to freshman and sophomore course requirements.
7. Recommendations concerning the approval of credit in art courses will be made by the area coordinator to the dean.

The dean will then inform the student of the applicability of credit and remaining requirements for the degree program.

All information and examples of work listed above must be received by the School of Art and Design at least one week before summer orientation day for transfer students entering fall semester and no later than December 1 for students entering spring semester.

Non-Art Majors

ART 1001 and courses under Art History Courses for Non-Art Majors may be taken by non-art majors without administrative approval. ART 1005, 1020 are also open to non-art majors based on available space and administrative approval. Other courses may be taken by meeting prerequisites or by consent of the instructor.

Foundation Courses

Foundation courses: ART 1005, 1015, 1020, 1030, 1905, 1906, 1907 are required of all BFA and BA degree candidates and are prerequisites for upper-level courses. (ART 1015 and 1030 are not required for the BA in art history, liberal arts concentration.) ART 1906, 1907 may be taken concurrently with survey-level courses.

Enrollment in any art studio course above ART 1030 is dependent upon the student earning a minimum grade of C in both ART 1015 and 1030.

Corresponding sections of ART 1005, 1020, 1905 (block scheduling) must be taken fall semester. Exceptions require administrative approval.

Corresponding sections of ART 1015, 1030; 1906 or 1907 (block scheduling) must be taken in spring semester. Exceptions require administrative approval.

Prerequisites within an area, exclusive of the foundation courses (ART 1005, 1015, 1020, 1030), may be waived by consent of the instructor.

Course Contact Hours

Lecture courses meet for one hour for each semester hour of credit; studio courses meet for two hours for each semester hour of credit.

Communication Arts

Graphic design students take ART 2200 and 27 s.h., including the following courses: ART 2210, 2220, 3200, 3210, 3230; 4200 or 4210; 5210.

Illustration students take ART 2200, 2210, 2220, 3200, 3210, 3230, 3240; 3551 or 3560 or 3561; 4230, 5230.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

(GE:EN)=English; (GE:EX)=Exercise and Sport Science; (GE:FA)=Fine Arts; (GE:HL)=Health; (GE:HU)=Humanities; (GE:MA)=Mathematics; (GE:SC)=Science; (GE:SO)=Social Science

SECTION 7: ACADEMIC PROGRAMS

Photography students take ART 2210, 2220, 3080, 3200, 3250, 3260, 4220, 4240, 4250, 5220.

BA candidates take ART 2200, 2210, 2220, 3200, 3230.

Communication arts courses explore creative problem solving in graphic design, illustration, and photography. Students will be introduced to various techniques utilized in dealing with issues in communication and aesthetics.

SCHOOL OF COMMUNICATION

Linner Griffin, Interim Director, Joyner East 103

BA in Communication

The BA in communication prepares students to work in public relations and journalism in business, government, and community agencies. The program offers traditional courses in mass communication along with courses reflecting the dynamic interpersonal and technological communication changes of today's society. the senior year. Students, after consultation with their adviser, are strongly advised to begin exploration and preliminary research of their honors topic during the second semester of their junior year in order to have sufficient time to complete the work. After extensive reading on a topic of the student's choice, appropriate consultation with a faculty adviser, and approval of a research proposal, the student submits an honors thesis on a topic related to the readings and completes an oral examination covering both the reading assignments and the completed thesis. Students must receive a grade of B or better in COMM 4196 to continue with COMM 4199.

Admission

Admission to the university does not guarantee admission to the School of Music. Prospective music majors and minors must be admitted both to the university and to the School of Music. Admission to the School of Music is determined by an acceptable level of performance as demonstrated through a personal audition or a recent taped recording. A satisfactory audition is required of all entering freshmen, transfer students, and students being readmitted. Acceptance of the audition is based upon an affirmative vote by a majority of the auditioning committee, which comprises a minimum of three faculty members. Admission is limited in some applied disciplines in the School of Music. For detailed information, students should contact the associate director for undergraduate studies of the School of Music.

Performance Medium

Each music major or minor is required to have a major performance medium. The medium may be chosen in any of the following areas: piano, organ, voice, strings, woodwind, brass, or percussion. Private instruction in the chosen medium is required throughout the four-year program of study. Detailed information regarding auditions and audition dates will be supplied upon request by the associate director for undergraduate studies of the School of Music. Basic entrance requirements in the major performance media are as follows:

Voice: An acceptable voice and the ability to sing with accurate pitch and rhythm.

Piano: The ability to perform acceptably major and minor scales and arpeggios and compositions representative of piano literature from three of the four style periods (baroque, classic, romantic, contemporary).

Other Instruments: A fundamental knowledge of the instrument, including an acceptable method of producing tone; awareness of intonation problems; accurate rhythmic feeling; some knowledge of solo literature available for the instrument; the ability to play major, minor, and chromatic scales with the proper fingering.

A student whose performance proficiency level is slightly below the minimum for entering freshmen may be admitted on probation in a major applied area. The student may take freshman music courses for credit and preparatory work in a major applied area for no credit for a maximum of one semester, as determined by the faculty in the major area.

Curricula

Placement Examinations

Transfer students are given placement tests in basic music knowledge during the summer orientation to determine their appropriate levels of study in music theory and history courses.

Transfer students are given jury examinations in their major applied areas at the end of the first semester to establish their appropriate proficiency levels.

The courses listed as degree requirements may have prerequisites or corequisites that are not indicated. See section 8.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive. Semester of course offering is not guaranteed.

Anticipated semester of course offering: (F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)= Even Year

P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P, C, or P/C

General Recital Attendance Requirement for All Majors

Each music major is required to attend at least 75 percent of the total number of general recitals offered during his or her enrollment at East Carolina University. (Music education students will be exempted during the student teaching semester.)

Piano Proficiency for All Majors

Music majors are required to complete satisfactorily the group piano sequence indicated in their concentrations or to demonstrate a comparable level of accomplishment.

Students should enroll in group piano each semester until the sequence is completed. Any student interrupting the sequence (either by dropping or by not enrolling) must retake the placement audition before enrolling in any subsequent piano course.

Applied and Core Music Regulations for Music Majors and Minors

A minimum grade of C in applied lessons on a student's major instrument will qualify as credit in the applied major guideline. The first grade lower than C must be raised the following semester according to the procedures given in the undergraduate catalog. A student will be disqualified as a music major or music minor the second time that he or she receives a grade lower than C in applied lessons on the major instrument.

A minimum grade of C in core MUSC courses (1156, 1166, 1176, 1186, 1406, 2156, 2166, 2176, 2186, 2248, 2406, 2416, 3156, 3166, 3176) is required to receive credit toward the music major.

To be admitted to upper division courses in all degree programs, students must pass a qualifying exam as specified in the *School of Music Handbook*.

BACHELOR OF MUSIC DEGREES

Majors for the bachelor of music degree are offered in music education, music therapy, performance (with concentrations in jazz studies, music theatre, organ, piano, piano pedagogy, sacred music, strings, voice, and winds or percussion), and theory-composition with concentrations in theory, traditional media composition, and electronic media composition. For admission to the upper level of the degree programs, a student must have a minimum cumulative 2.5 GPA and a minimum cumulative 2.5 GPA in music courses at the end of the sophomore year. For admission to upper division of Music Education concentrations, a student must have a minimum cumulative 2.5 GPA. For admission to upper level theory-composition concentrations, a student must have a minimum cumulative 3.0 GPA in music courses at the end of the sophomore year.

BM in Music Education

See Section 7, Degree Programs, School of Education, Licensure, for NC teacher licensure requirements. Minimum degree requirement is **128 s.h.** as follows:

1. General education requirements (See Section 4, General Education Requirements for all Baccalaureate Degree Programs), including those listed below 42 s.h.

MATH 1065. College Algebra (3) (F,S,SS) (GE:MA) (P:Appropriate score on mathematics placement test) or MATH

Performance groups (7 s.h.):

Minimum of 5 semesters large ensemble

Music majors may count only two semester hours of Marching Band Field Experience (MUSC 1706, 1 s.h.) for large ensemble credit. Marching Band (MUSC 1705, 2 s.h.) may not count toward large ensemble credit for music majors. Music majors taking more than 2 s.h. of MUSC 1706 or 1705 must sign a release form to be made available in the music office and in the SOM Undergraduate Handbook. The form will help clarify that hours above the required 2 s.h. of MUSC 1706 will not count as part of the Music Education degree plan at ECU, and that these extra hours may lead to additional hours on a student's transcript before graduation. Wind and percussion majors must include two semesters of MUSC 1706. Marching Band Field Experience (1) (F)

Minimum of 2 semesters small ensemble

Keyboard and voice majors must include two semesters of MUSC 3287. Choral Laboratory (1) (F,S) (P: Completion of or enrollment in MUSC 3156 or 3217 or 3237 or consent of instructor) as a small ensemble.

Music education (*with at least a C in each to be admitted to internship) (7 s.h.):

Certificate in Suzuki Pedagogy

This program is for students holding an undergraduate degree in a field other than music, who have an extensive background in musical study and highly developed performance skills and music course work equivalent to an undergraduate major in music. Current upper-level undergraduate music degree students may be admitted upon the recommendation of the program director.

Students in the program must complete **16 s.h.** of Suzuki Pedagogy course work with a minimum grade of B, a written pedagogical project and a full solo recital. The recital must include advanced repertoire from the Suzuki Violin School and supplementary literature. Certificate candidates must exhibit a thorough understanding of the Suzuki approach to pedagogy and its materials through demonstration teaching and the written project. Students who complete the certificate program will qualify for registration with the Suzuki Association of the Americas.

Minimum certificate requirement is **16 s.h.** of credit as follows: MUSC 4644, 4646, 4647, 4648, 4649, 4650, 4654, 4656.

COLLEGE OF HEALTH AND HUMAN PERFORMANCE

Glen Gilbert, Dean, 60 Minges Coliseum

Sharon Knight, Associate Dean, 79 Minges Coliseum

The College of Health and Human Performance is dedicated to the promotion of health and well-being through basic and applied research, service, and professional training of its students. Programs of study in the college provide a foundation for professional practice in the fields of health education, exercise and sport science, and recreation. The College of Health and Human Performance offers baccalaureate and master's degree programs through its Departments of Health Education, Exercise and Sport Science, and Recreation and Leisure Studies.

DEPARTMENT OF EXERCISE AND SPORT SCIENCE

Peter Farrell, Chairperson, 176 Minges Coliseum

BA in Exercise and Sport Science

A minimum cumulative 2.0 GPA is required for admission to exercise and sports science as a major. Each exercise and sport science major must successfully complete physical fitness requirements as specified in the advising packet. A minimal score will be a prerequisite for official admission to the exercise and sports science major program. This test will be given twice yearly. Minimum degree requirement is **126 s.h.** of credit as follows:

- 1. General education requirements (See Section 4, General Education Requirements for all Baccalaureate Degree Programs), including those listed below 42 s.h.**
BIOL 1050. General Biology (3) (F,S,SS) (GE:SC)
BIOL 1051. General Biology Laboratory (1) (F,S,SS) (GE:SC)
CHEM 1020. General Descriptive Chemistry (4) (GE:SC)
- 2. Foreign language through level 1004 12 s.h.**
- 3. Core 33 s.h.**
EXSS 2000. Introductory Exercise and Sport Science (3) (F,S,SS)
EXSS 2202. Motor Learning and Performance (3) (F,S,SS)
EXSS 2850 Structural Kinesiology (1) (F,S,SS)
EXSS 3805. Physiology of Exercise (3) (F,S,SS) (P: Health and human performance major or minor or consent of dept chair; BIOL 2130 or BIOL 2140, 2141, 2150, 2151; EXSS 2850)
EXSS 3850. Introduction to Biomechanics (3) (F,S,SS) (P: BIOL 2130 or BIOL 2140, 2141, 2150, 2151; EXSS 2850; PHYS 1250, 1251; or consent of instructor)
EXSS 4300. Program Development and Management in Physical Education and Sports (2) (F,S,SS) (P: Upper division status; EXSS 2323)
HLTH 2125, 2126. Safety Education and First Aid (3,0) (F,S,SS)
HLTH 3010. Health Problems I (3) (F,S,SS) (P: BIOL 2130, 2131)

BS in Health Fitness Specialist

This program provides competencies and knowledge for students to develop and conduct health and fitness programs in commercial, corporate, clinical and community settings. Guidelines from the National Association for Sport and Physical Education (NASPE) and American College of Sports Medicine (ACSM), which set criteria for programs in these areas, have been employed in designing this program. A minimum cumulative 2.0 GPA is required for admission including the successful completion of the fitness requirements as specified in the advising packet. A minimum grade of C in all required EXSS courses is required to complete the degree. Minimum degree requirement is **125 s.h.** of credit as follows:

- 1. General education requirements (See Section 4, General Education Requirements for all Baccalaureate Degree Programs), including those listed below 42 s.h.**
BIOL 1050. General Biology (3) (F,S,SS) (GE:SC)

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

BS in Exercise Physiology

This program provides competencies and knowledge in the field of exercise physiology. Graduates of the program are prepared to pursue further academic training in exercise physiology, physical therapy, medicine, and other allied health careers. A minimum cumulative 2.0 GPA, 32 s.h. general education, and successful completion of the health-related physical fitness requirement is required for admission. A minimum grade of C is required in BIOL 1100, 1101; CHEM 1150, 1151; ENGL 1100, 1200; MATH 1065. Majors must maintain a minimum cumulative GPA of 2.0 and a minimum grade of C is required in BIOL 2140, 2141, 2150, 2151; CHEM 1160, 1161; and all required EXSS courses. BS in Athletic Training

The athletic training degree program is a Commission on Accreditation of Allied Health Education Programs (CAAHEP) accredited undergraduate program based on a minimum of 126 s.h.: 42 s.h. of general education courses, 66 s.h. in the major area, and elective hours which can result in an approved minor or prepare one for further graduate study in an allied health profession such as physical therapy or a physician assistant program. Upon successful completion of this degree, the student will be eligible to sit for the National Athletic Trainers' Association Board of Certification exam. There is a strong clinical aspect of the program involving a minimum of 1000 supervised hours under a certified athletic trainer. At least one-third of these hours are in addition to regular course work. Admission to the university does not guarantee admission to the athletic training degree, as it is restricted by an imposed student-to-clinical instructor ratio. Candidates are required to submit a separate application process, and it is due July 1 prior to the fall semester you wish to begin your degree. See program web site for details. Competitive admission is based upon assessments of the applicant's academic abilities, knowledge, dedication to the profession, and commitment to the health care of others. Eligible applicants must have a minimum cumulative and semester 2.0 GPA, completed HLTH 1800, 2810, 2811 with a minimum grade of C, current cardiopulmonary resuscitation (CPR) and first aid certification from an approved provider; successfully completed a two-semester (fall and spring, consecutively) candidacy period, passed a health screening/physical examination, a letter of formal application on file, and an interview with the athletic training faculty and staff. There are written technical standards for admission that can be found in the Athletic Training Student Handbook and the program's web site. Athletic training students are required to earn a minimum course grade of C in all athletic training courses. A minimum cumulative GPA of 2.0 must be sustained throughout the program. All students in the degree are required to maintain current CPR certification, Hepatitis B immunization (or waiver), and liability insurance for the duration of their involvement in the curriculum. Verification of CPR certification and liability insurance are required each academic year. In addition, all athletic training students must attend two-thirds of the inservice training sessions given outside of the classroom each semester. Specific requirements are stated in the Athletic Training Student Handbook. The athletic training degree requires a minimum of 1000 practical, supervised clinical hours under the direction of a certified athletic trainer. The candidacy period does not count toward the total hours required. The 1000 hours are to be achieved outside of the classroom requirements with the exception of HLTH 3200, 3400, 3860, and 4860. Transfer students must meet the above criteria. No transfer athletic training classes will be accepted, but other course work may be allowed on an individual basis. Minimum degree requirement is **126 s.h.** of credit as follows:

BS in Environmental Health

A minimum GPA of 2.0 in all 1000-level biology and chemistry courses, a minimum cumulative GPA of 2.0 on at least 30 s.h., and completion of EHST 2110 is required for admission to the professional phase of the environmental health curriculum. Environmental health majors must pass all environmental health courses with a minimum grade of C. A student earning a D in any of these courses must petition the Department of Environmental Health for probationary continuation. Minimum degree requirement is **126 s.h.** of credit as follows:

1. General education requirements (See Section 4, General Education Requirements for all Baccalaureate Degree Programs), including those listed below 42 s.h.

- CHEM 1150, 1151. General Chemistry and Laboratory I (3,1) (F,S,SS) (GE:SC) (P: Chemistry placement test or passing grade in CHEM 10150; P/C: MATH 1065)
- CHEM 1160, 1161. General Chemistry and Laboratory I (3,1) (F,S,SS) (GE:SC) (P: CHEM 1150, 1151; C for 1160: CHEM 1161; C for 1161: CHEM 1160; RC: MATH 1083 or 1085)
- MATH 1065. College Algebra (3) (F,S,SS) (GE:MA) (P: Appropriate score on mathematics placement test)

Recommended:

- COMM 2420. Business and Professional Communication (3) (F,S,SS) (GE:FA)
- PSYC 1000. Introductory Psychology (3) (F,S,SS) (GE:SO)
- SOCI 2110. Introduction to Sociology (3) (F,S,SS) (GE:SO)

Public Health:

- GEOG 3220. Soil Properties, Surveys, and Applications (3) (F) (P: GEOG 2250)

2. Common core 34 s.h.

- EHST 2110. Introduction to Environmental Health Science (3) (F,S)
- EHST 2500. Introduction to Radiological Health (3) (S) (P: PHYS 1250, 1251; EHST major)
- EHST 3003. Environmental Epidemiology (3) (F)
- EHST 3100. Injury Control (2) (S) (P: Consent of dept chair)

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

5. Electives to complete requirements for graduation.

Environmental Health Requirements for Students Participating in MD/7 Initiative

Students pursuing a BS in Environmental Health who are also participating in the MD/7 Program must meet the specified requirements for their major. In addition, the student will need to fulfill the pre-health concentration by taking BIOL 1100/1101 (pre-med students may substitute BIOL 1100/1101 for the cognate requirement of BIOL 1050/1051), BIOL 1200/1201, CHEM 1150/1151, CHEM 1160, 1161, CHEM 2750/2751 and CHEM 2760/2763. Students accepted for admission to the Brody School of Medicine under the MD/7 Program may substitute the successful completion of the first-year of medical school curriculum for EHST 4990 and remaining 19 s.h. required for graduation.

BS in Health Education and Promotion

Students entering the health education and promotion degree program choose one of three concentrations: community health, pre-health professions, or worksite health promotion. The community health concentration requires a minimum cumulative GPA of 2.5 for entry and thereafter the student must maintain a minimum 2.0 GPA in the required cognates and pass all health education core courses with a minimum grade of C. A student earning a D in any of these courses must

petition the Department of Health Education and Promotion for probationary continuation. No student on probation may enroll for HLTH 499 I, Health Education and Promotion Internship. Students entering the worksite health promotion concentration must have a minimum cumulative 2.0 GPA and a minimum 2.5 GPA calculated on four courses: PSYC 324 I; FINA 2244; EHST 3 I 00; HLTH 2000. Students entering the pre-health professions concentration must have a minimum cumulative 2.0 GPA. Students must complete an interview with health education faculty. Minimum degree requirement is **126 s.h.** of credit as follows:

1. General education requirements (See Section 4, General Education Requirements for all Baccalaureate Degree Programs), including those listed below for all options as well as additional general education requirements for each option. 42 s.h.

BS in Management of Recreation Facilities and Services

Students wishing to declare a major in management of recreation facilities and services at the time of entrance into the curriculum, need to possess a minimum overall GPA of 2.0; have no more than 10 s.h. of general education remaining; have completed a brief, written application (available at www.ecu.edu/rcls); and have a meeting with a RCLS faculty member. RCLS courses at the 3000 level and above cannot be taken before admission to the major or minor, or by consent of instructor where appropriate. Students majoring in management of recreation facilities and services must maintain a minimum cumulative 2.0 GPA and a minimum cumulative 2.0 GPA in all core and cognate courses to remain in good standing. Majors must earn a minimum grade of C in all required RCLS courses. Students failing to meet these criteria will not be allowed to enroll in any additional RCLS prefix courses. The only exception being students enrolling in RCLS courses in which the student has a D or F. Students who want to appeal need to contact the RCLS department chair within two weeks of notification of academic deficiency. Students graduating from this program are eligible to sit for the examination to become a certified park and recreation professional and thereby acquire this valuable credential for professional advancement. Minimum degree requirement is **123 s.h.** of credit as follows:

COLLEGE OF HUMAN ECOLOGY

Karla Hughes, Dean, 142 Rivers Building

The College of Human Ecology seeks to improve the quality of life for individuals and families through education, research, and service. The knowledge base of the field includes individual and family development through the life span, early childhood education, human nutrition and food, the management of food service and lodging operations, interior design, textiles, criminal justice studies, and social work. The faculty members of the college are committed to educating students for professional practice; to conducting research on the conditions which influence the quality of life for individuals and families; and to extending this knowledge to the state of North Carolina and beyond.

The Carolyn Freeze Baynes Institute for Social Justice, established by the generosity of Charles and Hazel Freeze with the support of Michael Ray Baynes, is located within the College of Human Ecology. The gift has been made by the Freeze family of Mooresville, North Carolina, in memory of their daughter Carolyn, and to promote the issues to which she devoted. The Institute coordinates research, community partnerships, and scholarship aimed at improving the well-being of individuals and the quality of community life. The Institute offers a number of activities for students, including research experiences, scholarship opportunities, and interaction with visiting scholars and alumni.

Undergraduate study is offered in the following fields: birth through kindergarten teacher education, child life, nutrition and dietetics, family and consumer sciences education, family and community services, hospitality management, interior design, merchandising, criminal justice studies, and social work.

Students completing the major and minor requirements within the College may use core courses to satisfy only one requirement. A specific course may not be used to count toward the major and minor:

Bachelor's and Accelerated MBA Program

Students in the merchandising or hospitality management programs who also wish to complete an MBA with either an apparel and textile management option or a hospitality management option may elect to follow an accelerated program of study. This program allows students to complete the requirements for the BS degree in four years and, if qualified, the MBA in two semesters plus summer study. Interested students should consult with their adviser early in the undergraduate program regarding required courses, sequencing, and grade requirements. (See Section 6, Undergraduate Studies, Bachelor's and Accelerated MBA Program.)

DEPARTMENT OF CHILD DEVELOPMENT AND FAMILY RELATIONS

Cynthia Johnson, Chairperson, 150 Rivers Building

The Department of Child Development and Family Relations offers course work in partial fulfillment of the Family Life Education Certification from the National Council on Family Relations, the Infant-Toddler and Family Specialist Certification from the NC Department of Human Resources, Child Life Certification from the Association for the Care of Children's Health, teacher licensure in family and consumer sciences education and birth-kindergarten teacher education from the North Carolina Department of Public Instruction.

BS in Birth-Kindergarten (B-K) Teacher Education

Freshmen may declare birth through kindergarten (B-K) teacher education as their major. Prior to enrolling in selected courses, all students must be admitted to the upper division of teacher education. To be admitted to upper division, students must post satisfactory scores on PRAXIS I examinations, have a minimum cumulative 2.5 GPA, and meet technology competency requirements. Transfer students must have completed at least 12 s.h. at East Carolina University. In addition, BK majors must achieve a minimum grade of C in all CDFR courses required for the major. Applications for admission to internship must be submitted to the internship coordinator one year prior to the semester in which the student will complete internship requirements. For admission to internship, BK majors must have a minimum grade of C in the early experience (CDFR 2123), methods courses (CDFR 3321, 4322, 4323), and EDUC 3200. Students must also be certified in Community First Aid and Safety and Community CPR by the American Red Cross. A minimum grade of C in internship (CDFR 4324, 4325) is required for licensure. Additional information about upper division, internship, and licensure can be found in the School of Education and in the handbook, *Welcome to Teacher Education*. DEPARTMENT OF CRIMINAL JUSTICE STUDIES

Peter Johnstone, Chairperson, 232 Rivers Building

The Department of Criminal Justice Studies offers the bachelor of science in criminal justice, and master of science in criminal justice, graduate certificate in security studies, and certificate in substance abuse. (See also graduate catalog.)

To be eligible for the program as a major or a minor, a student is required to have completed 32 s.h. with a minimum overall 2.5 GPA, including work transferred from another institution, and must have completed JUST 1000 with a grade of C or higher. Transfer students admitted to the university with a minimum of 32 s.h. of credit must establish an overall 2.5 GPA at the university prior to admission into the criminal justice program and have completed JUST 1000 or equivalent with a minimum grade of C. Criminal justice majors and minors are expected to maintain an overall 2.5 GPA throughout the program. Further information and applications for admission may be obtained from the criminal justice departmental office, 234 Rivers Building.

The major in criminal justice is designed to prepare students for entrance into professional positions in the field of criminal justice. A selective field education opportunity is offered during the final semester of the program. Field placement settings include probation and parole agencies, juvenile facilities, public and private law offices, federal and state prisons, and federal, state, and local law enforcement agencies. Students must submit an application two semesters prior to completing requirements for the degree; they must have an overall 2.5 GPA or higher; to be eligible for consideration. Students will be selected based upon the availability of appropriate placements and criteria specified in the *Criminal Justice Student Handbook*.

BS in Criminal Justice

Criminal justice majors and minors must pass all required criminal justice courses and supportive area criminal justice courses with a minimum grade of C. Minimum degree requirement is **120 s.h.** of credit as follows:

- I. General education requirements (See Section 4, General Education Requirements for all Baccalaureate Degree Programs), including those listed below 42 s.h.**

DEPARTMENT OF INTERIOR DESIGN AND MERCHANDISING

Katherine Warsco, Chairperson, 152 Rivers Building

BS in Merchandising

Students majoring in merchandising have two concentration options: apparel merchandising or interiors merchandising. To declare the merchandising major, students must have a cumulative 2.5 GPA, complete a minimum of 12 s.h. at ECU, and complete both IDMR 1135 and MATH 1065 with a C or better. Throughout the program students must make a C or better in all IDMR major courses and business administration minor courses. Undeclared majors in apparel merchandising are allowed to take IDMR 1135, 2239, and 2350. Undeclared majors in interiors merchandising are allowed to take IDMR 1135, 2350, and 1180. Minimum degree requirement is **126 s.h.** of credit as follows:

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

BS IN INTERIOR DESIGN

Students complete the freshman and sophomore preparatory courses in interior design followed by admission into professional -level (junior-senior) courses based on an acceptable level of proficiency in studio work as shown in the sophomore portfolio review, a minimum cumulative 2.5 GPA, and a minimum grade of C in the following courses: IDMR 1180, 1181, 1500, 2040, 2800, 2850; ART 1905; DESN 3030, 3031.

The interior design major is accredited by the Foundation for Interior Design Education Research (FIDER) and endorsed by the National Kitchen and Bath Association (NKBA).

Sophomore Portfolio Review: During the second semester of the sophomore year; students submit portfolios which contain representative work from specific design courses: IDMR 1181, 1500, 2800 2850, and DESN 3031. This work is evaluated by the interior design faculty, who recommend whether students are prepared to enter the professional-level interior design courses (junior- and senior-level courses). Students who do not meet the level of proficiency needed for the professional-level courses have the opportunity to resubmit a portfolio a maximum of two additional times. Admission to professional-level courses is competitive and limited.

The courses listed as degree requirements may have prerequisites or corequisites that are not indicated. See section 8.
 (WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive. Semester of course offering is not guaranteed.
 Anticipated semester of course offering: (F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)= Even Year
 P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P,C, or P/C

Policy on Student Projects: The IDMR department reserves the right to retain, exhibit, and reproduce design projects submitted by students for class assignments for the purpose of complying with accreditation and program requirements. Work submitted for grades is the property of the department until it is returned to the students. Minimum degree requirement is **126 s.h.** of credit as follows:

DEPARTMENT OF NUTRITION AND HOSPITALITY MANAGEMENT

William Forsythe, Chairperson, 148 Rivers Building

The dietetics major is a Didactic Program in Dietetics (DPD) approved by the Commission on Accreditation for Dietetics Education (CADE) of the American Dietetic Association. CADE is a specialized accrediting body recognized by the Commission on Recognition of Postsecondary Accreditation and the United States Department of Education. The Department of Nutrition and Hospitality Management also offers a dietetic internship that is accredited by CADE. (See graduate catalog for details.) Completion of an approved DPD and an accredited dietetic internship or other accredited/ approved supervised experience program are required to become a registered dietitian (RD).

SCHOOL OF SOCIAL WORK

John H. Pierpont, Bachelor of Social Work Program Coordinator, 130 Ragsdale Building
Glenn Rohrer, Master of Social Work Program Coordinator, 230 Ragsdale Building

The School of Social Work offers the bachelor of social work and the master of social work degrees. (See also graduate catalog.)

The undergraduate major in social work is accredited by the Council on Social Work Education. The principal educational objective of the major in social work is to prepare students for beginning professional generalist social work practice.

All majors have a field education internship of 12 s.h. in one semester in an approved agency. Agencies serving as field placements include North Carolina county departments of social services, local mental health centers, state hospitals for the emotionally disturbed, centers for the mentally retarded, developmental evaluation clinics, remedial education activity programs, alcoholic rehabilitation centers, public schools, general hospitals, and care facilities. Each student is required to make application for the field education internship two semesters before the semester in the field.

A student is eligible to apply for admission to the BSW degree program when the following required conditions are met: completion of a minimum of 32 s.h.; an overall 2.5 GPA; and completion of SOCW 1010, 2010 with a 2.5 GPA in these courses. Students who plan to transfer from a junior or community college are encouraged to take a four-year college preparatory curriculum that includes human biology. The social work program will not accept for required major credit upper-level courses (numbered 3000 and 4000 at East Carolina University) taken at a junior or community college. The BSW program chairperson will determine the applicability of upper-level courses taken at senior colleges in meeting the BSW degree requirements. Additional information on the undergraduate social work program and application for admission may be obtained from the Office of Undergraduate Social Work Studies, 104-C Ragsdale Building.

Bachelor of Social Work (BSW)

Social work majors must pass all required social work courses with a minimum grade of C. Minimum degree requirement is **124 s.h.** of credit as follows:

Additional Opportunities

The social work major deciding to seek certification as a school social worker must be accepted into the upper division of teacher education. This should be done during the sophomore year and prior to or at the point the student is accepted as a social work major. The College of Education and the School of Social Work will maintain a record to help track the student's completion of certification requirements. Upon completion of appropriate social work courses and education courses, the School of Social Work and the College of Education will recommend certification to the State Department of Public Instruction.

The courses listed as degree requirements may have prerequisites or corequisites that are not indicated. See section 8.

SCHOOL OF NURSING

Phyllis Horns, Dean, 133 Rivers Building

Lou Everett, Associate Dean for Undergraduate Program, 131 Rivers Building

Alta Andrews, Chairperson, Department of Community Nursing Systems and Interim Chairperson, Department of Parent-Child Nursing, 239 Rivers Building

Josie Bowman, Chairperson, Department of Adult Health Nursing, 247 Rivers Building

Curriculum

The baccalaureate program in nursing educates students for professional nursing practice and is characterized by a combination of general education and nursing courses. The focus of the nursing courses is on nursing theory and scientific principles applied to the care of healthy persons as well as to acute and chronic health problems of individuals, families, and groups. Clinical experiences are provided in a variety of health care settings, such as hospitals, health departments, nursing homes, mental health centers, and other health-related community agencies. Graduates are prepared for beginning positions in nursing with the potential for positions of leadership and graduate study.

All students—high school graduates, transfer students, diploma or associate-degree graduates in nursing—earn the bachelor of science in nursing degree (BSN). The awarding of the BSN does not license one as a registered nurse. A separate examination (NCLEX-RN) is administered by the board of nursing in the state in which the applicant wishes to be registered. The School of Nursing will certify completion of degree requirements, but meeting other requirements for licensure is the responsibility of each candidate.

Registered nurses seeking to obtain a BSN are offered an opportunity for educational mobility through the ReNew track option. The curriculum track for RNs uses both traditional and nontraditional study methods. Modifications in course offerings include flexible scheduling and sequencing (including on-line options), special sections for RNs, and creative methods of meeting course objectives. Registered nurse students meet course requirements by transfer, advanced placement, credit by exam, CLEP, and completion of courses by enrollment.

There is an RN to MSN track available for registered nurses who do not have a baccalaureate degree in nursing. See the graduate catalog for admission requirements.

All students are required to demonstrate computer competency, which can be met by placement or enrollment in ASIP 2000. This course will not meet graduation requirements.

The program is accredited by the National League for Nursing Accrediting Commission (61 Broadway, New York, NY 10006; 212-363-5555) and approved by the North Carolina Board of Nursing.

Admission

Freshmen may declare an intent to enroll in nursing but are assigned to General College until officially admitted to the School of Nursing after filing an application for admission to the major and meeting eligibility requirements prior to enrollment in the first nursing courses. Eligibility is based upon a minimum cumulative 2.2 GPA and completion of general education requirements. A minimum grade of C is required in biology, chemistry, and college algebra or equivalent. Admission to nursing courses is competitive and limited due to space availability and accrediting requirements. Students desiring readmission after an absence of one or more semesters must secure approval from the university admissions office and the School of Nursing Student Affairs Committee. Financial aid is available through scholarships and loans from government and private sources, work-study, and self-help programs. Information is available from the university director of financial aid or the School of Nursing director of student services.

Requirements

The School of Nursing considers a grade of C as the minimum passing grade for required nursing courses. Nursing students are required to earn a minimum course grade of C in all nursing courses. Opportunity to repeat a nursing course is limited by the School of Nursing Progression Policies as printed in the current student handbook.

The courses listed as degree requirements may have prerequisites or corequisites that are not indicated. See section 8.

(W) = Writing Intensive; (W/*) = Selected Sections are Writing Intensive. Semester of course offering is not guaranteed.

Anticipated semester of course offering: (F) = Fall; (S) = Spring; (SS) = Summer Session; (OY) = Odd Year; (EY) = Even Year

P = Prerequisite(s); C = Corequisite(s); P/C = Prerequisite(s) or Corequisite(s); R = Recommended P, C, or P/C

All students are required to have CPR certification, a TB skin test, immunizations including Hepatitis B, and to purchase health and liability insurance prior to enrollment in clinical nursing courses. Verification of TB skin test, CPR update, and payment of health and liability insurance is required each year. Proof of current health insurance must be provided by the student. If applicable, waivers must be signed for immunizations and health insurance. Criminal background checks are also required prior to enrolling in nursing courses.

Specific health requirements are stated in the *School of Nursing Student Handbook*.

The School of Nursing utilizes diagnostic tests for each of the 4 semesters a student is enrolled in the SON undergraduate curriculum. This also applies to RN students and tests are administered during the semester that specific content is taught. Tests may be administered prior to instruction, during the semester, or near the completion of the semester. Results are used to assist students from entrance to graduation in determining nursing content that has been mastered. Various enhancement materials are used to assist with identified weaknesses.

Credit for courses in the School of Nursing is determined by the following formula: one classroom/lecture hour per week equals 1 s.h. credit; two lab hours per week equals 1 s.h. credit; and three practicum hours per week equals 1 s.h. credit.

COLLEGE OF TECHNOLOGY AND COMPUTER SCIENCE

Ralph V. Rogers, Jr., Dean

The College of Technology and Computer Science comprises the Departments of Computer Science, Construction Management, Industrial Technology, and Planning.

DEPARTMENT OF COMPUTER SCIENCE

Robert Bernhardt, Interim Chairperson, Science and Technology Building

Students enrolled at East Carolina University or transferring from other institutions may be considered for admission to the Department of Computer Science provided the following departmental requirements are met. A student must have completed a minimum of 39 s.h. with a minimum cumulative 2.0 GPA and have a minimum 2.4 GPA computed on CSCI 2510, 2610, 2611.

BA in Computer Science

Credit toward a computer science major will not be given for any CSCI course with a grade less than C being used to satisfy the requirements specified in the core. Minimum degree requirement is **126 s.h.** of credit as follows:

DEPARTMENT OF CONSTRUCTION MANAGEMENT

Douglas W. Kruger, Chairperson, 326 Rawl Building

Admission

Upon admission to the university, students may declare a major in construction management. Students who have an associate degree from an approved technical program will be admitted directly into the Construction Management Transfer Program (48 s.h.). All other students with transfer hours will be individually evaluated for program credit. Current ECU students or those from other campus programs must have a minimum GPA of 2.0 for admission to the CMGT department.

Those ECU students intending to transfer to Construction Management or those from other campus programs having less than a 2.0 GPA will not be advised by construction management faculty. These students will not be eligible to take construction management courses designated for CMGT majors only. Academic advisors are encouraged to guide these students into general education classes that meet CMGT degree requirements while bringing up their GPA.

CMGT majors and minors are required to achieve a minimum grade of C in the following courses in order to progress to subsequent courses: CMGT 2110, 2111; 2660, 2661; 2664, 2665; 3664. Students earning less than a C in any of these courses must repeat the course before any subsequent CMGT course may be taken.

BS in Construction Management

The construction management program is accredited by the American Council for Construction Education. Minimum degree requirement is **126 s.h.** credit as follows:

I. General education requirements (See Section 4, General Education Requirements for all Baccalaureate Degree Programs), including those listed below 42 s.h.

- COMM 2410. Public Speaking (3) (F,S,SS) (GE:FA) or COMM 2420. Business and Professional Communication (3) (F,S,SS) (GE:FA)
- ECON 2113. Principles of Microeconomics (3) (F,S,SS) (GE:SO)
- ECON 2133. Principles of Macroeconomics (3) (F,S,SS) (GE:SO) (P: ECON 2113)

Construction Management Transfer Program (49 s.h.):

Students who hold an associate degree from an approved technical program must transfer courses and take courses at ECU that meet the competencies of the construction management core listed above. Students must complete at ECU a minimum of 24 s.h. credit, 18 s.h. from 3000 level or above (must include CMGT 3000, 4600, 4660, 4662, 4664) and 6 s.h. from 2000 level or above. Additional courses may be necessary to meet required prerequisites. Construction management/industrial technology courses completed at ECU and technical transfer courses must total a minimum of 49 s.h. Courses needed to meet requirements must meet as scheduled classes.

DEPARTMENT OF INDUSTRIAL TECHNOLOGY

Paul J. Kauffmann, Chairperson, Suite 200 Science and Technology Complex

Admission

Upon admission to the University, students may declare a major in one of the following degree programs: Design, Information and Computer Technology, Industrial Distribution and Logistics, or Manufacturing. The industrial technology degree programs are accredited by the National Association of Industrial Technology. The minimum degree requirement is **126 s.h.** of credit.

Students who have an associate degree from an approved technical program can be admitted directly into the department's programs but must either transfer or take courses that meet the core technical content in the programs. Although any department degree can be entered by transfer students, the BS in Industrial Technology is designed specifically to meet a broad range of needs of transfer students from community colleges. Students transferring credits without an associate's degree will have their previous courses individually evaluated for program credit.

Those ECU students intending to transfer to an Industrial Technology degree program from other campus programs must have at least a 2.0 GPA.

BS in Design

The industrial technology program is accredited by the National Association of Industrial Technology. Minimum degree requirement is **126 s.h.** credit as follows:

BS in Engineering (BSE)

Admission to the university does not guarantee admission to the BSE program. Upon admission to the university, students who have 1100 SAT scores or equivalent and have completed the second year of high school algebra with a grade of B or better may apply for admission to the engineering program. Students who have an associate degree from an approved pre-engineering program will be directly admitted into the BSE program. All other students with transfer hours will be individually evaluated for program credit. Current ECU students transferring from the General College or other campus programs must have a minimum 2.5 GPA and have completed prerequisites for MATH 2171 with a grade of B or better.

Entering freshmen should submit an ECU admission application package, high school transcript, and SAT and/or ACT scores for admission consideration. Associate degree students should submit transcripts and two letters of recommendations from faculty. ECU general college students should obtain permission from the program coordinator.

Minimum degree requirement for the engineering program is **128 s.h.** credit as follows:

I. General education requirements (See Section 4, General Education Requirements for all Baccalaureate Degree Programs), including those listed below 42 s.h.

COMM 2410. Public Speaking (3) (F,S,SS) (GE:FA) or COMM 2420. Business and Professional Communication (3) (F,S,SS) (GE:FA)
 ECON 2113. Principles of Microeconomics (3) (F,S,SS) (GE:SO)
 MATH 1065. College Algebra (3) (F,S,SS) (GE:MA) (P: Appropriate score on mathematics placement test)
 PSYC 1000. Introductory Psychology (3) (F,S,SS) (GE:SO)
 PSYC 3241. Personnel and Industrial Psychology (3) (F,S,SS) (GE:SO)
 8 hours of general science.

2. Core 48 s.h.

IDIS 2770. The Industrial Distributor: Purpose and Functions (3) (F) (S)
 IDIS 2771. Introduction to Logistics (3) (F) (S)
 IDIS 2775. Blueprint Reading and Sketching (3) (F) (S) (SS)
 IDIS 3780. Warehousing and Materials Handling (3) (F) (S) (P: IDIS 2771)
 IDIS 3785. Global Logistics (3) (F) (S) (P: IDIS 2771)
 IDIS 3790. Technical Presentations for Industry (3) (F,S,SS)
 IDIS 3795. Distributor Sales (3) (S) (P: IDIS 2770)
 IDIS 3800. Transportation Logistics (3) (F) (S) (P: IDIS 2771)
 IDIS 3805. Purchasing Logistics (3) (F) (S) (P: IDIS 2771)
 IDIS 3815. Supply Chain Logistics (3) (F) (P: IDIS 2771)
 IDIS 4802. Distribution Research (3) (S) (P: Senior status and consent of instructor)
 ITEC 2054, 2055. Electricity/Electronics Fundamentals (3,0) (F,S,SS) (P: MATH 1065 or 1066 or 1085 or 2119)
 ITEC 2090. Electromechanical Systems (3) (F,S,SS)

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

(GE:EN)=English; (GE:EX)=Exercise and Sport Science; (GE:FA)=Fine Arts; (GE:HL)=Health; (GE:HU)=Humanities; (GE:MA)=Mathematics; (GE:SC)=Science; (GE:SO)=Social Science

SECTION 7: ACADEMIC PROGRAMS

ITEC 3290. Technical Writing (3) (WI) (F,S,SS) (P: ENGL 1200)

ITEC 4300: Quality Assurance Concepts (3) (F,S,SS) (P: 18 s.h. of technology core courses)

MANF 2020, 2021. Materials and Processes Technology (3) (WI*) (F,S,SS) (P: ITEC 2000)

3. Cognates 24 s.h.

ACCT 2101. Survey of Financial and Management Accounting (3) (F,S) (P: MATH 1065)

FINA 2244. Legal Environment of Business (3) (F,S,SS)

FINA 3004. Survey of Financial Management (3) (P: ACCT 2101 or 2401; ECON 2113; MATH 2283)

MATH 2283. Statistics for Business (3) (F,S,SS) (P: MATH 1065 or 1066 or equivalent)

MGMT 3202. Fundamentals of Management (3) (F,S,SS) (P: ECON 2113)

MKTG 3832. Marketing Management (3) (F,S,SS) (P: ECON 2113)

Technical or business elective.

Choose 3 s.h. computer-related elective from:

DSCI 2223. Introduction to Computers (3) (F,S,SS)

ITEC 2000. Industrial Technology Applications of Computer Systems (3) (F,S,SS)

4. Electives to complete requirements for graduation.

BS in Industrial Technology

Student must have an associate degree from an approved technical program. Minimum degree requirement is **126 s.h.** of credit as follows:

1. General education requirements (See Section 4, General Education Requirements for all Baccalaureate Degree Programs), including those listed below 42 s.h.

COMM 2410. Public Speaking (3) (F,S,SS) (GE:FA) or COMM 2420. Business and Professional Communication (3) (F,S,SS) (GE:FA)

ECON 2113. Principles of Microeconomics (3) (F,S,SS) (GE:SO)

MATH 1065. College Algebra (3) (F,S,SS) (GE:MA) (P: Appropriate score on mathematics placement test) or MATH 1066. Applied Mathematics for Decision Making (3) (F,S,SS) (GE:MA) (P: Appropriate score on mathematics placement test or approval of dept chair)

PHYS 1250, 1260. General Physics (3,3) (F,S,SS) (GE:SC) (P for 1250: MATH 1065 or 1066; P for 1260: PHYS 1250)

PHYS 1251, 1261. General Physics Laboratory (1,1) (F,S,SS) (GE:SC) (C for 1251: PHYS 1250 or 2350; C for 1261:

PHYS 1260 or 2260)

PSYC 1000. Introductory Psychology (3) (F,S,SS) (GE:SO)

PSYC 3241. Personnel and Industrial Psychology (3) (F,S,SS) (GE:SO)

2. Core 60 s.h.

Required industrial technology and technical transfer courses: Student must complete at ECU a minimum of 24 s.h. credit, 18 s.h. from 3000 level or above and 6 s.h. from 2000 level or above. Additional courses may be necessary to meet required prerequisites. Industrial technology courses completed at ECU and technical transfer courses must total 60 s.h. Courses needed to meet requirements may not include ITEC 3100, 4100 or any course that does not meet as a class.

Transfer technical courses up to 24 s.h.

ITEC 3290. Technical Writing (3) (WI) (F,S,SS) (P: ENGL 1200)

ITEC 3300. Technology Project Management (3) (WI) (F,S) (P: ENGL 1200; ITEC 2000 or DSCI 2223 or equivalent experience)

ITEC 3800. Cost and Capital Project Analysis (3) (F,S) (P: MATH 1065; MATH 2283 or ITEC 3200)

ITEC 4293. Industrial Supervision (3) (WI) (F,S) (P: Senior standing or approval of instructor)

Technology courses from area of emphasis minimum of 24 s.h. (approved by department chair)

3. Cognates 11 s.h.

FINA 2244. Legal Environment of Business (3) (F,S,SS)

ITEC 3200. Introduction to Statistical Process Control (3) (F,S) (P: MATH 1065 or 1066 or equivalent) or MATH 2283.

Statistics for Business (3) (F,S,SS) (P: MATH 1065 or 1066 or equivalent)

MATH 1074. Applied Trigonometry (2) (F,S,SS) (P: MATH 1065)

The courses listed as degree requirements may have prerequisites or corequisites that are not indicated. See section 8.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive. Semester of course offering is not guaranteed.

Anticipated semester of course offering: (F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)= Even Year

Bachelor's and Accelerated MBA Program

Planning majors who are interested in careers in private or public sector management, may complete the BS in urban and regional planning, and if qualified, may complete the master of business administration in one additional year.

Certificate in Urban Design (Undergraduate Certificate)

This certificate provides students with specialized competencies in urban design and prepares them to engage effectively in professional practice in the public and the private sectors. The certificate is open to students pursuing an undergraduate degree at ECU. Students gain interdisciplinary knowledge regarding physical, environmental, and social planning issues that confront contemporary cities. The course of study for the certificate enhances the creative, visualization, and graphic abilities required for the design and planning professions. Students engage in real-world design projects that deal with adaptive reuse, streetscapes, urban regeneration, downtown revitalization, historic preservation, public squares, and smart community planning. To qualify for the award, students must maintain a minimum of 3.0 GPA in the certificate courses. The certificate requires a minimum of **15 s.h.** of credit as follows:

I. Core Courses:

PLAN 1900. Planning for the Human Environment (3) (F,S,SS)

PLAN 4003. Urban Form and Design (3) (S)

PLAN 4046. Planning and Design Studio (3) (F,S)

2. Elective Courses (two courses from the following):

ART 4950. Twentieth-Century Architecture (3) P: ART 1906, 1907

DESN 3030, 3031. Architectural Drafting (3,0) (F,S,SS) (P: DESN 2034, 2035 or consent of instructor)

GEOG 3004. Urban Geography (3) (F)

IDMR 4750. Interior Design for Adaptive Reuse (3) (WI) (S) (P: AMID 3600, 3700).

PLAN 3020. Environmental Planning (3) (F)

PLAN 3051. Introduction to GIS in Planning (3) (F,S)

PLAN 5985. Historic Preservation Planning (3)

The courses listed as degree requirements may have prerequisites or corequisites that are not indicated. See section 8.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive. Semester of course offering is not guaranteed.

SIGNIFICANCE OF COURSE NUMBERS

0001-0999 Remedial	3000-3999 Junior	6000-6999 Master's
1000-1999 Freshman	4000-4999 Senior	7000-7999 Doctoral
2000-2999 Sophomore	5000-5999 Master's	8000-9000 Doctoral

Five-thousand-level (5000-5999) courses are master's courses. Undergraduate students may be admitted to five-thousand-level courses if they have completed the stated prerequisite(s) or with the written permission of the instructor; chairperson of the department, director of the school, or dean of the college in which the course is offered. Seven-thousand-level (7000-7999) courses are doctoral courses. Qualified master's students may enroll in seven-thousand-level courses if they have completed the stated prerequisite(s) or with the written permission of the instructor; chairperson of the department, director of the school, or dean of the college in which the course is offered.

1906. Art History Survey (3) (F,S) (GE:FA) Same as ART 1906 (Art; Art History) P: ART 1905 or 1910; or consent of instructor: History of art from prehistoric times to Renaissance.

1907. Art History Survey (3) (F,S) (GE:FA) Same as ART 1907 (Art; Art History) P: ART 1905 or 1910; or consent of instructor: History of art from Renaissance to modern times.

1910. Art Appreciation (2) (F,S,SS) (GE:FA) For General College student. P: Non-art major: Visual experience to enhance student's understanding and enjoyment of art.

2905. Masterpieces and Ideas in the History of Art (3) (GE:FA) For General College student. Not open to those who have credit for ART 1905, 1906, 1907. P: Non-ART major: Selected works from antiquity to present which have reflected, shaped, and transformed ideas and traditions in world culture.

2906. West and Central African Art (3) (S) (GE:FA) For General College student. Not open to those who have credit for ART 3970 nor to art history minors. P: Non-ART major: Art from west and central Africa examined within environmental and societal conditions which influence its production and uses.

3975. African American Art (3) (F,S) (GE:FA) Same as ART 3975 (Art History) P: ART 1906, 1907; or consent of the instructor: Survey of African American art in North America from Colonial period through twentieth century. Examines works of art and craft in different media. Explores cultural impact on the production of art.

4970. History of Nineteenth- and Twentieth-Century Design (3) (S) Same as ART 4970 (Art History) P: ART 1906, 1907; or consent of instructor: Major artists and movements in history of textile, ceramic, metal, wood, and graphic design.

4990. Survey of Contemporary Art: 1950 to the Present (3) (F) (GE:FA) Same as ART 4990 (Art History) P: Junior standing; ART 1906, 1907; or consent of instructor: Art from second half of twentieth century.

ART: CERAMICS

2105. Ceramics Survey (3) (F,S,SS) P: ART 1015, 1030. Total ceramic process. Emphasis on potter's wheel.

2115. Ceramics Studio I (3) (F,S,SS) P: ART 2105 or consent of instructor: Clay mineralogy and development of clay body formulas. Basic pottery wheel forms.

2125. Ceramics Studio II (3) (F,S,SS) Glaze components and formulation. Self firing of kilns. Hand building and production pottery techniques.

3100. Ceramics Studio III (3) (F,S,SS) P: ART 2105 or consent of instructor: Kiln materials, design, repair, and construction. More complex hand building and pottery forms.

3110. Ceramics Studio IV (3) (F,S,SS) P: ART 2105 or consent of instructor: Glaze calculation theory, objectives, and application. Advanced hand building and pottery wheel problems.

3120. Ceramics Studio V (3) (F,S,SS) P: ART 2105 or consent of instructor: Advanced and aesthetic studies in clay.

4100. Ceramics Studio VI (3) (F,S,SS) P: ART 2105 or consent of instructor: Advanced and aesthetic studies in clay.

4110. Ceramics Studio VII (3) (F,S,SS) P: ART 2105 or consent of instructor: Advanced and aesthetic studies in clay.

4120. Ceramics Studio VIII (3) (F,S,SS) P: ART 2105 or consent of instructor: Advanced and aesthetic studies in clay.

5100. Ceramics Studio IX (3) P for graduate students: May count as an elective with consent of instructor: Senior projects in ceramic art and design. Slide portfolio requirement and senior exhibition.

5110. Ceramics Studio X (3) P for graduate students: May count as an elective with consent of instructor: Advanced projects in ceramic art and design.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive
Semester of course offering is not guaranteed. Anticipated semester of course offering:

(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

296 P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P,C, or P/C

ART: COMMUNICATION ARTS

2200. Communication Arts Survey (3) (F) P:ART 1015, 1030. Basic conceptual problem solving relevant to two- and three-dimensional applied design. Emphasis on graphic, typographic, illustrative, photographic, and spatial relationships. Exploration of media and techniques.

2210. Concepts in Communication Arts (3) (S) P:ART 2200 or consent of instructor. Exploration of conceptual problem solving in two- and three-dimensional applied design. Further exploration of media and techniques, including electronic environments.

2220. Photography Survey (3) (F,S) P:ART 1015, 1030. Basic camera techniques, darkroom procedures, and assignments. Full scope of photographic problems.

3070. Electronic Interactive Multimedia (3) (F,S) 2 lecture and 4 studio hours per week. P:ART 2070 or 2071 or consent of instructor. Interactive multimedia design process. Computer-based projects incorporate sound, full-motion video, and still and kinetic imagery. Users interact with information presented. Emphasis on problem-seeking/problem-solving processes.

3200. Typography (3) (F) P:Acceptable portfolio review; ART 2070, 2210; or consent of instructor. Typographic images in historical and modern design. Emphasis on contemporary applications through digital media. Typographic function, flow, and form.

3210. Production (3) (S) P:ART 3200 or consent of instructor. Practical execution of design concepts as commercial printed media. Emphasis on use of computer for digital prepress work.

3230. Introduction to Illustration (3) (F,S) P:ART 2200 or consent of instructor. Illustration as communicative medium. Emphasis on media and techniques.

3240. Illustration Media and Techniques (3) (S) P:ART 3230 or consent of instructor. Further development of technical skills required to create effective illustration. Emphasis on wide range of media used in contemporary illustration. Introduction to computer illustration.

3250. Introduction to Digital Photography (3) (F) 2 lecture and 4 studio hours per week. P:ART 2070, 2210, 2220; or consent of instructor. Digital photography and its applications to design and fine art.

3260. Intermediate Photography (3) (F,S) P:ART 2220. In-depth exploration in camera work, darkroom techniques, and visual literacy.

3442. Products and Environments (3) (F) P:ART 2210 or consent of instructor. User-based design principles applied to exhibit environments and furniture systems intended for repetitive production.

4070. Advanced Interactive Media (3) (S) 1 lecture and 4 studio hours per week. P:ART 2070, 3070; or consent of instructor. Advanced exploration of interactive media design process. Emphasis on problem-seeking/problem-solving processes.

4200. Advanced Typography (3) (F) P:ART 3200 or consent of instructor. Extended study of typography as related to communication design. Emphasis on informational and aesthetic concerns in professional design forum. Two- and three-dimensional problems.

4210. Graphic Design (3) (F) P:ART 3210 or consent of instructor. Emphasis on design, use, and application of creative visual images and concepts in communication. Two- and three-dimensional problems.

4220. Studio Photography (3) (F,S) P:ART 3260 or consent of instructor. In-depth exploration of camera, lighting, studio, and darkroom techniques as means of exploring issues in communications and aesthetics.

4230. Intermediate Illustration (3) (F) P:ART 3230 and consent of instructor. Advanced problems in illustration. Emphasis on graphic contexts.

4240. Advanced Digital Photography (3) (S) 2 lecture and 4 studio hours per week. P:ART 3210, 3250; or consent of instructor. Extended study of digital photography as related to image design and communications. Emphasis on collecting raw image data to be processed with other information.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

(GE:EN)=English; (GE:EX)=Exercise and Sport Science; (GE:FA)=Fine Arts; (GE:HL)=Health; (GE:HU)=Humanities; (GE:MA)=Mathematics; (GE:SC)=Science; (GE:SO)=Social Science

SECTION 8: COURSES

4250. Professional Practices in Photography (3) (F,S) 2 lecture and 4 studio hours per week. P:ART 4220, 4240; or consent of instructor. Advanced problems in photography. Emphasis on digital and analog solutions to professional projects.

5210. Advanced Graphic Design (3) For students specializing in the discipline. P for undergraduate students: ART 4200 or 4210; P for graduate students: ART 4210. Advanced problems in graphic design history. Development of self-promotional materials and professional portfolio.

5220. Advanced Photography (3) P:ART 2220. Advanced photographic techniques, sequential problems, animation, and film.

5230. Advanced Illustration (3) (S) P:ART 4230. Advanced problems in illustration. Emphasis on exploring aesthetic issues related to various forms of image making for illustrators. Development of creative professional illustration portfolio.

ART: COMMUNITY ARTS MANAGEMENT

4000. Community Arts Management (3) (F,S) Internship. Practical experience in community arts organizations management. Public art production in music, drama, or the visual arts.

ART: DRAWING

2540. Intermediate Drawing (3) (F,S) Formerly ART 1040 Same as ART 2540 (Art) P:ART 1015, 1030; or consent of instructor. Extension of ART 1020. Investigation of materials, media, and abstraction.

2550. Intermediate Figure Drawing (3) (F,S) Formerly ART 1050 Same as ART 2550 (Art) P:ART 1015, 1030; or consent of instructor. Extension of ART 1030. Investigates drawing strategies and techniques as relevant to the human figure.

3551. Problems in Figure Drawing (3) (F) ART 3551, 3552, 3553 should be taken in sequence after ART 2550. Arranged by instructor in consultation with student. P:ART 2550. Emphasis on representation of human figure.

3552. Problems in Figure Drawing (3) (F) ART 3551, 3552, 3553 should be taken in sequence after ART 2550. Arranged by instructor in consultation with student. P:ART 3551. Emphasis on representation of human figure.

3553. Problems in Figure Drawing (3) (F) ART 3551, 3552, 3553 should be taken in sequence after ART 2550. Arranged by instructor in consultation with student. P:ART 3552. Emphasis on representation of human figure.

3554. Figure and the Environment (3) ART 3554, 3555, 4551 should be taken in sequence after ART 2550. P:ART 2540. Relationship of the figure to environment. Emphasis on the figure to discover and manipulate space.

3555. Drawing Media and Technique (3) ART 3554, 3555, 4551 should be taken in sequence after ART 2550. P:ART 2540. Drawing and painting processes as means of pictorial investigation. Use of materials for exploring aesthetic issues related to image making.

4551. Selected Problems in Drawing (3) (S) ART 3554, 3555, 4551 should be taken in sequence after ART 2550. Designed by student in consultation with instructor. P:ART 3554 or 3555. Series of problems pertinent to needs and interests of student.

5550. Advanced Figure Drawing (3) P:ART 3553. In-depth investigation of the figure for exploring various drawing issues.

5551. Advanced Drawing (3) P:ART 4551. In-depth exploration of drawing as depiction, organizational device, metaphor, and object. Drawing for exploring aesthetic issues related to various forms of image making.

ART: FABRIC DESIGN

2326. Fabric Design Studio I (Silk Screen) (3) (F) P:ART 2303. Methods of decorating fabric with silk screen printing techniques.

2336. Fabric Design Studio II (3) (S) P:ART 2303. Fundamentals of fabric design. Batik, tie-dye, direct dye application, and combined techniques.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive

Semester of course offering is not guaranteed. Anticipated semester of course offering:

(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P, C, or P/C

3306. Fabric Design Studio III (3) (F) P:ART 2336. Further exploration of fabric design techniques and various dye groups.

3316. Fabric Design Studio IV (3) (S) P:ART 2326, 2336. Advanced printing and combined techniques applied to designing fabrics.

4306. Fabric Design Studio V (3) (F) P:ART 3316. Application of advanced techniques applied in fabric design. Major projects of significant scale.

4316. Fabric Design Studio VI (3) (F,S) P:ART 4306. Advanced fabric design. Light-sensitive materials.

4326. Fabric Design Studio VII (3) (F,S) P:ART 4316. Advanced creative exploration of selected fabric design processes.

5306. Fabric Design Studio VIII (3) P:ART 4326. Original research in nonstructural textile design.

5316. Fabric Design Studio IX (3) P:ART 5306. Original research in nonstructural textile design.

ART: INDEPENDENT STUDY

3500. Independent Study (3) (F,S,SS) P: Consent of instructor; curricular coordinator; and dean.

3510, 3511, 3512, 3515. Directed Field Study in Studio Art (1,1,1,3) Minimum of 35 hours of instruction at a qualified off-campus institution or program is required. May count toward studio concentration. P:ART 1015, 1030; consent of area coordinator and supervising instructor. Studio research supervised by School of Art faculty in conjunction with another structured program or institution. Strengthens competencies in areas related to programs offered by School of Art.

4010, 4020, 4030. Work Experience in the Visual Arts and Design (3,3,3) (F,S,SS) Minimum of 140 work and academic hours per semester for 3 s.h. credit. Maximum of 3 s.h. obtained through independent study may be applied to art elective requirements. P: Consent of curricular coordinator. Supervised work experience. Strengthens competency in areas related to programs offered by School of Art.

5500. Independent Study (3) P: Consent of instructor; curricular coordinator; and dean.

ART: INTERDISCIPLINARY

2070. Introduction to Computer-Aided Art and Design (3) (F,S,SS) May count as 2- or 3-dimensional art elective. P:ART 1030; 1906 or 1907. Computer use for solving visual problems. Exploration of ways in which computer can augment and complement experiences in various disciplines.

2071. Computer Graphics Orientation (1) May count as 2- or 3-dimensional art elective. 1 lecture and 1 studio hour per week. P:ART 1030; 1906 or 1907. Entry-level experiences with cross-section of major categories of art applications available for Macintosh computer. Technical approach to image-input peripherals and image file formats. Computer presented as aid to visual thinking and planning.

3000, 3001. Intermedia Studio I, II (3,3) (F,S,SS) 6 contact hours per week. P: Consent of instructor. Visual art problems not geared toward specific media. Emphasis on creative problem solving. May involve various interdisciplinary activities.

ART: METAL DESIGN

2300. Metal Design Survey (3) (F,S,SS) P:ART 1015, 1030. Metal as medium in solving visual problems. Historical and technical aspects of designer craftsman using metal.

2301. Metal Design Studio I (Jewelry) (3) (S) P:ART 2300 or consent of instructor. Design and production of jewelry.

2311. Metal Design Studio II (Enameling) (3) (F,S) P:ART 2300 or consent of instructor. Advanced enameling techniques employed in individually designed products.

2321. Metal Design Studio III (Raising, Spinning, Chasing, Repousse, Forging) (3) (F,S) P:ART 2300 or consent of instructor. Techniques of metal forming used by artist craftsman to produce individually styled objects.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

(GE:EN)=English; (GE:EX)=Exercise and Sport Science; (GE:FA)=Fine Arts; (GE:HL)=Health; (GE:HU)=Humanities; (GE:MA)=Mathematics; (GE:SC)=Science; (GE:SO)=Social Science

SECTION 8: COURSES

2470. Introduction to Digital 3D Modeling and Animation (3) P:ART 1015, 1030.A studio that develops a students design process through the construction of digital 3D models and animation.

3301. Metal Design Studio IV (3) P:ART 2300 or consent of instructor:Advanced jewelry and metal design. Basic methods of casting.

3311. Metal Design Studio V (3) (S) P:ART 2300 or consent of instructor:Advanced application of metal-forming techniques. Influence of traditional techniques on individually designed products.

3321. Metal Enameling Studio II (3) (F,S) P:ART 2311 or consent of instructor:Further development of design sensitivity and technical skills required to produce enameled objects of art.

3470. Digital 3D Animation and Effects (3) P:ART 2470 or consent of instructor:A design studio that develop a student's concept of digital 3D modeling as applied to animation and special effects.

4301. Metal Design Studio VI (3) (F,S) P:ART 2300 or consent of instructor:Production of individually designed products through application of casting and metal construction techniques.

4311. Metal Design Studio VII (3) P:ART 2300 or consent of instructor:Design problems in contemporary materials and techniques.

4470. Digital 3D Lighting and Rendering (3) P:ART 3470 or consent of instructor:A design studio that develops the concept of digital geometries is taught by studying the basic elements that make digital 3D models including the effects of lighting, texture mapping and rendering.

5301. Metal Design Studio VIII (3) P for undergraduate students:ART 2300 or consent of instructor:Original research in metal design.

5311. Metal Design Studio IX (3) P for undergraduate students:ART 2300 or consent of instructor:Original research in metal design.

ART: PAINTING

2560. Painting Survey: Materials and Methods (3) (F,S,SS) P:ART 1015, 1030. Extensive experimentation in studio techniques peculiar to traditional and contemporary painting problems. Emphasis on proper use of grounds, supports, and pigment characteristics. Criticism and lectures.

2561. Painting: Composition - Design for Painting (3) (F,S,SS) May count toward art concentration or as art elective. Required for painting concentration students. P:ART 2560. Design principles in painting. Emphasis on color structure and fundamental methods of pictorial organization.

3560. Painting: Watercolor (3) (F,S) P:ART 2560 or consent of instructor: Comprehensive analysis and use of watercolor and related liquid media in expressive painting.

3561. Painting Studio I (3) (F,S,SS) P:ART 2560 or consent of instructor: Focus on growth and development of individual concepts in painting. Experimentation and exploration of assigned problems. Emphasis on individual analysis and discussion of work.

3562. Figure Painting (3) (F,S) P:ART 2550; 2560 or consent of instructor: Human figure as primary motif in painting. Painting from model.

3563. Painting Studio II (3) (F,S,SS) Continuation of studio I. Emphasis on technical and aesthetic problems of painting. Individual and group criticism of work.

3564. Advanced Figure Painting (3) (F,S) P:ART 3562 or consent of instructor: Advanced individual study of the figure as primary motif in painting. Painting from model.

3566. Portrait Painting (3) (S) P:ART 2560 or consent of instructor: Individual study of human head and costumed figure as primary motif in painting. Painting from model.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive
Semester of course offering is not guaranteed. Anticipated semester of course offering:

(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

300 P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P,C, or P/C

4560. Advanced Painting I (3) (F,S) P: Acceptable portfolio review. Focus on growth and development of individual concepts in painting. Individual instruction and group criticism.

4561. Advanced Painting II (3) (F,S) P: Acceptable portfolio review. Orientation to student's individual strengths and interests. Emphasis on independent thinking. Individual instruction and group criticism.

4562. Advanced Painting III (3) (F,S) P: Acceptable portfolio review. Continuation of ART 456 I. Emphasis on individual criticism.

4563. Advanced Painting IV (3) (F,S) P: Acceptable portfolio review. Continuation of individual growth and development. Individual and group criticism.

4564. Advanced Painting V (3) (F,S) P: Acceptable portfolio review. Personal directions in painting. Individual and group criticism.

5560. Advanced Painting VI (3) Personal direction in painting. Individual and group criticism.

5561. Advanced Painting VII (3) Personal direction in painting.

ART: PRINTMAKING

2010. Printmaking Survey (3) (F,S) P: ART 1015, 1030. Broad aspects of relief, intaglio, and planographic processes.

2020. Printmaking Workshop I (1) (S) 2 studio hours per week. P: ART 1015, 1030; 1906 or 1907; 2010 or consent of instructor. Continued development of artistic skills. Basic black and white techniques of collagraphic process.

2030. Printmaking Workshop II (1) (S) 2 studio hours per week. P: ART 1015, 1030; 1906 or 1907; 2010 or consent of instructor. Continued development of artistic skills. Basic stencil techniques of silk-screen process.

2040. Printmaking Workshop III (1) 2 studio hours per week. P: ART 2220. Continued development of artistic skills. Basic techniques of photo silk-screen process.

2050. Printmaking Workshop IV (1) (S) 2 studio hours per week. P: ART 2010, 2220; or consent of instructor. Continued development of artistic skills. Basic techniques of photo-intaglio process.

2600. Printmaking Studio I (3) (F,S) P: ART 2010 or consent of instructor. Continued development of aesthetic concerns. Basic intaglio acid techniques of line etching, aquatint, soft-ground, lift-ground, and appropriate printing procedures.

2610. Printmaking Studio II (3) (F,S) P: ART 2600 or consent of instructor. Continued development of aesthetic concerns. Basic intaglio non-acid techniques of drypoint, engraving, mezzotint, and appropriate printing processes. Intaglio color printing techniques include multiplate, stenciled color; and one-plate printing methods. Etching techniques from ART 2600 employed to make plates for color printing.

3600. Printmaking Studio III (3) (F,S) P: ART 2010 or consent of instructor. Continued development of aesthetic concerns. Basic processes of lithography. Printing surface preparation, elementary drawing techniques, and printing.

3610. Printmaking Studio IV (3) (F,S) P: ART 3600 or consent of instructor. Continued development of aesthetic concerns. Several advanced processes employed in lithography. Include color printing, transfer media, and introduction of other print media.

4600. Printmaking Studio V (3) (F,S) P: ART 2010, 3610; or consent of instructor. In-depth investigation of a printmaking process. Emphasis on aesthetic and technical considerations.

4610. Printmaking Studio VI (3) (F,S) P: ART 2010, 4600; or consent of instructor. In-depth investigation of a printmaking process. Emphasis on aesthetic and technical considerations.

4620. Printmaking Studio VII (3) (F,S) P: ART 2010, 4610; or consent of instructor. Initiation and development of a series of prints to be resolved as folio or fine book.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

(GE:EN)=English; (GE:EX)=Exercise and Sport Science; (GE:FA)=Fine Arts; (GE:HL)=Health; (GE:HU)=Humanities; (GE:MA)=Mathematics; (GE:SC)=Science; (GE:SO)=Social Science

SECTION 8: COURSES

4630. Printmaking Studio VIII (3) (F,S) P:ART 2010, 4620; or consent of instructor: Continuation of ART 4620.

4640. Printmaking Studio IX (3) (F,S) P:ART 2010, 4630; or consent of instructor: Continuation of ART 4630. Completion of folio or book.

5610. Printmaking Studio X (3) Independent investigation of specific problems in printmaking.

ART: SCULPTURE

2705. Sculpture Survey (3) (F,S,SS) P:ART 1015, 1030. Methods, materials, and styles of sculpture.

2715. Sculpture Studio I (3) (F,S) P:ART 2705 or consent of instructor: Subtractive techniques (stone, wood, and plaster) as sculptural problems.

2725. Sculpture Studio II (3) (F,S) P:ART 2715. Additive techniques (plaster; clay, wood, and steel) as sculptural problems.

3700. Sculpture Studio III (3) (F,S) P:ART 2725. Manipulation and substitution techniques (welding and cast metals) as sculptural problems.

3710. Sculpture Studio IV (3) (F,S) P:ART 3700. Advanced studio techniques in sculpture (foundry) to explore visual aesthetics.

3720. Sculpture Studio V (3) (F,S) P:ART 3710. Advanced studio techniques in sculpture (welded metals) to explore visual aesthetics.

4700. Sculpture Studio VI (3) (F,S) P:ART 3720. Advanced studio studies in sculpture to develop a personal aesthetic statement (interior scale).

4710. Sculpture Studio VII (3) (F,S,SS) P:ART 4700. Advanced studio studies in sculpture to develop a personal aesthetic statement (human scale).

5700. Sculpture Studio VIII (3) P for undergraduate students: ART 2705 or consent of instructor: Concentrated studio pursuit and development of strong personal aesthetic sculptural statement.

5710. Sculpture Studio IX (3) P for undergraduate students: ART 2705 or consent of instructor: Concentrated studio pursuit and development of strong personal aesthetic sculptural statement (architectural scale).

ART: TEXTILE DESIGN

2303. Textile Design Survey (3) (F,S) P:ART 1015, 1030. Structural and nonstructural textiles. Tools and techniques of textile designer.

2350. Off-Loom Textile Design (3) P:ART 2303. Design with fibers using methods other than floor loom.

3350. Advanced Off-Loom Textile Design (3) P:ART 2350. Advanced fiber design. Employs methods other than floor loom.

ART: VIDEO

3080. Introductory Video Art (3) P for art majors: ART 1015, 1030; P for communication arts students: ART 2220. Video for aesthetic inquiry.

3081. Intermediate Video Art (3) Explores video as expressive medium and builds upon competencies developed in ART 3080.

ART: WEAVING DESIGN

2325. Weaving Design Studio I (3) (S) P:ART 2303. Mechanics and operation of the loom. Basic loom-controlled techniques.

2335. Weaving Design Studio II (3) (S) P:ART 2325. Advanced pattern drafting, multifiber exploration, and combined basic loom-controlled techniques.

3305. Weaving Design Studio III (3) (F,S) P:ART 2335. Advanced application of loom controlled techniques.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive
Semester of course offering is not guaranteed. Anticipated semester of course offering:

(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

302 P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P, C, or P/C

3315.Weaving Design Studio IV (3) (F,S) P:ART 3305.Advanced techniques. Multi-layered weaves and supplemental warping methods.

4305.Weaving Design StudioV (3) (F,S) P:ART 3315.Advanced exploration of various loom and non-loom-controlled techniques.

4315.Weaving Design StudioVI (3) (F,S) P:ART 4305.Advanced exploration of various loom- and non-loom-controlled techniques.

5305.Weaving Design StudioVII (3) P:ART 4315. Original research in weaving and fiber design.

5315.Weaving Design StudioVIII (3) P:ART 5305. Original research in weaving and fiber design.

ART: WOOD DESIGN

2304.Wood Design Survey (3) (F,S) P:ART 1015, 1030.Wood as medium in solving visual problems. Historical and technical aspects of designer craftsman using wood.

2322.Wood Design Studio I (3) (F,S) P:ART 2304.Application of techniques and design principles to wood as viable craft material.

2332.Wood Design Studio II (3) (F,S) P:ART 2304.Further and more specialized application of power tool technique to small scale objects.

3302.Wood Design Studio III (3) (F,S) P:ART 2304. Design with emphasis on combination of wood with various compatible materials.

3312.Wood Design Studio IV (3) (F,S) P:ART 2304.Increased scale regarding functional and decorative objects.

4302.Wood Design StudioV (3) (F,S) P:ART 2304.Furniture design and its relationship to function.

4312.Wood Design StudioVI (3) (F,S) P:ART 2304.Furniture as means of conceptual expression.

4322.Wood Design StudioVII (3) (F,S) P:ART 2304.Functional and sculptural aspects of furniture design.

5302.Wood Design StudioVIII (3) P for undergraduate students:ART 2304 or consent of instructor.Original research in wood design.

5312.Wood Design Studio IX (3) P for undergraduate students:ART 2304 or consent of instructor.Original research in wood design.

ART AND DESIGN Banked Courses

2940.Eighteenth-Century Art (3)

2950.Culture and Art of Europe (6)

3900.Prehistoric Art (3)

3910.Primitive Art History (3)

4005.Interdisciplinary Three-Dimensional Design Studio for Ceramics, Wood Design, Metal Design, and Sculpture (3)

4006.Interdisciplinary Three-Dimensional Design Studio for Sculpture, Environmental Design, and Wood Design (3)

441 I. Professional Practice (3)

4420.Social and Cultural Perspectives in Design (3)

442 I. Seminar in Contemporary Concepts (2)

4450, 4451, 4452. Interdisciplinary Environmental Design Studio (3,3,3)

4460. Urban Design (3)

446 I. Comprehensive Environmental Design Studio (3)

5950. Culture and Art of Europe (6)

5960. Culture and Art of Mexico (6)

SECTION 8: COURSES

ASEU: AREA STUDIES – EUROPEAN STUDIES

ASEU Banked Courses

3010,3011.Field Study in Europe (3,3)

ASIA: ASIAN STUDIES

2000.Introduction to Asia (3) An introduction to Asian civilizations and cultures, drawing on the disciplines of anthropology, art, geography, history, language and literature, philosophy and religion.

4000.Asian Studies Senior Seminar (3) P: Consent of instructor.An interdisciplinary capstone course required for minors in Asian Studies.Advanced students explore in depth selected aspects of Asian civilizations and cultures.

ASIP: ADMINISTRATIVE SERVICES AND INFORMATION PROCESSING

1500, 1501.Electronic Information Processing I (3,0) (F,S,SS) 3 lecture and 1 lab hours per week.Beginning course in electronic touch keyboarding and use of information processing systems to produce text documents via a computerized delivery system.

2000.Introduction to Computer Literacy (1) (F,S) May count toward teacher education degrees. May not count toward BS in nursing or BS degree programs in Dept of Industrial Technology. Knowledge and skills needed to satisfy basic technology competencies required to support and enhance professional productivity, information access, collaboration, and communication among educators, word processing, spreadsheets, presentations, and database.

2112.Introduction to Information Processing Technology (3) (F,S,SS) Use of various data processing systems for business applications. Functional and operational characteristics of data processing systems.

2212, 2213.Basic Programming for Business Applications (3,0) (F,S,SS) P:ASIP 2112 or equivalent. Designing and coding basic programs related to business applications for use on microcomputer.

2311, 2312.Financial Information Systems (3,0) (F,S,SS) 3 lecture and 1 lab hours per week. Financial information systems procedures and problems of business organizations. Emphasis on computerized applications.

2500, 2501.Electronic Information Processing II (3,0) (F,S,SS) 3 lecture and 1 lab hours per week. P:ASIP 1500 or consent of instructor.Electronic keyboarding skill building and application of detailed information processing concepts in production of documents generated through electronic delivery system.

3220.Business Communications (3) (F,S,SS) (WI) All students pursuing an undergraduate business education or marketing education teacher certification option must earn a grade of C or better. P: ENGL 1200. Development of understanding of need for effective communications in business through application of basic principles of written communications to solution of specific business problems.

3228.Administrative Management (3) (F,S,SS) Evolving concepts and practices of administrative management. Emphasis on handling information.

3291, 3292, 3293, 3294. Internship: Supervised Work Experience (1,2,3,4) (F,S,SS) Work hours for 3291: 100; for 3292: 200; for 3293: 300; for 3294: 400. May be taken in any combination for a maximum of 4 s.h. P: Consent of a dept coordinator and a minimum of 1 semester as a full-time ECU student.

3311, 3312.Financial Information Systems II (3,0) (F,S,SS) 3 lecture and 1 lab hours per week. P:ASIP 2311. Automated approach to accounting through use of integrated computer software.

3500, 3501.Electronic Information Processing III (3,0) (F,S,SS) 3 lecture and 1 lab hours per week. P:ASIP 2500 or equivalent. Advanced information processing. Applications of modern-day information processing systems.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive
Semester of course offering is not guaranteed. Anticipated semester of course offering:
(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

304 P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P, C, or P/C

4200, 4201. Microcomputer Business Applications (3,0) (F,S,SS) 3 lecture and 1 lab hours per week. P:ASIP 2500 or consent of instructor. Advanced course in use of specialized microcomputer applications software to produce business documents and reports.

4300. Administrative Office Procedures (3) (F,S) Role of administrative support personnel on the job.

4500. Information Processing Systems Design (3) (F,S,SS) P:ASIP 2212, 2213, 2500; or equivalent. Concepts and systems in automated office environment. Preparation for decision-making roles in information processing and/or management. Emphasis on conducting feasibility studies and dealing with change.

5200, 5201. Microcomputer Business Graphics Applications (3,0) P:ASIP 4200 or consent of instructor. Advanced course in specialized graphics-oriented microcomputer applications software used to produce business documents, reports, brochures, newsletters, pamphlets, and other page or screen composition publications.

ASLS: AMERICAN SIGN LANGUAGE STUDIES

2020. Sign Language Studies I (3) (F,S,SS) Introduction to American Sign Language vocabulary as used by deaf adults. Process of gestural-visual medium of communication, basic structure of American Sign Language, development of expressive and receptive signing skills, and basic orientation to deaf culture.

2030. Sign Language Studies II (3) (F,S,SS) P:ASLS 2020. Continued study of American Sign Language. Development of expressive and receptive conversational skills.

2040. Deaf Culture and the Community (3) (F,S,SS) Orientation to social, cultural, linguistic, and psychological effects of deafness by describing changing attitudes toward deafness and hearing-impaired persons. Historical development of education for hearing impaired. Educational, psychological, communication, vocational, and social effects of deafness on deaf individual and adaptations of individual deaf persons.

3060. Sign Language Studies III (3) (F,S,SS) P:ASLS 2030 or consent of the instructor. Continued study of American Sign Language. Emphasis on syntax and grammatical rules and development of expressive and receptive signing skills.

3070. Introduction to Interpreting for the Deaf (3) (F) P:CSDI 2030 or consent of instructor. Basic theories, principles, and practices of interpreting for deaf. Emphasis on prerequisite skills in educational interpreting. Introduction to interpreting in legal, medical, theatrical, musical, television, religious, job placement, mental health, and counseling.

3080. Sign Language Studies IV (3) (F,S,SS) P:ASLS 3060 or consent of instructor. Advanced study. In-depth knowledge of grammatical structure of American Sign Language. Sign fluency and comprehension.

3090. Interpretation and Transliteration for the Deaf I (3) (S) P:ASLS 3060, 3070; or consent of instructor. Basic interpreting and transliterating process. English and ASL texts analyzed and semantically equivalent messages generated in target language. Emphasis on development and utilization of analytic and cognitive skills.

3091. Interpretation and Transliteration for the Deaf I (3) (S) P:ASLA 3060, 3070; or consent of instructor. Basic interpreting and transliterating process. English and ASL texts analyzed and semantically equivalent messages generated in target language. Emphasis on development and utilization of analytic and cognitive skills.

3100. Interpretation/Transliteration for the Deaf II (3) (F) P:CSDI 3080, 3090, 3091; or consent of instructor. Focuses on interpreting process. Application of knowledge and skills to practical situations encountered in interpreting profession. Emphasis on continuing vocabulary development and accurate rendering of messages in consecutive interpreting situations.

BIME: BIOMEDICAL ENGINEERING

3000. Introduction to BioMedical Engineering (3) (F) P:BIOL 2130, SYSE 3010. Application of fundamental engineering skills to solve problems in medicine and biology. Introduces students to a wide range of state-of-the-art applications in biomedical engineering and promotes understanding of interdisciplinary nature of the field. Topics covered include medical instrumentation and design, biomechanics, biomaterials, mass transport, application of computers in medicine, artificial implants, medical imaging, and medical ethics.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

(GE:EN)=English; (GE:EX)=Exercise and Sport Science; (GE:FA)=Fine Arts; (GE:HL)=Health; (GE:HU)=Humanities; (GE:MA)=Mathematics; (GE:SC)=Science; (GE:SO)=Social Science

SECTION 8: COURSES

4000. BioMedical Instrumentation (3) (S) P: BIME 3000. Examines array of instrumentation and techniques used in acquisition, processing, and presentation of biomedical signals. Topics include transducers, sensors, Fourier analysis, the ECG signal, flow measurement, medical imaging, and biosensors. Lab covers amplifiers, bridge circuits, and measurement of physical parameters (temperature, pressure, strain) and electrophysiological signals.

BIOL: BIOLOGY

1030. Plants and Human Affairs (3) (F,S) (GE:SC) May not count toward BIOL major or minor. BIOL 1051 may be taken as a lab complement. Biology of plants and their related organisms and importance throughout history.

1050. General Biology (3) (F,S,SS) (GE:SC) May not count toward BIOL major or minor. Molecular basis of biology, bioenergetics, control systems, reproduction and development, genetics, diversity, evolution, communication, and behavior ecosystems.

1051. General Biology Laboratory (1) (F,S,SS) (GE:SC) 1 3-hour lab per week. May not count toward BIOL major or minor. C: BIOL 1030 or 1050. Practical applications of biological principles.

1060. Environmental Biology (4) (F,S,SS) (GE:SC) May not count toward BIOL major or minor. Interrelationships of organisms with each other and with their environment and human factors. Basic ecological problems, principles, and solutions.

1061. Environmental Biology Laboratory (1) (F,S) (GE:SC) 1 3-hour lab or field excursion per week. May not count toward BIOL major or minor. Optional lab or field course offered to provide a more indepth look at habitats.

1080, 1081. General Zoology (5,0) (F) (GE:SC) 4 lectures and 1 3-hour lab per week. Biology of major animal phyla. Emphasis on phylogeny, morphology, and physiology.

1100, 1101. Principles of Biology and Laboratory I (3,1) (F,S,SS) (GE:SC) 3 lecture and 3 lab hours per week. P/C for 1101: BIOL 1100. Molecular biology, bioenergetics, cellular structure, and physiology. Molecular basis of inheritance and control of gene expression.

1200, 1201. Principles of Biology and Laboratory II (3,1) (F,S,SS) (GE:SC) 3 lecture and 3 lab hours per week. P/C for 1201: BIOL 1200. Five living kingdoms and diversity that prevails in natural systems. Principles of evolution, ecology, and behavior; particularly in context of diversity.

2015. Introduction to Biological Anthropology (3) (WI*) (F,S) (GE:SC) Same as ANTH 2015 May count toward general education science requirement for all except ANTH majors. May not count toward general education social sciences requirement. RP: BIOL course. Evolutionary theory, human evolution, and formation of human variability, adaptation, and genetics. Relationships among primates.

2016. Biological Anthropology Laboratory (1) (F,S) (GE:SC) Same as ANTH 2016 May count toward general education science requirement for all except ANTH majors. May not count toward general education social sciences requirement. C: BIOL 2015. Human and population genetics, anthropometry, anthroposcopy, dermatoglyphics, blood pressure, blood typing, osteometry, primate taxonomy, and human evolution.

2110, 2111. Fundamentals of Microbiology and Laboratory (3,1) (F,S) 3 lectures and 2 2-hour labs per week. May not count toward BIOL major or minor. P for 2110: BIOL 1050, 1051; or 1100, 1101; or equivalent; 8 sh. in CHEM. P/C for 2111: BIOL 2110. General study of microorganisms and their importance to humans. Emphasis on fundamental life processes, including a brief introduction to epidemiology and immunology

2130. Survey of Human Physiology and Anatomy (4) (F,S,SS) (GE:SC) P: BIOL 1050, 1051; or 1100, 1101. Functional anatomy and normal physiology of human organ systems.

2131. Survey of Human Physiology and Anatomy Laboratory (1) (F,S,SS) (GE:SC) 3 lab hours per week. May not count toward BIOL major or minor. P/C: BIOL 2130. Principles and review of anatomy of human organ systems.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive
Semester of course offering is not guaranteed. Anticipated semester of course offering:

(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

306 P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P, C, or P/C

2140, 2150. Human Physiology and Anatomy (3,3) May not count toward BIOL major or minor: P: 1 CHEM course; P for 2150: BIOL 2140; C for 2140: BIOL 2141; C for 2150: BIOL 2151. Two-semester integrated course. Normal physiology and functional anatomy of human organ systems.

2141, 2151. Human Physiology and Anatomy Laboratory (1,1) 3 lab hours per week. May not count toward BIOL major or minor: P for 2151: BIOL 2141; C for 2141: BIOL 2140; C for 2151: BIOL 2150. Two-semester integrated labs. Application of anatomical and physiological concepts.

2250. Ecology (3) (F,S,SS) P: BIOL 1100, 1101, 1200, 1201. Structure and function of ecosystems. Relationships of environmental factors operating in different habitats to floral and faunal composition of each community.

2251. Ecology Laboratory (1) (F,S,SS) 3 lab hours per week. P: BIOL 1100, 1101, 1200, 1201; C: BIOL 2250. Field experiences and lab methods used to determine structure and function of ecosystems.

2300. Principles of Genetics (3) (F,S,SS) P: 2 BIOL courses. Emphasis on modern genetics and its application.

3070, 3071. Survey of Plants and Fungi (4,0) May receive credit for one of the following sequences: BIOL 1070, 1071; 3070, 3071. P: 3 s.h. of science with a lab. Plants and fungi with emphasis on evolutionary patterns in structure, reproduction, and ecological function.

3100, 3101. Basic Laboratory Methods for Biotechnology (3,0) (F,SS) 1 lecture and 4 lab hours per week. P: BIOL 2300; CHEM 1160, 1161. Practical basic training in lab techniques generally applicable to molecular biology, cell biology, biochemistry, genetics, and microbiology.

3220, 3221. Microbiology (4,0) (F) 3 lectures and 2 2-hour labs per week. P: BIOL 1200, 1201; organic CHEM course. Structure, physiology, disease, environmental relationships, and molecular biology of microbes.

3230, 3231. Field Botany (4,0) (F,S,SS) P: 3 s.h. of general BIOL with a lab. Plant identification and interactions of plants with their chemical, physical, and living environments. Emphasis on recognition of common vascular elements of local flora and major plant communities of coastal NC.

3240, 3241. Field Zoology (4,0) (F) P: BIOL 1060 or 2250. Methods and principles in zoological field study. Focus on local NC vertebrate fauna.

3310, 3311. Cellular Physiology (4,0) (F,S,SS) 3 lectures and 1 3-hour lab per week. P: Organic CHEM or BIOC course. Structure and function of cells. Emphasis on physico-chemical aspects. Current status of major problems such as gene function, photosynthesis, contraction, active transport, and nerve cell function.

3320. Principles of Animal Physiology (3) (F,S,SS) P: 2000-level organic CHEM or BIOC course. Introduction to concepts of animal physiology.

3321. Principles of Animal Physiology Laboratory (1) (F,S,SS) C: BIOL 3320. Lab to accompany BIOL 3320.

3400, 3401. Biological Field Studies of the Coastal Plain (3,0) 2 lecture and 3 lab hours per week. P: 2 courses in BIOL or GEOL or consent of instructor. Current status and change initiated by nature and man. Field trips and field projects important.

3520. Biological Evolution (3) (F) P: BIOL 2300 or consent of instructor. Evolution from a biological standpoint. Relationships of evolutionary theory and reciprocal impact on ecology, genetics, diversity, and biogeography. Speciation, selection, and populations.

3550. Biology Honors (1) (WI) (F,S,SS) Conferences with staff as needed. May be repeated once for a maximum of 2 s.h. Student taking this course will normally be expected to take BIOL 4550. P: Faculty invitation. Seminar and research.

3660. Introduction to Marine Biology (3) (F,S,SS) A coastal field trip, at student's expense, required. P/C: BIOL 2250, 2251. Ocean habitats and marine plants and animals that comprise various marine ecosystems.

3661. Introduction to Marine Biology Laboratory (1) (F,S) 3 lab hours per week. C: BIOL 3660. Exercises examine physical and chemical properties of ocean waters and representative marine organisms.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

(GE:EN)=English; (GE:EX)=Exercise and Sport Science; (GE:FA)=Fine Arts; (GE:HL)=Health; (GE:HU)=Humanities; (GE:MA)=Mathematics; (GE:SC)=Science; (GE:SO)=Social Science

SECTION 8: COURSES

4040. Human Genetics (3) P: BIOL 2300. Concepts of Mendelian and molecular genetics as applied to inheritance of human genetic disorders.

4050, 4051. Comparative Anatomy (4,0) (F) 2 lectures and 2 3-hour labs per week. P: 6 s.h. in BIOL. Structure and relationship of vertebrate animals. Emphasis on phylogeny of organ systems.

4060, 4061. Embryology (4,0) 3 lectures and 1 3-hour lab per week. P: BIOL 2300. Early developmental processes of anatomical and physiological significance. Emphasis on developmental stages of frog, chick, and mammalian embryos.

4071. Human Gross Anatomy (4) 3 conference/demonstration and 3 lab hours per week. May not count toward general education science requirement. P: BIOL 4050, 4051; or consent of instructor. Dissection-based regional study of human cadaver.

4200, 4201. Population and Community Ecology (4,0) (4200:WI) (S) P: BIOL 2250, 2251, 2300; CHEM 1150, 1151; RP: CHEM 1160, 1161; MATH 2121 or statistics course. Organization of populations and communities. Emphasis on interactions among organisms and their environments and how these structure populations and communities.

4210. Phylogenetic Theory (3) (F) P: BIOL 2250, 2251, 2300. Theory and practice of modern phylogenetic methods. Topics include basic evolutionary concepts, reconstructing evolutionary relationships using molecular and other data, and statistical methods for assessing reliability of phylogenetic analyses. Emphasis on hands-on experience with phylogenetic computer programs.

4220. Microbes and Immunity (3) (S,SS) P: BIOL 2110, 2111; or 3220, 3221. Interaction of pathogenic microbes such as bacteria, viruses, fungi, and parasites with human defense system.

4300, 4301. Ecosystem Ecology (4,0) (WI) (F) P: BIOL 2250, 2251. In-depth examination of ecosystem processes. Primary production, decomposition, and nutrient cycling as influenced by biotic and environmental controls in terrestrial, aquatic, and wetland ecosystems.

4400. Terrestrial Field Ecology (4) (SS) 2 lecture and 6 lab or fieldwork hours per week. Field and lab work at an off-campus research site may involve additional costs. P: 1 statistics course; BIOL 2250, 2251; consent of instructor (by application). Research skills and techniques used by ecologists in freshwater and terrestrial systems in preparation for ecological research at graduate level.

4480, 4481. Cytology (2,2) (F) Formerly BIOL 5480, 5481 2 lectures and 2 2-hour labs per week. P: BIOL 1100, 2300, 3310. Function and structural components of eukaryotic cells.

4500. Marine Field Ecology (4) (SS) 2 lecture and 6 lab and/or fieldwork hours per week at an off-campus research site or field station. May involve additional costs. P: BIOL 3660, 3661; a statistic course; consent of instructor (by application). Research skills and techniques used by marine ecologists in preparation for marine and oceanographic research at graduate level.

4504, 4514. Research Problems in Biology (2,2) (WI,WI) (F,S,SS) 4 hours of research-related work per week. May be repeated for maximum of 4 s.h. P: Consent of instructor. Designed to meet individual needs and interests of well-qualified undergraduate students.

4550. Biology Honors (2) (WI) (F,S,SS) Conferences with staff as needed. May be repeated for maximum of 4 s.h. P: Faculty invitation. Seminar and research.

4999. Senior Topics (1) (F,S) 1 lecture hour per week. P: Senior standing in BIOL major. Capstone course summarizing breadth of biological science, professional opportunities, and assessment.

5070, 5071. Ornithology (4,0) 3 lecture hours and 1 3-hour lab per week. Field trips to observe native birds in natural surroundings required. P: 8 s.h. in BIOL. Survey of birds of the world. Emphasis on ecology, evolution, and behavior: adaptive radiation, migration, flight mechanics, morphology, taxonomy, bird song, reproduction, population biology, and conservation of birds.

5150, 5151. Herpetology (4,0) 3 lectures and 1 3-hour lab per week. P: 8 s.h. in BIOL. Taxonomy, anatomy, physiology, distribution, phylogeny, natural history, and ecology of reptiles and amphibians of the world. Emphasis on species of NC and Atlantic Coastal Plain.

P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P, C, or P/C

- 5190. Immunology I (3)** 3 lectures and 1 3-hour lab per week. P: BIOL 2300, 3220, 322 I. Structure, function, and genetic organization of body's defense system. Interactions of immunocompetent cells and their role in infection, disease, and autoimmunity.
- 5200, 5201. Invertebrate Zoology (4,0)** 3 lectures and 1 3-hour lab per week. P: 6 s.h. in BIOL. General comparative anatomical and physiological aspects of invertebrate groups. Emphasis on similarities, differences, and evolution.
- 5220, 5221. Limnology (4,0)** 3 lectures and 1 3-hour lab per week. P: BIOL 2250, 225 I; or consent of instructor. Physical, chemical, and biological factors of inland waters and their influence on aquatic organisms.
- 5230, 5231. Phycology (4,0)** 3 lectures and 1 3-hour lab per week. P: BIOL 1200, 1201. Systematic survey of algae. Emphasis on their role in aquatic ecosystems. Lab employs techniques for studying algae and use of systematic keys.
- 5260, 5261. Microbial Ecology (4,0)** 3 lectures and 2 2-hour labs per week. P: BIOL 2250, 225 I, 3220, 322 I; or consent of instructor. Interactions between microorganisms and their physical, chemical, and biological environment. Microbial involvement in energy flow, nutrient cycling and intra/inter-specific interactions. Introduction to statistical analyses of biological and ecological data.
- 5270. Marine Community Ecology (3)** P: BIOL 2250, 225 I; or consent of instructor. Advanced examination of ecology of marine and brackish water communities based on principles of population biology and community ecology. Emphasis on current hypotheses concerning the processes structuring major communities.
- 5351. Biological Processes and the Chemistry of Natural Water (2)** 6 lab hours per week. P: BIOL 2250, 225 I; 2 CHEM courses; or consent of instructor. Interactions of water quality and biological processes in aquatic ecosystems.
- 5370. Biological Effects of Radiation (3) Same as RONC 5370** P: BIOL 1100, 1101, 1200, 1201; or consent of instructor. Biological effects resulting from interactions of radiation and matter for scientifically and technically-oriented students.
- 5400. Wetland Ecology and Management (3)** P: BIOL 2250, 225 I; or consent of instructor. Marshes, swamps, bogs, fens, and other intermittently flooded ecosystems. Emphasis on classification, ecosystem processes, structure, and management of freshwater and saltwater wetlands.
- 5401. Wetland Ecology Laboratory (1)** P: BIOL 2250, 225 I; C: BIOL 5400. Application of methods to measure ecological properties, assess the functioning, identify plant communities, and understand landscape interaction of wetland ecosystems.
- 5450, 5451. Histology (4,0)** 2 lectures and 2 2-hour labs per week. P: 4 BIOL courses. Organization of cells, tissues, and organs at microscopic level.
- 5480, 5481. Cytology (2,2)** 2 lectures and 2 2-hour labs per week. P: BIOL 1100, 2300, 3310. Function and structural components of eukaryotic cells.
- 5510, 5511. Transmission Electron Microscopy (4,0)** 2 lecture and 6 lab hours per week. P for undergraduate students: Senior standing as BIOL major or consent of instructor. Introduction to theory, design, and use of transmission electron microscope and to preparation of biological materials for its use.
- 5520, 5521. Scanning Electron Microscopy and X-Ray Analysis (2,0)** 1 lecture and 4 lab hours per week. P for undergraduate students: Senior standing as a BIOL major or consent of instructor. Introduction to theory and techniques of scanning electron microscopy and X-Ray analysis and preparation of materials for both.
- 5550, 5551. Ichthyology (4,0)** 2 lectures and 2 3-hour labs per week. Evolution and biology of major fish groups of the world. Emphasis on NC species.
- 5600, 5601. Fisheries Techniques (3,0)** For biology majors interested in marine biology. Field trips and field studies are integral. 2 lectures and 1 3-hour lab or field excursion per week. P: BIOL 2250, 225 I; or equivalent. Practical training in field and lab experimental methods in fisheries techniques.
- 5630, 5631. Comparative Animal Physiology (4,0)** 3 lectures and 1 3-hour lab per week. P: 2 BIOL and 2 organic CHEM courses. Principles of function of organ systems of major groups of animals. Nutrition, digestion, respiration, skin and temperature control, blood and circulatory systems, excretion, the muscular-skeletal system, nervous coordination, and endocrine system.

SECTION 8: COURSES

5640, 5641. Entomology (4,0) 3 lectures and 1 3-hour lab per week. P: 12 s.h. BIOL. General anatomy, physiology, ecology, and classification of insects.

5680. Current Topics in Coastal Biology (3) P: Consent of instructor. Seminar on environmental issues in coastal biology presented by directed reading, lecture, and discussion.

5730, 5731. Animal Physiological Ecology (4,0) 3 lectures and 1 3-hour lab per week. P: BIOL 2250, 2251; 3310, 3311 or 3320, 3321 or 5800, 5821; or consent of instructor. Physiological adjustments and responses of animals to their environment. Consideration given to mechanisms involved and to invertebrate, vertebrate, aquatic, and terrestrial animals.

5740, 5741. Behavioral Ecology (4,0) 3 lecture and 2 discussion hours per week. P: BIOL 3520 or 4200, 4201. Animal behavior from an evolutionary perspective. Readings from current scientific literature and weekly discussions.

5750, 5751. Introduction to Regional Field Ecology (2,0) (5750:WI) For science and environmental studies teachers. 20 hours of lecture and 32 hours of field trips. May not count toward MS in BIOL or molecular biology/biotechnology. Major regional ecosystems.

5800. Principles of Biochemistry I (3) 3 lecture hours per week. P: BIOL 3310, 3311; or consent of instructor; CHEM 2760, 2763. Intermediary metabolism, metabolic processes, and metabolic regulation of major groups of compounds in living cells.

5810. Principles of Biochemistry II (3) May be taken before BIOL 5800. P: BIOL 3310, 3311; or consent of instructor; CHEM 2760, 2763. Protein biochemistry. Structure and function of amino acids and proteins, including protein biosynthesis and kinetics. Structures illustrated using computer-modeling techniques.

5821. Principles of Biochemistry Laboratory (1) Required for biochemistry majors; recommended for biology majors. P/C for undergraduate students: BIOL 5800 or 5810. General biochemistry lab designed to complement BIOL 5800, 5810.

5870. Molecular Genetics (3) P: BIOL 2300; RP: BIOL 3220, 3221, 5810, 5821. Genetics of prokaryotic and eukaryotic organisms at molecular level. Structure and function of nucleic acids; replication, recombination, and repair; control of gene expression; and other related topics.

5890. Virology (3) P: BIOL 3100, 3101; or 5870; 3220, 3221. Plant, animal, and bacterial viruses. Emphasis on distinctive features of viruses as related to parasitism, disease, and basic research.

5900, 5901. Biotechniques and Laboratory (2,3) 2 1-hour lectures and 2 4-hour labs per week. P: BIOL 3100, 3101, 5870; consent of instructor; RP: BIOL 5810, 5821; C for 5901: BIOL 5900. Theory and practice of modern genetic engineering technology. Topics include DNA purification, electrophoresis, restriction mapping, use of DNA modifying enzymes, basic cloning in plasmid vectors, and strain construction by conjugation and transduction.

5930, 5931. Microcomputer Applications in Molecular Biology (2,0) 1 lecture and 1 3-hour lab per week. P: BIOL 3310, 3311; or 5810, 5821; or 5870. Techniques for analysis of biological characteristics of nucleic acid and protein molecules using BASIC with microcomputers.

5950, 5951. Taxonomy of Vascular Plants (4,0) 1 2-hour lecture and 1 4-hour lab per week. P: 12 s.h. BIOL or consent of instructor; RP: BIOL 2250, 2251. Plant importance, identification, classification, and evolution as well as how plants interact with living and nonliving environments. Field experiences emphasize major communities and dominant floral elements of coastal NC.

5995. Internship (1) 3 hours per week. May be repeated once for a maximum of 2 s.h. P: Consent of instructor. Lab experiences under direct supervision of a member of biology faculty.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive

Semester of course offering is not guaranteed. Anticipated semester of course offering:

(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

BIOL Banked Courses

1070, 1071. General Botany (5,0)	5080, 5081. Plant Anatomy and Morphology (4,0)
2260. Cell and Developmental Biology (3)	5110, 5111. Plant Growth and Development (4,0)
2261. Cell and Developmental Biology Laboratory (1)	5678. Biology of Aging (3)
3301. Principles of Genetics Laboratory (1)	5850, 5851. Biometry (3,0)
4720. Principles of Biology II (2)	5860, 5861. Biological Applications of Digital Computers (3,0)
5000, 5001. Radio Tracer Techniques in Biology (3,0)	5880, 5881. Microbial Physiology (4,0)
5020, 5021. Animal Parasitology (4,0)	5910, 5911. Vascular Plant Systematics (4,0)
5040, 5041. Mycology (4,0)	5920, 5921. Vertebrate Systematics (4,0)
5050. Applied Ecology (3)	

BIOS: BIOSTATISTICS

1500. Introduction to Biostatistics (3) (F,S) P: MATH 1065 or equivalent or consent of instructor: Application of statistics to health field. Topics include organization and display of different types of data, elementary probability, and statistical inference for one- and two-sample problems.

3501. Experimental Design I (3) P: Consent of instructor: Detailed coverage of analysis of variance. Topics include analysis of variance for completely randomized, randomized block, factorial, and split plot designs; multiple comparison procedures; tests of normality and homogeneity of variance; and an introduction to general linear model.

4371, 4372, 4373. Statistical Consulting I, II, III (1,1,1) P for 4371: BIOS 3501 or equivalent or consent of instructor; P for 4372: BIOS 4371 or equivalent or consent of instructor; P for 4373: BIOS 4372 or equivalent or consent of instructor: Development and discussion of skills involved in statistical consulting and data analysis. Student work with instructor on several projects, which include meeting with client, conceptualizing problem, forming statistical model, analyzing data, and report writing.

4900. Biostatistics Honors (3) Standard topics in descriptive and inferential statistics, including methods for visualizing, summarizing, and modeling individual variables and for visualizing and modeling relationships among variables; sampling, experiments, and other source of data; significant testing and confidence intervals for means and proportions (one- and two-sample procedures).

5010. Epidemiology for Health Professionals (3) P: BIOS 1500 or consent of instructor: Distribution of disease in human populations and factors that influence this distribution. Emphasis on leading causes of death, evaluating health research, and utilizing epidemiologic methods.

5450. Applied Multivariate Analysis (3) P for undergraduate students: BIOS 3501; MATH 3256; or equivalent; or consent of instructor; P for graduate students: BIOS 5021, 5022; MATH 3256; or equivalent; or consent of instructor: Development and discussion of multivariate topics. Multivariate normal distribution, MANOVA, principal components analysis, discriminant analysis, and other related topics.

5500. Nonparametric Statistical Methods (3) P for undergraduate students: BIOS 3501 or consent of instructor; P for graduate students: A statistics course; consent of instructor: Application of nonparametric methods for various problems in statistical analysis. Procedures based on randomization and ranks.

BIOS Banked Courses

2001. Biostatistical Methods I (3)	5300. Advanced Epidemiologic Design and Analysis (3)
2002. Biostatistical Methods II (3)	5350. Application of Statistical Methods in Epidemiology (2)
3502. Experimental Design II (3)	5400. Research Planning in Epidemiology (3)
3511. Applied Regression Analysis (3)	5575. Introduction to Survivorship Analysis (3)
4200. Sampling Techniques (3)	5600. Categorical Data Analysis (3)
4810. Applied Time Series (3)

SECTION 8: COURSES

BVTE: BUSINESS, CAREER, AND TECHNICAL EDUCATION

2123. Early Experiences for the Prospective Teacher (1) (F,S) For prospective teachers. Minimum of 16 hours of directed observations and planned participation in appropriate school environments and 8 hours of seminar class instruction in the teaching area. P: 9-12 s.h. in major field and/or consent of instructor. Introduction to teaching of business, marketing, and family and consumer sciences education.

3200. Distribution Technology I: Merchandising (3) (F,S,SS) Basic business and merchandising procedures. Emphasis on store operations, merchandising math, pricing, strategies, and inventory procedures.

3301. Distribution Technology II: Promotion (3) (F,S,SS) P: ECON 2113. Technical promotional problems of concern to distribution supervisory personnel.

3302. Distribution Technology III: Selling (3) (F,S,SS) Basic business and selling procedures. Emphasis on selling preparation, selling techniques and procedures, and selling aids.

4390. Consumer Financial Management (3) (WI) (F,S,SS) Credit management, consumer economics, personal finance, money and banking, risk management, and small business management.

4400. Administration and Supervision of Career and Technical Education (3) (S) Organization, administration, and supervision of workforce preparedness education programs. Topics include history of career and technical education programs, school-to-work transition programs, management of youth organizations, and career and technical education curricula.

5205. Teaching Special Populations in Career and Technical Education (3) P: SPED 2000 or equivalent. Emphasis on modification and development of materials, curricula, and programs for special populations in career and technical education.

5388, 5389, 5390. Seminar in Career and Technical Education (3,3,3) (F,S,SS) May be repeated for credit with change of topic. Problem areas of major concern in information technologies, business education, or marketing education.

5500. Independent Study in Career and Technical Education (3) (F,S,SS) P: Senior or graduate standing. Independent study, research, and investigation in career and technical education.

5503. Integrating Information Processing Technology into Career and Technical Education (3) (F,S,SS) P for undergraduate students: Senior or graduate standing; consent of dept chair. Integration of information processing technology into career and technical education curricula.

CDFR: CHILD DEVELOPMENT AND FAMILY RELATIONS

1103. Marriage and Family Relation (3) (F,S,SS) Functional relationships in which individuals love, grow, and share through communication, sexuality, and other human interrelationships.

2000. Child Development I: Prenatal Through Early Childhood (3) (F,S,SS) Behavior and development of children from conception to eight years of age.

2001. Child Development II: Middle Childhood Through Young Adulthood (3) (F,S,SS) Behavior and development of children between the ages of eight and twenty-one years.

2021. Introduction to Child Life (1) (S) P: Intended child life major. Overview of the field of child life.

2123. Early Experience in Birth through Kindergarten Education (1) (F,S) For prospective teachers. Minimum of 16 hours of directed observation and planned participation in preschool settings and 12 hours of seminar. Introduction to birth-kindergarten teaching.

2124. Interaction Techniques for Working with Young Children (2) (F,S) Requires practicum experience. P: CDFR major; C: CDFR 2123. Theory and practice in interacting with young children. Emphasis on specific techniques of interaction with and guidance of infants, toddlers, and preschool-aged children.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive
Semester of course offering is not guaranteed. Anticipated semester of course offering:

(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P, C, or P/C

- 2280. Introduction to Child, Family, and Community Services (3) (F)** P: CDFR 1103. Children and families from an ecological systems perspective. Emphasis given to both informal and formal sources of support.
- 2290. Theory and Practice in Family and Community Services (3) (S)** P: CDFR major; CDFR 2280. Theories and applications of working within family and community organizations.
- 2400. Introduction to Gerontology (3) (F,S,SS) (GE:SO) Same as GERO 2400; SOCW 2400** May count toward general education social sciences requirement and SOCI major or minor. Current theory and research in gerontology from interdisciplinary perspective.
- 3002. Child in the Family (3) (F,S,SS)** Overview of child-family relationships. Emphasis on reciprocal interaction of child and family.
- 3150. Introduction to Early Childhood Intervention (3) (F,S)** P: CDFR 1103, 2000. Examines concepts, principles, and applications of early childhood intervention for children from birth through five years.
- 3215. The Family As Consumers (3) (S)** P: CDFR 1103. Comprehensive study of family financial resources and their management with application for consumer decision-making skills and advocacy.
- 3321. Infant and Toddler Curriculum (3) (S) Formerly CDFR 4321** Requires practicum experience. P: CDFR 3150. Application of principles of child development in designing appropriate environments and curricula for children from birth to three years.
- 3413. The Hospitalized Child (3) (WI) (F)** P: Child life major; CDFR 2000, 2001; or consent of instructor. Concepts and techniques of working with children and families in hospital settings.
- 4001. Community Services Internship (8) (WI) (F,S)** Minimum of 310 hours to include labs and classroom work. P: Senior standing; CDFR major; CDFR 4366. Observation and participation with a community agency.
- 4200. Developmental and Educational Assessment of Young Children (3) (WI) (S) Formerly CDFR 3200** Requires practicum experience. P: CDFR 3150. Issues and applications in early intervention and education of children birth through kindergarten, including formal and informal assessment methods and instruments.
- 4210. Child Life Practicum (3) (F,S,SS)** 1 conference and 8 participation hours per week. P: CDFR major; CDFR 3413. Practical experiences in child life programming and care for children with medical or other special needs.
- 4303. Families and Cultural Diversity (3) (F,S)** P: CDFR 1103. Comprehensive study of family diversity that occurs because of different cultural environments. Racial, ethnic, and economic differences explored with emphasis on developing an understanding and appreciation for families with differing values and beliefs.
- 4306. Directing Behavior and Development of Children (3) (F,S,SS)** P: CDFR 2000. Functions and responsibilities of teachers and parents in guiding children. Review of research concerning practices and methods for directing and modifying behavior and development.
- 4313. Trends and Issues in Family Studies (3) (F,S,SS)** P: CDFR 1103. Review of selected topics related to marriage and family relationships. Contemporary trends and issues that impact on marriage and families.
- 4320. Practicum in Teaching Birth-Kindergarten in the Public Schools (1) (F,S)** To be taken simultaneously with Senior I internship. P: Admission to upper division. Reflective study of professional issues in early childhood education and topics arising from internship experience.
- 4322. Preschool Methods and Materials (3) (S)** Practicum experience required. P: CDFR 3150. Application of principles of child development and preschool education in designing appropriate learning environments and curricula for children ages three to five years.
- 4323. Kindergarten Curriculum (3) (F) Same as ELEM 4323** Requires practicum experience. P: Admission to upper division; CDFR 3150. Application of principles of child development and early childhood education in designing appropriate environments and curricula for kindergarten children.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

SECTION 8: COURSES

4324. Internship in Birth Through Kindergarten Education (10) (F,S) Full-time, semester-long internship. P: Admission to upper division; CDFR 3200, 4406; professional studies courses; C: CDFR 4325. Observation and supervised teaching in an assigned public school program or other approved school/center serving children birth through kindergarten.

4325. Internship Seminar: Issues in Birth-Kindergarten Education (2) (F,S) P: Admission to upper division; C: CDFR 4324. Individualized study of problems and/or issues in birth through kindergarten education.

4366. Family Life Education (3) (F,S) P: Junior or senior standing; CDFR major. Introduction and critical analysis of family life education. Nature, history, intellectual and philosophical foundations, delivery, and evaluation of methods, materials, resources, and group processes.

4390. Family Resource Management (3) (S) P: CDFR major. Identification and management of family resources. Impact of decision making on families' quality of life. Effect of resource generation and allocation on family relationships and well-being at different stages of family life.

4406. Parent-Professional Collaboration (3) (WI) (F) Practicum experience required. P: CDFR 1103, 4200. Collaboration between families and professionals. Emphasis on strategies, skills, and resources needed to facilitate development of young children.

4408. Administration of Programs for Young Children (3) (F) P: CDFR 4322. Planning, organization, and administering programs for young children ages birth through 5 years.

4410. Professional Seminar (1) (WI) (F) P: Senior standing; CDFR major; CDFR 4366. Development of professional practices. Topics vary.

4415. Child Life Internship (12) (F,S,SS) 480 total hours. P: CDFR 3413, 4210, 4996, 4997. Specialized child life experience with children and families in a healthcare setting, under the supervision of a certified child life specialist.

4500. Independent Study (3) (F,S,SS) May be repeated for credit with change of topic up to 9 s.h. Current issues and problems related to children and families.

4521. Directed Readings (1) (F,S,SS) May be repeated for credit with change of topic up to 4 s.h. Independent study of current topics in child development and family relations.

4996, 4997. Child-Family Internship and Laboratory (3,0) (F,S) 1 conference and 8 lab hours per week. P: CDFR 1103, 2000, 3002; consent of instructor. Supervised practicum experience in a program serving children and/or families. Variable titles and content.

5007. Public Policy and Legal Issues Affecting Families (3) P: CDFR major. Current public policy and legal issues facing professionals who work with children and families.

5300. Families, Sexuality, and Gender Roles (3) P: CDFR 1103 or consent of instructor. Biological, cognitive, social, emotional, and cultural influences on human sexuality and gender roles within the context of relationships and families.

5309. Infancy Intervention (3) 2 lecture and 2 lab hours per week. P: CDFR major; CDFR 2000; or consent of instructor. Infant and toddler screening techniques for disabilities. Sequential selection and effective use of play materials. Community resources available for working with parents.

5403. Parent Education (3) P: Senior standing; CDFR 1103; 2000 or 2001; 3002, 4306. Strategies, skills, and resources that can assist parents and professionals who work directly with them.

5408. Administration of Programs for Young Children (3) Planning, organizing, and administering programs for young children.

5411. Counseling Elders and Their Families (3) P: GERO 2400 or consent of instructor. Interventions for age-related problem behaviors in social and family systems of elderly.

5412. Family Crises and Resources (3) Individual and family reactions to crises and special problems encountered in family living. Reviews individual and community resources pertinent to such problems.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive

Semester of course offering is not guaranteed. Anticipated semester of course offering:

(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P, C, or P/C

5420. Family Intervention Models (3) P: CDFR major or admission to CDFR graduate program or consent of instructor. Selected family intervention and skill development models with opportunity for indepth study of individual theoretical approach.

5901, 5902, 5903. Readings in Aging Studies (1, 2, or 3) Same as **GERO 5901, 5902, 5903; SOCW 5901, 5902, 5903** May count maximum of 3 s.h. toward the baccalaureate minor in gerontology or graduate certificate in gerontology. P: Consent of instructor and chair of instructor's home unit. Selected from monographs or journals. Focus on specialized areas in which student has taken one or more courses in either baccalaureate gerontology minor or graduate gerontology certificate.

5992, 5993. Advanced Preschool Internship (3, 0) 1 conference and 8 lab hours per week. P for undergraduate students: Consent of instructor; P for graduate students: CDFR 4306, 4322; or consent of instructor. Advanced internship experiences with preschool children and their parents.

CDFR Banked Courses

3100. Resource Management for the Elderly (3)

3210, 3211. Preschool Education (3, 0)

4411. Professional Internship (3)

4998, 4999. Preschool Practicum (9, 0)

5336. Methods of Teaching Personal and Family Living (3)

5392. Economic Problems (3)

5400. Seminar in Aging Studies (3)

5410. Gerontology: Developing the Living Environment (3)

CHEM: CHEMISTRY

0150. Preparation for College Chemistry (2) (F, S, SS) 3 lectures per week. May not count toward general education science requirement. C: MATH 1065. Intensive review and study of basic chemical laws and mathematical tools needed for further study in general chemistry.

1020. General Descriptive Chemistry (4) (F, S) (GE: SC) May not count toward general education science requirement for science majors. General chemistry for nonscience majors.

1021. General Descriptive Chemistry Laboratory (1) (F, S) (GE: SC) 3 lab hours per week. Chemistry lab for nonscience majors. P/C: CHEM 1020. Lab experiences illustrate fundamental chemical principles and relevance of chemistry in modern world. Topics include chemical measurements, acids, synthesis and purification of biochemical substances and DNA fingerprinting.

1120. Basic General, Organic, and Biochemistry I (4) (F, S, SS) (GE: SC) May not count toward general education science requirement for science majors. Study of general, organic, and biochemistry and chemical applications in health professions.

1121. Basic General, Organic, and Biochemistry Laboratory I (1) (F, S) (GE: SC) 3 lab hours per week. C: CHEM 1120. Introduction to lab techniques in general, organic, and biochemistry.

1130. Basic General, Organic, and Biochemistry II (3) (F, S, SS) (GE: SC) May not count toward general education science requirement for science majors. P: CHEM 1120. Continuation of CHEM 1120.

1131. Basic General, Organic, and Biochemistry Laboratory II (1) (F, S, SS) (GE: SC) 3 lab hours per week. C: CHEM 1130. Continuation of CHEM 1121.

1150, 1151. General Chemistry and Laboratory I (3, 1) (F, S, SS) (GE: SC) For science majors. 3 lecture and 3 lab hours per week. P: Chemistry placement test or passing grade in CHEM 0150; P/C: MATH 1065; C for 1150: CHEM 1151; C for 1151: CHEM 1150. Basic principles and laws of chemistry. Topics include measurements, reactions and stoichiometry; thermochemistry, atomic structure, periodicity, bonding and molecular structure, and states of matter.

1160, 1161. General Chemistry and Laboratory II (3, 1) (F, S, SS) (GE: SC) 3 lecture and 3 lab hours per week. P: CHEM 1150, 1151; C for 1160: CHEM 1161; C for 1161: CHEM 1160; RC: MATH 1083 or 1085. Continuation of CHEM 1150. Topics include solutions, kinetics, equilibrium, acid-base theory, thermodynamics, electrochemistry, and an introduction to organic, nuclear; and coordination chemistry.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

SECTION 8: COURSES

2103. Introduction to Chemical Literature (1) (WI) (F,S) P: CHEM 2750. Introduces methods used to search and access chemical literature. Development of technical writing skills.

2111. Applications of Molecular Modeling (1) (F,S) (GE:SC) P/C: CHEM 2750. Applications of molecular modeling will be utilized to explore relationships between molecular structure and molecular properties.

2250, 2251. Quantitative and Instrumental Analysis (3,2) (WI,WI) (F,S) 3 lecture and 6 lab hours per week. P: CHEM 1160, 1161; 1 semester of organic CHEM; C for 2250: CHEM 2251; C for 2251: CHEM 2250. Theories and techniques of classical quantitative and modern instrumental analysis.

2301. Teaching Laboratory Chemistry (2,0) (F,S) 1 lecture and 3 lab hours per week. P: CHEM 1160, 1161. Instruction and supervised experience in methods and practice of teaching introductory chemistry lab.

2650. Organic Chemistry for the Life Sciences (4) (F) May not count toward CHEM major or minor. May not substitute as a prerequisite for CHEM 2760. P: CHEM 1160, 1161. Principles of organic chemistry. Emphasis on biologically important topics.

2651. Organic Chemistry Lab for the Life Sciences (1) (F) 3 lab hours per week. May not count toward CHEM major or minor. May not substitute as a prerequisite for CHEM 2763. C: CHEM 2650. Organic lab techniques.

2750. Organic Chemistry I (3) (F,S,SS) P: CHEM 1160, 1161; C: CHEM 2753. Classes of compounds and their typical reactions, mechanisms, stereochemistry, and instrumental methods in organic chemistry.

2753. Organic Chemistry Laboratory I (1) (F,S,SS) 3 lab hours per week C: CHEM 2750. Organic lab techniques.

2760. Organic Chemistry II (3) (F,S,SS) P: CHEM 2750; C: CHEM 2763. Continuation of CHEM 2750.

2763. Organic Chemistry Laboratory II (1) (F,S,SS) 3 lab hours per week P: CHEM 2750, 2753; C: CHEM 2760. Continuation of CHEM 2753.

2770. Biological Chemistry (3) (F,S) (GE:SC) P: CHEM 2650 or 2760. Chemistry and intermediary metabolism of proteins, carbohydrates, lipids, and nucleic acids.

2771. Biological Chemistry Laboratory (1) (F,S) (GE:SC) 3 lab hours per week. C: CHEM 2770. Application of chemical lab techniques to study of proteins, carbohydrates, lipids, and nucleic acids.

3301. Practicum in Teaching (1) (F,S) 3 lab hours per week. May be repeated for credit. May count maximum of 4 s.h. toward CHEM major. P: CHEM 2301 and consent of instructor. Supervised practicum in teaching introductory chemistry lab.

3450, 3451. Elementary Inorganic Chemistry and Laboratory (3,1) (WI,WI) (S) 3 lecture and 3 lab hours per week. P: CHEM 2250, 2251; C for 3450: CHEM 3451; C for 3451: CHEM 3450. Modern chemical principles, periodic properties, and reactions of elements.

3501, 3502, 3503. Special Topics in Chemistry (1,2,3) May be repeated for maximum of 6 s.h. with change of topic. May not count toward general education science credit. P: CHEM 1160; consent of instructor. Selected topics of contemporary interest.

3850, 3851. Introduction to Physical Chemistry (4,1) (WI,WI) (F) 4 lecture and 3 lab hours per week. P: CHEM 1160, 1161; MATH 2122 or 2172; PHYS 1260, 1261; C for 3850: CHEM 3851; C for 3851: CHEM 3850. Physical chemistry for students with a limited mathematical background.

3950, 3951. Physical Chemistry and Laboratory I (4,1) (WI,WI) (S) 4 lecture and 3 lab hours per week. P: PHYS 1261, 2360; MATH 2173; CHEM 2250, 2251; C for 3950: CHEM 3951; C for 3951: CHEM 3950. Theoretical and mathematical treatment of fundamental laws and theories underlying science of chemistry.

3960, 3961. Physical Chemistry and Laboratory II (4,1) (WI,WI) (F) 4 lecture and 3 lab hours per week. P: CHEM 3950, 3951; C for 3960: CHEM 3961; C for 3961: CHEM 3960. Continuation of CHEM 3950, 3951.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive
Semester of course offering is not guaranteed. Anticipated semester of course offering:

(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

316 P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P, C, or P/C

4103.Seminar (1) (F,S) P: Junior or senior standing; CHEM 2103. Discussion of contemporary topics in chemistry, instruction on technical presentations, and submission of written and oral reports on approved topics. Requires attendance at selected departmental seminars.

4505, 4506, 4507. Independent Study (1,2,3) (F,S,SS) May be repeated for credit. May count a maximum of 3 s.h. toward CHEM major. P: Consent of instructor and dept chair. Individual study in selected area of chemistry under immediate direction of faculty member.

4515, 4516, 4517. Research Problems in Chemistry (1,2,3) (F,S,SS) May be repeated for credit. May count maximum of 6 s.h. toward CHEM major. P: Consent of instructor. Advanced problems in chemistry pursued under supervision of a faculty member.

5350, 5351. Instrumental Analysis (3,1) (WI,WI) 3 lecture and 3 lab hours per week. P: CHEM 3960; C for 5350: CHEM 5351; C for 5351: CHEM 5350. Theory and practical uses of modern instrumental methods of chemical analysis.

5525, 5526, 5527. Special Topics (1,2,3) May be repeated for credit with change of topic. P: Consent of instructor. Selected topics of current interest in areas of analytical, inorganic, organic, and physical chemistry.

5550. Advanced Inorganic Chemistry (3) P: CHEM 3450, 3950. Study of newer theories, developments, and procedures in inorganic chemistry.

5750. Advanced Organic Chemistry (3) P: CHEM 2760; P/C: CHEM 3960. Physical organic topics, including aromaticity, acid/base chemistry, reactive intermediates, mechanisms of common organic reactions, and relationship between structure and reactivity.

5760. Organic Structure Elucidation (3) P: Consent of instructor. Application of modern instrumental methods to elucidation of structures of organic compounds, with particular regard to elucidation of complex structures from combined application of spectral tools.

5993. Industrial Internship in Chemistry (3) 25-30 lab hours per week. May count maximum of 3 s.h. toward CHEM major. May be repeated. P: Selection by joint Department of Chemistry/industry screening committee; CHEM 2250, 2760, 3950. Professional experience in industrial application of chemistry.

CHEM Banked Courses

I163. Introduction to Computer Techniques in Experimental Chemistry (1)
3860, 3861. Introduction to Instrument-Computer Interfacing (2,1)
5390. Bioanalytical Chemistry (2)

5450. Industrial Chemistry (3)
5560. Inorganic Reaction Mechanisms (2)
5950, 5951. Introduction to Nuclear Chemistry (2,1)
5970. Chemical Thermodynamics (2)

CHIN: CHINESE

1001. Chinese Level I (3) Formerly CHIN 2000 Lab work. Intensive training in basic skills of understanding, speaking, reading, and writing Mandarin Chinese.

1002. Chinese Level II (3) Formerly CHIN 2001 Lab work. P: CHIN 1001 or placement by Chinese placement test. Continued intensive training in basic skills of understanding, speaking, reading, and writing Mandarin Chinese. This is the second of a two-course sequence.

CLAS: CLASSICAL STUDIES

I300. Greek and Latin for Vocabulary Building (3) (F,S) (GE:HU) No previous knowledge of Greek or Latin required. Greek and Latin elements in English, intended to increase dramatically the student's knowledge of English and command of its vocabulary.

SECTION 8: COURSES

2000. Introduction to Classics (Humanities) (3) (GE:HU) May receive credit for one of CLAS 2000, 2001, 2002. Civilization of classical antiquity through a survey of literature, philosophy, and art of ancient Greece and Rome.

2001. Introduction to Classics (Social Sciences) (3) (GE:SO) May receive credit for one of CLAS 2000, 2001, 2002. Civilization of classical antiquity through a study of history and culture of ancient Greece and Rome.

2002. Introduction to Classics (Fine Arts) (3) (GE:FA) May receive credit for one of CLAS 2000, 2001, 2002. Civilization of classical antiquity through a survey of art of ancient Greece and Rome. Emphasis is art-historical. Readings will include major works of literature from both cultures.

2220. Great Works of Ancient Literature I: Greece (3) (GE:HU) Ancient Greek literature from time of Homer to Alexander the Great. Emphasis on cultural ideals expressed in epic and lyric poetry, drama, philosophy, oratory, and history.

2230. Great Works of Ancient Literature II: Rome (3) (GE:HU) Roman literature from Plautus to Marcus Aurelius. Emphasis on cultural ideals expressed in its epic and lyric poetry, drama, philosophy, oratory, and history.

2400. Women in Classical Antiquity (3) (GE:HU) Status and daily life of women in ancient Greece and Rome, of attitudes expressed toward them, and of their roles in art, archaeology, and literature of ancient world through a contemporary approach.

2500. Greek Tragedy in Translation (3) (GE:HU) Selection of tragedies of Aeschylus, Sophocles, and Euripides in translation.

3400. The Ancient City: Rome (3) (F,S) (GE:HU) Development of one of the world's great cities, Rome, from its origins to late antiquity. Use of its monuments and topography as sources for history and culture of society that produced them.

3410. The Ancient City: Pompeii (3) (GE:HU) Pompeii, the oldest archaeological site still under continuous excavation, from its origins to eruption of Mt. Vesuvius in 79 AD. Use of its monuments and topography as sources for history and culture of this unique Roman city.

3460. Classical Mythology (3) (GE:HU) Same as ENGL 3460 Major myths of ancient Greece and Rome and their impact on English and American literature.

4000. Seminar in Classics (3) Interdisciplinary seminar in classics on various topics to be chosen by instructors and students.

4521, 4522, 4523. Directed Readings in Classics in Translation (1,2,3) (GE:HU) May be repeated once with a change of topic for a maximum of 6 s.h. P: Consent of instructor. In-depth exploration of selected aspects of classical civilization in translation.

CLSC: CLINICAL LABORATORY SCIENCE

2000. Introduction to Clinical Laboratory Science (2) (F,S) Four major areas in clinical lab: hematology, immunology, clinical chemistry, and microbiology. Function of various health professionals in these areas and career opportunities.

3410, 3411. Hematology I Lecture and Laboratory (3,1) (F) 3 lecture and 3 lab hours per week. Formation and morphology of cellular elements of blood and hematologic findings in anemias. Lab covers manual hematologic analyses, peripheral blood and bone marrow smear evaluations from normal samples, and samples from anemias

3420, 3421. Hematology II Lecture and Laboratory (3,1) (S) 3 lecture and 3 lab hours per week. P: CLSC 3410, 3411. Hematologic findings in hemolytic anemias, various types of infections, storage diseases, leukemias and myeloproliferative disorders, myelodysplastic syndromes, plasma cell diseases, and lymphomas. Normal hemostasis, hemostatic disorders, and lab evaluation and monitoring of hemostasis. Overview of hematology instrumentation.

3430. Clinical Immunology (2) (F) 2 lecture hours per week. P: Consent of instructor. Basic principles. Emphasis on concepts used in clinical lab.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive
Semester of course offering is not guaranteed. Anticipated semester of course offering:

(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

318 P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P, C, or P/C

3440, 3441. Clinical Microscopy and Serology Lecture and Laboratory (2,1) (SS) 2 lecture and 3 lab hours per week. P: CLSC 3430. Introduction to characteristics and methods of chemical and microscopic examination of urine and other non-blood body fluids. Basic concepts of immunology as applied to serological analyses used in clinical lab. Lab introduces basic tests and techniques used in clinical microscopy and serology.

4001, 4002, 4003. Independent Study in Clinical Laboratory Science (1,2,3) (F,S,SS) P: Admission to CLSC program; consent of dept chair. Independent study in selected area of clinical laboratory science under the immediate direction of CLSC faculty member.

4210, 4211. Immunohematology Lecture and Laboratory (3,1) (SS) 3 lecture and 3 lab hours per week. P: Consent of instructor. Basic concepts. Emphasis on basic lab techniques and resolution of problems in preparation and administration of blood components.

4430, 4431. Clinical Chemistry I (2,1) (F) 2 lecture and 3 lab hours per week. P: 4 CHEM courses; 1 statistics course; consent of instructor. Application of basic principles of analytical and biochemistry to measurement of chemical constituents in body fluids.

4440, 4441. Clinical Chemistry II (4,2) (S) 4 lecture and 6 lab hours per week. P: CLSC 4430, 4431; or consent of instructor. Application of basic principles of analytical and biochemistry to analysis of chemical constituents in body fluids and relationship to disease states.

4460, 4461. Clinical Microbiology I (4,2) (F) 4 lecture and 6 lab hours per week. P: BIOL 2110, 2111; or 3220, 3221; or consent of instructor. Essentials of clinical bacteriology.

4470, 4471. Clinical Microbiology II (3,2) (S) 3 lecture and 6 lab hours per week. P: CLSC 4460, 4461; or consent of instructor. Essentials of select clinically significant bacteria (mycobacteria, chlamydia, mycoplasma, etc.), clinical mycology, and clinical virology.

4480, 4481. Clinical Microbiology III (2,1) (SS) 2 lecture and 3 lab hours per week. P: CLSC 4470, 4471; or consent of instructor. Essentials of clinical parasitology.

4500. Research Problems in Medical Technology (2) P: Consent of dept chair. Individual study in selected area of CLSC under supervision of department faculty member.

4772. Clinical Project: Hematology (4) (F,S,SS) May include clinical experiences, literature review, and/or lab testing. P: CLSC major; consent of dept chair. Individualized clinical project from topic area in hematology or hemostasis under direction of CLSC faculty member.

4773. Clinical Project: Chemistry (4) (F,S,SS) May include clinical experiences, literature review, and/or lab testing. P: CLSC major; consent of dept chair. Individualized clinical project from topic area in clinical chemistry under direction of CLSC faculty member.

4774. Clinical Project: Blood Bank (4) (F,S,SS) May include clinical experiences, literature review, and/or lab testing. P: CLSC major; consent of dept chair. Individualized clinical project from topic area in blood bank (immunohematology) under direction of CLSC faculty member.

4777. Clinical Project: Microbiology (4) (F,S,SS) May include clinical experiences, literature review, and/or lab testing. P: CLSC major; consent of dept chair. Individualized clinical project from topic area in clinical microbiology. May include clinical parasitology or clinical mycology under direction of CLSC faculty member.

4801, 4802. Professional Practice Issues I, II (4,4) (WI,WI) (F,S) 4 lecture hours per week. P: CLSC major. Professional issues related to current practice in clinical lab science. Basic research design and statistics as applied to clinical lab, human rights protection in research, basic epidemiology, infection control monitoring, educational methodology as applied to clinical and continuing education in clinical lab science, management theories and practices as applied to the clinical lab, personnel and fiscal management of clinical lab resources, basic health care reimbursement, and research project applicable to clinical lab.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

(GE:EN)=English; (GE:EX)=Exercise and Sport Science; (GE:FA)=Fine Arts; (GE:HL)=Health; (GE:HU)=Humanities; (GE:MA)=Mathematics; (GE:SC)=Science; (GE:SO)=Social Science

SECTION 8: COURSES

4803. Introduction to Clinical Laboratory Information Systems (3) (S) 3 lecture hours per week. P: CLSC major or consent of instructor.

4992. Clinical Education: Hematology, Coagulation, Urinalysis (4) (F,S) 256 hours in appropriate department of affiliated clinical lab. P: CLSC 3420, 3421; consent of instructor. Supervised clinical experience in hematology, coagulation, and urinalysis.

4993. Clinical Education: Chemistry (4) (F,S) 256 hours in appropriate department of affiliated clinical lab. P: CLSC 4440, 4441. Supervised clinical experience in clinical chemistry.

4994. Clinical Education: Blood Bank and Serology (4) (F,S) 256 hours in appropriate department of affiliated clinical lab. P: CLSC 4210, 4211; consent of instructor. Supervised clinical experience in blood bank and serology.

4997. Clinical Education: Microbiology (4) (F,S) 240 hours in appropriate department of affiliated clinical lab. P: CLSC 4470, 4471; consent of instructor. Supervised clinical experience in clinical microbiology.

4998. Clinical Education in Alternate Settings (3) P: Consent of instructor. Supervised clinical experience in variety of lab settings.

CLSC Banked Courses

4600. Introduction to Clinical Cytology (2)

4601. Introduction to Cytological Techniques (1)

4610. Gynecologic Cytology (6)

4611. Gynecologic Cytology Laboratory (6)

4620. Cytopathology (3)

4630. Cytology of Body Fluids (3)

4641. Cytology of the Alimentary Tract (2)

4642. Urinary Tract Cytology (2)

4650. Cytology of Fine Needle Aspiration (3)

4660. Special Techniques in Cytology (2)

4665. Seminar in Cytotechnology (2)

4750. Clinical Education in Cytology I (4)

4751. Clinical Education in Cytology II (5)

4995, 4996. General Clinical Education (1,1)

CMGT: CONSTRUCTION MANAGEMENT

2210, 2211. Construction and Civil Materials (3,0) (F,S,SS) Formerly CIET 2210. 2 lecture and 2 lab hours per week. P: Majors or minors only. Introductory course. Focuses on timber, concrete, masonry, composites, and steel. Covers physical characteristics, properties, and applications to construction industry.

2660, 2661. Structural Materials, Systems and Codes (3,0) (F,S,SS) 2 lecture and 2 lab hours per week. P: Minimum grade of C in CMGT 2210. Study of selection criteria and graphical interpretation of concrete, steel, masonry and wood used in foundation, substructure, and super-structure of residential and commercial buildings. Considers performance, maintainability and cost/benefit aspects. Introduces major building codes, materials and industry standards, and utilization of manufacturers' catalogs.

2664, 2665. Interior and Exterior Finishes and Systems (3,0) (F,S,SS) 2 lecture and 2 lab hours per week. P: Minimum grade of C in CMGT 2660. Study of selection criteria and graphical interpretation of common interior and exterior finish systems, exterior cladding, roofing, and interior systems of buildings. Considers aesthetics, performance, code requirements, maintainability, and cost/benefit aspects.

2800. Foundations of Construction (3) (F,S,SS) 2 lecture and 2 lab hours per week. P: Minimum grade of C in CMGT 2210; computer-related elective. Graphical expression of construction and architectural elements through use of CAD and drafting techniques, including lettering, orthographic and isometric projection, descriptive geometry, construction document organization and preparation, and specifications.

3000. Construction Work Experience and Professional Development (1) (F,S) P: Consent of dept. chair. Required of all construction management students. Minimum of 500 documented hours of construction work with a state-licensed general contractor; subcontractor; construction management company; or other approved employment. Submission of an electronic portfolio containing specified samples of work from core courses. Students must pay a fee and sit for the American Institute of Constructors Level I Certification exam during the last semester (F,S) before graduating.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive

Semester of course offering is not guaranteed. Anticipated semester of course offering:

(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

320 P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P, C, or P/C

3100, 3101. Architectural Plans and Analysis (3,0) (F,S,SS) 2 lecture and 2 lab hours per week. P: Minimum grade of C in CMGT 2660; CMGT 2800; MATH 1065 or 1066; P/C: CMGT 2664, 2665. Practical experience in reading and evaluating plans for commercial structures to assess design parameters, construction materials, and construction placement techniques. Emphasis on developing graphical communication.

3660. Structural Analysis (3) (F,S,SS) P: Minimum grade of C in CMGT 2664; MATH 1074 or 1075 or equivalent; PHYS 1250, 1251. Introductory course of statics, strength of materials, and structural analysis as related to stability of building's structural components. Topics include building loads resulting in compressive and tensile forces in columns, beams, and trusses; strength of components to resist such loads; analysis of components under varying load conditions; and basic design considerations of common temporary construction structures such as formwork, bracing of vertical elements, rigging for lifts, and retaining walls.

3662, 3663. Mechanical and Electrical Construction (3,0) (F,S) 2 lecture and 2 lab hours per week. P/C: CMGT 3100. Theory and principles of plumbing, electrical, and HVAC systems in buildings. Emphasis on basic theory, climate, and shelter considerations, building materials, heat gain, mechanical systems, sound and vibration control, and lighting systems.

3664. Construction Contracts and Specifications (3) (F,S,SS) P: Minimum grade of C in CMGT 2664; P/C: CMGT 3100. Practices and principles in use of contract documents and specifications as they apply to construction project. Emphasis on relationship to construction process and project management.

3666, 3667. Construction Surveying (3,0) (F,S,SS) 2 lecture and 3 lab hours per week. P: CMGT 3100; MATH 1074 or 1075 or equivalent. Construction aspects of surveying with field and classroom exercises in use of transit, level, tape, and related surveying equipment. Problems and exercises in traverse closure and pipeline, grading, street, curve, and building layout.

3726. Construction Project Safety Management (3) (F,S) P: Minimum grade of C in CMGT 3664. Use of safety management as a company profit center with focus on estimating and scheduling of required safety standards as they impact the sixteen CSI divisions. Includes safety control strategies based on training, programs, and culture.

3766, 3767. Soils and Foundations (3,0) (F,S) Formerly CMGT 2666 2 lecture and 2 lab hours per week. P: Minimum grade of C in CMGT 2664; GEOL 1500, 1501; MATH 1074 or 1075 or equivalent; PHYS 1250, 1251. Fundamentals of soil mechanics as it relates to soil classification and construction of earthwork and foundations.

4501. Laboratory Problems: Construction Management (3) 6 lab hours per week. P: Consent of CMGT instructor. Independent study to gain further expertise in particular area of construction management.

4502, 4503, 4504. Independent Study: Construction (1,2,3) P: Consent of dept chair. Special topics in selected areas of construction. Exploration and research in personal areas of interest.

4505. Special Projects (1-3) (WI) (F,S,SS) P: Consent of dept chair. Development and submittal of business and management documents that pertain to varied aspects of construction.

4506. Laboratory Problems: Woods Processing Technology (3) 6 lab hours per week. P: Consent of dept chair. Selected concepts and processes in woods processing technology.

4600, 4601. Managing Building Quality (3,0) (WI) (F,S) 2 lecture and 2 lab hours per week. P: CMGT 3662; 4660; ITEC 3290; P/C: CMGT 4662. Tests, inspections, and methods used to control quality of construction.

4660. Construction Estimating (3) (F,S) P: Minimum grade of C in CMGT 3664; P/C: CMGT 3660. Procedures used to determine quantity of materials, manpower, and machinery needed to complete a construction project. Emphasis on classification of work, quantity survey techniques, and cost estimating of labor, materials, and equipment for a building.

4662. Construction Planning and Scheduling (3) (F,S) P: CMGT 4660. Students with a 2.75 or higher cumulative GPA may take CMGT 4660 as a corequisite. Application of planning and scheduling techniques to a building project. Emphasis on use of bar charts and critical path method (CPM), cost allocation, schedule updating, cash flow, resource scheduling, and manpower distribution.

4664. Construction Supervision (3) (F,S) P: CMGT 4662. Management techniques to solve unique problems involving manpower, materials, money, and machinery for construction projects.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

(GE:EN)=English; (GE:EX)=Exercise and Sport Science; (GE:FA)=Fine Arts; (GE:HL)=Health; (GE:HU)=Humanities; (GE:MA)=Mathematics; (GE:SC)=Science; (GE:SO)=Social Science

SECTION 8: COURSES

4666.Equipment Management (3) (F,S,SS) P: CMGT 3660, 3766. Productivity, performance, and maintenance requirements of construction equipment.

5503. Independent Study: Construction (3) May be repeated for credit with consent of dept chair. Research-oriented. Problem solving with tools, materials, and processes of construction industry.

CMGT Banked Courses

2242. Engineering Economics (3)

4266. Route Surveying (4)

3278. Hydraulics (3)

COAD: COUNSELOR AND ADULT EDUCATION

I000. Student Development and Learning in Higher Education (1) (F,S) 2 classroom hours per week. P: Enrolled in first 2 semesters at ECU or consent of instructor. Introduction to student life at ECU. Focus on development of academic skills, learning processes, career decision-making, and personal attributes essential for student success.

2001. Issues and Topics for Residential Advisers (2) (F,S) P: Consent of dept chair. Training to become effective resident advisers.

5370. Introduction to Counseling and Human Services (3) Issues and processes of counseling services and programs. Attention given to history, philosophy, functions, and professional issues.

COAD Banked Courses

5380. The Adult Education Learning Center (3)

COAS: COASTAL AND MARINE STUDIES

2025. Survey of Coastal and Marine Resources (3) (F) May not be taken after receiving credit for COAS 2125. P: Basic science course in BIOL, CHEM, GEOL, or PHYS. Biological, physical, social, and historic aspects of coastal and marine resources.

4025. Society and the Sea Seminar (3) (S) May not be taken after receiving credit for COAS 5025, 5026. P: COAS 2025. Interdisciplinary seminar in coastal and marine resources. Research paper of senior-level quality.

5000. Scientific Diving and Underwater Research Techniques (5) 4 lecture and 2 lab hours per week. P: Consent of instructor. Fundamentals of scientific diving, including the use of Nitrox, specialized diving equipment, emergency procedures, sampling techniques, and a review of basic scuba diving skills.

5001, 5002. Coastal Marine Resources Problem Analysis (3,3) Equivalent of 60 hours of research per semester. P: Research project approved by instructor. Analysis of recognized problem in coastal marine resources in consultation with assigned faculty.

COAS Banked Courses

2125. Survey of the Coastal Marine Environment (2)

5025, 5026. Man and the Sea Seminar (1,1)

2150. Introduction to Nautical Science (2)

5050, 5051. Nautical Charts and Navigation (3,0)

2151. Nautical Science Laboratory (1)

COHE: COMMUNITY HEALTH

COHE Banked Courses

5460, 5461. Patient Education for Interdisciplinary Health Care Providers (3,0)

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive

Semester of course offering is not guaranteed. Anticipated semester of course offering:

(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

COMM: COMMUNICATION

1001. Introduction to Communication (3) (F,S) (GE:SO) Formerly COMM 2001; EMST 1010 Theory and processes affecting human communication, including interpersonal, small group, and organizational communication as well as theory processes, and history of mass media communication.

1002. Media Writing (3) (WI) (F,S,SS) Formerly COMM 2002 May not count toward general education social sciences requirement. P: ENGL 1100. Writing techniques for print, electronic mass media, public relations, and advertising.

2030. Communication Research (3) (F,S) Formerly COMM 3030; EMST 2030 2 classroom and 1 lab hours per week. May not count toward general education social sciences requirement. P: COMM major or minor or consent of instructor. Research methods used to measure content, process, and effects of communication on attitudes, knowledge, and behavior. Research design, data analysis, evaluation, and results presented in quantitative and qualitative research methodologies.

2103. Multimedia Messages for Communication Professionals (3) Formerly COMM 2003 2 lecture and 1 lab hours per week. May not count toward general education social sciences requirement. P: COMM major or minor or consent of instructor. Multimedia techniques in professional communication settings. Incorporation of text, sound, and video messages through computer technology. Emphasis on integrated message production used by communication professionals in journalism and public relations.

2104. Public Relations and Corporate Writing (3) (WI) May not count toward general education social sciences requirement. P: COMM major or minor or consent of instructor. Writing used by print, broadcast, on-line media. In-depth practice writing and editing corporate documents to include memos, reports, brochures, newsletter articles, backgrounders, news releases, and media kits.

2210. Writing for the Electronic Mass Media (3) (WI) (F,S,SS) Formerly EMST 2110 P: COMM major or minor or consent of instructor. Key components of written electronic mass media. Variety of written assignments and development of comprehensive final project.

2215. Audio Production (3) (F,S,SS) Formerly EMST 2210 P: COMM major or minor or consent of instructor; COMM 2210. Fundamental principles and techniques of writing copy for electronic news, advertising, and promotional mass media.

2220. Video Production (3) (F,S,SS) Formerly EMST 3310 Lecture and lab. P: COMM major or minor or consent of instructor; COMM 2210. Basic video production techniques and equipment.

2230. Announcing (3) (F,S,SS) Formerly EMST 2610 P: COMM major or minor or consent of instructor. Development of applied speaking skills necessary for professional announcing employment.

2250. Classic Documentaries, 1900-2000 (3) May not count toward general education social sciences requirement. P: COMM major or minor or consent of instructor. Content, style, structure, production, purpose, and sociological impact of twentieth century long-format visual documentary in film and video from historical, theoretical, and artistic perspectives.

2320. Basic Reporting (3) (WI) (F,S) Formerly COMM 2200; EMST 2510 May not count toward general education social sciences requirement. P: COMM major or minor or consent of instructor. Journalistic news style. Gathering, writing, and editing of news stories for print and electronic media. Emphasis on broadcast and print styles and ethical considerations.

2400. Oral Communication (3) May not count toward general education social sciences requirement. P: COMM major or minor or consent of instructor. Improvement of articulation and pronunciation through drills and the delivery of simple speeches. Special attention paid to development of standard American speech patterns.

2410. Public Speaking (3) (F,S,SS) (GE:FA) Formerly SPCH 2510 Emphasis on organizing and delivering speeches for all occasions, including informative, persuasive, and ceremonial.

2420. Business and Professional Communication (3) (F,S,SS) (GE:FA) Formerly SPCH 2520 Emphasis on developing excellent communication skills in everyday speaking, interviews, group presentations, and public speaking. Student organizes and delivers informative, persuasive, and group presentations.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

SECTION 8: COURSES

3020. Producing Electronic Mass Media Messages (3) (F,S,SS) Formerly EMST 2020 P: COMM major or minor or consent of instructor. Major descriptive elements that characterize significant electronic mass media messages. Newspapers, radio, recorded music, film, television, and Internet.

3061, 3062, 3063, 3064. Special Topics (1,2,3,4) Formerly EMST 3901, 3902, 3903, 3904 Maximum of 6 s.h. of special topics in COMM may count toward COMM major. P: COMM major or minor or consent of instructor. Selected topics in electronic media studies.

3070. Multimedia Production Laboratory (3) Formerly COMM 3271 1 lecture and 6 lab hours per week. May not count toward general education social sciences requirement. P: COMM 2103; consent of instructor. Independent practical work in multimedia production with faculty supervision.

3110. Persuasion Theories (3) (S) Formerly COMM 3010 May not count toward general education social sciences requirement. P: COMM major or minor or consent of instructor. Persuasion as communication process. Differing aspects of source, channel(s), and receiver(s). Emphasis on contributions from behavioral theorists.

3120. Public Relations Theory (3) (F,S) Formerly COMM 3440 May not count toward general education social sciences requirement. P: COMM major or minor or consent of instructor. Survey of theoretical, social, behavioral, and communicative aspects of public relations from which practice is built.

3142. Small Group Communication (3) Formerly COMM 3570 May not count toward general education social sciences requirement. P: COMM major or minor or consent of instructor. Communication variables which influence quality of group communication. Group processes used for information exchange, problem solving and decision making.

3151. Family Communication (3) May not count toward general education social science credit. P: COMM major or minor or consent of instructor. Family members co-construct meanings about their world in the unique communication environment of the family. In this setting, interpersonal and mass mediated communication converge about topics that impact the daily life of family members.

3152. Interpersonal Communication Theory (3) (F) (GE:SO) Formerly COMM 3050 P: COMM major or minor or consent of instructor. Theories and concepts which explain communication in ongoing interpersonal relationships. Focus on relationship development and maintenance.

3160. Organizational Communication Theory (3) Formerly COMM 3360 May not count toward general education social sciences requirement. P: COMM major or minor or consent of instructor. Meanings and functions of communication in organizational settings. Communication in role relationships, internal and external information system flows, and role of communication in organizational culture development and maintenance.

3172. Media Effects (3) (F,S) (GE:SO) Formerly COMM 3615 P: COMM major or minor or consent of instructor. Effects of mass media on individuals, societies, and cultures.

3180. Intercultural Communication (3) Formerly COMM 3080 May not count toward general education social sciences requirement. P: COMM major or minor or consent of instructor. Communication theory and practice in multicultural contexts. Impact of cultural differences on interpersonal, organizational, and international communication.

3212. Non-News Media Features (3) Formerly EMST 3010 P: COMM major or minor or consent of instructor; COMM 2320. Basic approaches and techniques used to design and write documentaries, investigative reports, and other media features.

3215. Advanced Audio Production (3) (F,S) Formerly EMST 3210 P: COMM 2215. Advanced recording, production, and editing techniques for radio and recording studio applications.

3220. Video Field Production (3) (F,S,SS) Formerly EMST 2310 P: COMM major or minor or consent of instructor; COMM 2220. Basic video field production techniques and actual practical work in planning, shooting, and editing simple video.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive

Semester of course offering is not guaranteed. Anticipated semester of course offering:

(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P, C, or P/C

3235.Advanced Writing for Television Formats (3) May not count toward general education social sciences requirement. P: COMM major or minor or consent of instructor; COMM 2210, 2320, 3020. Staple formats of TV writing: TV movie, one-hour drama, thirty-minute situation comedy, documentary /biography, interview/talk show, and reality show. Examines each format's content, style, structure, and organization from historical models. Final project is to write 30-minute sitcom.

3242.Advanced Studio Production (3) May not count toward general education social science requirement. P: COMM major or minor or consent of instructor. Creative and technical skills and the theoretical framework needed in a studio production environment.

3250.Video Post Production Techniques (3) May not count toward general education social sciences requirement. P: COMM major or minor or consent of instructor; COMM 3220. Advanced post production non-linear editing techniques for analog and digital video, including A/B roll editing, digital video effects, and electronic graphics.

3275.Advanced Video Production (3) (F,S,SS) Formerly EMST 3320 P: COMM major or minor or consent of instructor; COMM 3212 or 3235; 3250. Advanced elements of video production.

3280.Video Magazine Practicum (3) Formerly COMM 3270 1 lecture and 6 lab hours (to be arranged) per week. May not count toward general education social sciences requirement. P: COMM 2103; consent of instructor. Lab for students working on university's video yearbook, the Treasure Chest, or other team-oriented video production projects used in public relations and journalism.

3291, 3292, 3293. Production Practicum (1,2,3) (F,S,SS) Formerly EMST 3591, 3592, 3593 Minimum of 6 hours of practical work per week for each hour of credit. Maximum of 3 s.h. may count toward COMM major. P: COMM major or minor or consent of instructor. Faculty guidance in some area of communication.

3310. Copy Editing and Design (3) (F,S,SS) Formerly COMM 3200 May not count toward general education social sciences requirement. P: COMM major or minor or consent of instructor; COMM 2320. Basic course in editing and layout of a variety of publications.

3311. Business and Economic Reporting (3) (WI) Formerly COMM 3211 May not count toward general education social sciences requirement. P: COMM major or minor or consent of instructor; COMM 3320; ECON 2113. Communication students write about business and economic events.

3320.Advanced Reporting (3) (WI) (F,S) Formerly COMM 3210; EMST 3510 May not count toward general education social sciences requirement. P: COMM major or minor or consent of instructor; COMM 2320. Principles and techniques of in-depth newsgathering. Topics include research of individuals, business and government, computer-assisted reporting, open meetings/records laws, and media research ethics.

3321. Investigative Reporting (3) (WI) Formerly COMM 3221 May not count toward general education social sciences requirement. P: COMM major or minor or consent of instructor; COMM 3320. Advanced news gathering techniques for journalists. On-line database searching and off-campus trips that encourage indepth reporting.

3322. Computer Assisted Reporting (3) (WI) (F,S) May not count toward general education social science credit. P: COMM major or minor or consent of instructor; COMM 2320. Principles and techniques of precision journalism. Topics include use of data analysis tools (e.g.: Excell, Access, SPSS, ArcView), FOI/Open Records laws, practical data analysis, and statistical methods for journalism research.

3325. Reporting for Visual Media (3) Formerly COMM 3225 2 lecture and 1 lab hours per week. May not count toward general education social sciences requirement. P: COMM major or minor or consent of instructor; COMM 2320. News gathering and reporting techniques for presentation through visual media. Examination and critical analysis of investigative reports, special events coverage, and documentary.

3330.Feature Writing (3) Formerly COMM 3230 May not count toward general education social sciences requirement. P: COMM major or minor or consent of instructor; COMM 3320. Study and practice in feature writing for newspapers, magazines, and special publications.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

(GE:EN)=English; (GE:EX)=Exercise and Sport Science; (GE:FA)=Fine Arts; (GE:HL)=Health; (GE:HU)=Humanities; (GE:MA)=Mathematics; (GE:SC)=Science; (GE:SO)=Social Science

SECTION 8: COURSES

3340. Desktop Publishing (3) May not count toward general education social sciences requirement. P: COMM major or minor or consent of instructor; COMM 2320; ENGL 1200. Desktop publishing techniques for print media, public relations, and advertising.

3362. Visual Editing (3) Formerly COMM 3260 May not count toward general education social sciences requirement. P: COMM major or minor or consent of instructor; COMM 2320; consent of instructor. Use of informational graphics in newspaper and public relations design and layout.

3380. Computer Mediated Communication (3) May not count toward general education social science requirement. P: COMM major or minor or consent of instructor. Explores liner and interactive CMC forms as they relate to human behavior and motivation. Involves communication issues related to identity construction, competency/proficiency, rules and conversions for specific mediated forms, on-line communities, relational development, ethics and deception, freedom of speech and influences on culture and access.

3390. International News Communication (3) (S) (GE:SO) Formerly COMM 3290 P: COMM major or minor or consent of instructor. Study of world news communication systems. International news flow, news gathering agencies, foreign correspondents, theories, debates, and role of communication in global coexistence at socioeconomic and political levels.

3400. Argumentation (3) May not count toward general education social sciences requirement. P: COMM major or minor or consent of instructor; ENGL 1200. Argumentation as a method of critical inquiry and public advocacy. Analysis of controversies and presentation of oral arguments.

3410. Advanced Public Speaking (3) May not count toward general education social sciences or fine arts requirements. P: COMM major or minor or consent of instructor; COMM 2410 or 2420. Enhances skills learned in COMM 2410 or 2420 and cements skills necessary for excellent business presentations, sales presentations, presentations to a board of directors, and after-dinner presentations. Student refines ability to plan, develop, and deliver professional presentations.

3500. Web Design for Communication Professionals (3) May not count toward general education social sciences requirement. P: COMM major or minor or consent of instructor. Essential design and building techniques to create web pages for the World Wide Web.

3520. Sports Media Survey (3) May not count toward general education social science requirement. P: COMM major or minor or consent of instructor. Basic survey of the historical development of sports communication and reporting including the influence of mass media on the development of sports reporting. Covers basic principles of writing for the sports community using the AP Press Sports Writing Guide.

3660. History of the Moving Image (3) May not count toward general education social science requirement. P: COMM major or minor or consent of instructor. Examines the development of the media that utilize the moving visual image. Covers history of cinema from 1890s to present and the history of television from early 20th century to present.

4032. Mass Media Law (3) (F,S) Formerly COMM 4610; EMST 4810 May not count toward general education social sciences requirement. P: COMM major or minor or consent of instructor; 18 s.h. COMM. Provides working knowledge of legal system as it relates to communication professionals. Emphasis on libel, privacy, copyright, First Amendment, and federal regulation of telecommunication industry.

4040. Media, Culture, and Society (3) (F,S) Formerly COMM 4600; EMST 3530 May not count toward general education social sciences requirement. P: COMM major or minor or consent of instructor; 15 hours COMM courses or consent of instructor. Critical perspectives on interaction among the media, culture, and society.

4042. First Amendment Law (3) May not count towards general education social science requirement. P: COMM major or minor or consent of instructor; 18 s.h. COMM. Course examines historical and contemporary controversies arising under the 1st Amendment to the constitution.

4045. Media Literacy for Communication Professionals (3) (F,S) May not count toward general education social science credit. P: COMM major or minor or consent of instructor. Media literacy concepts and practices related to producing, understanding, and using messages distributed by the mass media.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive
Semester of course offering is not guaranteed. Anticipated semester of course offering:

(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

326 P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P, C, or P/C

- 4050. Media Management (3) (S) Formerly EMST 4510** P: COMM major or minor or consent of instructor: Operation and management of broadcast stations and cable operations.
- 4060. Special Problems in Communication (3) (F,S,SS)** May not count toward general education social sciences requirement. P: COMM major or minor or consent of instructor: Special projects, research, and independent reading for students capable of individual work under guidance of faculty adviser: Designed to fit special needs and interests of students.
- 4062. Media Sales and Promotion (3) (F) Formerly EMST 4520** P: COMM major or minor or consent of instructor: Role of sales and promotion in public and commercial broadcasting, cable, and related settings. Emphasis on sales, promotion, and fund raising.
- 4075. Media Criticism (3) (WI) Formerly COMM 4655; EMST 4530** May not count toward general education social sciences requirement. P: COMM major or minor or consent of instructor: Interpretive analysis of communication principles and techniques in mediated texts, such as television programs, documentaries, or print advertisements.
- 4080. Senior Seminar (3) (F,S,SS)** May not count toward general education social sciences requirement. P: COMM major or minor or consent of instructor; completion of 24 s.h. in COMM before registering for course. Advanced study in communication. Emphasis on contemporary issues.
- 4081, 4082, 4083. Directed Independent Study (1,2,3) (F,S,SS) Formerly EMST 4981, 4982, 4983** Intermediate or advanced student. May be repeated for maximum of 6 s.h. credit. P: COMM major or minor or consent of instructor: Topic not otherwise offered in curriculum or beyond or in greater depth than is possible within context of regular course.
- 4091, 4092. Internship–Seminar (3,3) (F,S,SS) Formerly EMST 4991, 4992** 1 lecture and 10 lab hours per week. 140 hours of observation and practical experience. P: COMM major or minor or consent of instructor; 18 s.h. COMM. Placement in professional setting appropriate to student's area of concentration.
- 4130. Conflict and Communication (3) Formerly COMM 4030** May not count toward general education social sciences requirement. P: COMM major or minor or consent of instructor; COMM 3142 or 3152 or 3160. Role of communication in productive settlement of interpersonal and organizational disputes. Examines effective communication strategies for dispute resolution, mediation, negotiation, and bargaining.
- 4135. Gender and Communication (3) (F) Formerly COMM 4035** May not count toward general education social sciences requirement. P: COMM major or minor or consent of instructor. P for WOST major or minor: COMM 1001, 1002; or WOST 2000 or 2400. Role of communication in construction of gender and role of gender in social organization. Use of language and communication systems.
- 4170. Directed Readings in Communication (3) (F,S,SS) Formerly COMM 4070** May not count toward general education social sciences requirement. P: COMM major or minor or consent of instructor: Individually directed study.
- 4180. Public Relations Strategies (3) (WI) (F,S) Formerly COMM 4440** May not count toward general education social sciences requirement. P: COMM major or minor or consent of instructor; COMM 3120. Problem-solving strategies and principles of message design for developing public relations campaigns.
- 4185. International Public Relations (3) (F) Formerly COMM 4445** May not count toward general education social sciences requirement. P: COMM major or minor or consent of instructor; COMM 3120. Public relations as practiced outside US. Examination of reasons for international growth of public relations and exploration of opportunities for US involvement.
- 4190. International Communication and the Foreign Media (3) Formerly COMM 4690** May not count toward general education social sciences requirement. P: COMM major or minor or consent of instructor; COMM 3390. Critical survey and analysis of international communication. Emphasis on problem-solving approaches to various trends in global flow of news and information.
- 4196. Senior Honors Seminar (3) Formerly COMM 4700** May not count toward general education social sciences requirement. P: Senior standing; 3.5 cumulative and major GPA; COMM 1001, 1002. Tutorially directed readings in selected area and research proposal writing.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

(GE:EN)=English; (GE:EX)=Exercise and Sport Science; (GE:FA)=Fine Arts; (GE:HL)=Health; (GE:HU)=Humanities; (GE:MA)=Mathematics; (GE:SC)=Science; (GE:SO)=Social Science

SECTION 8: COURSES

4199. Senior Honors Thesis (3) Formerly COMM 4705 May not count toward general education social sciences requirement. P: Minimum grade of B in COMM 4196. Tutorially directed. Implementation of research proposal generated in COMM 4700. Oral exam covers reading assignments and completed thesis.

4210. Video Direction (3) (F,S) Formerly EMST 4410 P: COMM major or minor or consent of instructor; COMM 3275. Analysis and practice of dramatic video direction.

4220. Video Performance (3) (F,S,SS) Formerly EMST 4420 P: COMM major or minor or consent of instructor; COMM 2230. Practical experience in techniques involved in on-camera video presentations.

4240. International Electronic Mass Media Systems (3) Formerly EMST 4540 P: COMM major or minor or consent of instructor. Interaction of global electronic media systems with American electronic mass media.

4250. Programming for the Electronic Media (3) Formerly EMST 4550 P: COMM major or minor or consent of instructor. Evaluating, selecting, and scheduling programs and formats of radio and television stations, cable systems, networks, and some new technologies.

4400. Rhetorical Theory and Criticism (3) May not count toward general education social sciences requirement. P: COMM major or minor or consent of instructor; ENGL 1200. Significant developments in rhetorical theory. Special attention to speech principles and critical analysis of contemporary public address.

4905. Media Ethics (3) (WI) May not count toward general education social sciences requirement. P: COMM major or minor or consent of instructor; 18 s.h. COMM. Principles of moral reasoning as applied to ethical dilemmas arising in media professions.

COMM Banked Courses

3012. Persuasion Practicum (3)

3240. Photojournalism (3)

3580. Debate (2)

4233. Advising Student Publications (3)

CSCI: COMPUTER SCIENCE

1001. Introduction to Computer Science for Non-majors (3) (F,S,SS) May not count towards a BA or BS degree in computer science, or towards general education credit. An elementary treatment of some of the basic ideas in computer science, such as how computers store and process data, binary and hexadecimal numbers, arithmetic/logic instructions, social issues, data structures, web pages, and the internet. This course is targeted towards novice computer users.

1200. Introduction to Visual Programming (3) (F,S) May not count toward CSCI major or minor. P: MATH 1065. Introduction to programming using a visual design tool such as Visual Basic.

1610. Elementary PASCAL (3) (F,S) May not count toward CSCI major or minor. P: MATH 1065 or 1066 or 2127. Elementary introduction to concepts of programming in PASCAL computer language.

2427. Discrete Mathematical Structures (3) (F,S,SS) Same as MATH 2427 May not count toward MATH major or minor. May receive credit for only one of CSCI 2427; MATH 2775, 3237, or MATH 2427. P: MATH 1065 or 1066. Study of discrete mathematical structures. Special emphasis is given to those structures most important in computer science. Practical applications of the subject are emphasized.

2510. Introduction to Computer Science I (3) (F,S,SS) P: MATH 1065 or 1066. Expression of computation or other processes as algorithms. Basic features of computer architecture and computer execution of stored programs. Concepts of computer science.

2600. Introduction to Digital Computation (3) (S) May not count toward CSCI major or minor. P: MATH 1065 or 1066. Emphasis on algorithmic approach to problem solving. Algorithms programmed and run on computer by all students.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive
Semester of course offering is not guaranteed. Anticipated semester of course offering:

(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

328 P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P,C, or P/C

2610, 2611. Introduction to Computer Science II and Laboratory (4,0) (F,S,SS) P: CSCI 2510; C for 2610: CSCI 2611; C for 2611: CSCI 2610. Expression of computation and other processes as algorithms and implementation of algorithms as computer programs. Students write algorithms for specific problems in a contemporary high-level language, debug, and run programs on a computer.

2618. COBOL (3) (F) P: CSCI 2610. Basic and advanced elements of COBOL.

3510. Data Structures (3) (F,S,SS) P: CSCI 2610; P/C: MATH 2427. Mathematical structures generally useful in understanding and applying computer concepts.

3526. Switching Theory and Computer Organization (3) (F,SS) P: CSCI 2610; MATH 2427. Theory and practice of computer and computer component design. Gates and gate-level design.

3573. Introduction to Numerical Analysis (3) (S) Same as MATH 3573 P: CSCI 2610 or consent of instructor; MATH 2119 or 2172 or equivalent. Algorithms suitable for digital computation in areas of linear algebra, linear programming, slope finding, area finding, and nonlinear equation solution.

3584. Computational Linear Algebra (3) (F,S,SS) Same as MATH 3584 May not count toward MATH major or minor. P: Calculus course. Introduces vectors, matrices, and determinants. Special emphasis on application of linear algebra to solution of practical problems.

3601. Computer Organization and Programming (3) (F,S) P: CSCI 3510 or 3526. Assembly language used to illustrate general machine architecture that executes assembly language command structure.

3650. Analysis of Algorithms (3) (S,SS) P: CSCI 3510; MATH 2427. Decision trees, mathematical induction, and adversary arguments used to analyze correctness, complexity, and optimality of algorithms. Emphasis on searching and sorting algorithms.

3675. Organization of Programming Language (3) (F,SS) P: CSCI 3510. Applied course in programming language constructs. Emphasis on run-time behavior of programs. Provides appropriate background for advanced-level courses involving formal and theoretical aspects of programming languages and compilation process.

3700. Database Management Systems (3) (F) P: 3510. Theory and techniques of relational, hierarchical, and network database management systems.

3800. Introduction to Computer Graphics (3) (F) P: CSCI 3510; MATH 3256 or 3584. Computer graphics systems, hardware, interactive methods; line and curve drawing; two- and three-dimensional transformations; and perspective transformation.

4000. Senior Assessment (0) (F,S) To be taken by CSCI seniors in final year. Assessment of departmental programs.

4200. Software Engineering I (3) (WI) (F,S) P: CSCI major and CSCI 3510. Formal approach to state-of-the-art techniques in software design and development and application of the techniques.

4230. Software Engineering II (3) (F,S) P: CSCI 4200 or consent of the instructor. Conceptual and practical knowledge in relation to large-scale software development using established software engineering principles. Requires completion of major project using tools and methodologies provided.

4510. Object-Oriented Computing and Graphical User Interfaces (3) (F,S) P: CSCI 3510. Object-oriented program design and development and data abstraction. Object-oriented programming languages. Applications to graphical user interfaces and event-driven computing.

4520. Introduction to Computer Architecture (3) (S) P: CSCI major; CSCI 3526, 3601. Organization of basic elements of computer system, including processor, memory, control unit, and I/O units.

4530. Computer Networks and the Internet (3) (S) P: CSCI 3510 or consent of instructor. Theory and case studies of modern networking protocols and telecommunication methods. Local area and long-haul networks.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

(GE:EN)=English; (GE:EX)=Exercise and Sport Science; (GE:FA)=Fine Arts; (GE:HL)=Health; (GE:HU)=Humanities; (GE:MA)=Mathematics; (GE:SC)=Science; (GE:SO)=Social Science

SECTION 8: COURSES

4602.Theory of Automata and Linguistics (3) (F) P: CSCI major; MATH 2427. Basic concepts of automata theory and mathematical linguistics and their close interrelationship.

4627. Procedural Languages and Compilers (3) (S) P: CSCI major; CSCI 360 I , 3675. State of the art techniques for compiling procedural languages.

4630. Operating Systems I (3) (SS) P: CSCI major and CSCI 360 I . Job control and operating systems. System organization, resource and storage allocation, interrupt handling, addressing techniques, file structures, and batch/time sharing systems.

4710. Introduction to Developing e-Business Systems (3) (F,S) P: CSCI 35 I 0 or consent of instructor. Introduces use of concepts, technologies, and building blocks from computer science, practical software engineering, and business development in building e-Commerce systems. Describes systematic life-cycle approach to developing successful e-Commerce systems and presents knowledge essential to wide range of organization and software developers. Requires completion of major term projects using state-of-the art tools and methodologies.

4905. Selected Topics in Computer Science (3) (WI) May be repeated for maximum of 6 s.h. with change of topic. P: CSCI major and CSCI 35 I 0. Consideration of new or advanced topics in computer science.

5002. Logic for Mathematics and Computer Science (3) Same as MATH 5002 P: CSCI 35 I 0 or MATE 3223 or 2775 or MATH 2427 or 2775 or 3223 or 3256 or PHIL 3580 or equivalent. Methods of mathematical logic important in mathematics and computer science applications.

5210. Operating Systems II (3) P: CSCI 4630 or consent of instructor. Theory and practice of concurrent processes in computer operating systems. Process scheduling. Memory and auxiliary storage management.

5220. Program Translation (3) P: CSCI 4627 or consent of instructor. Formal language specification for programming languages. Advanced parsing techniques. Code generation and optimization.

5501, 5502, 5503. Independent Study (1,2,3) Minimum of 3-6 hours per week depending on the nature of the work assigned. P: CSCI 360 I or equivalent or consent of instructor. Advanced computer science students study topics that supplement the regular curriculum.

5774. Programming for Research (3) Same as MATH 5774 For graduate student who wishes to use computer science to meet required research skills in his or her dept. May not count toward MATH major or minor. P: General statistics course or consent of instructor. Emphasis on minimum-level programming skill and use of statistical packages.

5800. Artificial Intelligence (3) P: CSCI 35 I 0 or consent of instructor. Fundamental problems and techniques of artificial intelligence. Heuristic search. Concepts of expert systems.

CSCI Banked Courses

2901. Programming in ADA (1)

2902. Programming in C (1)

2903. Programming in FORTRAN (1)

3574. Numerical Analysis II (3)

4600. Systems Analysis (3)

4604. Systems Simulation (3)

5726. Scientific Programming (1)

CSDI: SPEECH AND HEARING SCIENCES

2100. Introduction to Communication Disorders (3) (F,S,SS) 3 lectures per week plus observation of speech therapy sessions. Scope, history, and nature of speech-language pathology and audiology. Topics include development of language and psychology of speech and hearing impaired as well as a description of etiology, symptomatology, and treatment of major speech, hearing, and language disorders.

3010. Phonetics (3) (F) P: CSDI major or minor; CSDI 2100; PSYC 1000; or consent of instructor. Applied phonetics using International Phonetic Alphabet and pertinent modifications. Detailed descriptions of American English speech sounds and transcription of contextual speech representing mainstream and nonmainstream dialects. Transcription abilities developed to assess and treat speech disorders.

3020. Language Development (3) (F) P: CSDI major or minor; CSDI 2100; PSYC 1000; or consent of instructor: Normal acquisition and development of language from birth through preschool years, components of language, cognitive and communicative prerequisites, and language learning theories.

3030. Speech Science: Anatomy, Physiology and Acoustics (3) (F) 3 lecture and 1 lab hours per week. P: BIOL 1050, 1051; CSDI 2100; or consent of instructor: Anatomy, physiology, and acoustic correlates of speech production mechanisms. Central and peripheral nervous systems, respiration, phonation, resonance, and articulation.

3050. Acquisition and Development of Phonology and Articulation (3) (S) P: CSDI 3010, 3030; or consent of instructor: Emphasis on birth to five years and critical periods through the early teen years. Content areas include birth cry, babbling, cross linguistic and universal patterns of acquisition, morphophonology, metaphonology, historical and contemporary normative data issues, and interrelation of normal phonological development with other areas of language growth.

3105. Hearing Science (3) (S) P: CSDI 3030; PHYS 1050; or consent of instructor: Basic information, including acoustics, anatomy and physiology of the ear and central auditory nervous system, and psychoacoustics.

4100. Introduction to Audiology (3) (F) P: CSDI 3105 or consent of instructor: Concepts related to normal hearing, causes and effects of defective hearing, and hearing testing procedures.

4110. Aural Rehabilitation (3) (S) P: CSDI 4100 or consent of instructor: Habilitation, rehabilitation of the hearing impaired as related to hearing aid use, speech-reading, auditory training, and total communication. Management philosophies related to children and adults.

4335. Apprenticeship (3) (WI) (S) 1 staffing, 1 lecture, and 3-4 lab hours per week. P: CSDI major; consent of the departmental director of undergraduate studies; minimum of 25 hours observation of treatment as administered or supervised by ASHA certified speech-language pathologists/audiologists; CSDI 3020, 4100, 5010. Development of basic clinical skills through observation and apprenticeship. Apprentice serves as assistant to graduate clinicians in management of two patients. Additional responsibilities assigned as part of experience.

5010. Procedures in Clinical Management (3) P for undergraduate students: CSDI major; CSDI 3020, 3050, 3105; or consent of instructor; P for graduate students: Consent of instructor: Procedures used in diagnostic and treatment of communication disorders. Topics include observation styles, task presentation and analysis, reinforcement techniques, group management, and intervention models. Multicultural communication models and supervised observation experiences in various clinical and public school settings.

5510, 5511, 5512. Special Problems in Speech and Hearing (2,2,2) For advanced senior and graduate students. May be repeated for maximum of 6 s.h. May count toward the CSDI major with consent of dept chair. Independent exploration of specific areas of interest in communication disorders and research.

5565. Seminar in Augmentative Communication (3) 2 and 1/2 lecture and 1 lab hours per week. P: Consent of instructor: Interdisciplinary approach to augmentative communication. Emphasis on team approach, including discussion of and experience with patients who require use of augmentative communication systems. Areas of study include assessment, intervention, neuromotor management, environmental control, computer access, and funding.

DES_N: DESIGN

2034, 2035. Engineering Graphics I (3,0) (F,S,SS) 2 lecture and 2 lab hours per week. P: Computer-related elective. Basic skills and theory of graphics. Application of graphics in manufacturing, construction, and related fields.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

(GE:EN)=English; (GE:EX)=Exercise and Sport Science; (GE:FA)=Fine Arts; (GE:HL)=Health; (GE:HU)=Humanities; (GE:MA)=Mathematics; (GE:SC)=Science; (GE:SO)=Social Science

SECTION 8: COURSES

2036, 2037. Computer-Aided Design and Drafting (3,0) (F,S,SS) 2 lecture and 2 lab hours per week. P: DESN 2034, 2035. Application of computer-aided design and drafting (CADD) as related to design process and development of engineering drawings and other documents. Use of CADD in various design disciplines, including architectural, electrical, mechanical, and civil.

3030, 3031. Architectural Drafting (3,0) (F,S,SS) 2 lecture and 2 lab hours per week. P: DESN 2034, 2035. Fundamental areas of residential working drawings.

3032, 3033. Engineering Graphics II (3,0) (S) 2 lecture and 2 lab hours per week. P: DESN 2036, 2037. Continuation of DESN 2036, 2037 with greater depth in application of graphics in manufacturing construction and related fields.

3036, 3037. Architectural Design and Drafting (3,0) (F) 2 lecture and 2 lab hours per week. P: DESN 2036, 2037, 3030, 3031. Practical experience in design of commercial structures from graphics perspective. Development and interpretation of working drawings.

3038, 3039. Sustainable Design (3,0) (S) 2 lecture and 2 lab hours per week. P: DESN 2036, 2037 and DESN 3030, 3031. Introduction to sustainability issues related to building technology and the pursuit of design solutions.

3230, 3231. Rapid Prototyping (3,0) (S OY) 2 lecture and 2 lab hours per week. P: DESN 3032, 3033, ITEC 2090, MANF 2076, 2077. Develops holistic view and initial competencies in engineering design by conceiving, designing, manufacturing, and testing system components.

3234, 3235. Jig and Fixture Design (3,0) (F OY) 2 lecture and 2 lab hours per week. P: DESN 3032, 3033, ITEC 2090, MANF 2076, 2077. Application of the principles of jig and fixture design and their construction.

3236, 3237. Geometric Dimensioning and Tolerancing (3,0) (F OY) 2 lecture and 2 lab hours per week. P: MATH 1065 or 1066, MATH 1074, ITEC 3200. Introduces the concepts of Geometric Dimensioning and Tolerancing based on industry standards such as ANSI and ASME using measuring equipment, problem solving, and case studies. Provide tools for the immediate application of GD&T concepts to production specifications.

4030, 4031. Descriptive Geometry (3,0) (S) 2 lecture and 2 lab hours per week. P: DESN 3032, 3033; MATH 1074. Principles of projection, including reference system (the graphical method of solving solid analytic geometry problems).

4234, 4235. Machine and Tool Design (3,0) (F) 2 lecture and 2 lab hours per week. P: DESN 3032, 3033; MANF 2076, 2077. Application of principles of machine and tool design. Completion of designs and drawings of machines, tools, fixtures, gauges, automated clamping devices, and piercing and forming dies.

4503. Laboratory Problems: Design and Drafting (3) (F,S,SS) 6 lab hours per week. P: DESN 3030, 3031; or 3032, 3033; or consent of instructor. Independent study to gain further expertise in particular area of design and drafting.

4504. Laboratory Problems: Graphic Communication (3) (F,S,SS) 6 lab hours per week. P: Consent of dept chair. Independent study of concepts, processes, tools, and materials in graphic communication technology.

DNCE: DANCE

I000. Introduction to Dance (3) (F,S,SS) (GE:FA) May not count toward DNCE major. Development of dance as an art. Roles of choreographer and dancer.

I001. Fundamentals of Ballet (3) (SS) (GE:FA) 7.5 hours per week. Basic skills of ballet. Includes overview of ballet development.

I002. Fundamentals of Contemporary Dance (3) (SS) (GE:FA) 7.5 hours per week. Basic skills of modern dance. Includes overview of modern dance development.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive

Semester of course offering is not guaranteed. Anticipated semester of course offering:

(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

332 P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P, C, or P/C

- I003. Fundamentals of Jazz Dance (3) (SS) (GE:FA)** 7.5 hours per week. Basic skills of jazz dance. Includes overview of jazz dance styles.
- I011. Ballet I (3) (F) (GE:FA)** Progressive and continuous work in learning and perfecting technique in this most difficult and refined form of dance.
- I012. Contemporary Dance I (3) (F) (GE:FA)** Dance technique which does not employ a standardized vocabulary of steps.
- I013. Jazz Dance I (3) (F) (GE:FA)** May not count toward BFA in DNCE. Most recent dance form influenced by South American and African cultures.
- I021. Ballet II (3) (S)** Progressive and continuous work in perfecting technique and style in ballet.
- I022. Contemporary Dance II (3) (S)** Progressive and continuous work in perfecting technique and style in contemporary dance.
- I023. Jazz Dance II (3) (S)** May not count toward BFA in DNCE. Progressive and continuous work in perfecting technique and style in jazz dance.
- I111, I121, 2131, 2141, 3151, 3161, 4171, 4181. Ballet Technique Development I, II, III, IV, V, VI, VII, VIII (3 each) (GE:FA)** Formerly I111 was DNCE 2111; I121 was DNCE 2121; 6 hours per week. P: Placement by faculty jury. Progressive and continuous work in perfecting ballet technique.
- I112, I122, 2132, 2142, 3152, 3162, 4172, 4182. Contemporary Dance Technique Development I, II, III, IV, V, VI, VII, VIII (3 each) (GE:FA)** Formerly I112 was DNCE 2112; I122 was DNCE 2122; 6 hours per week. P: Placement by faculty jury. Progressive and continuous work in perfecting contemporary dance technique.
- I113, I123, 2133, 2143, 3153, 3163, 4173, 4183. Jazz Dance Technique Development I, II, III, IV, V, VI, VII, VIII (3 each) (GE:FA)** Formerly I113 was DNCE 2113; I123 was DNCE 2123; 6 hours per week each. P: Placement by faculty jury. Progressive and continuous work in perfecting jazz dance technique.
- 2011, 2021, 3011, 3021, 4011, 4021, 4131, 4141. Pointe I, II, III, IV, V, VI, VII, VIII (1 each) (GE:FA)** 2 hours per week. P: Consent of instructor. Progressive and continuous work in perfecting technique of pointe combinations and classical ballet variations.
- 2031. Ballet III (3) (F)** Continued work on ballet technique.
- 2032. Contemporary Dance III (3)** Continued work on contemporary dance technique.
- 2033. Jazz Dance III (3) (F)** P: 6 s.h. ballet or consent of instructor. Continued work on jazz technique.
- 2041. Ballet IV (3)** Continued work in perfection of technique.
- 2042. Contemporary Dance IV (3)** Continued work in perfection of technique.
- 2043. Jazz Dance IV (3)** P: 6 s.h. ballet or consent of instructor. Continued work in perfection of technique.
- 2051, 2061. Ballet Studio I, II (1)** Progressive and continuous work in perfecting techniques and style in ballet. Emphasis will be placed on performance quality by means of individualized instruction.
- 2190. Early Experiences for the Prospective Dance Educator (1) (F)** 1 lecture hour for 6 weeks; 2 lab or studio hours for 10 weeks. For students considering a career in dance education. Teaching of dance through observation and participation in teaching activities in school classrooms.
- 2200. Creative Dance and Drama for the Elementary School (2) (S) Same as THEA 2200** Content, philosophy, methodology, and projects appropriate for student preparing to teach elementary grades.
- 2201. Dance Improvisation I (1) (F)** 2 hours per week. Guided exploration in elements of dance for development of spontaneity of individual movement, group interaction, and choreographic skills.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

(GE:EN)=English; (GE:EX)=Exercise and Sport Science; (GE:FA)=Fine Arts; (GE:HL)=Health; (GE:HU)=Humanities; (GE:MA)=Mathematics; (GE:SC)=Science; (GE:SO)=Social Science

SECTION 8: COURSES

- 2202. Dance Improvisation II (I) (S)** 2 hours per week. Continuation of guided exploration in elements of dance. Student creates and conducts improvisations.
- 2203, 2204. Dance Improvisation Aerobics (I, I) (GE:FA)** 2 hours per week. Guided movement exploration within framework of aerobic workout. Emphasis on spontaneous physical expression and high-paced release of energy.
- 221 I, 222 I, 321 I, 322 I, 421 I, 422 I, 423 I, 424 I. Partnering I, II, III, IV, V, VI, VII, VIII (I each) (GE:FA) Formerly 221 I** was DNCE 307 I 2 hours per week. P: Consent of instructor. Progressive and continuous work in perfecting technique of support when performing with a partner.
- 3000, 3001. Dance Performance (I, I) (F, S)** 6 hours per week each. P: Consent of instructor. Practical experience in various areas of dance performance in faculty-choreographed production.
- 3014. Fundamentals of Tap Dance (I) (F) (GE:FA) Formerly DNCE 3070** 2 hours per week. Introduction to tap dance as performing art through study of basic tap vocabulary, fundamental rhythms, locomotor movements, and tap styles.
- 3024. Intermediate Tap Dance (I) (S) Formerly DNCE 3072** 2 hours per week. P: DNCE 3014 or consent of instructor. Vocabulary of tap terminology, repertoire of tap steps, and recognizable jazz/tap style in performance.
- 3051. Ballet V (3)** P: DNCE 2041 or consent of instructor. Continued study in perfecting ballet technique.
- 3052. Contemporary Dance V (3)** P: DNCE 2042 or consent of instructor. Continued work toward perfection of technique and style.
- 3053. Jazz Dance V (3)** P: DNCE 2043 or consent of instructor. Continued work in perfection of technique.
- 3061. Ballet VI (3)** P: DNCE 3051 or consent of instructor. Continued study in perfecting ballet techniques.
- 3062. Contemporary Dance VI (3)** P: DNCE 3052 or consent of instructor. Continued work toward perfection of technique and style.
- 3063. Jazz Dance VI (3)** P: DNCE 3053. Continued work in perfection of technique.
- 3114, 3124, 4134. Tap Technique Development I, II, III (I, I, 2) (3114:F; 3124:S; 4134:F) (GE:FA) Formerly 3114 was DNCE 4074; 3124 was DNCE 4075.** DNCE 3114, 3124: 2 hours per week; 4134: 3 hours per week. P: Placement by faculty jury. Progressive and continuous work in perfecting technique and style in tap dance.
- 3501, 3502, 3503. Independent Study in Dance (I, 2, 3) (F, S, SS) (GE:FA)** May be repeated for maximum of 4 s.h. with change of topic. P: Consent of instructor and dept chair. Independent study of scholarly topic related to dance.
- 3601, 3602, 3603. Selected Topics in Dance (I, 2, 3) (F, S, SS) (GE:FA)** May be repeated for maximum of 4 s.h. with change of topic. P: Consent of instructor and dept chair. Intensive study of selected topics related to dance.
- 3703. International Ballroom and Folk Dance Styles (3) (GE:FA)** Knowledge, skills, and understanding of international ballroom and folkdance styles.
- 4000, 4001. Special Dance Projects (I, I)** 6 hours per week each. P: Consent of instructor. Practical experience in various areas of dance performance directed and supervised by faculty.
- 4034. Advanced Tap Dance (2) (F) (GE:FA) Formerly DNCE 3073** 3 hours per week. P: DNCE 3024 or consent of instructor. Progressive and continuous work in perfecting technique of tap dance.
- 4044. History of Dance I (3) (WI) (F) (GE:FA)** Explores dance as ritual and theatrical art.
- 4045. History of Dance II (3) (WI) (S) (GE:FA)** Explores development of dance as theatrical art.
- 4046. Composition I (3) (WI) (F)** P: 3000-level DNCE technique classes. Movement possibilities through kinesthetic awareness. Development of creative intuition through problem-solving in choreographic design.
- 4047. Composition II (3) (WI) (S)** P: DNCE 4046. Development of choreographic idea.

2700. Gymnastics in the Schools (2) (F,S,SS) For physical education majors. 4 lab hours per week. P: EXSS 1000. Comprehensive gymnastics. Educational gymnastics (grades K-6) and skills for Olympic gymnastics (grades 7-12).

2704. Tutoring (1) Assignment to activity classes for training and experience in actual conduct of class work.

2727. Sports Officiating: Football, Touch and Flag Football (2) 4 lecture/lab hours per week for 10 weeks. Football and touch and flag football rules and interpretations. Emphasis on proper mechanics, techniques, and responsibilities in officiating.

2730. Sports Officiating: Baseball and Softball (1) 4 lecture/lab hours per week for 5 weeks. Baseball and softball rules and interpretations. Emphasis on proper mechanics, techniques, and responsibilities in officiating.

2777. Lifeguard Training (2) 2 1 and 1/2 hours sessions per week. P: Proficiency in basic swimming skills needed in lifesaving. Aquatic skills and lifesaving techniques for certification by American Red Cross.

2788. Water Safety Instructors Training Course (3) 6 hours per week of integrated lecture and lab work. P: EXSS 2777 or consent of instructor. Preparation for teaching swimming courses (beginning through advanced levels) for individuals of all ages and for operating and maintaining pools.

2850. Structural Kinesiology (1) (F,S,SS) Structural principles of skeletal, muscular, nervous, cardiovascular, and respiratory systems. Emphasis on contributions of systems to human movement.

2900. Teaching Skillful Movement (3) (F,S,SS) 2 lecture and 2 lab hours per week. P: EXSS 2323; P/C: EXSS 2202. Introduces teaching of motor skills. Design and presentation of effective learning experiences for psychomotor skill development through lesson development for peer teaching.

3278. Skin and Scuba Diving Leadership (3) For experienced, knowledgeable, and certified divers. 6 hours per week. P: EXSS 2278 or consent of instructor; minimum age of 18 by completion of the course; 1 year of diving experience with appropriate dives and hours logged; verification of good physical condition as indicated by a recent medical examination; personal diving equipment suitable for open water; a completed standard application with a clear, recent photograph. Preparation for teaching skin and scuba diving and/or attaining dive-master certification.

3300. Applied Sports Psychology (3) P: PSYC 1000. Psychomotor theory as applied to athletic performance and coaching. Focus on understanding and enhancement of psychomotor skills related to optimal athletic performance.

3301. Physical Education and Sport in Modern Society (3) (F,SS) May not count toward general education requirements. Social organization of sport and its relationship to basic aspects of institutional structure, cultural patterns, and dynamics of American society.

3510. Lifetime Activities (1) (F,S,SS) 2 lab hours per week. P: Declared EXSS major and EXSS 1000. Basic skills and knowledge in archery, golf, badminton, and racquet sport variations.

3520. Team Sports (1) (F,S,SS) 2 lab hours per week. P: Declared EXSS major and EXSS 1000. Basic skills and knowledge in basketball, softball, and volleyball.

3530. Field Sports (1) (F,S,SS) 2 lab hours per week. P: Declared EXSS major and EXSS 1000. Basic skills and knowledge in flag football, soccer, speed ball, and other field sport variations.

3540. Track and Field/Physical Conditioning (1) (F,S,SS) 2 lab hours per week. P: Declared EXSS major and EXSS 1000. Basic skills and knowledge in track and field. Purposes and methods of various modes of physical conditioning and their application.

3545. Practices and Procedures in Physical Education for Elementary Schools (2) Satisfies EXSS requirement for elementary education. Not open to EXSS majors. P: Elementary education major or consent of instructor. Emphasis on selection of materials and presentation methods to be utilized with physical education in grades K-6.

3600. Coaching Theories (2) Coaching as profession. Ramifications for coaching responsibilities.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive

Semester of course offering is not guaranteed. Anticipated semester of course offering:

(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P, C, or P/C

3804. Measurement of Physical Activity and Fitness (3) (F,S,SS) 2 lecture hours and 1 lab hour per week. P: ASIP 2112 or DSCI 2223; EXSS 2000; or consent of instructor. Practical methods for measuring physical activity and fitness. Application of data management and analysis to these measures.

3805. Physiology of Exercise (3) (F,S,SS) Formerly EXSS 4805 2 lecture and 2 lab hours per week. P: Health and human performance major or minor or consent of dept chair; BIOL 2130 or BIOL 2140, 2141, 2150, 2151; EXSS 2850. Immediate and lasting effects of physical exercise on physical and chemical processes of human body.

3850. Introduction to Biomechanics (3) (F,S,SS) 2, 2-hour lecture/lab classes per week. P: BIOL 2130 or BIOL 2140, 2141, 2150, 2151; EXSS 2850; PHYS 1250, 1251; or consent of instructor. Fundamentals of neuromuscular function and biomechanics of human movement in healthy, injured, and diseased populations.

3900. Elementary School Instruction in Physical Education (3) (F,S) Extensive supervised practicum required. 1 lecture and 3 lab hours per week. P: Upper-division status; EXSS 2122, 2500, 2600, 2700, 2900. Skills and knowledge for teaching motor skills to children K-6.

3906. Physical Education for Special Populations (3) (WI) (F,S,SS) P: Upper-division status; EXSS 2323; SPED 2000; or consent of instructor. Procedures and techniques in physical education for special populations.

3950, 3951, 3952. Practicum in Exercise Physiology (1,1,1) (F,S) 10 lab hours per week. Must be taken in sequence. P: Consent of exercise physiology coordinator. Applied lab experiences in exercise physiology supervised by Human Performance Lab faculty.

4001, 4002, 4003. Special Topics In Exercise and Sport Science (1,2,3) May be repeated for a maximum of 6 s.h. with change of topic. New or advanced topics vary by current faculty applied research.

4278. Scuba Diving Instructor Training Course (3) Minimum of 80-hour training program. 3 2-hour sessions per week. P: EXSS 3278; minimum age of 18 to be reached on or before completion of the course; a minimum of 1 year of diving experience since receiving open water diving certification with a total of at least 50 logged dives with 25 hours of bottom time; good physical condition for scuba diving as verified by a medical examination within the past year; certification in first aid, diving rescue techniques, or lifesaving and cardiopulmonary resuscitation; a completed NAUI waiver release and indemnity agreement and a NAUI instructor training course statement of understanding; own diving equipment. National Association of Underwater Instructor training course to train and evaluate candidates for certification as NAUI instructors.

4300. Program Development and Management in Physical Education and Sports (2) (F,S,SS) P: Upper-division status and EXSS 2323; or consent of instructor. Theories, research, and practical applications in current management techniques and program development.

4301. Comparative Sport and Physical Education: International Aspects (3) (WI) (S,SS) Cultural, social, and political importance of sport and physical education around the world.

4323. Middle and High School Instruction in Physical Education (3) (F,S) For preservice physical education teachers. 2 lecture and 2 lab hours per week. P: Upper-division status; EXSS 3510, 3520, 3530, 3540, 3900; P/C: EXSS 4804. Teaching skills appropriate for middle and high school instruction in physical education. Supervised teaching practicum and preparation for internship semester. Must pass with a minimum grade of C.

4324. Internship in Exercise and Sport Science (9) (F,S) Full-time, semester-long internship. P: Upper-division status; completion of upper-division courses, except READ 3990, EXSS 4325; C: EXSS 4325. Observation and supervised teaching in assigned physical education public school classroom.

4325. Internship Seminar: Issues in Physical Education (1) (F,S) P: Upper-division status; C: EXSS 4324. Individualized study of problems or issues pertinent in physical education pedagogy and the development of the Senior II Teaching Portfolio.

4500, 4501, 4502. Independent Study in EXSS (1,2,3) (WI) P: Consent of instructor. Individualized program developed through student initiative in consultation with designated instructor.

SECTION 8: COURSES

4800. Internship in Physical Activity and Fitness (12) (F,S,SS) Supervised field experience. 480 hours per semester. P: Satisfactory completion of all other degree requirements or consent of dept chair. Development of applied competence in physical activity and fitness leadership.

4804. Measurement and Evaluation in Exercise and Sport Science (3) (F,S,SS) 2 lecture and 2 lab hours per week. P: Upper-division status; EXSS 2323; MATH 1065; health and human performance major or minor or consent of dept chair. Development of competencies needed for evaluation in exercise and sport science. Emphasis on basic statistics, selection, and administration of standardized tests, test construction, planning for evaluation programs, and appropriate microcomputer applications.

4806. Exercise Evaluation and Prescription (4) (WI) (F,S,SS) 3 lecture and 2 lab hours per week. P: Health and human performance major or minor; EXSS 3805; or consent of chair. Study methods for assessing fitness and developing training techniques in asymptomatic populations.

4807. Advanced Exercise Physiology (3) (F) P: EXSS 4806, CHEM 2750, 2753 (C or better), and consent of instructor. Physiological responses to exercise and health are studied. Emphasis is placed on the effects of physical training and other factors that affect physical performance and health.

4808. Cardiopulmonary Physiology (3) (S) P: EXSS 4803, CHEM 2750, 2753 (C or better), and consent of instructor. Current topics in cardiopulmonary physiology as related to clinical and basic science aspects of exercise science. Topics include cardiopulmonary anatomy and function; cardiovascular pharmacology; metabolic evaluation/assessment/programming during exercise and other issues related to clinical exercise science.

4809. Exercise Prescription for Clinical Populations (3) (F,S,SS) P: EXSS 4806. Fundamentals of prescribing aerobic, strength and flexibility exercise for clinical populations to include: cardiovascular disease, pulmonary disease, hypertension, diabetes, obesity, etc.

4850. Exercise Leadership (3) (F,S,SS) 2 lecture and 2 lab hours per week. P: EXSS 3805. Leadership experiences in physical activity settings. Knowledge and skills associated with leading others to become physically active. Exercise leadership experiences to develop instructional skills for diverse physical activity settings.

4991. Independent Research in Exercise Physiology (3) (WI*) (F,S) 9 lab hours per week. P: EXSS 4806; or consent of exercise physiology coordinator. Plan and execute investigative study in exercise physiology under supervision of faculty mentor.

4992. Research Internship in Exercise Physiology (12) (F,S,SS) 40 lab hours per week for 15 weeks. P: Completion of all other requirements for the exercise physiology option or consent of internship coordinator. Professionally supervised research experience in approved research lab.

5001. Nutrition and Exercise (3) (S) Same as NUHM 5001 P: EXSS 3805; NUHM 2105; or consent of instructor. Relationship of basic nutrition principles to sport and physical activity.

5020. Exercise Adherence (3) P: PSYC 1000; P/C: EXSS 4806; HHP major or minor or consent of instructor. Personal and situational factors which result in adherence to an exercise program. Focus on application of strategies for improving adherence.

5278. Advanced SCUBA Diving (3) 2 lecture and 3 lab hours per week. P: Satisfactory performance on the NAUI Swimming Test; EXSS 2278 or consent of instructor; a notarized statement releasing the instructor and the university from all liability; a satisfactory medical history and medical examination. Variety of safe diving experiences under controlled conditions beyond basic open water diving levels.

5303. Physical Activity Programs for Individuals with Developmental, Emotional, and Learning Disabilities (3) 2 lecture and 3 field work hours per week. P: EXSS 3545 or 3546; SPED 5101; or consent of instructor. For physical educators, special educators, therapeutic recreation specialists, and others concerned with providing physical activity programs to individuals with developmental, emotional, or learning disabilities.

2108. Culture and Communication (3) (F) P: FREN 1004. Practice in spoken language. Emphasis on developing a practical vocabulary for use in conversations and discussions relating to contemporary French and Francophone culture. Includes use of variety of print and multimedia texts including literature, newspapers, magazines, film, television, and the world wide web.

2330. Review of Grammar (3) (F) Taught in French. P: FREN 1004 or equivalent. Extensive review of all aspects of French grammar in formal oral and written communication.

2440. Readings in the Culture of France I (3) (GE:HU) Taught in French. P: FREN 1004. Aspects of French culture. Emphasis on period from its origins to World War I. Reading and discussion of selected texts.

2441. Readings in the Culture of France II (3) (GE:HU) Taught in French. P: FREN 1004. Aspects of French culture. Emphasis on period from World War I to present. Reading and discussion of selected texts.

2442. Readings in the Francophone Cultures of the Americas (3) (GE:HU) Taught in French. P: FREN 1004. Aspects of major French-speaking regions of Canada, the Caribbean, and US. Reading and discussion of selected texts.

2443. Readings in the Francophone Cultures of Africa (3) (GE:HU) Taught in French. P: FREN 1004. Aspects of major French-speaking cultures of Africa. Reading and discussion of selected texts.

2611. Early Experiences for the Prospective Teacher (1) (S) For prospective teachers. Taught in French. Minimum of 16 hours of directed observations and planned participation in appropriate school environments and 8 hours of seminar class instruction in the teaching area. May not count toward BA or BS major professional or minor requirements. Introduces teaching of French.

3100. French Business Communication (3) Taught in French. P: FREN 2440 or 2441 or 2442 or 2443. Practical knowledge of business French. Preparation to deal effectively with business communication in Francophone world.

3200. French Language in France II (3) Taught in French. P: FREN 1004. French language at the Sorbonne (or another French university) in upper levels of Cours Moyen and Cours Supérieur.

3225. Advanced Conversation (3) Taught in French. P: FREN 2330. Direct and systematic use of spoken language. Intensive approach aimed at development of functional level of French communication.

3330. Composition and Advanced Grammar (3) (WI) Taught in French. P: FREN 2330. Principles of effective writing in French. Advanced review of grammar with emphasis on syntax, forms, and usage.

3500. Introduction to Literature (3) (GE:HU) Taught in French. P: FREN 2330 or consent of dept chair. Development of reading skills for understanding genre, concepts of literary structure, and criticism through analysis of selected writings.

3555. France of the Middle Ages and Renaissance (3) (WI) (GE:HU) Taught in French. P: FREN 3500 or consent of dept chair. France from its origins through sixteenth century. Emphasis on literary masterpieces.

3556. France from Classicism to the French Revolution (3) (GE:HU) Taught in French. P: FREN 3500 or consent of dept chair. France from end of Renaissance to end of Revolution. Emphasis on literary masterpieces.

3557. France from the Napoleonic Period to World War II (3) (WI) (GE:HU) Taught in French. P: FREN 3500 or consent of dept chair. France from beginning of Napoleonic period to World War II. Emphasis on literary masterpieces.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

(GE:EN)=English; (GE:EX)=Exercise and Sport Science; (GE:FA)=Fine Arts; (GE:HL)=Health; (GE:HU)=Humanities; (GE:MA)=Mathematics; (GE:SC)=Science; (GE:SO)=Social Science

SECTION 8: COURSES

3558. The Francophone World: Colonization to Independence (3) (GE:HU) Taught in French. P: FREN 3500 or consent of dept chair. Major French-speaking areas of world outside France from beginning of colonization to their independence. Emphasis on literary masterpieces.

3560. The Contemporary French and Francophone World (3) (GE:HU) Taught in French. P: FREN 3500 or consent of dept chair. Emphasis on literary masterpieces.

3700. Special Topics in French or Francophone Studies (3) Taught in French. May be repeated for maximum of 6 s.h. with change of topic. P: Consent of dept chair. Selected topics relating to language, literature, culture or civilization of France or a French-speaking region of the world.

4215. French Phonetics (3) Taught in French. Lab required. P: FREN 3225. Physiology of correct French speech habits. Sound system of French contrasted with English. Phonetic transcription.

4336. Introduction to Translation (3) Taught in French. P: FREN 3330 or consent of dept chair. Intensive practice in French-English and English-French translation in variety of prose styles.

4611. Teaching Second Languages in Grades K-12 (5) (F) Formerly FREN 4641 5 lectures per week and 10 lab hours per semester. Includes 10 hours of field experience. May not count toward a BA major or minor in French. P: 18 s.h. of FREN above 1004 or consent of instructor. Modern methodologies, techniques and strategies, instructional resources, and evaluation procedures for teaching second languages in grades K-12.

4700. Special Topics in French or Francophone Studies (3) Taught in French. May be repeated for maximum of 6 s.h. with change of topic. P: Consent of dept chair. Selected topics relating to language, literature, culture or civilization of France or another French-speaking region.

4880. Internship in French (10) Full-time, semester-long internship. P: Admission to upper division; FREN 2330, 3225, 3330, 3500; 18 s.h. of FREN at the 2000 and 3000 levels; C: FREN 4881. Observation and supervised internship in an assigned French K-12 public school classroom.

4881. Internship Seminar: Issues in French Education (1) P: Admission to upper division; C: FREN 4880. Individualized study of problems or issues related to teaching French.

4882, 4883, 4884. Internship for Professions (1, 1, 1) (F, S, SS) Supervised internship in appropriate professional setting during junior or senior year of French degree program. P: Consent of dept chair. Fields may include but are not limited to business, industry, hotel and restaurant management, and social sciences.

4950, 4951, 4952, 4953, 4954. Directed Readings in French (1 each) P: Consent of dept chair. In-depth exploration of selected aspect of French culture (literature, civilization, etc.).

4990. Honors (3) (F, S) Taught in French. Open to students having a minimum GPA of 3.5 in French. Independent study under direction of faculty member in student's major area of interest. Research paper required.

5305. Advanced Syntax (3) P: FREN 3330 or graduate standing. Detailed and comprehensive study of most difficult points of French grammar. Directed practice in analyzing and writing exercises.

5700. Special Topics in French or Francophone Studies (3) May be repeated for maximum of 6 s.h. with change of topic. P: Consent of dept chair. Selected topics relating to language, literature, culture or civilization of France or another French-speaking region of the world.

GEOG: GEOGRAPHY

I000. Introduction to Geography (3) (F,S,SS) (GE:SO) Basic course to field of geography. Major physical and cultural elements of environment and their influence on man's activity.

I200. Introduction to Physical Geography (3) (F) May not count toward general education social sciences requirement. Fundamental processes that influence weather and climate, land form development, soil formation, water resources, and vegetative regimes with the purpose of better understanding their spatial interrelationships within human physical environment.

I250. The Water Planet (3) (F,S) (GE:SO) Importance of water in natural world. Cultural, economic, and legal issues associated with human uses of water.

2003. Economic Geography (3) (F,S) (GE:SO) Development of and contemporary issues in global economy from geographical perspective.

2019. Geography of Recreation (3) (F) (GE:SO) Spatial distribution and interaction of selected recreational phenomena. Basic ideas which have emerged over last decade explored for contributions to recreational decision making.

2100. World Geography: Developed Regions (3) (F,S,SS) (GE:SO) Introductory survey of the regions of the US and Canada, Europe, the former Soviet Union, Australia, and Japan. Emphasis on geographic aspects of physical environment, population, economy, resources, and current issues in each region.

2110. World Geography: Less Developed Regions (3) (F,S,SS) (GE:SO) Introductory survey of regions of Latin America, Sub-Saharan Africa, North Africa and the Middle East, South Asia, Southeast Asia, and China. Emphasis on geographic aspects of physical environment, population, economy, resources, and current issues in each region.

2200. Weather and Climate (3) (F,S) May not count toward general education social sciences requirement. Nonmathematical consideration of general weather and climatic processes and patterns. Surface and middle atmospheric (jet stream) features. Emphasis on North America.

2250. Earth Surface Systems (3) (F) May not count toward general education social sciences requirement. Basic understanding of natural systems operating on earth's surface that shape the natural environment. Focuses on global distribution of land forms and vegetation. Strong emphasis on hands-on learning.

2300. Geography of Environmental Resources (3) (F) May not count toward general education social sciences requirement. Location and development of environmental resources at world and national levels.

2400. Spatial Data Analysis (3) (F,S) May not count toward general education social sciences requirement. Foundation for data management and analysis in geographic information science. Introduces quantitative expressions common to geographic information science and descriptive and inferential spatial statistics.

2500. Map and Aerial Photo Interpretation (3) (F,S,SS) 4 lecture hours per week. May not count toward general education social sciences requirement. Principles of map reading and aerial photo interpretation as information sources on natural and manmade environment.

3001. Historical Geography of the United States (3) Growth and development of US through analysis of geographic conditions.

3003. Political Geography (3) (WI) (S) (GE:SO) Geographic factors in current national and world problems. Internal and external power; frontiers and boundaries, colonialism and neonationalism, and impact of technology.

3004. Urban Geography (3) (F) Origin and growth of urban areas. Relationship with one another as well as size, function, and tributary territory.

3046. United States and Canada (3) (F) (GE:SO) Intensive study of US and Canada based on analysis and comparison of regions.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

(GE:EN)=English; (GE:EX)=Exercise and Sport Science; (GE:FA)=Fine Arts; (GE:HL)=Health; (GE:HU)=Humanities; (GE:MA)=Mathematics; (GE:SC)=Science; (GE:SO)=Social Science

SECTION 8: COURSES

- 3047. Western Europe (3) (S) (GE:SO)** Brief geographic survey of Europe and detailed regional study of nations located in western Europe.
- 3049. Latin America (3) (WI*) (GE:SO)** Geographical analysis of political, social, economic and cultural transformations in contemporary Latin America.
- 3050. Africa (3) (WI) (S) (GE:SO)** Physical and human background of Africa. Emphasis on political and economic role of sub-Saharan portion of continent in contemporary world.
- 3051. Asia (3) (S) (GE:SO)** Geographic patterns, economy, population, and role of China, Korea, Japan, India, Pakistan, and Southeast Asia in world affairs.
- 3055. North Carolina (3) (F) (GE:SO)** Physical and cultural survey of NC. Detailed study of geographic regions.
- 3056. Middle America (3) (GE:SO)** Lands and people of Caribbean, Mexico, and Central America.
- 3220. Soil Properties, Surveys, and Applications (3) (F)** Saturday field trip may be required. P: GEOG 2250. Physical and chemical properties of soil, soil-water relationships, soil-forming factors, county soil reports, and soil applications that involve land management decisions.
- 3230. Global Climates (3) (S)** May not count toward general education social sciences requirement. P: GEOG 2200. Variation in global climates as related to atmospheric circulation patterns and processes.
- 3250. Environmental Hazards (3) (F)** May not count toward general education social sciences requirement. P: GEOG 2200 or 2250. Various ways people and governments respond to natural and human-induced extreme events, human behavior in threatening or actual hazards, and public policies and programs designed to control or alleviate hazards.
- 3400. Quantitative Techniques in Geography (3) (F)** May not count toward general education social sciences requirement. P: GEOG 2400 or consent of instructor. Introduces quantitative techniques used in solving geographic problems. Emphasis on use of statistical packages on mainframe and microcomputers for analysis of spatial data.
- 3410. Fundamentals of GIS (3) (F,S)** May not count toward general education social sciences requirement. Foundations for understanding and using geographical information systems. Emphasis on creation, visualization, and analysis of geographically referenced data. Important concepts surveyed and applied through hands-on experience.
- 3420. Remote Sensing of the Environment I (3) (F)** May not count toward general education social sciences requirement. P: GEOG 3410 or equivalent. Basic understanding of digital image data and tools required to process, analyze, and interpret digital images.
- 3430. Geographic Information Systems I (3) (F,S)** May not count toward general education social sciences requirement. P: GEOG 3410 or equivalent. Computer-based decision support systems. Involves integration of spatially-referenced data in problem-solving context. Concepts and application of GIS include data capture, storage, analysis, and display.
- 3450. Introduction to the Global Positioning System (3) (S)** May not count toward general education social sciences requirement. P: GEOG 3410 or equivalent. Techniques for spatial referencing via a satellite-based navigation system.
- 3460. GIS Applications Programming (3) (F)** May not count toward general education social sciences requirement. P: GEOG 3410; ASIP 2212 or CSCI 1610 or DSCI 2223 or consent of instructor. Introduces GIS applications design, development, and deployment. Focuses on custom mapping user interfaces; programmable solutions for spatial data display, analysis and manipulation; and custom GIS applications development.
- 3510. Physical Meteorology (3) (F)** May not count toward general education social sciences requirement. P: GEOG 2200 or consent of instructor. Basic principles of atmospheric hydrostatics, thermodynamics, cloud and precipitation processes, and radiative transfer.
- 3520. Dynamic Meteorology (3) (S)** May not count toward general education social science requirement. P: GEOG 2200 or consent of instructor. 3 lecture hours per week. Basic concepts and techniques of mathematics, thermodynamics, mechanics and fluid dynamics in the study of atmospheric motions and weather systems.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive

Semester of course offering is not guaranteed. Anticipated semester of course offering:

(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

362 P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P, C, or P/C

- 4140. Research Methods in Human Geography (3) (S)** May not count toward general education social sciences requirement. P: GEOG 2300; 15 s.h. in GEOG; or dept consent. Methods and techniques of field research in human geography.
- 4191, 4192, 4193. Supervised Study in Regional Geography (1,2,3) (F,S,SS)** May be repeated for maximum of 6 s.h. May not count toward general education social sciences requirement. P: Consent of instructor. Individualized study of selected aspect of regional geography under direct supervision of faculty member.
- 4210. Fluvial and Hydrological Processes (3) (S)** May not count toward general education social sciences requirement. P: GEOG 2200, 2250; or consent of instructor. Comprehensive examination of principles of surface water hydrology and fluvial geomorphology. Application of principles to environmental problems.
- 4220. Coastal Geography (3) (WI) (S) Formerly GEOG 3002** May not count toward general education social sciences requirement. P: GEOG 2200, 2250; or consent of instructor. Comprehensive examination of coastal systems, including beaches, dunes, and estuaries. Focuses on processes that form and maintain systems, how landforms respond to those processes, and how human activities affect the system.
- 4230. Earth Surface Processes (3) (WI) (F)** May not count toward general education social sciences requirement. P: GEOG 2200, 2250; or consent of instructor. Detailed examination of dominant geomorphic processes and sediment dynamics involved in the creation of landforms. Emphasis on laboratory experimentation.
- 4291, 4292, 4293. Supervised Study in Physical Geography (1,2,3) (F,S,SS)** May be repeated for maximum of 6 s.h. P: Consent of instructor. Individualized study of selected aspect of physical geography under direct supervision of faculty member.
- 4310. Geography of Transportation and Trade (3) (S)** P: GEOG 2003. Forces leading to interaction of people and commodities between places, distribution and characteristics of transport networks, and effects of transportation flows on regions and nations.
- 4315. Geographic Images (3) (F) (GE:SO) Formerly GEOG 3300** Social and cultural images of space, place, and environment as produced and consumed through various media at a variety of scales.
- 4320. Gender, Economy, and Development (3) (S)** May not count toward general education social sciences requirement. P: Consent of instructor. Role of gender in economic and development processes from geographical perspective.
- 4325. Resources, Population, and Development (3) (WI) (GE:SO) Formerly GEOG 3000** P: GEOG 2003 or consent of instructor. Demographic issues and population policies in relation to resource use and economic development from a geographical perspective.
- 4330. Agricultural Geography (3) (GE:SO)** Contemporary trends in global restructuring of agro food systems in both industrialized and developing nations.
- 4335. Geography of Tourism (3) (GE:SO)** Traditional and emerging forms of tourism development as they transform economic, social, cultural, and environmental landscapes inside and outside the US.
- 4340. Introduction to Medical Geography (3) (S)** May not count toward general education social sciences requirement. P: GEOG 3410 or consent of instructor. Topics range from geographic patterns and processes of disease to locational aspects of health care delivery systems. GIS used to describe and analyze problems in medical geography.
- 4345. Human Migration and Global Restructuring (3) (F)** Human migration processes associated with political and economic restructuring in different regions of the globe.
- 4391, 4392, 4393. Supervised Study in Human Geography (1,2,3) (F,S,SS)** May be repeated for maximum of 6 s.h. May not count toward general education social sciences requirement. P: Consent of instructor. Individualized study of selected aspect of human geography under direct supervision of faculty member.
- 4410. Advanced Cartographic Design and Production (3) (F,S)** May not count toward general education social sciences requirement. P: GEOG 3410 or equivalent experience. Continuation of GEOG 3410 at advanced level. Advanced mapping techniques such as animation. Internet mapping and production of publication-quality maps.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

(GE:EN)=English; (GE:EX)=Exercise and Sport Science; (GE:FA)=Fine Arts; (GE:HL)=Health; (GE:HU)=Humanities; (GE:MA)=Mathematics; (GE:SC)=Science; (GE:SO)=Social Science

SECTION 8: COURSES

4420. Remote Sensing II (3) (S) May not count toward general education social sciences requirement. P: GEOG 3420 or consent of instructor. Interpretation of environmental phenomena remotely sensed data by sensors on board aircraft and satellites. Emphasis on learning digital image processing from remote sensing perspective.

4430. Geographic Information Systems II (3) (S) P: GEOG 3430 or consent of instructor. Advanced topics. Emphasis on development of GIS projects.

4491, 4492, 4493. Supervised Study in Geographic Techniques (1,2,3) (F,S,SS) May be repeated for maximum of 6 s.h. May not count toward general education social sciences requirement. P: Consent of instructor. Individualized study of selected geographic technique under direct supervision of faculty member.

4510. Meteorological Instruments and Observations (3) (F) May not count toward general education social science requirement. P: GEOG 2200, 2250; or consent of instructor. 2 lecture and 3 lab hours per week. Basic principles of meteorological instruments and measurement techniques; introduction of data logging, processing, and sources of measurement error; hands-on experience in labs and group field projects.

4520. Boundary Layer Meteorology (3) (S) May not count toward general education social science requirement. P: GEOG 2200, 2250; or consent of instructor. Structure of atmospheric boundary layers and turbulence, principles of turbulent transport and diffusion processes, their measurements and modeling.

4530. Micrometeorology (3) (F) May not count toward general education social science requirement. P: GEOG 2200, 2250; or consent of instructor. Atmospheric processes at micro and local scales, including exchange processes of momentum, mass and energy; radiation budget and energy balance near the surface, soil temperature and heat transfer; turbulent transport, biosphere-atmosphere interactions, micrometeorological measurement and modeling techniques.

4540. Coastal Storms (3) (F) May not count toward general education social sciences requirement. P: GEOG 2200, 2250; or consent of instructor. Basic dynamics, analysis, and forecasting of extratropical and tropical storms; history of storms in the Carolinas and current mitigation plans.

4801, 4802, 4803. Geographic Internship (1,2,3) (F,S,SS) 60 hours of work responsibility for 1 s.h. credit. May be repeated for maximum of 6 s.h. May not count toward general education social sciences requirement. P: Consent of the director of geography internships; consent should be obtained during the semester prior to internship. Application of geographic principles in industrial, governmental, or business setting.

4900. Honors Research (3) (F,S) P: Admission to GEOG honors program. Supervised reading and research in an area of geography that leads to preparation of senior honors thesis proposal.

4901. Senior Honors Thesis (3) (F,S) P: GEOG 4900 with a grade of B or higher. Extensive program of supervised research in area of geography that leads to writing of senior honors thesis.

4999. Geography Professional Seminar (1) (F,S) P: Consent of instructor. Design and completion of professional portfolio. Examines transition from undergraduate student status to professional life or continued education.

5220. Physical Geography Field Experience (3) 10 classroom hours of orientation and organization over a 2-week period followed by 3 weeks (15 working days) in a field location. Undergraduates may not count toward general education social sciences requirement. P: GEOG 2200, 2250; or consent of instructor. Field-based introduction to basic aspects of physical geography research. Development of research questions, field techniques, use of modern instrumentation, and geographic analysis of field data.

5281, 5282, 5283. Selected Topics in Physical Geography (1,2,3) May be repeated for up to 6 s.h. Undergraduates may not count toward general education social sciences requirement. P: Consent of instructor. Seminar on selected topic.

5393. Seminar in Human Geography (3) May be repeated for up to 6 s.h. Undergraduates may not count toward general education social sciences requirement. P: Consent of instructor. Seminar on selected topic in economic-human geography.

5440. Techniques for Coastal Resource Analysis (3) P: GEOG 3410. Application of geographic information science to coastal resource management.

GEOL: GEOLOGY

I 500. Dynamic Earth (3) (F,S,SS) (GE:SC) Introductory survey of geologic materials (minerals and rocks), topographic features on the continents and in the ocean basins, geologic structures (faults, folds, etc.), and various processes (plate tectonics, igneous activity, weathering, erosion, sedimentation, glaciation, mountain-building, etc.) that produce geologic features.

I 501. Dynamic Earth Laboratory (1) (F,S,SS) (GE:SC) 3-hour lab per week. C: GEOL I 500. Study, classification, and identification of common minerals and rocks of the earth's crust; study of various topographic features as revealed on topographic maps and aerial photographs; and study of geologic structures as seen on geologic maps, structural cross sections, and aerial photographs.

I 550. Oceanography (4) (F,S) (GE:SC) Introductory survey of geological, biological, chemical, and physical characteristics of marine environment, their interrelationships, and interaction between people and the ocean.

I 600. Earth and Life Through Time (4) (F,S) (GE:SC) Survey of physical, chemical, and biological geologic events that have occurred on earth during its long history. Chronologic arrangement of these events in world-wide geologic time scale and consideration of their causes. Major theme is organic evolution.

I 700. Environmental Geology (4) (F,S) (GE:SC) Interactions among basic geologic processes, geomorphic features, earth resources, and people whose activities are an expanding and increasingly demanding geological agent.

I 800, I 801. Geology of the National Parks (4,0) (GE:SC) 3 lectures and 1 2-hour lab per week. P: GEOL I 500. Geologic evolution and scenic features in our national park system. Topics include volcanoes, caverns, sea coasts, glaciation, arid regions, and fault block mountains. Relationship of scenery to geologic processes and materials.

3050, 3051. Mineralogy and Petrology I (4,0) (F) 3 lecture and 3 lab hours per week. P: A 1000-level GEOL course. Systematic approach to hand-specimen study and classification of minerals and igneous, metamorphic, and sedimentary rocks.

3150, 3151. Mineralogy and Petrology II (4,0) (S) 3 lecture and 3 lab hours per week. P: GEOL 3050, 3051; P/C: CHEM I 150, I 151. Crystallographic and chemical properties of minerals and study of chemical and physical processes governing the classification, origin, and occurrence of minerals and rocks.

3200, 3201. Introduction to Field Methods (2,0) (S) 1 lecture and 1 3-hour lab per week. P: GEOL I 600. Introduces standard scientific methods of solving geologic field problems. Techniques include description, sampling, and measurement of geologic processes and sections, and principles of field mapping, utilizing the Brunton compass, aerial photographs, and plane table and alidade.

3300, 3301. Structural Geology (4,0) (F) 3 lectures and 1 3-hour lab per week. P: GEOL 3200, 3201. Structures resulting from tectonic formation of earth's crust and intrusion of molten magma.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

(GE:EN)=English; (GE:EX)=Exercise and Sport Science; (GE:FA)=Fine Arts; (GE:HL)=Health; (GE:HU)=Humanities; (GE:MA)=Mathematics; (GE:SC)=Science; (GE:SO)=Social Science

SECTION 8: COURSES

4000. Summer Field Course in Geology (6) (SS) Full-time each week for the entire 6-week session. P: GEOL 3100, 3101, 3300, 3301. Stratigraphy, structure, geomorphology, and economic deposits of southwestern and central New Mexico and southern Colorado through basic mapping on topographic and photo bases. Mapping exercises involve wide variety of geologic features ranging from complexly faulted Mesozoic and Cenozoic rocks to isoclinally folded Precambrian rocks in areas of excellent exposures.

4010, 4011. Sedimentology (4,0) (4010:WI) (F) 3 lecture and 3 lab hours per week. P: GEOL 1600, 3100, 3101. Analysis of processes and products of sedimentation. Flow mechanics and sedimentary structures, depositional systems, sedimentation and tectonics, the effects of sea level on depositional systems, methods of description and classification of sediments and sedimentary rocks, and preparation of sedimentologic field reports.

4020, 4021. Stratigraphy (3,0) (4020:WI) (S) 2 lectures and 1 2-hour lab per week. P: GEOL 1600. Description, classification, and interpretation of stratified sedimentary rocks. Emphasis on principles and methodology.

4200, 4201. Paleontology (4,0) (4200:WI) (S) 3 lectures and 1 3-hour lab per week. P: GEOL 1600. Fossilized remains of principal animals that lived during earth history. Emphasis on paleontologic principles, especially as applied to invertebrate fossils. Topics include population dynamics, taxonomic principles, functional morphology, paleoecology, evolution, and biostratigraphy.

4550, 4551. Honors Thesis (3,3) (F,S) 9 research hours per week. P: Junior standing with minimum cumulative 3.0 GPA; completion of minimum of 20 s.h. in GEOL; a minimum grade of C and minimum 3.0 GPA in GEOL courses. Extensive program of carefully supervised reading and research in area of geology. Written report in scientific format.

5000, 5001. Geomorphology (3,0) 2 lectures and 1 3-hour lab per week. P: GEOL 1500, 1501; an additional 4 s.h. in introductory GEOL sequences; or consent of instructor. Advanced study of landforms, stages of their development, and agencies which have shaped them.

5150. The Geologic Component of Environmental Science (3) P: Introductory GEOL course or consent of instructor. Basic geologic knowledge and insights that support sound, rational, and science-based environmental decisions and policies in regard to land and water use. Topics include pollution abatement, clean up, and prevention; resource extraction, use, and conservation; and hazardous geologic processes.

5300. Geology of Coastal Processes and Environments (3) May include field trips to various coastal systems. P: GEOL 1550, 4010, 4011; or consent of instructor. Modern coastal systems. Diversity and distribution, complexity and dynamics of interacting processes and responses, origin and evolutionary history, and role of man as major modifying force.

5350. Marine Geology (3) P: GEOL 1550, 4010, 4011; or consent of instructor. Geology of world's ocean basins. Impact of geophysical, geochemical, and geobiological principles on concepts of origin and evolution of ocean basins; source, transportation, and deposition of marine sediments and formation of marine stratigraphic record; and role of oceanographic processes affecting earth history such as sea level fluctuation, plate tectonics, paleogeography, and paleoclimatology.

5400, 5401. Optical Mineralogy (3,0) 2 lectures and 1 3-hour lab per week. P: GEOL 3000, 3001. Theory and basic techniques for determining optical constants of crystals using a polarizing microscope and thin sections.

5450. Introduction to Aqueous Geochemistry (3) 2 lectures and 1 3-hour lab per week. P: CHEM 1150, 1151, 1160, 1161; or equivalent. Application of chemical principles to study of elements at earth's surface; their transportation in aqueous solutions; and weathering, groundwater, and surface water chemistry, geochemical cycles, and distribution of stable isotopes.

5500, 5510, 5520. Directed Studies in Geology (2,2,2) P: Senior or graduate standing in GEOL or consent of instructor. Independent study on selected topic. May include field work, directed readings, or some combination thereof. Occasionally special field study or course offered using one of these course numbers.

5600, 5601. Economic Geology (3,0) 2 lectures and 1 3-hour lab per week. P: GEOL 3000, 3001. Genesis, mode of occurrence, and utilization of mineral resources. Metals, nonmetals, and basic energy resources such as petroleum, coal, and uranium. Emphasis on geology of these resources and their relationship to modern technological society.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive

Semester of course offering is not guaranteed. Anticipated semester of course offering:

(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P, C, or P/C

5710, 5711. GroundWater Hydrology (3,0) 2 lectures and 1 3-hour lab per week. P: GEOL 1500, 1501; or consent of instructor. Origin, occurrence, movement, quality, regional analysis, and management of ground water. Interrelationship of ground and surface water. Lab emphasis on aquifer test data collection and interpretation.

GEOL Banked Courses

1601. Historical Geology Laboratory (1)
2101. Interpretation of Geologic Maps (1)
3000, 3001. Mineralogy (4,0)
3100, 3101. Petrology (4,0)
3400, 3401. Geologic Field Studies of the Coastal Plain (3,0)
3402. Engineering Geology (3)

4100, 4101. Sedimentation and Stratigraphy (4,0)
5050. Regional Geomorphology of the United States (2)
5250, 5251. Stratigraphy (3,0)
5700, 5701. Geohydrology of Drainage Basins (3,0)
5750, 5751. Introduction to Engineering Geology (3,0)

GERM: GERMAN

1001. German Level I (3) Lab work. Recommended early in college career for BA students and potential GERM majors and minors. First of four-course sequence. Intensive training in basic skills of understanding, speaking, reading, and writing German. Focus on life and culture of German-speaking world.

1002. German Level II (3) Lab work. Recommended early in college career for BA students and potential GERM majors and minors. P: GERM 1001 or placement in 1002 by German placement test. Second of four-course sequence. Further intensive training in basic skills of understanding, speaking, reading, and writing German. Focus on life and culture of German-speaking world.

1003. German Level III (3) Lab work. Recommended early in college career for BA students and potential GERM majors and minors. P: GERM 1002 or placement in 1003 by German placement test. Third of four-course sequence. Intensive training leading to more advanced levels of achievement in understanding, speaking, reading, and writing German. Focus on life and culture of German-speaking world.

1004. German Level IV (3) Lab work may be required. Recommended early in college career for BA students and potential GERM majors and minors. P: GERM 1003 or placement in 1004 by German placement test. Fourth of four-course sequence. Further intensive training leading to intermediate-level proficiency in understanding, speaking, reading, and writing German. Readings and discussions to further acquaint student with life, literature, and culture of German-speaking world.

2210. Intermediate German Composition and Conversation I (3) P: GERM 1004 or consent of dept chair. Intensive development of oral skills for use in everyday situations, vocabulary growth, listening comprehension, and correctness in grammar. Practice in task-oriented compositions and comprehensive review of grammatical forms and usage.

2211. Intermediate German Composition and Conversation II (3) P: GERM 1004. Practice in the spoken and written language with emphasis on developing students' writing skills and increasing knowledge of contemporary culture. Makes use of a variety of print and multimedia texts including literature, newspaper, magazines, film, television and the world wide web.

2300. Introduction to German Literature (3) (GE:HU) P: GERM 1004. Development of reading skills necessary for understanding genre, concepts of literary structure, and criticism through analysis of selected writings.

2420. Culture of the German-Speaking World (3) (GE:HU) P: GERM 1004 or consent of dept chair. Selected contemporary aspects of cultures of German-speaking world through reading and discussion of selected texts.

2611. Early Experiences for the Prospective Teacher (1) For prospective teachers. Minimum of 16 hours of directed observations and planned participation in appropriate school environments and 8 hours of seminar class instruction in the teaching area. May not count toward BA or minor. Introduces teaching of German.

2700. Special Topics in German Studies (3) P: GERM 1004 or consent of dept chair. Selected topics related to language, literature, culture, or civilization of German-speaking countries. Topics vary.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

(GE:EN)=English; (GE:EX)=Exercise and Sport Science; (GE:FA)=Fine Arts; (GE:HL)=Health; (GE:HU)=Humanities; (GE:MA)=Mathematics; (GE:SC)=Science; (GE:SO)=Social Science

SECTION 8: COURSES

- 3110. German Business Communication (3)** P: GERM 2210, 2211, 2300, and 2420; or equivalent. Working knowledge of oral and written German as used in business world. Preparation for dealing effectively with business German in the US and abroad.
- 3210. Conversation (3)** P: GERM 2210, 2211, 2300, and 2420; or consent of dept chair. Direct and systematic use of spoken language. Intensive approach for developing functional levels of communication in German.
- 3330. Composition and Advanced Grammar (3) (WI)** P: GERM 2210, 2211, 2300 and 2420; or consent of dept chair. Principles of effective writing in German and advanced review of grammar. Emphasis on syntax, forms, and usage.
- 3340. Civilization of the German-Speaking World (3) (GE:HU)** P: GERM 2210 or GERM 2211, 2300, 2420. Survey of the cultural development of the German-speaking peoples from the Germanic tribes to the reunification of East and West Germany through the reading and discussion of significant texts.
- 3350. Introduction to Translation Studies (3) (WI)** For students of all disciplines who expect to do specialized reading or research work in German. P: GERM 2210, 2211, 2300 and 2420; or consent of dept chair. Translating skills from German to English. Emphasis on grammar and style, approaches to vocabulary learning, and decoding difficult structures. Readings from areas of general knowledge.
- 3520. The German-Speaking World from the Beginning to the Nineteenth Century (3) (GE:HU)** P: GERM 2210, 2211, 2300 and 2420, or consent of dept chair. Emphasis on literary masterpieces.
- 3530. The German-Speaking World of the Nineteenth Century (3) (WI) (GE:HU)** P: GERM 2210, 2211, 2300 and 2420, or consent of dept chair. Emphasis on literary masterpieces.
- 3540. The German-Speaking World from 1900 to 1945 (3) (GE:HU)** P: GERM 2210, 2211, 2300 and 2420, or consent of dept chair. Emphasis on literary masterpieces.
- 3550. The Contemporary German-Speaking World (3) (WI) (GE:HU)** P: GERM 2210, 2211, 2300 and 2420, or consent of dept chair. Emphasis on literary masterpieces.
- 3700. Special Topics (3)** May be repeated for maximum of 6 s.h. with change of topic. P: GERM 2210, 2211, 2300 and 2420, or consent of instructor. Topics relating to language, literature, culture, or civilization of a German-speaking country. Topics vary.
- 4350. Phonetics and History of the German Language (3)** P: GERM 3210 or consent of dept chair. Introduces Germanic linguistics and history of German language. Emphasis on phonetics of modern German.
- 4611. Teaching Second Languages in Grades K-12 (5) (F)** 5 lectures per week and 10 lab hours per semester. Includes 10 hours of field experience. May not count toward BA or minor. P: 18 s.h. above GERM 1004 or consent of instructor. Modern methodologies, techniques and strategies, instructional resources, and evaluation procedures for teaching second languages in grades K-12.
- 4700. Special Topics in German Studies (3)** May be repeated for a maximum of 6 s.h. with change of topic. P: Consent of dept chair. Selected topics relating to the language, literature, culture, or civilization of the German-speaking world. Topics vary.
- 4880. Internship in German (10)** Full-time, semester-long internship. P: Admission to upper division; GERM 2210, 2211, 2420, 3210, 3330; 6 s.h. GERM literature above 2999; 12 s.h. GERM electives above 2999. Observation and supervised internship in assigned German K-12 public school classroom.
- 4881. Internship Seminar: Issues in German Teaching (1)** P: Admission to upper division; C: GERM 4880. Individualized study of problems or issues related to teaching German.
- 4882, 4883, 4884. Internship for Professions (1, 1, 1) (F, S, SS)** Supervised internship in appropriate professional setting during junior or senior year of German degree program. P: Consent of dept chair. Fields may include but are not limited to business and industry.
- 4950, 4951, 4952, 4953, 4954. Directed Readings in German (1 each)** P: Consent of dept chair. In-depth exploration of selected aspect of German culture (literature, civilization, etc.).

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive

Semester of course offering is not guaranteed. Anticipated semester of course offering:

(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P, C, or P/C

4990. Honors (3) P: Minimum 3.5 GPA in German. Independent study under direction of faculty member in student's major area of interest. Research paper required.

5700. Selected Topics (3) May be repeated for maximum of 6 s.h. with change of topic. P: Consent of dept chair. Selected topics relating to language, literature, culture, or civilization of a German-speaking country. Topics vary.

GERM Banked Courses

4387. The Baroque Era (ca. 1600-ca. 1750) (3)

GERO: GERONTOLOGY

2400. Introduction to Gerontology (3) (GE:SO) Same as **CDFR 2400; SOCW 2400** May count toward either the SOCI major or minor or general education social sciences requirement. Current theory and research from interdisciplinary perspective.

5400. Seminar in Aging Studies (3) Same as CDFR 5400; SOCW 5400 Entry point for graduate certificate in gerontology; exit course for undergraduate minor in gerontology. P: Consent of instructor. Topics include historical perspective on aging issues, normal aging and pathology, aging program administration, aging policy development, research in gerontology, rural aging, and aging and ethnicity.

5903. Readings in Aging Studies (3) Same as CDFR 5903; SOCW 5903 May count as 3 s.h. toward baccalaureate minor in GERO or graduate certificate in GERO. P: Consent of instructor and chair of instructor's home unit. Selected readings from monographs or journals. Focus on specialized areas in which student has taken one or more courses in either baccalaureate gerontology minor or graduate gerontology certificate.

6022. Perspectives on Death and Dying (3) Same as NURS 6022; SOCW 6022 P: Graduate- or senior-level standing or consent of instructor. Conditions and problems associated with facing death, dying, and survivorship. Awareness of values and attitudes as related to professional practice.

GERO Banked Courses

4600, 4601. Practicum in Gerontology (3,3)

5901, 5902. Readings in Aging Studies (1,2)

GRBK: GREAT BOOKS

2000. Introduction to the Great Books (3) (F) (GE:HU) May be repeated once with a change of topic for a maximum of 6 s.h. Moderated discussion featuring close reading of fundamental works of humanities, arts, and sciences. Students make reasoned arguments in class discussions. Content varies by semester's topic, but typically includes selections from thinkers across the ages whose writings have shaped modern thought.

3001 Great Books of Science (3) May be repeated once with a change of topic for a maximum of 6 s.h. Founding texts of the origins, development, and implications of science and scientific thought from the Greeks to the present. This course does not count toward General Education credit.

4000. Seminar in the Great Books (3) (S) (GE:HU) May be repeated once with a change of topic for a maximum of 6 s.h. P: GRBK 2000 or consent of instructor. Seminar featuring close reading of fundamental works of humanities, arts, and sciences. Students will make reasoned arguments in class discussions. Content will typically include selections from thinkers across the ages whose writings have shaped modern thought.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

(GE:EN)=English; (GE:EX)=Exercise and Sport Science; (GE:FA)=Fine Arts; (GE:HL)=Health; (GE:HU)=Humanities; (GE:MA)=Mathematics; (GE:SC)=Science; (GE:SO)=Social Science

SECTION 8: COURSES

4999.Thesis in the Great Books (3) (F,S) (WI) (GE:HU) May include supervised readings as appropriate to topic and student. Capstone experience supervised by faculty mentor. Paper or idea from earlier course work developed into complete thesis.

GRK: GREEK

1001.Ancient Greek Level I (3) First of two-course sequence. Training in principles of Greek grammar: Emphasis on reading skills. Correct pronunciation taught, but no other oral skills required. All communication in English.

1002.Ancient Greek Level II (3) P: GRK 1001 or consent of instructor. Second of two-course sequence. Completion of basic skills of Greek grammar. Elementary readings introduced and adjusted to student's level.

1003.Ancient Greek Level III (3) P: GRK 1002 or consent of instructor. Intensive review and application of basic skills of grammar acquired in GRK 1001-1002. Development of reading skills through works of major authors such as Plato, Xenophon, or Lysias.

1004.Ancient Greek Level IV (3) P: GRK 1003 or consent of instructor. Continued development of reading skills. Introduction to critical approaches to literature. Readings in poetry from plays of Euripides.

3001.Homer and Hesiod (3) (GE:HU) Formerly GRK 202I P: GRK 1004 or consent of instructor. Readings in ancient Greek from Homer's "Iliad" and "Odyssey" and from Hesiod's "Works and Days" and "Theogony."

3002.Age of Herodotus (3) (GE:HU) Formerly GRK 2022 P: GRK 3001 or consent of instructor. Readings in ancient Greek from Herodotus' "Histories," the plays of Sophocles and Aristophanes, and from Dialogues of Plato.

4521, 4522, 4523. Directed Readings in Greek (1,2,3) May be repeated. P: Consent of instructor. In-depth exploration of selected aspect of Greek culture (literature, civilization, etc.).

HESC: HUMAN ENVIRONMENTAL SCIENCES

2126. Consumer Affairs (3) Decision making, consumption patterns, and trends of marketplace consumer: Consumer information and protection.

3990, 3991, 3992. Field Experience in Human Environmental Sciences (1,1,1) (F,S,SS) Supervised professional work experience. May not be substituted for other required internships. P: HESC major or minor; minimum cumulative 2.0 GPA; minimum 2.5 GPA in HESC; 6 s.h. in applicable human environmental sciences area; consent of dean. Placement in area of student's major or minor.

4500, 4501, 4502. Independent Study (3,3,3) (F,S,SS) Problems in child development, family relations, food, nutrition, hospitality management, consumer economics, family resource management, apparel, textiles, and/or interior design.

4521. Readings in Human Environmental Sciences (1) (F,S,SS) Independent study in areas of student's interests.

5005, 5006, 5007. Special Problems in Human Environmental Sciences (1,2,3) May be repeated for credit with different titles. 5007 same as FACS 5007. P: Consent of instructor. Variable content and special topics in areas of human environmental sciences.

HESC Banked Courses

3999. Issues in Human Environmental Sciences (3)

4999. Professional Development in Human Environmental Sciences (3)

HIED: HISTORY EDUCATION

2123. Early Experiences for the Prospective Teacher (1) (F,S) Formerly HIST 2123 For prospective teachers. Minimum of 16 hours of directed observations and planned participation in appropriate school environments and 8 hours of seminar class instruction in the teaching area. May not count toward BA major or minor. P: 6 s.h. in HIST and 6 s.h. in other social sciences. Introduction to teaching of history and social studies.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive

Semester of course offering is not guaranteed. Anticipated semester of course offering:

(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

370 P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P, C, or P/C

4319. Teaching Social Studies in the Middle Grades (3) (F) Formerly HIST 4319 10 to 12 hours of field experience. May not count toward BA or BS in HIST major or minor. P: Admission to upper division; 18 s.h. in social sciences; EDUC 3200; MIDG 3001, 3010, 3022; or consent of instructor; C: MIDG 4001, 4010; ENED or MIDG or SCIE 4319; or consent of instructor. Teaching strategies, instructional resources, and evaluation procedures for teaching social studies in middle grades.

4323. The Teaching of Social Studies in High School (3) (F) Formerly HIST 4323 May not count toward BA major or minor. Materials and basic teaching strategies employed in high school social studies classroom.

4324. Internship in History and Social Studies (10) (S) Formerly HIST 4324 Full-time, semester-long internship. Application must be filed one year in advance. P: Admission to upper division; C: HIED 4325. Placement in school under direction of a clinical teacher and university supervisor.

4325. Internship Seminar: Issues in Social Studies Education (0) (S) Formerly HIST 4325 P: Admission to upper division; C: HIED 4324. Individualized study of problems or issues related to social studies education.

HIMA: HEALTH INFORMATION MANAGEMENT

2000. Introduction to Health Information Management (2) (F) Introduction to the profession.

3000. Medical Terminology for Health Professionals (2) (F,S,SS) Interdisciplinary study providing solid foundation in medical terminology for effective communication in health care industry. Focus on analyzing, constructing, and defining medical terms. Includes diseases, symptoms, and signs of disease; diagnostic and clinical procedures; and treatment modalities.

3032. Record Documentation Systems (3) (S) P: HIMA major; HIMA 3120. Origin, content, and format of health records across the continuum of care.

3090. Professional Practice Experience I (1) (S) Supervised learning experiences. Students normally expected to provide personal transportation to field site. P/C: HIMA 3120, 3142. Placement in health information services departments to strengthen student's competence in didactic information related to acute care setting.

3113. Applied Medical Sciences I (3) (F) Formerly HIMA 3013 P: BIOL 2130, 2131. First of two-semester sequence. Integrated study of pathophysiology, diagnostic and treatment modalities utilized in clinical medical practice, and pharmacology.

3118. Applied Medical Sciences II (3) (S) Formerly HIMA 3018 P: HIMA 3113. Continuation of HIMA 3113.

3120. Health Care Delivery Systems (3) (F) Formerly HIMA 3020 P/C: HSMA 2000, 3030. Continuum of care in health industry. Historical development and future trends, organizational structure, regulatory and accrediting bodies, multicultural issues, and policy formulation.

3142. Diagnostic and Procedural Coding (3) (S,SS) Formerly HIMA 3041, 3046 P/C: HIMA major; BIOL 2130, 2131; HIMA 3118. Coding of diseases and procedures by "International Classification of Diseases."

3148. Health Service Coding (3) (F) Formerly HIMA 3048 P: HIMA 3120, 3142. Coding services and procedures by "Healthcare Common Procedural Coding System" and for reimbursement.

4000. Professional Practice Experience II (1) (F) Supervised learning experiences. Students normally expected to provide personal transportation to field site. P: HIMA 3090. Continuation of HIMA 3090.

4030. Quality Management in Health Care (3) (S) P: HIMA 3113, 3120; or consent of instructor. Application of quality management principles across continuum of care.

4075. Biomedical Research Support (1) (S) P: BIOS 1500; HIMA 3120. Design concepts and information systems that support research in biomedical and health services.

4081, 4082, 4083. Directed Independent Project (1,2,3) (F,S,SS) Hours vary by project. May be repeated for maximum of 6 s.h. with change of topic. P: HIMA major; consent of instructor. Selected project on new and advanced issue in health information practice. May include readings, research, or field work.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

(GE:EN)=English; (GE:EX)=Exercise and Sport Science; (GE:FA)=Fine Arts; (GE:HL)=Health; (GE:HU)=Humanities; (GE:MA)=Mathematics; (GE:SC)=Science; (GE:SO)=Social Science

SECTION 8: COURSES

4138. Health Data Structures (3) (S) Formerly HIMA 3038 P: HIMA 3120. Technical standards for health data structures. Emphasis on knowledge representation and content for computer-based health records systems.

4153. Management of Health Information Services Department (3) (WI) (S) Formerly HIMA 4052, 4057 P: HSMA 3030, 3035, 3050, 4055. Theoretical and practical applications of managerial functions of planning, organizing, and controlling health information services department. Emphasis on solving complex departmental problems.

4160. Concepts in Health Information Technology (3) (F) Formerly HIMA 4060 P: ASIP 2112 or DSCI 2223; HIMA 3090. Major concepts of computer hardware, architecture, operating systems, and application software. Introduces data and databases. Reinforces ability to use selected general purpose microcomputer applications.

4165. Health Information Systems (3) (S) Formerly HIMA 4065 P: HIMA 4160. Role of computers in gathering, recording, interpreting, and transmitting health care data. Application of data and database concepts to information systems in health care.

HIST: HISTORY

1030. World Civilizations to 1500 (3) (WI*) (F,S,SS) (GE:SO) May receive credit for one of HIST 1030, 1552. Evolution of world civilizations from prehistory to 1500.

1031. World Civilizations Since 1500 (3) (WI*) (F,S,SS) (GE:SO) May receive credit for one of HIST 1031, 1553. World civilizations since 1500 and their economic, social, cultural, and political development.

1050. American History to 1877 (3) (WI*) (F,S,SS) (GE:SO) May receive credit for one of HIST 1050, 1550. History of US from discovery of America in 1492 to end of Reconstruction.

1051. American History Since 1877 (3) (WI*) (F,S,SS) (GE:SO) May receive credit for one of HIST 1051, 1551. History of US from Reconstruction to present.

1550. Honors, American History to 1877 (3) (F) (GE:SO) May receive credit for one of HIST 1050, 1550. P: By invitation or consent of instructor. History of US from discovery of America in 1492 to end of Reconstruction.

1551. Honors, American History Since 1877 (3) (WI*) (S) (GE:SO) May receive credit for one of HIST 1051, 1551. P: By invitation or consent of instructor. History of US from Reconstruction to present.

3040. The Health Education Delivery System (3) P: HLTH 2000. Broad understanding and appreciation of philosophical, legal, and organizational dimensions of health systems.

3200. Field Experience in Athletic Training I (1) (F) Current first-aid and CPR certifications and medical malpractice insurance required. 1 lecture per week and clinical assignments. C: Current participation in the athletic training curriculum; HLTH 3810. Introduction to field experience. Supervised medical coverage of athletic teams.

3225. Standard First Aid and Personal Safety Instructor (2) (S) 1 lecture and 4 lab hours per week. P: HLTH 2125, 2126; or certification as having completed the American Red Cross advanced first aid course within the past 3 years. Satisfactory completion results in certification as instructor in standard first aid and personal safety, first aid multimedia systems, and basic first aid.

3244. Practices and Procedures in Health for Elementary School (2) (F,S,SS) Required of all elementary education majors. Class organization, principles, and practices associated with health education at elementary level.

SECTION 8: COURSES

3250,3251.Sports Medicine Treatment Modalities (3) 2 lecture and 2 lab hours per week. P: HLTH 3810 or consent of instructor. In-depth study of theory and application of therapeutic modalities in relation to the treatment of athletic injuries.

3270.Pathology and General Medicine in Sport (3) (S) P: BIOL 2130,2131. General pathology associated with medical conditions in sport. Systemic approach to common medical disorders, including clinical proficiencies.

3271. Clinical Experience in Medicine (1) (F,S,SS) Current First-aid and CPR certification required. Proof of ongoing medical malpractice insurance coverage. P: HLTH 3200, 3270; C: Current participation in athletic training curriculum. Clinical assignments in clinical medical settings.

3280,3281.Therapeutic Rehabilitation in Sports Medicine (3,0) (S) 2 lecture and 2 lab hours per week. P: HLTH 3250, 3251; or consent of instructor. In-depth study of theory and application of therapeutic rehabilitation of athletic injuries.

3300,3301. Introduction to Patient Education (3,0) 2 classroom and 3 lab/field-work hours per week. P: Consent of instructor. Theories applicable in variety of health care settings. Emphasis on education for promotion of health and change of life style.

3350. Pharmacology in Sport (2) (F) General knowledge of therapeutic drug classifications, indications, contraindications, regulations, and drug testing in sport.

3400. Clinical Experience in an Equipment Intensive Sport (2) (F,S) 1 lecture per week and clinical assignment to an equipment intensive sport for the semester. C: Current participation in the athletic training curriculum; HLTH 3810. Introduction into the field experience in athletic training, including supervised medical coverage of athletics teams. Current first-aid and CPR certifications and proof of medical malpractice insurance are required for the duration of the course.

3500,3501,3502. Peer Health II: Practical Experience (1,2,3) (F,S) P for 3500: HLTH 1000; P for 3501, 3502: HLTH 2500. Peer education experiences/opportunities to apply skills and knowledge learned in HLTH 2500.

3515.AIDS HIV Disease in Modern Society (3) (S) P: HLTH 1000 or HLTH 1050 or consent of instructor. Key issues surrounding AIDS epidemic. Focus on social, psychological, political, economic, legal, ethical, and health aspects.

3810. Etiology and Evaluation of the Trunk and Upper Extremity (3) (F) 4 lecture/lab hours per week. P: HLTH 2810; P/C: BIOL 2130; EXSS 2850. In-depth study and practical application of pathomechanics or sports-related injury and diseases to trunk and upper extremity.

3820. Etiology and Evaluation of Lower Extremity (3) (S) 4 lecture/lab hours per week. P: HLTH 2810; P/C: BIOL 2130; EXSS 2850. In-depth study and practical application of pathomechanics of sports-related injury and diseases to lower extremity.

3860. Sports Medicine Practicum I (3) (F) 1 lecture and 15 supervised clinical hours per week. P: Admission to athletic training program and HLTH 3810. Practical experience in athletics under supervision of certified athletic trainer. Current CPR and first-aid certifications and proof of medical malpractice insurance required.

4000. Methods of Training and Staff Development (4) 4 lecture and skill demonstration hours per week. P: PSYC 3221 or consent of instructor. Group and training methodologies in health setting. Emphasis on need assessment, program implementation, and evaluation of workshops, conferences, and short courses.

4010. Senior Seminar: Tutorial in Health Issues Research (3) (F,S) 2 1-hour lectures and 2 2-hour labs per week. P: Senior standing or school and community health majors; completion of all core courses; or consent of instructor. Guidance in development of investigative study appropriate to student's needs and interests.

4100. Community Health Profile (3) P: HLTH 4000 or consent of instructor. Basic concepts and tools for identifying community health education needs. Development of community health profile for county of internship (HLTH 4990).

4200. Planning and Evaluation in Worksite Health Promotion (3) (F,S,SS) P: Completion of core courses. Role of evaluation. Emphasis on measuring instrument design, evaluation, planning, and interpretation of evaluation results.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive

Semester of course offering is not guaranteed. Anticipated semester of course offering:

(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

380 P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P,C, or P/C

4300. Field Experience in Athletic Training II (1) (F,S,SS) 1 lecture per week and clinical assignments for the semester. P: HLTH 3250, 325 I, 3810, 3820; C: Current participation in the athletic training curriculum. Field experience in allied health settings relevant to athletic training. Current first aid and CPR certifications and proof of medical malpractice insurance are required for the duration of the course.

4320. Organization and Administration of Sports Medicine (3) 2 lecture and 2 lab hours per week. P: HLTH 3810, 3820. Organization and administration of sports medicine programs including law, ethics, and therapeutic concepts. Advanced experience in prevention, clinical evaluation, treatment, and rehabilitation of sports-associated afflictions.

4323. Methods of Teaching Health Education (3) (F,S) Theory and application of the content and methodologies to be utilized in the secondary school health program.

4324. Internship in Health Education (10) (F,S) Full-time, semester-long internship. P: Admission to upper division; EDUC 3200; HLTH 2123; completion of HLTH 4323 with a minimum grade of C; PSYC 1000; C: HLTH 4326. Observation and supervised teaching in an assigned health education public school classroom.

4326. Internship Seminar: Issues in Health Education (1) (F,S) P: Admission to upper division; C: HLTH 4324. Individualized study of problems or issues pertinent in school health education.

4348. Health Education Problems (3) May receive credit for one of HLTH 3020, 4348. Current health problems in the US with a focus on the nature of the problems including sociological conditions and cultural and governmental factors which contribute to their causes and solutions.

4500, 4501, 4502. Independent Study (1,2,3) (WI*) (F,S,SS) P: Consent of instructor. Individualized program developed through student initiative in consultation with the designated instructor as an Extension of formal course offerings.

4600. Data Analysis for Health Promotion Programming (3) (S) C: HLTH 4700. Understanding of and skills in utilizing health-related data for planning worksite health promotion and cost-control programs.

4604. Applied Principles of Health Promotion (3) (F,S) P: BIOL 2130, 2131; NUHM 1000 or 2105; PSYC 1000; or consent of instructor. In-depth study of the health content areas most commonly addressed in health promotion programs. Emphasis is on the integration of current knowledge in the context of contemporary educational strategies.

4605. Community Strategies for Health Education (3) (WI*) (F,S,SS) P: HLTH 3000 or consent of instructor. Skills in community interventions for health educators based on principles of community organization. Both classroom instruction and field exposure will be utilized. Additionally, case studies and real life experiences will be used to the greatest extent possible.

4611. Planning and Evaluation of Community Health Education Programs (3) (F,S) P: HLTH 3000, 4620, 4621. Planning theory and application for health education programs, including evaluation methodology. Applications for epidemiological and sociological diagnoses in program development.

4620. Group Strategies for Community Health Education (3) (S) P: HLTH 3000; C: HLTH 4621 or consent of instructor. Group dynamics, effective communication and decision-making by groups in a variety of community and health settings. Emphasis on strategies for facilitating the effectiveness of group interaction, on identification of training needs, and on steps in planning, implementing, and evaluating group educational experiences such as workshops, conferences, short courses, and community meetings. Appropriate for any student preparing for a career in the health professions.

4621. Group Strategies Laboratory (0) (S) 2 lab hours per week. C: HLTH 4620. Design and deliver health education materials and educational activities.

4700. Practicum Seminar in Worksite Health Education (3) (S) P: HLTH 4200. Private sector health promotion programs. Based on the needs and operations of local sites, student will be assigned individual projects.

4860. Sports Medicine Practicum II (3) 1 lecture and 15 supervised clinical hours per week. P: HLTH 3820. Practical experience in athletics under supervision of certified athletic trainer. Current CPR and first-aid certifications and proof of medical malpractice insurance required.

SECTION 8: COURSES

4991. Health Education and Promotion Internship (12) (F,S,SS) P: Completion of all other major requirements. Professionally-supervised learning experience.

5002. Maternal and Child Health Education (3) P for undergraduate students: HLTH 3010 or consent of instructor; P for graduate students: BIOL 2130, 2131; HLTH 3010, 3020; or consent of instructor. Theoretical base and appropriate education strategies for delivery of community health education programs including basic population concepts and measures; epidemiological indicators of health and social status of women and children; analysis of prevailing social policies as related to maternal and child health; and federal policies affecting children and families.

5200. Health Education in the Workplace (3) (F) P for undergraduate students: Consent of instructor. Focus on design, implementation, and evaluation. On-site health education needs assessment using appropriate instruments and development of health education plan responsive to identified needs and corporate operations of particular industry.

5310. Education for Human Sexuality (3) (S) For school and community professionals working in or consulting with schools. P: Health education major or consent of instructor. Comprehensive knowledge and sex education methodology for effective communication with children and youth.

5345. Alcoholism in Health Education (3) (F) P: HLTH 1000 or HLTH 1050. Effects of alcohol on human body with sociological, psychological, physiological, and economic implications as applicable to everyday living. Methods, procedures, and resource materials for alcohol education.

5900. Stress Management (3) P: Undergraduate course in anatomy and physiology; graduate standing; or consent of instructor. Positive and negative aspects of stress as related to performance and health. Emphasis on sources and positive management of stress, including lifestyle and life skills.

HLTH Banked Courses

3261. Administration of School and Community Health Programs (3)

4290, 4291, 4292. Work Experience in Health Education and Promotion (1,2,3)

4325. First Aid and CPR Instructor (3)

4340. Methods and Content in Health Education (3)

4610. Individual Strategies for Community Health Education (3)

4989. Seminar in Community Health Education Practice (1)

4990. Internship in Worksite Health Promotion (12)

4992. Internship in Community Health Education (12)

5313. School Health Education (3)

HNRS: HONORS

2006. Interdisciplinary Honors Seminar (3) (WI) Interdisciplinary investigation. Examples include "The Grotesque in Art and Literature," "Poets and Painters," "The Sixties: Be There Now," and "The History and Philosophy of Technology."

2011. Honors Seminar in the Humanities (3) (WI) (GE:HU) May be repeated for maximum of 6 s.h. with change of topic. Topic varies by semester. Examples include "What it Means to be Human (according to Shakespeare)," "Current Attempts to Resolve Classical Philosophical Problems," "Banning Books: Censorship in Modern America," and "Gay Literature: From Marginal to Mainstream."

2012. Honors Seminar in the Fine Arts (3) (WI) (GE:FA) May be repeated for maximum of 6 s.h. with change of topic. Topic varies by semester. Examples include "The Arts in Society," "An Introduction to the Fine Arts," "Gothic Cathedrals: Their Meaning and Significance," and "Listening to Music Intelligently."

2013. Honors Seminar in the Social Sciences (3) (WI) (GE:SO) May be repeated for maximum of 6 s.h. with change of topic. Topic varies by semester. Examples include "Sexual Abuse: Incidence, Impact, Prevention," "The Race for the Presidency," "The Civil Rights Revolution," "The American Way of War," "Church and State in the United States," and "New World Meets Old: The Colombian Exchange."

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive

Semester of course offering is not guaranteed. Anticipated semester of course offering:

(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P, C, or P/C

2014. Honors Seminar in the Sciences (3) (WI) (GE:SC) May be repeated for maximum of 6 s.h. with change of topic. Topic varies by semester. Examples include "Subjectivity in Science," "Scientific Experimentation and Social Acceptance," "Chemistry and the Environment," and "The Geology of the National Parks."

2015. Honors Science Laboratory (1) (GE:SC) Accompanies HNRS 2014 when considered appropriate by science department offering the seminar.

2116. Interdisciplinary Honors Seminar (3) (WI) (GE:HU) Interdisciplinary investigation. Examples include "The Grotesque in Art and Literature," "Poets and Painters," "The Sixties: Be There Now," and "The History and Philosophy of Technology."

2216. Interdisciplinary Honors Seminar (3) (WI) (GE:FA) Interdisciplinary investigation. Examples include "The Grotesque in Art and Literature," "Poets and Painters," "The Sixties: Be There Now," and "The History and Philosophy of Technology."

2316. Interdisciplinary Honors Seminar (3) (WI) (GE:SO) Interdisciplinary investigation. Examples include "The Grotesque in Art and Literature," "Poets and Painters," "The Sixties: Be There Now," and "The History and Philosophy of Technology."

2416. Interdisciplinary Honors Seminar (3) (WI) (GE:SC) Interdisciplinary investigation. Examples include "The Grotesque in Art and Literature," "Poets and Painters," "The Sixties: Be There Now," and "The History and Philosophy of Technology."

3011. Honors Seminar in the Humanities (3) (WI) (GE:HU) May be repeated for maximum of 6 s.h. with change of topic. Topic varies by semester. Examples include "The Literature of Fyodor Dostoevsky," "Literature and Medicine," "A Bi-Gender Reading of Jewish-American Literature," and "The World as seen by Nobel Prize Winners in Literature."

3012. Honors Seminar in the Fine Arts (3) (WI) (GE:FA) May be repeated for maximum of 6 s.h. with change of topic. Topic varies by semester. Examples include "African-American Women Artists," "The Great Museums of Europe and their Treasures," "The Ethnic Music of Eastern Europe," and "The Theatre of the Absurd."

3013. Honors Seminar in the Social Sciences (3) (WI) (GE:SO) May be repeated for maximum of 6 s.h. with change of topic. Topic varies by semester. Examples include "Intimate Violence: Out of the Shadows," "The Islamic World," "South Africa: Transition from Apartheid to Democracy," and "Terrorism and September 11."

3014. Honors Seminar in the Sciences (3) (WI) (GE:SC) May be repeated for maximum of 6 s.h. with change of topic. Topic varies by semester. Examples include "Integrating Science and the Arts," "Science and Religion," "Disease and Animal Populations," and "How Things Work-Physics and Chemistry in Our Daily Lives."

3015. Honors Science Laboratory (1) (GE:SC) Accompanies HNRS 3014 when considered appropriate by science department offering the seminar.

3101, 3102, 3103. Independent Study (1,2,3) (WI) (F,S,SS) May be repeated in combination with other HNRS independent students courses for a maximum of 6 s.h. P: Consent of program director. Independent research/creative activity project supervised by faculty mentor.

4101, 4102, 4103. Independent Study (1,2,3) (WI) (F,S,SS) May be repeated in combination with other HNRS independent students courses for a maximum of 6 s.h. P: Consent of program director. Independent research/creative activity project supervised by faculty mentor.

HPRO: HEALTH PROFESSIONS

2000. Survey of the Allied Health Professions (2) May receive credit for one of HPRO 2000, REHB 2000. Description of the profession, educational requirements, employment opportunities, and role of each profession in integrated system of health care. Emphasis on professions represented by ECU educational programs.

2100. Perspectives in Health Care (2) Recommended for freshmen and sophomores interested in becoming health professionals. General health terminology, professional ethics, inter- and intra-professional relationships, and concept of total health care.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

(GE:EN)=English; (GE:EX)=Exercise and Sport Science; (GE:FA)=Fine Arts; (GE:HL)=Health; (GE:HU)=Humanities; (GE:MA)=Mathematics; (GE:SC)=Science; (GE:SO)=Social Science

SECTION 8: COURSES

2501, 2502, 2503, 2504, 2505. Allied Health Practice (1,2,3,4,5) (F,S,SS) May transfer a maximum of 6 courses for a total of 30 s.h. P: Current and valid applicable credential, license, or registration; consent of adviser and dept chair. Equivalency credit for technical courses or clinical rotations completed in a regionally accredited, associate degree program for allied health technicians or therapist assistants.

4300. Community Health and Organization (2) Health and health care systems at local, state, and national levels. Emphasis on socio-medical problems and role of health professionals in community health care delivery.

4305. Administration, Supervision, and Consultation for the Health Professions (3) Concepts and principles within health care settings.

4350. Research Design (3) (F) (WI) P: MATH 2228 or equivalent. Introduction. Develop skills for critique of research literature and articulation between statistical/analytical methods and research designs. Beginning competence in research process.

5000. Seminar in Human Sexual Dysfunctions (3) Exploration of problems in human sexual behavior and functioning. Emphasis on development of assessment and intervention skills in delivery of sexual health care to broad spectrum of clients.

HSMA: HEALTH SERVICES MANAGEMENT

2000. Professional Roles and Environments in Health Care (3) (F) Examines interdisciplinary professional roles and environments in health care. Orientation to HSMA academic program and its role in career development.

3020. Health Care Payment Systems (3) (S) P/C: HIMA 3120; HSMA 2000, 3030, 3035. Overview of payment systems in health care across the continuum of care.

3025. Professional Ethical Codes and Law in Health Care (3) (F) P/C: HSMA 2000, 3030; or consent of instructor. Ethical codes in allied health professions. Laws and regulations that apply to health care.

3030. Written Communication and Documentation in Health Care (4) (WI) (F) P/C and accepted major: HSMA 2000. Principles and models of documentation in health care.

3035. Interpersonal Team Skills for Health Care Supervisors and Practitioners (3) (S) P/C: HSMA 2000, 3030. Focus on interpersonal skills for effective supervision and clinical practice in health care, especially within health care team, committees, and oversight entities. Requires oral presentations.

3050. Leadership in Health Care (3) (F) P/C: HSMA 3030. Theory and application of basic organizational development, organizational structure and norms, change management, and strategic planning within health care organizations.

4010. Health Information Management (3) (F) P: HIMA 3120; HSMA 3035. Introduces health information from perspective of control and management of information resources. Includes strategic information systems with emphasis on collection, organization, and interpretation of information for planning and evaluating of health care services.

4015. Health Care Records and Data: Maintenance and Analysis (3) (S) P: HSMA 3025. Examines advanced methods of storage, retrieval, transmission, and security of data from perspective of longitudinal health records.

4020. Health Care Reimbursement: Public (3) (F) P: HSMA 3020. Examines approaches of public payers to health care services reimbursement and cost containment.

4025. Health Care Reimbursement: Private (3) (S) P: HSMA 3020. Examines approaches of private payers to health care services reimbursement and cost containment.

4028. Health Care Reimbursement: Policy and Research (3) (S) P: HSMA 3020. Survey of national policies and research with development of framework for analysis.

4050. Personnel Management and Supervision in Health Care (3) (F) P: HIMA 3120; HSMA 3035; or consent of instructor. Managerial theory and application, including management styles, personnel records and management, staff development, work re-design, ergonomics, and departmental performance assessment.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive
Semester of course offering is not guaranteed. Anticipated semester of course offering:

(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

384 P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P,C, or P/C

4055. Health Care Finance and Accounting (3) (F,SS) P: HIMA 3120; HSMA 3035. Overview of departmental financial management and accounting functions as applied to health care environments. Includes inventory control, budgeting, cost analysis, resource allocation, capital expenditures, and financial forecasting.

4056. Marketing Health Care Services (3) (S) P: HIMA 3120; HSMA 3035; or consent of instructor. Entrepreneurship and marketing services. Includes market assessment, strategic planning, designs, financial analyses, contracts, and outcomes management.

4070. Outcomes Assessment and Management in Health Care (3) (S) P: HIMA 3120; HSMA 3035. Survey of outcomes research that includes methods, cost effectiveness, measurement, decision support, quality of life, and improvement management.

4075. Managed Care in Health Systems (3) (S) P: HIMA 3120; HSMA 3035. Models of managed care systems in health care delivery. Includes designs, outcomes management, history and future trends, and impact on US health care delivery and policy.

4081, 4082, 4083. Advanced Topics in Health Care Management and Service Delivery (1,2,3) (S) May be repeated for credit with consent of instructor and dept chair. P: HIMA 3120; HSMA 3035; consent of instructor; adviser; or dept. chair. Directed research with written and oral presentations on advanced topic, emerging trend, or new system in health care delivery.

4903, 4904, 4905, 4906. Allied Health Management Experience (3,4,5,6) (WI*) (S) Supervised learning experiences. Students normally expected to provide personal transportation to field site. P: Senior standing, consent of adviser; and within 15 s.h. of completing degree program. Workplace experience or credit by portfolio to include specific project, cooperative practicum, professional shadowing, or individual topic of study relevant to allied health management that is reported orally and in writing.

ICEE: INTEGRATED COLLABORATIVE ENGINEERING ENVIRONMENT CORE

1010. Integrated Collaborative Engineering I (6) (F) 4 lecture and 4 lab hours per week. C: MATH 1083. Introduces engineering profession and basic tools and concepts of engineering. Team taught, providing immersive and hands-on experience in engineering practice areas including graphics, professional practice, environmental issues, systems thinking and basic concepts in machinery, controls, digital circuits, and data analysis.

1020. Integrated Collaborative Engineering II (6) (S) 4 lecture and 4 lab hours per week. P: ICEE 1010. C: MATH 2171. Basic engineering concepts of project analysis and business planning for engineering entrepreneurship. Tools of design analysis involving static forces, stress, shear, torsion and moments. Lab covers use of spreadsheets to evaluate engineering alternatives and mathematical analytical software plus analysis of engineering materials, including tests of stress, fastening methods, and fabrication.

2010. Integrated Collaborative Engineering III (4) (F) 3 lecture and 2 lab hours per week. P: ICEE 1020. C: MATH 2172; PHYS 2350. Covers advanced topics in engineering fundamentals in particle and rigid body dynamics, and thermal and fluid systems. Lab covers design related kinematics, measurement of thermal and fluid system characteristics, and hydraulic and pneumatic component applications.

2020. Integrated Collaborative Engineering IV (4) (S) 3 lecture and 2 lab hours per week. P: ICEE 2010. C: PHYS 2360. Covers advanced engineering fundamentals of fluid flow, buoyancy, and stability. Analysis and design of electrical circuits including amplification, resonance, and three phase power distribution. Lab covers design of fluid systems and electrical circuits, including use of electrical instrumentation.

3010. Engineering Systems and Problem Solutions (3) (F) P: Engineering Majors Only. Explores systems approach to design, analysis, and engineering of complex systems. Prepares student to conduct and manage a systems analysis process, including selection of appropriate system analysis methods to formulate, design, and manage resolution of complex system based problems.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

(GE:EN)=English; (GE:EX)=Exercise and Sport Science; (GE:FA)=Fine Arts; (GE:HL)=Health; (GE:HU)=Humanities; (GE:MA)=Mathematics; (GE:SC)=Science; (GE:SO)=Social Science

SECTION 8: COURSES

3020. Information Systems Engineering (3) (S) P: ICEE 3010. Fundamental knowledge of information systems, including formal systems and models. Use of data, information, and knowledge in organizations, information lifecycle; collection, storage, processing, retrieval, delivery; and overview of the various components of an information infrastructure. Includes computing platforms, software architectures, and telecommunications networks. Introduces integration and acquisition of information for decision-making using information technology.

4010. Senior Capstone Design Project I (2) (F) P: ICEE 3020. Senior capstone course involves open-ended design project, exposing students to practice of engineering design and problem solving. Emphasis on real problems and working with real clients. Students required to visit facilities, interact with client employees, determine on-site data measurement strategies, and perform any necessary literature search. Develop proposal for project to be performed in ICEE 4020.

4020. Senior Capstone Design Project II (2) (S) P: ICEE 4010. Senior capstone course involves open-ended design project, exposing students to practice of engineering design and problem solving. Emphasis on real problems and working with real clients. Students required to visit facilities, interact with client employees, determine on-site data measurement strategies and perform any necessary literature search. Perform and complete project proposed in ICEE 4010.

ICTN: INFORMATION AND COMPUTER TECHNOLOGY

1500, 1501. PC Hardware (3,0) (F,S) Formerly ELEC 2500, 2501 Must be taken concurrently. 2 lecture and 2 lab hours per week. P: MATH 1065 or higher. Hardware components of PCs and BIOS and operating system options needed to support those components. Topics include interface standards, component configuration, and troubleshooting.

2000. Introduction to Telecommunications (3) (F) Formerly ELEC 3000 P: MATH 1074 or higher. Includes computer networking. Broad view of technology and application in information technology industry.

2154, 2155. Digital Communication Systems (3,0) (F,S) Formerly ELEC 3154, 3155 To be taken simultaneously. 2 lecture and 2 lab hours per week. P: ICTN 2150, 3150; or 3058. Introduction to local-area and wide-area networks. Provides basic understanding of network concepts and router programming.

2158, 2159. Computer Networking Technology (3) (S) Formerly ELEC 3158, 3159 To be taken simultaneously. 2 lecture and 2 lab hours per week. P: ICTN 3154. Advanced study of local-area and wide-area networks. Develops competence in designing and implementing enterprise-wide campus network using routers and switches.

2510, 2511. Network Environment I (3,0) (F) Formerly ELEC 3510 Must be taken concurrently. 2 lecture and 2 lab hours per week. P: ICTN 1500. Network management using various NOS products. Topics include NOS setup, network resource management, user and group management, and security model.

2730. Control Design (3) (S) Formerly ELEC 2730 P: DSCI 2223 or ITEC 2000 or equivalent experience. Technologies and applications in designing device controls applied for local area network and Internet applications. Includes software programming and lower-level interface design.

2900, 2901. Fundamental Network Security (3,0) (F) Must be taken concurrently. 2 lecture and 2 lab hours per week. P: ICTN 2154. Computer network and information security principles, devices, and applications.

3250, 3251. Internetwork Routing Technology (3,0) (F) Formerly ELEC 3250, 3251 To be taken simultaneously. 2 lecture and 2 lab hours per week. P: ICTN 2158 with a minimum grade of B or current CCNA certification. Advanced network routing technology in industry. Topics include routing protocols and technology, network performance consideration, and traffic control over LAN and WAN.

3530, 3531. Network Environment II (3,0) (S) Formerly ELEC 3530 Must be taken concurrently. 2 lecture and 2 lab hours per week. P: ICTN 1500. Network management using various UNIX products, such as Linux and Solaris. Topics include NOS setup, network resource management, user and group management, and security model.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive

Semester of course offering is not guaranteed. Anticipated semester of course offering:

(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P, C, or P/C

3540,3541. Network Environment III (3,0) (F) Formerly ELEC 3540,3541 Must be taken concurrently. 2 lecture and 2 lab hours per week. P: ICTN 2510, 3530. Enterprise system administration using mixed vendor network operating systems, such as Linux and Microsoft. Topics include integrating networking services such as network file systems, enterprise printing administration, remote administration, and host and network security issues.

3900,3901. Web Services Management (3,0) (F) Formerly ELEC 3900,3901 2 lecture and 2 lab hours per week. P: ICTN 3510, 3530. Current technologies that provide web services and management for organizations. Topics include web content development, web server installation and configuration, database integration, and security issues.

4000. Network Internship (3) (F,S) Formerly ELEC 4000 Minimum of 120 contact hours at internship site. P: Senior standing. Educational collaboration between business and industry and ECU, linking theoretical and lab practice with real-world applications. Proposal, fully describing planned activities, developed around student's educational goals and objectives.

4010,4011. User Application Management and Emerging Technologies (3,0) (F) Formerly ELEC 4010,4011 2 lecture and 2 lab hours per week. P: ICTN 3510, 3530. Emerging technologies that provide flexible and secure access to enterprise information resources. Topics include wireless and WLAN technology, broadband Internet connection, storage area networks, data warehousing/mining, application support for enterprise network.

4040. Communication Security (3) (S) Formerly ELEC 4040 P: Senior standing and ICTN 2154. Practical and comprehensive survey of network-based and Internet-based security applications and standards. Includes cryptography, encryption, hash functions, digital signatures, key exchanges, and security applications.

4064. Regulations and Policies (3) (S) Formerly ELEC 4060 P: ICTN 3000. Government and industry regulations and policies applied to information technology industry. Broad view of impact and effectiveness of regulations and policies.

4150,4151. Switching Network Technology (3) (F) Formerly ELEC 4150,4151 To be taken simultaneously. 2 lecture and 2 lab hours per week. P: ICTN 2158 with a minimum grade of B or current CCNA certification. Concepts and technology used to interconnect multiple LANs. Covers advanced switching technology and applications.

4200,4201. Intrusion Detection Technologies (3,0) (F) Must be taken concurrently. 2 lecture and 2 lab hours per week. P: ICTN 2900. Computer network intrusion detection principles, devices, and applications.

4250,4251. Enterprise Network Technology (3) (F) Formerly ELEC 4250,4251 To be taken simultaneously. 2 lecture and 2 lab hours per week. P: ICTN 2158 with a minimum grade of B or current CCNA certification. Designs and implementation of enterprise network system in industrial environment. Includes designing and planning processes, technology and trend, network and system analysis, skill assessment and technical training, and corporate policies.

4501,4503,4505. Laboratory Problems (1,2,3) (F,S,SS) Formerly ELEC 4501,4503,4505 2 lab hours per week for 4501; 4 lab hours per week for 4503; 6 lab hours per week for 4505. May be repeated for credit with consent of dept chair. P: Consent of instructor. Independent study of concepts, processes, tools, and/or materials in the field of Information and Computer Technology.

4590,4591. Network Maintenance and Troubleshooting (3,0) (F) Formerly ELEC 4590,4591 Must be taken concurrently. 2 lecture and 2 lab hours per week. P: ICTN 3250, 4150, 4250. Large enterprise computer network system maintenance, support, troubleshooting, and improvement. Emphasis placed on integrated systems of various technologies for LAN, WAN, routing, and switching.

4600,4601. Enterprise Information Technology Management (3,0) (S) Formerly ELEC 4600 P: ICTN 2158, 3540. Capstone course with case studies on various issues about enterprise IT management. Students work on projects that address these issues.

4800,4801. Information Assurance Technologies (3,0) (F) Must be taken concurrently. 2 lecture and 2 lab hours per week. P: ICTN 2510, 2900, 3530. Information assurance principles, devices, and applications. Emphasis on problems relating to systems of varied operations system technologies and computer networking technologies.

4054,4055 Integrated Network Services (3,0)

IDIS: INDUSTRIAL DISTRIBUTION

2770.Industrial Distributor: Purpose and Functions (3) (F,S) Formerly IDIS 3770 P: IDIS major or minor. In-depth investigation into functioning and services of electrical distributors and electrical product manufacturer personnel and their agents, consumers, purchasing managers, and buyers.

2771. Introduction to Logistics (3) (F,S) Control and flow of materials from raw materials to the consumer. Includes forecasting, procurement, inventory management, transportation, warehousing, and distribution networks.

2775. Industrial Blueprint Reading and Sketching (3) (F,S,SS) Blueprint reading principles contained in mechanical or engineering drawing.

3780.Warehousing and Materials Handling (3) (S) P: IDIS 2771. Warehousing operations and management, logistics, control, productivity, and analytical tools and techniques used to analyze and solve problems related to warehouse profitability.

3785: Global Logistics (3) (F,S) P: IDIS 2771. Evaluates impact of global and third party logistics. Intercoms, global logistics strategy, inventory management, global sourcing, issues related to global logistics documents and customs, and international transportation discussed in detail.

3790. Technical Presentations (3) (F,S,SS) Formerly ITEC 5290 Investigation and utilization of tools, techniques, and technical systems for transmitting information related to problems and issues of contemporary industry.

3795. Distributor Sales (3) (S) P: IDIS 2770. Role of industrial distributor salesperson in industrial distribution supply chain. SME Distributor Sales Certification Test required.

3800. Transportation Logistics (3) (F,S) P: IDIS 2770, 2771. Comprehensive examination of critical issues involved in domestic and international transportation, including logistical network design, third party selection, transportation regulations, shipment planning, and routing and scheduling.

3805. Purchasing Logistics (3) (F,S) P: IDIS 2771. Evaluates impact of logistical operating costs, strategies used to support logistical investments, and competitive ways to reduce capital costs. Purchasing and procurement issues related to logistics, warehousing, and supply chain management discussed in detail.

3815. Supply Chain Logistics (3) (F) P: IDIS 2771. Evaluates supply chain and its effects in logistics. Covers concepts and strategies used to design and manage supply chain, and explains relationship proper supply chain management has between industrial sales and logistics.

4502. Laboratory Problems: Industrial Distribution (3) (F,S,SS) P: Consent of instructor. Independent study of industrial distribution systems, processes, and concepts.

4504. Independent Study: Industrial Distribution (3) (F,S,SS) P: Consent of instructor. Research-oriented problem solving with tools, materials, and processes of industrial distribution field.

4802. Distribution Research (3) (S) P: Senior status and consent of instructor. Capstone course for all industrial distribution seniors. Application of new and innovative technologies used in industrial technology, industrial distribution, and logistics fields.

IDMR: INTERIOR DESIGN AND MERCHANDISING

I 135. Principles of Merchandising (3) (F,S) Formerly AMID I 135 Principles of merchandising as applied to textile, apparel, and interiors industries. Survey of supply, manufacture, distribution, and auxiliary industries and fashion terminology, creators, and careers.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive

Semester of course offering is not guaranteed. Anticipated semester of course offering:

(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P,C, or P/C

I 180. Interior Design Fundamentals (3) (F,S) Formerly AMID I 180 Principles of interior design, design process, and organization of design industry. Spatial planning, interior materials and elements, and design in residential and commercial interiors. Implications of social, psychological, and cultural influences on design and function of interior spaces. Relationship between human factors and social responsibility.

I 181. Interior Design Fundamentals Laboratory (3) (F,S) Formerly AMID I 181 6 lab hours per week. C: IDMR I 180. Application of the elements and principles of design as it affects the environment.

I 500. Color in Interiors: Theory and Application (3) (F,S) Formerly AMID I 500 6 lab hours per week. P: IDMR I 180, I 181. Intermediate study of color in interior design. Emphasis on color theories and systems, color interaction, psychological effects of color, and practical applications.

2003. Apparel Construction for Secondary Education (2) (SS) Formerly AMID 2003 C: IDMR 2004. Application and evaluation of techniques in teaching fabric selection and apparel construction.

2004. Apparel Construction for Secondary Education Laboratory (1) Formerly AMID 2004 3 lab hours per week. C: IDMR 2003. Application of construction principles. Interrelationship of fabric selection, pattern selection and alteration, and garment fit.

2034. Textiles (3) (F) Formerly AMID 2034 C: IDMR 2035. Textile fibers and fabrics. Emphasis on quality, performance, care, and selection. Introduction to textile industry.

2035. Textiles Laboratory (1) (F) Formerly AMID 2035 P: IDMR 2040; C: IDMR 2034. Assessment of textile fibers and fabrics as related to quality and performance.

2040. Textiles for Interiors (3) (S) Formerly AMID 2040 Textile products and fabrics for interiors. Emphasis on selection, performance, and care of interior textiles.

2239. Apparel and Human Behavior (3) (F) Formerly AMID 2239 Cultural, social, psychological, and economic aspects of apparel which affect selection and use of apparel by consumer.

2350. Merchandising Strategies (3) (F) Formerly AMID 2350 P: IDMR I 135. Introduces theories and concepts in soft goods retailing. Investigates strategic planning process in apparel and interiors retailing.

2700. Historic Interiors I: 3000 BC Through Mid-Nineteenth Century (3) (WI) (F) Formerly AMID 2700 Major styles of interiors from 3000 BC through mid-nineteenth century. Emphasis on influences and characteristics of styles in Italy, France, England, and North America.

2750. Historic Interiors II: Late Nineteenth and Twentieth Centuries (3) (WI) (S) Formerly AMID 2750 Major styles of interiors of late nineteenth and twentieth centuries. Emphasis on design movements, furniture and interior designers, manufacturers, and products, both nationally and internationally.

2800. Interior Design I: Residential Design (3) (F,S) Formerly AMID 2501 6 lab hours per week. P: IDMR I 180, I 181. Understanding of volumetric spatial solutions expressed through traditional design drafting, model making and various graphic presentation techniques. Fundamentals of residential building structures and systems. Introduction to programming interior space through needs assessments, and adjacency requirements. Implications of social, cultural and psychological influences on function, aesthetics and space planning of interior spaces. Application and analysis of graphic presentation techniques in communicating spatial planning, systems, and design.

2850. Interior Design II: Commercial Design (3) (F,S) Formerly AMID 2601 6 lab hours per week. Fundamentals of spatial planning, building structure, and design. Implications of social and psychological influences on design, needs assessment, and function of interior spaces. Application and analysis of graphic presentation techniques in communicating spatial planning and design in nonresidential spaces.

3001, 3002, 3003. Special Topics (1,2,3) (F,S) Formerly AMID 3001, 3002, 3003 May be repeated for credit with change of topic. P: Consent of instructor; may vary by topic offered. Special topics in selected areas of apparel, merchandising, and interior design. Variable titles, content, and hours.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

SECTION 8: COURSES

3050. Quality Analysis:Apparel (3) (S) FormerlyAMID 2050 P:IDMR 1135, 2034, 2035. Evaluates apparel construction through identification, differentiation, and analysis. Relationship between product quality and production, distribution, and consumption of apparel.

3200. Consumer Studies in Merchandising (3) (S) FormerlyAMID 3200 P:IDMR 2350. Consumer motivation and purchasing behavior in apparel and interiors products.

3307. Nineteenth and Twentieth Century Costume (3) (WI) (S) FormerlyAMID 3307 P:IDMR 2239. Chronological survey of development and characteristics of western dress from nineteenth century to the present.

3350. Merchandising Analysis (3) (F,S) FormerlyAMID 3350 P:IDMR 2350. Buying, management, and operations in apparel and interiors industry, including wholesale and retail. Emphasis on analysis techniques utilized by merchandisers.

3400. Visual Merchandising, Planning, and Operations (3) (S) FormerlyAMID 3400 P:IDMR 1135. Promotion of apparel and interior furnishings throughout production and distribution systems. Emphasis on merchandising concepts and strategies that convey product characteristics.

3550. Materials and Specifications for Interior Design (3) (F) FormerlyAMID 3550 P:IDMR 2040; junior standing; IDMR majors. Building materials and interior finishes. Emphasis on product knowledge, application, maintenance, and specification techniques.

3600. Interior Design III: Systems (3) (F,S) FormerlyAMID 3600 6 lab hours per week. P: DESN 3030, 3031; junior standing; interior design major. Fundamental principles of energy-driven systems as in residential and commercial interiors. Development of graphic presentation techniques.

3650. Kitchen and Bath Design (3) (SS) FormerlyAMID 3650 1 lecture and 4 lab hours per week. P: IDMR 3550, 3600. Fundamentals of kitchen and bath design. Emphasis on design detailing, ergonomics considerations, and universal design criteria. Client project required.

3700. Computer Aided Design in Interior Design (3) (F,S) FormerlyAMID 3700 6 lab hours per week. P: DESN 3030, 3031; junior standing; interior design major. Application of graphic presentation techniques using computer drafting programs. Problems in orthographic and three-dimensional forms in both residential and commercial interiors.

3883. Professional Development in Merchandising (2) (F) FormerlyAMID 3883 P: Senior merchandising majors; consent of instructor. Preparation for merchandising internship through development of management and leadership abilities.

3999. Professional Procedures in Interior Design (2) (S) FormerlyAMID 3999 P/C: Interior design major; COMM 2410 or 2420; all required major courses below the 4000 level. Interior design profession and support industries. Business practices such as documentation, contracting, subcontracting, bidding, and management of interior design services.

4001, 4002, 4003. Independent Study: Apparel, Textiles, Merchandising, and Interior Design (1,2,3) (F,S) FormerlyAMID 4001, 4002, 4003 P: Junior standing. Problems in apparel, textiles, merchandising, or interior design.

4209. Directed Study: Research in Merchandising (3) (WI) (S) FormerlyAMID 4209 P: Senior standing. Research methods and applications in merchandising of apparel, textile, and interior furnishing products.

4300. Global Economics: Textiles, Apparel, and Interior Furnishing Industries (3) (WI) (F) FormerlyAMID 4300 P: IDMR 2034 or 2040; ECON 2113. Global economic issues affecting these industries and their impact on merchandising and consumption of these end-use products.

4350. Merchandise Buying and Sourcing (3) (F,S,SS) FormerlyAMID 4350 P: IDMR 3350. Decision making in buying. Application of buying plan, sourcing alternatives, and computer in buying process.

4500, 4501. Interior Design IV and Laboratory: Universal Design (1,2) (F,S) FormerlyAMID 4500, 4501 1 classroom and 4 lab hours per week P: IDMR 3600, 3700; DESN 3030; C for 4500: IDMR 4501; C for 4501: IDMR 4500. Barrier-free interior design for all populations. Emphasis on physical aspects of the near environment which contribute to safety, comfort, and convenience. Barrier free space planning for all populations. Development of graphic presentation techniques.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive

Semester of course offering is not guaranteed. Anticipated semester of course offering:

(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

390 P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P, C, or P/C

4600, 4601. Interior Design V and Laboratory: Commercial Design (I,2) (4600:WI) (F,S) Formerly AMID 4600, 4601 1 classroom and 4 lab hours per week. P: IDMR 3600, 3700; C for 4600: IDMR 4601; C for 4601: IDMR 4600. Theories and principles of space programming applied to commercial interior design. Commercial codes and products for interiors. Planning for commercial interiors based on space programming. Specification of commercial interior products. Development of graphic presentation techniques.

4650. Advanced Computer-Aided Design (3) (F) Formerly AMID 4650 P: IDMR 3700; 4500, 4501, or consent of instructor. Advanced computer drafting of interior environments using two- and three-dimension and animated computer presentation. Commercial, institutional, and residential interior design problems are incorporated into course requirements.

4700. Problems in Interiors (3) (S) Formerly AMID 4700 6 lab hours per week. May be repeated for a maximum 6 s.h. P: IDMR 3600, 3700. Comprehensive design process as applied to development of residential or commercial interior design problem. Development of graphic presentation techniques.

4750. Interior Design for Adaptive Reuse (3) (WI) (SS) Formerly AMID 4750 6 lab hours per week. P: IDMR 3600, 3700. Synthesis of interior design knowledge and application to redesign of existing structures for contemporary use.

4880. Interior Design Internship (3) (SS) Formerly AMID 4880 200 work hours. P: IDMR 3999; senior interior design major; consent of instructor. Work experience involving application of interior design knowledge and skills under direction of professional interior designer.

4883. Merchandising Internship (3) (WI) (F,SS) Formerly AMID 4883 200 work hours. P: IDMR 3883; senior merchandising major; minimum cumulative 2.5 GPA; consent of instructor. Supervised work experience to enhance student's competency in merchandising through integration of theory and practice.

IDMR Banked Courses

2301. Computer Applications in Merchandising (3)

2500. Interior Design I: Introduction to Spatial Composition and Design (1)

2600. Interior Design II: Proxemics, Behavior, and Design Process (1)

4308. Professional Development in Merchandising, Apparel, and Textiles (3)

INTL: INTERNATIONAL STUDIES

1000. Introduction to International Studies (3) (F,SS) (GE:SO) Global perspective of major social, economic, geographical, political, and cultural issues affecting men and women. Introduction to INTL minor concentration areas.

2003. Introduction to Chinese Culture (3) (GE:HU) P: ENGL 1200. Culture of Chinese society and people.

2004. Introduction to Japanese Culture (3) Evolution of Japanese culture. Emphasis on changing social-cultural values of Japanese as a people.

2100, 2101. Arts and Sciences Abroad: Humanities (3,6) (GE:HU) 2100 for 3 s.h.: Minimum of 4 weeks abroad during summer; 42 classroom hours (including field trips). 2101 for 6 s.h.: Minimum of 13 weeks abroad during spring and/or fall; 6 s.h.; 84 classroom hours (including field trips). On-site exploration of particular culture and its literary and/or philosophical contributions.

2200, 2201. Arts and Sciences Abroad: Arts (3,6) (GE:FA) 2200 for 3 s.h.: Minimum of 4 weeks abroad during summer; 42 classroom hours (including field trips). 2201 for 6 s.h.: Minimum of 13 weeks abroad during spring and/or fall; 84 classroom hours (including field trips). On-site exploration of fine arts produced by particular foreign culture.

SECTION 8: COURSES

2300, 2301. Arts and Sciences Abroad: Science (3,6) (GE:SC) 2300 for 3 s.h.: Minimum of 4 weeks abroad during summer; 42 classroom hours (including field trips). 2301 for 6 s.h.: Minimum of 13 weeks abroad during spring and/or fall; 84 classroom hours (including field trips). On-site scientific field studies. Specific topics in biology, chemistry, geology, physics, and/or science education.

2400, 2401. Arts and Sciences Abroad: Social Sciences (3,6) (SS) (GE:SO) 2400 for 3 s.h.: Minimum of 4 weeks abroad during summer; 42 classroom hours (including field trips). 2401 for 6 s.h.: Minimum of 13 weeks abroad during spring and/or fall, 6 s.h.; 84 classroom hours (including field trips). On-site exploration of history, geography, political science, psychology, sociology, anthropology, and/or economics of particular region.

3010. Field Study in Latin America (6) P: Consent of instructor. Work under supervision of ECU faculty member approved by Latin-American Studies Committee.

3852. Cultural Environment of International Business (3) Same as MKTG 3852 P: Junior standing; 3 s.h. in ECON. Cross-cultural differences in international relations and business management. Study of strategies/tactics to overcome cultural barriers to international trade, investment, and human relationships.

5000. Senior Seminar in International Studies (3) (S) P: Consent of instructor or graduate standing. Diverse contemporary international issues. Topics determined by instructor may include ethical/normative perspectives in world community; demographic trends of population, food, and health; energy policies; environmental hazards such as climate and pollution; economic development; selected regional conflicts; and initiatives in transnational cooperation.

ITAL: ITALIAN

I001. Italian Level I (3) Lab work. May not count toward foreign language requirement. First of two-course sequence. Intensive training in basic skills of understanding, speaking, reading, and writing Italian. Focus on life and culture of Italy.

I002. Italian Level II (3) Lab work. May not count toward foreign language requirement. P: ITAL I001. Second of two-course sequence. Further intensive training in basic skills of understanding, speaking, reading, and writing Italian. Focus on life and culture of Italy.

I003. Intermediate Italian I (3) Lab work. P: ITAL I002 or equivalent. Emphasis on Italian reading ability, civilization, and Italy's most important writers.

I004. Intermediate Italian II (3) Lab work. P: ITAL I003 or equivalent. Emphasis on improving reading ability in Italian and acquainting students with Italian civilization and its most important writers.

2220. Italian Literature in Translation (3) (S) (GE:HU) May not be used to satisfy a language requirement. Selected works in Italian literature.

ITAL Banked Courses

I040. Conversational Italian Practiced in Italy (3)

I050. Introduction to Italian Lyric Literature (3)

ITEC: INDUSTRIAL TECHNOLOGY

2000. Industrial Technology Applications of Computer Systems (3) (F,S,SS) Technical and managerial aspects of computer applications and information technology in industry and engineering areas.

2010. Introduction to Industry and Technology (3) (F,S,SS) Foundation for advanced study in various technology specialization areas. Emphasis on basic technical and technical managerial concepts of manufacturing, construction, and service industries. Evolution of industry and career opportunities in broad fields of industry and industrial education.

2020, 2021. Materials and Processes Technology (3,0) (WI*) (F,S,SS) P: ITEC 2000. This course examines the factors, which influence the production and modification of materials into useful forms. Students learn about the various manufacturing processes and machinery used to convert raw materials into finished products. The course gives the student "hands on" experience with materials and processes used in industry.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive

Semester of course offering is not guaranteed. Anticipated semester of course offering:

(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

392 P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P, C, or P/C

2054, 2055. Electricity/Electronics Fundamentals (3,0) (F,S,SS) Formerly ELEC 2054, 2055 2 classroom and 2 lab hours per week. P: MATH 1065 or 1066 or 1085 or 2119. Electronic components and circuits. Study of communications and industrial control systems.

2080, 2081. Thermal and Fluid Systems (3,0) (F,S) P: ITEC 2000; MANF 2020, 2021. Basic elements of design and analysis of thermal and power systems including boilers, air conditioning, refrigeration, pumps, compressions, heat exchanges, and piping systems.

2090, 2091. Electromechanical Systems (3,0) (F,S,SS) P: ITEC 2054, 2055; C: MAATH 1065. A study of the design and analysis of electromechanical control systems. Includes the fundamentals of programmable controllers as well as practical applications of interfacing mechanical, electrical, pneumatic, and hydraulic systems and components.

3000. Internet Tools Technology (3) (F,S) P: DSCI 2223 or ITEC 2000 or equivalent experience. Experience-based introduction to Internet applications, communications, and collaboration methods for industry and other technical environments.

3100. Internship in Industrial Technology (3) (F,S,SS) Minimum of 240 hours of supervised, full- or part-time industrial or technical work experience. P: Consent of instructor and at least one semester as a full-time ECU student. First experience in technical and managerial problems of industry. Participation in weekly seminar or completion of eight concept papers.

3200. Introduction to Statistical Process Control (3,0) (F,S) P: MATH 1065 or 1066 or equivalent. Examination of statistical measures, tools, and methods employed to analyze and control variation in industrial processes. Course covers measures of central tendency and variation, frequency distributions and use of variable and attribute control charts.

3290. Technical Writing (3) (WI) (F,S,SS) P: ENGL 1200. Practice in writing about technical problems of significance to student.

3292. Industrial Safety (3) (F,S,SS) Formerly EHST 3292 P: Junior standing; completion of 12 s.h. of industrial technology courses. Causes and prevention of occupational accidents and health hazards. Emphasis on organization and operation of safety programs and development of safety consciousness.

3300. Technology Project Management (3) (S) (WI) Formerly ELEC 3300 3 lecture hours per week. P: ENGL 1200; ITEC 2000 or DSCI 2223 or equivalent experience. Systems needs analysis identification, functional requirements analysis, IT project timelines, and system development progress metrics.

4100. Internship in Industrial Technology (3) (F,S,SS) Supervised internship for student with industrial or technical experience. Minimum of 240 hours of supervised work experience. May be taken concurrently with ITEC 3100. P: ITEC 3100 or consent of instructor. Work experience and participation in weekly seminar. For students not within commuting distance of ECU, participation in the seminar may be waived in lieu of concept papers.

4293. Industrial Supervision (3) (WI) (F,S) P: Senior standing or approval of instructor. Fundamental and special techniques for supervising people in industrial or business work situation. Duties and responsibilities of supervisor. Emphasis on successful supervisory practices.

4300. Quality Assurance Concepts (3) (F,S,SS) P: 18 s.h. of technology core courses. Managerial, statistical, motivational, and technological aspects of quality control as practiced in manufacturing, construction, processing, and service industries.

5100. Internship in Industrial Technology (3) Supervised internship. P: Consent of graduate director. Placement in industrial or technical firm. Requires journal of related activities and final report.

SECTION 8: COURSES

JAPN: JAPANESE

1001. Japanese Level I (3) Lab work. First of four-course sequence. Intensive training in basic skills of understanding and speaking Japanese.

1002. Japanese Level II (3) Lab work. P: JAPN 1001 or placement in 1002 by Japanese placement test. Second of four-course sequence. Further intensive training in basic skills of understanding and speaking Japanese. Introduction to reading and writing Japanese.

1003. Japanese Level III (3) Lab work. P: JAPN 1002 or placement in 1003 by Japanese placement test. Third of four-course sequence. Further intensive training leading to more advanced achievement in understanding, speaking, reading, and writing Japanese.

1004. Japanese Level IV (3) Lab work. P: JAPN 1003 or placement in 1004 by Japanese placement test. Fourth of four-course sequence. Further intensive training leading to more advanced achievement in understanding, speaking, reading, and writing Japanese.

JUST: CRIMINAL JUSTICE

1000. The Criminal Justice System (3) (F,S,SS) Roles, problem areas, and suggested program changes for police and law enforcement, detention services, courts, community correctional services, and correctional institutions.

3003. Addiction, Crime, and the Criminal (3) P: JUST major. Crime relationship to alcohol and drug addiction and abuse.

3004. Crime and Criminality (3) (F,S) Formerly JUST 2000 P: JUST major. Systematic examination of criminal theories and causes of crime. Explores various disciplines of explaining crime and assessing strategies and policy issues which work to prevent crime.

3006. Security Systems (3) (S,SS) P: JUST major. Historical and current legal bases of security and loss prevention. Examines relationship between public and private security fields and criminal justice agencies.

3007. Criminal Investigation (3) (F) P: JUST major. Fundamentals include various types of physical evidence, collection and preservation of evidence, preliminary procedures, crime scene searches, major crime investigations, and court appearances.

3008. Correctional Systems (3) (F,S) P: JUST major. Federal, state, and local correctional operations. Role and purpose of correctional facilities, historical and philosophical development, management and organizational principles, custody and security operations, treatment and classification issues, custody levels of various correctional facilities for men and women, and role of correctional personnel.

3012. Police Operations (3) (S) P: JUST major. Role and operation of law enforcement organizations in US. Accountability, legal issues, and community relationships.

3101. Conflict Management (3) (F,S) Formerly JUST 3100 P: JUST major. Theoretical and practical bases for accurately assessing and responding to crises unique to criminal justice profession in order to reduce stress, violence, injury, or even death among citizens.

3102. Interviewing in Criminal Justice (3) (F,S) Formerly JUST 3100 P: JUST major. Examines interactions between criminal justice personnel and persons other than offenders, including victims, witnesses, children, and families. Develops interviewing skills.

3500. Principles of Criminal Law (3) (F,S) P: JUST or SOCW major; JUST 1000. Nature, sources, and types of criminal law. Detailed examination of selected specific criminal offenses, criminal liability, and defenses and basic legal research.

3501. Criminal Procedure (3) (WI) (F,S) P: JUST major. Rules and procedures governing criminal justice process from arrest through search, interrogation, indictment, arraignment, and trial until final sentence. Review and rights given to prisoners. Basic concepts of due process from the Constitution.

P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P, C, or P/C

3502. Correctional Law (3) (WI) (F,S) P:JUST major: Legal issues of confining prisoners and operating a correctional facility. Prisoners' rights, constitutional issues, and legal role and responsibilities of jails, prisons, and community correctional personnel. Role of courts in correctional matters. Development of correctional law in US.

3700. Public Safety in a Multicultural Environment (3) (F,S) P:JUST major: Issues related to public safety services in communities of cultural, ethnic, racial, philosophical, and moral diversity. Discrimination within system, including hiring, promotion, and assignment policies.

3800. Research Methods in Criminal Justice (3) (F,S) P:JUST major: Design, conceptualization, hypothesis formulation, measurement, sampling techniques, data management, and research writing as related to field.

4004. Criminal Justice History (3) (S) P:JUST major: Development of major aspects from pre-historic time to present. Past practices in American criminal justice and other societies.

4005. Organized Crime (3) (SS) P:JUST major: Type of individuals and organizations involved in organized crime, activities conducted, historical and socio-political forces which facilitate organized criminal behavior; structural aspects of organized crime, and official responses.

4006. Community Corrections (3) (F,SS) P:JUST major: Application of intervention methods within particular community service-delivery constructs.

4200. The Juvenile Justice System (3) (WI) (F,S) P:JUST major: Conditions under which delinquency occurs. Strategies and treatment interventions identified as most effective in dealing with delinquent behaviors. Role of juvenile court in prevention and control of delinquency. Emphasis on changing role of court and implications for professional practice.

4300. Criminal Justice Administration (3) (S) P:JUST major: Basic concepts of organization and management as applied to criminal justice organizations. Management principles, supervision, and leadership.

4401, 4402, 4403. Independent Study (1,2,3) (F,S,SS) May be repeated for maximum of 3 s.h. P:JUST major: Selected readings, research, or studies related to criminal justice. Faculty conferences arranged by student-faculty contracts for program approved by JUST program director.

4500. Issues and Problems in Criminal Justice (3) (F,S) To be taken by graduating JUST majors. Values, ethics, and major issues of concern to American criminal justice system.

4600. Special Topics in Criminal Justice (3,6) (F,S,SS) May be repeated for credit with change of topic. P:JUST major: Current topics and developments.

4990. Field Education and Seminar (9) (F,S) Supervised field education in approved agencies taken during final semester of program. 2 seminar hours per week; 4 days directed field education per week. Application for admission to this course must be received 2 semesters in advance of placement. P: Minimum cumulative 2.5 GPA to be eligible for consideration; completion of all required JUST and supportive area courses; selection based upon availability of appropriate placements and criteria specified in *Criminal Justice Student Handbook*.

SECTION 8: COURSES

1003. Latin Level III (3) P: Placement by examination; LATN 1002; or consent of instructor. Intensive review and application of basic skills of grammar acquired in LATN 1001-1002. Development of reading skills through selected works of major authors such as Cicero or Caesar.

1004. Latin Level IV (3) P: Placement by examination; LATN 1003; or consent of instructor. Continued development of reading skills and introduction to critical approaches to literature. Readings in poetry of major author such as Vergil, Catullus, or Ovid.

3001. Age of Cicero (3) (GE:HU) Formerly LATN 2021 P: LATN 1004 or consent of instructor. Literary and historical portrait of Rome from 133-44 BC. Readings in Latin from prose of Cicero, Caesar, and Sallust, and poetry of Lucretius and Catullus.

3002. Age of Augustus (3) (GE:HU) Formerly LATN 2022 P: LATN 3001 or consent of instructor. Literary and historical portrait of Rome from 44 BC-14AD. Readings in Latin from poetry of Vergil, Horace, Ovid, and Propertius, and prose selections from "Res Gestae" and other works.

4001. Silver Age Latin Literature (3) (GE:HU) Formerly LATN 3021 P: LATN 3002 or consent of instructor. Literary and historical portrait of Rome in first and second centuries AD. Readings in Latin from prose of Seneca, Suetonius, Tacitus, Quintilian, and Pliny the Younger, and poetry of Petronius, Lucan, and Apuleius.

4002. Roman Drama (3) (GE:HU) Formerly LATN 3022 P: LATN 4001 or consent of instructor. Roman drama with readings in Latin from comedies of Plautus and Terence and tragedies of Seneca.

4521, 4522, 4523. Directed Readings in Latin (1,2,3) May be repeated. P: Consent of instructor. In-depth exploration of selected aspect of Roman culture (literature, civilization, etc.).

LDVP: LEADERSHIP DEVELOPMENT

3401, 3402, 3403. Seminar in Leadership Development (1,2,3) (S) P: Nomination by student's dean/chair. Series of seminars acquaint students with variety of leadership experiences and patterns. Each seminar led by thought leader from different area of society.

LIBS: LIBRARY STUDIES

1000. Research Skills for Electronic and Print Resources (1) (F,S,SS) University electronic and print information sources.

3102. Research Sources and Techniques (3) Selection and research of topics in area of student's academic interests in general and major areas through reference and nonreference materials.

3200. The Art of Storytelling (3) (S) Selection, adaptation, evaluation, and use of storytelling in professions such as human services, business, education, recreation, health care, and entertainment. Emphasis on storytelling performance for audiences of all ages.

4950. Literature for Children (3) (WI) (S) May not count toward general education literature requirement or as advanced elective for ENGL majors. Literature for children from early childhood through junior high school.

MANF: MANUFACTURING

2076, 2077. Introduction to Computer Numerical Control (CNC) (3,0) (F,S) 2 hours lecture and 2 hours lab per week. P: ITEC 2000, 2010; DESN 2034, 2035. Review of fundamental manual programming for numerical control machines. Topics include CNC machine types, controls, safety, and coordinate measuring systems; CNC speed and feed calculations, tooling and fixturing; and programming CNC mills and lathes; computer controlled laser cutting and engraving. This self-paced course gives the student "hands on" experience with CNC machines and simulations in virtual reality.

3020, 3021. Introduction to Computer Integrated Manufacturing (3,0) (WI*) (F,S,SS) 2 lecture and 2 lab hours per week. P: ITEC 2090, 2091; MANF 2076, 2077. This course introduces computer integrated manufacturing processes. Students will develop a basic understanding of the manufacturing processes used to make products, the application and potential benefits of automation and computer integrated manufacturing (CIM) concepts. Provides the student with information on the way computer-based systems support the operation of a manufacturing business. The course gives the student "hands on" experience with tools and systems used in industry. Special attention is given to computer-aided design (CAD), computer-aided manufacturing (CAM), industrial robots and supporting technologies including automated data capture (primarily bar code). Fundamentals concepts are reinforced using industrial software and hardware.

3300. Plant Layout and Materials Handling (3) (S) P: MANF 3020. Course examines integrated plant layout and materials handling approaches. Covers simulation as an analytical tool.

3800. Cost and Capital Project Analysis (3) (S) P: MATH 1065; MATH 2283 or ITEC 3200. Economic analysis of technology alternatives. Valuation techniques, time value of money, cash flow analysis, cost estimation, taxes and depreciation, operations planning and control, project evaluation, accounting and budgeting tools.

4020, 4021. Manufacturing System Planning (3,0) (F) 2 lecture and 2 lab hours per week. P: ITEC 3292, 4300; MANF 2020, 2021. Processes for manufacturing various products. Emphasis on selection criteria such as safety, material, jigs, fixtures, layout, and overall efficiency.

4023. Advanced Manufacturing Systems (3) (F,S) P: MANF 4020, 4021. Advances in technology which occur in the manufacturing sector. Focus will be on computer-based technologies which improve productivity, reduce manufacturing costs, and produce high quality products.

4200. Work Methods and Ergonomics Analysis (3) (S) P: MANF 3300. Work methods and study of work measurement systems. Principles of motion study, work simplification, and work measurement by direct and predetermined motion-time systems.

4502. Laboratory Problems: Production (3) (F,S) 6 lab hours per week. P: MANF 3020. Independent study of industrial manufacturing systems, processes, and concepts.

4507. Laboratory Problems: Metals (3) 6 lab hours per week. P: MANF 2076, 2077. In-depth and independent study of concepts and/or processes of metals area, its tools, and materials. Emphasis on lab work.

5504. Independent Study: Manufacturing (3) May be repeated for credit with consent of dept chair. P: Consent of instructor. Research-oriented problem solving with tools, materials, and processes of manufacturing industries.

MANF Banked Courses

2066, 2067. Polymeric Materials (3,0)

2072, 2073. Metals Technology I (3,0)

SECTION 8: COURSES

MATE: MATHEMATICS EDUCATION

1067. Algebraic Concepts and Relationships (3) (F,S) (GE:MA) Same as MATH 1067 May not count toward MATH or CSCI major or minor. P: Appropriate score on math placement test. Properties of integers, rationals, real and complex numbers, and polynomials from an algebraic point of view; conjectures and intuitive proofs in number theory; properties of linear and quadratic functions. Representations of real-world relationships with physical models, charts, graphs, equations and inequalities. Emphasis on development of problem-solving strategies and abilities.

2123. Early Experiences for the Prospective Teacher (1) (F,S) Formerly MATH 2123 For prospective teachers. Minimum of 16 hours of directed observations and planned participation in appropriate school environments and 8 hours of seminar class instruction in the teaching area. May not count toward BA in MATH major or minor. P: MATH 2171. Introduction to teaching of mathematics.

2129. Basic Concepts of Mathematics II (2) (F,S,SS) Formerly MATH 2129 For elementary education majors. May not count toward MATH or CSCI major or minor. P: MATH 2127. Second course in sequence. Methods and language of geometry and relationship of geometry to real world.

2282. Data Analysis and Probability (3) (F,S) Same as MATH 2282 May not count toward MATH or CSCI major or minor. May receive credit for one of MATE or MATH 2282, 2935. P: MATE or MATH 1067. Collection of data from experiments and surveys. Organizing and representing data. Interpreting data for judging claims, making decisions, or making predictions.

2775. Topics in Discrete Mathematics (3) (S) Same as MATH 2775 For prospective teachers of secondary school math. May receive credit for one of MATE or MATH 2775, 3237 or MATH 2427. P: MATH 1085. Selected topics include counting techniques, graph theory, difference equations, recursion, iteration, induction, and dynamical systems.

2935. Data Analysis (3) (F) Same as MATH 2935 May receive credit for one of MATE or MATH 2282, 2935. P: MATH 1085. Introductory course utilizing hands-on approach to collection, representation, and interpretation of data. Topics include types of data, sampling techniques, experimental probability, sampling distributions, simulations, and hypothesis testing using collected data.

3004. Seminar in Secondary Mathematics Curriculum: Algebra (1) (S) Formerly MATH 3004 10 practicum hours per semester. May not count toward BA in MATH or minor. P: MATE 2123. Teaching and learning of introductory high school algebra.

3005. Seminar in Secondary Mathematics Curriculum: Geometry (1) (F) Formerly MATH 3005 10 practicum hours per semester. May not count toward BA in MATH or minor. P: MATE 2123; C: MATH 3233. Teaching and learning of high school geometry.

3006. Seminar in Secondary Mathematics Curriculum: Advanced Mathematics (1) (F) Formerly MATH 3006 10 practicum hours per semester. May not count toward BA in MATH or minor. P: MATE 3004, 3005. Teaching and learning of advanced high school mathematics.

3166. Euclidean Geometry (3) (F,S) Same as MATH 3166 May not count toward MATH or CSCI major or minor. P: MATE 1067 or MATH 1065 or 1067; 2127. Euclidean geometry using deductive and inductive mathematical reasoning. Formal proofs.

3218. Teaching Mathematics in Special Education (3) (F,S,SS) Formerly MATH 3218 4 lecture/lab hours per week. Lab and practicum experiences required. May not count toward MATH major or minor. P: Admission to upper division; MATH 1065, 2127; SPED 2000; at least one of the following: SPED 2102, 2103, 2104; RP: MATE 2129. Methods, materials, and techniques of teaching mathematics to special education students.

3223. Teaching Mathematics in the Elementary Grades K-6 (3) (F,S,SS) Formerly MATH 3223 2 lecture and 2 lab hours per week. P: MATE 2129. Techniques and methods for teaching mathematics to students in grades K-6. Lab provides deeper understanding of mathematical concepts and experience with materials and methods appropriate for classroom work.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive

Semester of course offering is not guaranteed. Anticipated semester of course offering:

(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P, C, or P/C

3237. Discrete Mathematics (3) (F) Same as MATH 3237 May not count toward MATH or CSCI major or minor. May receive credit for one of MATE or MATH 2775, 3237 or MATH 2427. P: MATH 2121. Logic and sets, mathematical induction, and matrices. Applications of discrete mathematics in probability, linear programming, dynamical systems, social choice, and graph theory.

3239. Applied Mathematics Via Modeling (3) (S) Same as MATH 3239 May not count toward MATH or CSCI major or minor. P: MATE or MATH 2282, 3166, 3237; MATH 2122. Real world problems that can be modeled with algebra, geometry, calculus, and statistical, probabilistic, discrete, or other mathematical techniques appropriate for prospective teachers of middle school mathematics. Mathematical modeling processes examined through historical and contemporary modeling success stories. Power and limitations of mathematical modeling.

4001. Technology in Secondary Mathematics Education (3) (F) Formerly MATH 4001 2 lecture and 2 lab hours per week. May not count toward MATH major or minor. P: Admission to upper division; MATE or MATH 2775, 2935; C: MATE 4323. Uses and implications of calculators and computers in secondary mathematics curriculum.

4319. Teaching Mathematics in the Middle Grades (3) (F) Formerly MATH 4319 4 hours per week and 10-12 hours of field experience. May not count toward MATH or CSCI major or minor. P: Admission to upper division; EDUC 3200; MIDG 3010, 3022; MATE or MATH 2282, 3166, 3237; MATH 2122 or consent of instructor; C: MIDG 4001, 4010; ENED or HIED or MIDG or SCIE 4319; or consent of instructor. Techniques and methods of teaching mathematics in grades 6-9.

4323. The Teaching of Mathematics in High School (3) (F) Formerly MATH 4323 4 hours per week. May not count toward BA in MATH or minor. P: MATE 2123. Modern methods and techniques used in teaching secondary school mathematics.

4324. Internship in Mathematics (10) (S) Formerly MATH 4324 Full-time, semester-long internship. May not count toward BA in MATH or minor. P: Admission to upper division; MATE 4323; C: MATE 4325; READ 3990. Observation and supervised teaching in mathematics in assigned public secondary school classroom.

4325. Internship Seminar: Issues in Mathematics Education (1) (S) Formerly MATH 4325 May not count toward BA in MATH or minor. P: Admission to upper division; MATE 4323; C: MATE 4324. Individualized study of problems or issues.

4501, 4502, 4503. Independent Study in Mathematics Education (1,2,3) For advanced mathematics education students. Number of hours per week will depend on credit hours and nature of work assigned. P: BS Math, Secondary major; mathematics concentration; consent of dept chair. Topics supplement regular curriculum.

5251. Modern Mathematics for Elementary Teachers I (3) Formerly MATH 5251 Not open to undergraduate or graduate math majors or minors. A teacher taking this course would receive certificate renewal credit and/or 3 s.h. of graduate elective credit in elementary education. P for undergraduate students: MATE 3223 or consent of instructor; P for graduate students: MATE 2129; MATH 2127; 3219 or 3221; or equivalent; or consent of instructor. Numeration systems and real numbers from axiomatic approach. Topics in geometry, algebra, probability theory, and number theory. Emphasis on relationship between these topics and school mathematics.

5263, 5264. Modern Mathematics for Junior High School Teachers I, II (3,3) Formerly MATH 5263, 5264 May not count toward MATH or CSCI major or minor. P for 5263: Consent of instructor; P for 5264: MATH 5263 or consent of instructor. Set theory, mathematical systems and proofs, number systems, elementary number theory, applications of mathematics in business, science, and other areas. Basic concepts of geometry, algebra, probability, and statistics.

5265, 5266. Microcomputers in Secondary Education (3,0) Formerly MATH 5265, 5266 2 lecture and 2 lab hours per week. May not count toward a MATH or CSCI major or minor. P: MATE 3166 or MATH 3166 or MATH 1075 or 1085; consent of instructor. Operation and programming of microcomputers in secondary school system.

5267, 5268. LOGO: A Computer Language for Educators (3,0) Formerly MATH 5267, 5268 2 lecture and 2 lab hours per week. May not count toward MATH major or minor. P: MATE or MATH 3166 or consent of instructor. LOGO and its uses with students K-12.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

SECTION 8: COURSES

MATH: MATHEMATICS

0001. Intermediate Algebra-A (2) (F,S,SS) May not be taken by students who have credit for MATH 0045, 1065, 1074, 1085, 2119, 2171, or who have passed the math placement test. May not count toward general education math requirement, certification, or degree. Remedial course in basic algebra; some sections may be taught in a lab/tutorial mode.

0045. Intermediate Algebra-B (2) May not be taken by students who have credit for MATH 0001, 1065, 1074, 1085, 2119, 2171, or who have passed the math placement test. May not count toward general education math requirement, certification, or degree. Remedial basic algebra. Some sections may be taught in lab/tutorial mode.

1050. Explorations in Mathematics (3) (F,S,SS) (GE:MA) May not count toward MATH major or minor. Fulfills general education MATH requirement for students whose major does not require a specific MATH course. Broad overview of mathematics and its relevance to life. Selected topics include at least four of the following: algebraic concepts, geometry, set theory and logic, number theory, discrete mathematics, statistics, consumer mathematics/finance, and history of mathematics.

1065. College Algebra (3) (F,S,SS) (GE:MA) May not be taken by students who have credit for MATH 1085. P: Appropriate score on math placement test. Topics include sets; linear; quadratic, polynomial, and exponential functions; inequalities; permutations; combinations; binomial theorem; and mathematical induction.

1066. Applied Mathematics for Decision Making (3) (F,S,SS) (GE:MA) Required for students planning to major in business administration or accounting. P: Appropriate score on the math placement test or approval of the dept chair. Skills in formulating models for and interpreting solutions to business word problems. Topics include linear and nonlinear equations, systems of linear equations, applications of matrix algebra, and applied basic differential calculus. No proofs included.

1067. Algebraic Concepts and Relationships (3) (F,S) (GE:MA) Same as MATE 1067 May not count toward MATH or CSCI major or minor. P: Appropriate score on math placement test. Properties of integers, rationals, real and complex numbers, and polynomials from an algebraic point of view; conjectures and intuitive proofs in number theory; properties of linear and quadratic functions. Representations of real-world relationships with physical models, charts, graphs, equations and inequalities. Emphasis on development of problem-solving strategies and abilities.

1074. Applied Trigonometry (2) (F,S,SS) Students who plan to take MATH 2171 must choose 1083 or 1085. May not be taken by students who have credit for MATH 1083 or 1085. P: MATH 1065. Practical and computational aspects of trigonometry. Properties of trigonometric functions. Use of tables, interpolation, logarithms, solution of right and oblique triangles, and applications.

1077. Pre-Calculus Concepts and Relationships (3) (S) May not count toward MATH or CSCI major or minor. P: MATH 1067. Modeling approach to study of functions (including logarithmic, exponential, and trigonometric functions), data analysis, and matrices. Foundation for future course work in calculus, finite mathematics, discrete mathematics, and statistics.

1083. Introduction to Functions (3) (F,S,SS) (GE:MA) May not be taken by students who have successfully completed MATH 1074 or MATH 1085. P: Consent of dept chair. Accelerated introduction to language of functions. Emphasis on trigonometry as a preparation for calculus sequence MATH 2171-73.

1085. Pre-Calculus Mathematics (5) (F,S,SS) (GE:MA) May not be taken by students who have credit for MATH 1074. P: MATH 1065 with minimum grade of C. Algebra and trigonometry for qualified students who plan to take calculus.

2119. Elements of Calculus (3) (F,S,SS) (GE:MA) May not receive credit for MATH 2119 after having received credit for a higher numbered calculus course. P: MATH 1065 with minimum grade of C. Elementary differentiation and integration techniques. Proofs not emphasized.

2121. Calculus for the Life Sciences I (3) (F,S,SS) (GE:MA) May not receive credit for MATH 2121 after taking MATH 2171. P: MATH 1065 or 1077 with minimum grade of C. Introductory differential calculus with biological sciences applications. Introduces differentiation of exponential and logarithmic functions. Applications to exponential biological phenomena, related rates, regions of increase and decrease, and extrema.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive

Semester of course offering is not guaranteed. Anticipated semester of course offering:

(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P,C, or P/C

2122. Calculus for the Life Sciences II (3) (F,S,SS) May not receive credit for MATH 2122 after taking MATH 2172. P: MATH 2121. Introductory integral calculus with biological sciences applications. Introduction to and applications of definite integrals. Introduces trigonometric functions with applications to periodic biological phenomena. Functions of several variables, partial derivatives, simple differential equations, and arithmetic of matrices and vectors.

2124. Elementary Mathematical Models (1) P: MATH 2171. Formulation and solution of various types of problems using techniques of establishing a mathematical model.

2127. Basic Concepts of Mathematics (3) (F,S,SS) (GE:MA) May not count toward MATH or CSCI major or minor. P: Appropriate score on math placement test. System of real numbers and subsystems and their properties from an algebraic viewpoint. Statistics and number theory.

2171. Calculus I (4) (F,S,SS) (GE:MA) P: MATH 1083 or 1085 or 2122 with a minimum grade of C. First of three-course sequence. Brief review of precalculus, limits and continuity, differentiation and its applications, and integration.

2172. Calculus II (4) (F,S,SS) (GE:MA) P: MATH 2171 or MATH 2122 with consent of instructor. Second of three-course sequence. Transcendental functions, applications of integrals, techniques of integration, and infinite series.

2173. Calculus III (4) (F,S,SS) (GE:MA) P: MATH 2172. Third of three-course sequence. Conics, parametrized curves, polar coordinates, vectors and analytic geometry in space, partial derivatives, and multiple integrals.

2228. Elementary Statistical Methods I (3) (F,S,SS) For students with limited mathematical training. May not count toward MATH major or minor. May receive credit for one of MATH 2228, 2283. P: MATH 1065 or equivalent. Collection, systematic organization, analysis and interpretation of numerical data obtained in measuring certain traits of a given population.

2282. Data Analysis and Probability (3) (F,S) (MA) Same as MATE 2282 May not count toward MATH or CSCI major or minor. May receive credit for one of MATE or MATH 2282, 2935. P: MATE or MATH 1067. Collection of data from experiments and surveys. Organizing and representing data. Interpreting data for judging claims, making decisions, or making predictions.

2283. Statistics for Business (3) (F,S,SS) May receive credit for one of MATH 2228, 2283. P: MATH 1065 or 1066 or equivalent. Sampling and probability distributions, measures of central tendency and dispersion, hypothesis testing, Chi-square, and regression.

2427. Discrete Mathematical Structures (3) Same as CSCI 2427 May not count toward MATH major or minor. May receive credit for one of MATE or MATH 2775, 3237, or MATH 2427. P: MATH 1065 or 1066. Structures of discrete mathematical structures. Special emphasis is given to those structures most important in computer science. Considers practical applications of the subject.

2775. Topics in Discrete Mathematics (3) (S) (GE:MA) Same as MATE 2775 For prospective teachers of secondary school math. May receive credit for one of MATE or MATH 2775, 3237 or MATH 2427. P: MATH 1085. Selected topics include counting techniques, graph theory, difference equations, recursion, iteration, induction, and dynamical systems.

2935. Data Analysis (3) (F) (GE:MA) Same as MATE 2935 May receive credit for one of MATE or MATH 2282, 2935. P: MATH 1085. Introductory course utilizing hands-on approach to collection, representation, and interpretation of data. Topics include types of data, sampling techniques, experimental probability, sampling distributions, simulations, and hypothesis testing using collected.

3100. Mathematical Methods for Engineers and Scientists (4) (F,S,SS) May not count toward MATH major or minor. May not be taken by students who have credit for MATH 2173 or MATH 3256 or MATH 4331. P: MATH 2172; or equivalent; or consent of instructor. Functions of several variables, partial derivatives, first and second order differential equations, matrices, determinants, cofactor expansions, vector spaces, linear independence/dependence, linear transformations, eigenvalues/eigenvectors, variation of parameters.

3166. Euclidean Geometry (3) (F,S) (GE:MA) Same as MATE 3166 May not count toward MATH or CSCI major or minor. P: MATE 1067 or MATH 1065; 2127. Euclidean geometry using deductive and inductive mathematical reasoning. Formal proofs.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

SECTION 8: COURSES

- 3174.Vector Calculus (3)** P:MATH 2173.Vector algebra and vector functions of single variable. Scalar and vector fields, line and surface integrals, and multiple integrals.
- 3229.Elementary Statistical Methods II (3)** For students with limited mathematical training.May not count toward MATH major or minor.P:MATH 2228 or equivalent. Collection, systematic organization, analysis, and interpretation of numerical data obtained in measuring certain traits of a given population.
- 3233.College Geometry (3) (F)** P:MATH 2171.Modern college geometry presented as outgrowth and extension of elementary plane geometry.Important theorems relative to nine-point circle, cross ratios, the geometry of circles, and solid geometry.Euclidean transformations discussed.
- 3237.Discrete Mathematics (3) (F) (GE:MA) Same as MATE 3237** May not count toward MATH or CSCI major or minor.May receive credit for one of MATE or MATH 2775, 3237 or MATH 2427.P:MATH 2121.Logic and sets, mathematical induction, and matrices.Applications of discrete mathematics in probability,linear programming, dynamical systems,social choice, and graph theory.
- 3239.Applied MathematicsVia Modeling (3) (GE:MA) Same as MATE 3239** May not count toward MATH or CSCI major or minor.P:MATE or MATH 2282, 3166, 3237;MATH 2122. Real world problems that can be modeled with algebra, geometry,calculus, and statistical, probabilistic, discrete, or other mathematical techniques appropriate for prospective teachers of middle school mathematics.Mathematical modeling processes examined through historical and contemporary modeling success stories. Power and limitations of mathematical modeling.
- 3256.Linear Algebra (3) (F,S,SS)** P:MATH 2172.Vector spaces, linear maps, matrices, systems of equations, determinants, and eigenvalues.
- 3263.Introduction to Modern Algebra (3) (WI) (F,S)** P: MATH 3256. Postulation viewpoint of modern algebra. Defining postulates for mathematical system exhibited from which properties of system are derived.Principal systems studied are groups, rings, fields, each fully treated with illustrative examples.
- 3307.Mathematical Statistics I (3) (F,S)** P:MATH 2172.Axiomatic development of theory of probability and its application to construction of certain mathematical models.
- 3308.Mathematical Statistics II (3)** P:MATH 3307. Construction of mathematical models for various statistical distributions. Testing of hypotheses and estimation, small-sample distributions, regression, and linear hypotheses.
- 3550,3551.Mathematics Honors (2,1) (F,S,SS)** Acceptance in program entitles student to register for MATH 3550 or 3551.P:Exceptional mathematical ability;MATH 2173 or consent of instructor.
- 3573.Introduction to Numerical Analysis (3) Same as CSCI 3573** P: CSCI 2510 or 2600;MATH 2119 or 2172 or equivalent.Algorithms suitable for digital computation in areas of linear algebra,linear programming, slope finding, area finding, and nonlinear equation solution.
- 3584.Computational Linear Algebra (3) (F,S,SS) Same as CSCI 3584** May not count toward MATH major or minor.P: Calculus course. Introduces vectors, matrices, and determinants.Special emphasis on application of linear algebra to solution of practical problems.
- 4031.Applied Statistical Analysis (3) (WI) (S)** P:MATH 2228 or 2283 or 3308;MATH 3256 or MATH/CSCI 3584; or equivalent; or consent of instructor.Topics include analysis of variance and covariance, experimental design, multiple and partial regression and correlation, nonparametric statistics, and use of computer statistical packages.
- 4101.Advanced Calculus I (3) (F,S)** P:MATH 2173 or consent of instructor.Axioms of real number system, completeness, sequences, infinite series, power series, continuity, uniform continuity, differentiation, Riemann integral, and Fundamental Theorem of Calculus.
- 4110.Elementary Complex Variables (3)** P:MATH 2173. Complex numbers, analytic functions, mapping by elementary functions, integrals, residues, and poles.

Semester of course offering is not guaranteed.Anticipated semester of course offering:

(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

402 P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P,C, or P/C

4201. Introduction to Stochastic Processes (3) P: MATH 3307 or equivalent or consent of instructor: Fundamental theory and models of stochastic processes. Expectations and independence, sums of independent random variables, Markov chains and their limiting behavior and applications, Poisson processes, birth and death processes; and Gaussian processes.

4264. Introduction to Modern Algebra II (3) P: MATH 3263. Continuation of development of topics begun in MATH 3263. Normal subgroups, factor groups, homomorphisms, rings, ideals, quotient rings, and fields.

4322. Foundations of Mathematics (3) (WI) (F) P: MATH 3233, 3263 or equivalent. Fundamental concepts and structural development of mathematics. Non-Euclidean geometries, logic, Boolean algebra, and set theory. Construction of complex number systems. Transfinite cardinal numbers and study of relations and functions. Topics developed axiomatically.

4331. Introduction to Ordinary Differential Equations (3) (F,S) P: MATH 2173. Linear and nonlinear differential equations.

4332. The Calculus of Finite Differences (3) P: MATH 2173. Discrete changes that take place in values of a function and its dependent variable due to discrete changes in independent variable.

4501, 4502, 4503. Independent Study (1,2,3) (F,S,SS) For advanced math students. Number of hours per week will depend on credit hours and nature of work assigned. P: MATH major; consent of dept chair. Topics supplement regular curriculum.

4550, 4551. Mathematics Honors (2,1) (F,S,SS) Acceptance in program entitles student to register for MATH 4550 or 4551. P: Exceptional mathematical ability; MATH 2173 or consent of instructor.

4774. Programming for Research (3) P: MATH 2228 or 2283 or equivalent. Emphasis on minimum-level programming skill and use of statistical packages.

4801. Probability Theory (3) (F) P: MATH 2173 or 3307. Axioms of probability, random variables and expectations, discrete and continuous distributions, moment generating functions, functions of random variables, Central Limit Theorem, and applications.

4999. Capstone and Statistical Consulting (3) (F,S) 1 hour lecture and 3 hours practicum per week. P: MATH 4031. Supervised statistical consulting experience related to prior coursework in statistics.

5000. Introduction to Sampling Design (3) (F) P: MATH 3308 or 3229 or consent of instructor. Fundamental principles of survey sampling. Data sources and types, questionnaire design, various sampling schemes, sampling and nonsampling errors, and statistical analysis.

5002. Logic for Mathematics and Computer Science (3) (S) Same as CSCI 5002 P: CSCI 3510 or MATE 3223 or 2775 or MATH 2427 or 2775 or 3256 or PHIL 3580 or equivalent. Methods of mathematical logic that have important applications in mathematics and computer science.

5021. Theory of Numbers I (3) P: MATH 3263 or consent of instructor. Topics in elementary and algebraic number theory such as properties of integers, Diophantine equations, congruences, quadratic and other residues, and algebraic integers.

5031. Applied Statistical Analysis (3) (WI) May not count toward math hours required for math MA. P: MATH 2228, 3584; or equivalent; or consent of instructor. Topics include analysis of variance and covariance, experimental design, multiple and partial regression and correlation, nonparametric statistics, and use of computer statistical package.

5064. Introduction to Modern Algebra II (3) May not be taken for credit by those having completed MATH 6011. P: MATH 3263 or consent of instructor. Continuation of development of topics begun in MATH 3263. Normal subgroups, factor groups, homomorphism, rings, ideals, quotient rings, and fields.

5101. Advanced Calculus I (3) P: MATH 2173 or consent of instructor. Axioms of real number system, completeness, sequences, infinite series, power series, continuity, uniform continuity, differentiation, Riemann integral, Fundamental Theorem of Calculus.

5102. Advanced Calculus II (3) P: MATH 3256, 5101; or consent of instructor. Mathematical analysis of functions of several real variables. Includes limits, continuity, differentiation, and integration of multivariable functions.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

SECTION 8: COURSES

5110. Elementary Complex Variables (3) May not be taken for credit by those having completed MATH 6111. P: MATH 2173. Complex numbers, analytic functions, mapping by elementary functions, integrals, residues, and poles.

5121. Numerical Analysis in One Variable (3) P: MATH 2173. Numerical analysis of problems with one independent variable. Solution of nonlinear equations in one unknown, interpolation and approximation of functions of one variable, numerical integration, and numerical differentiation and optimization.

5122. Numerical Analysis in Several Variables (3) P: MATH 2173, 3256, 4331. Numerical analysis of problems with several independent variables. Numerical solution of ordinary differential equations, systems of linear equations, numerical linear algebra and matrix algebra, systems of nonlinear equations, and systems of ordinary differential equations.

5131. Deterministic Methods in Operations Research (3) P: MATH 2173; 3307 or 5801. Mathematical models; linear programming; simplex method, with applications to optimization; duality theorem; project planning and control problems; and elementary game theory.

5132. Probabilistic Methods in Operations Research (3) P: MATH 2173, 3256; 3307 or 5801. Introduction to stochastic processes. Queuing theory with applications to inventory theory and forecasting, Poisson and Markov processes, reliability simulation, decision analysis, integer programming, and nonlinear programming.

5270. Pascal Using the Microcomputer (3) May not be taken by students who have successfully completed CSCI 2610. May not count toward MATH or CSCI major or minor. P: MATH 1065 or equivalent. Pascal language and use in problem solving utilizing a microcomputer.

5311. Mathematical Physics (3) Same as PHYS 5311 P: MATH 4331; PHYS 2360; or consent of instructor. Mathematical methods important in physics. Emphasis on application. Functions of complex variables, ordinary and partial differential equations, integrals and integral transforms, and special functions.

5322. Foundations of Mathematics (3) (WI) P: MATH 3233, 3263; or equivalent. Fundamental concepts and structural development of mathematics. Non-Euclidean geometries, logic, Boolean algebra, and set theory. Construction of complex number systems. Transfinite cardinal numbers and study of relations and functions. Topics developed as postulational.

5521. Readings and Lectures in Mathematics (3) Individual work with student.

5551. The Historical Development of Mathematics (3) P: MATH 3233; C: MATH 2172 or consent of instructor. History of mathematics from antiquity to present. Emphasis on study of significant problems which prompted development of new math. Uses computer resources and library for research of topics and solutions.

5581. Theory of Equations (3) P: MATH 2173 or consent of instructor. Topics include operations with complex numbers, De Moivre's Theorem, properties of polynomial functions, roots of general cubic and quartic equations, methods of determining roots of equations of higher degree, and methods of approximating roots.

5601. Non-Euclidean Geometry (3) P: MATH 3233 or consent of instructor. Non-Euclidean geometries, finite geometries, and analysis of other geometries from point of view of properties which remain invariant under certain transformations.

5774. Programming for Research (3) Same as CSCI 5774 For graduate student who wishes to use computer science to meet required research skills of his or her dept. May not count toward MATH major or minor. P: General statistics course or consent of instructor. Emphasis on minimum-level programming skill and use of statistical packages.

5801. Probability Theory (3) P: MATH 2173 or 3307. Axioms of probability, random variables and expectations, discrete and continuous distributions, moment generating functions, functions of random variables, Central Limit Theorem, and applications.

MGMT: MANAGEMENT

3202. Fundamentals of Management (3) (F,S,SS) Registration preference given to declared and intended majors with a minimum 2.5 GPA. P: ECON 2113. Organizational management, including managerial functions, understanding of individual needs and motivation, and managerial leadership.

3352. International Business (3) (F,S,SS) Registration preference given to declared and intended majors with a minimum 2.5 GPA. P: MGMT 3202. Framework within which international business is conducted. Analysis of typical business and economic problems in multinational business.

4001, 4002, 4003. Special Issues and Topics (1,2,3) (F,S) May be repeated for maximum of 3 s.h. P: Business major; consent of dept chair and instructor. Individual study of special issues and topics in management and business. Subject approved by instructor.

4242. Organizational Behavior (3) (F,S) Registration preference given to declared majors with a minimum 2.5 GPA. May receive credit for one of MGMT 4242, PSYC 3241. P: MGMT 3202. Human aspect of managing modern organizations. Modern theory and application of behavior with emphasis on applications.

4252. Entrepreneurship (3) (WI) (F) Registration preference given to declared majors with a minimum 2.5 GPA. P: FINA 3724; MGMT 3202; MKTG 3832. New venture creation and management.

4262. Small Business Management (3) (WI) (F,S) Registration preference given to declared majors with a minimum 2.5 GPA. 2 classroom and 2 lab hours per week. P: FINA 3724; MGMT 3202; MKTG 3832. Student teams provide management counseling to area small businesses under continued supervision of instructor. Travel necessary. Drivers must provide copy of valid driver's license and liability insurance. Drivers reimbursed for required travel.

4272. Managing the Family Business (3) (WI) Registration preference given to declared majors with a minimum 2.5 GPA. P: MGMT 3202. Business, personal, and interpersonal issues associated with family owned and managed firms.

4342. Organizational Change and Development (3) (F,S) Formerly MGMT 3342 Registration preference given to declared and intended majors with a minimum 2.5 GPA. Basic, yet comprehensive, overview of organizational development. Evolution of field, key concepts, and methods that drive organizational development; techniques to diagnose opportunities for change; and tools to implement and evaluate organizational development initiatives.

4343. Organizational Leaders and Leadership (3) (F,S) Formerly MGMT 3343 Registration preference given to declared and intended majors with a minimum 2.5 GPA. Current and emerging leadership theories as bases for discussing leadership ability of both historical and contemporary organization managers.

4352. Management in a Global Economy (3) (S) Registration preference given to declared majors with a minimum 2.5 GPA. P: FINA 4454 or MGMT 3352 or MKTG 4992. Application of US management practices in foreign economies and performance implications of applying foreign management practices in US economy. Ethical, legal, and social responsibility concerns.

4402. Human Resource Management (3) (F,S) Registration preference given to declared majors with a minimum 2.5 GPA. P: MGMT 3202. Management, procurement, development, maintenance, compensation, and utilization of effective working force by line and staff executives.

4422. Labor Relations (3) Registration preference given to declared majors with a minimum 2.5 GPA. P: MGMT 3202. Labor in US. History, structure and government of unions, labor law, collective bargaining processes, contract administration, and public sector organizations.

MIDG: MIDDLE GRADES EDUCATION

2123. Early Experiences for the Prospective Teacher (1) (F,S) Minimum of 16 hours of directed observations and planned participation in appropriate school environments and 8 hours of seminar class instruction. P: Sophomore standing or consent of instructor. Introduction to teaching for prospective middle-school teachers.

3001. The Middle Grades (3) (WI) 10 clock hours practicum. P/C: MIDG 2123. Nature of pre-adolescent and organizational structure of middle school which supports developmentally appropriate levels of each student. Emphasis on cognitive, social, moral, physical, and psychological domains of development. Shadow experience with middle grades students.

3010. Middle Grades Curriculum and Planning (4) 12 practicum hours per week. P: Junior standing; MIDG 3001; C: MIDG 3022. Planning of curricular lessons, units, and courses of study in middle grades. Emphasis on organization of curriculum within structure of interdisciplinary planning, teaming, and instruction.

3022. Instructional Models and Strategies for Middle Grades (3) P: MIDG 3001; C: MIDG 3010. Repertoire of teaching/learning strategies appropriate for middle-level classroom. Emphasis on practice and integration of strategies into curriculum planning process introduced in MIDG 3010.

4001. Organization, Management, and Motivation in the Middle Grades Classroom (3) 12 hours of clinical experience per week. P: Upper division status; MIDG 3010, 3022; C: MIDG 4010; choose 2 from ENED or MIDG; or HIED or MATE or SCIE 4319. Emphasis on organization and management of middle grades classroom. Application of motivation theory through case study and simulation integrated throughout class.

4010. Instructional Evaluation in Middle Grades (3) P: Upper division status; MIDG 3010, 3022; C: MIDG 4001; choose 2 from ENED or MIDG; or HIED or MATE or SCIE 4319. Traditional and authentic assessment for both middle grades students and teachers.

4319. Teaching English/Language Arts in the Middle Grades (3) Same as ENED 4319 12 hours of clinical experience per week. May not count toward general education humanities requirement or as an advanced elective for ENGL majors. P: Admission to upper division; EDUC 3200; MIDG 3001, 3010, 3022; 10 s.h. in ENGL; C: MIDG 4001, 4010; HIED or MATE or SCIE 4319. Curriculum design and methods of teaching language arts in grades 6-9.

4324. Internship in the Middle Grades (10) Full-time, semester-long internship. P: Admission to upper division; EDTC 4001; EDUC 4400 or PSYC 4305; EDUC 3200; MIDG 4001, 4010; READ 5317; choose two methods courses from MIDG, HIED, MATE, SCIE 4319; C: MIDG 4325. Structured clinical internship. Student teaches under supervision for extended period of time in two content areas in classroom situation.

4325. Internship Seminar: Issues in Middle Grades Education (2) C: MIDG 4324. Problems and/or issues vital to internship. Presentation of professional portfolio.

P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P, C, or P/C

5991, 5992, 5993. Readings in Middle Grades Education (1,2,3) (5993:WI) Each may be repeated once for a maximum of 6 s.h. P: Upper-level undergraduate or graduate status; consent of adviser. Directed readings on selected topics.

MKTG: MARKETING

3832. Marketing Management (3) (F,S,SS) Registration preference given to declared and intended majors with a minimum 2.5 GPA. P: ECON 2113. Marketing concepts and their relevance to corporate objectives and methods of operation. Marketing environment, marketing mix, marketing planning and strategies implementation, and assessment of marketing performance.

3852. Cultural Environment of International Business (3) (F,S) Same as INTL 3852 Registration preference given to declared and intended majors with a minimum 2.5 GPA. P: Junior standing and completion of 3 s.h. in ECON. Cross-cultural differences in international relations and business management. Study of strategies/tactics to overcome cultural barriers to international trade, investment, and human relationships.

4332. Professional Selling (3) Registration preference given to declared majors with a minimum 2.5 GPA. P: MKTG 3832. Role and activities of professional salesperson in modern marketing. Selling as profession, selected aspects of buyer behavior; sequential steps of selling process, and career development.

4342. Sales Force Management (3) Registration preference given to declared majors with a minimum 2.5 GPA. P: MKTG 4332. Role and activities of sales manager in modern marketing. Brief review of personal selling, role of sales function in organization, and managerial tasks of designing, developing, directing, and compensating sales force.

4352. Selling and Sales Management (3) (F,S) Registration preference given to declared majors with a minimum 2.5 GPA. P: MKTG 3832. Nature and importance of selling function, effective sales techniques, sales force recruiting, testing, selection, training, motivation, compensation, evaluation, and management.

4362. Retail Management (3) Registration preference given to declared majors with a minimum 2.5 GPA. P: MKTG 3832. Retail structure and organization. Buying, selling, and pricing. Sales promotions and customer services. Establishment of retail business. Retail accounting control.

4532. Business and Organizational Marketing (3) (F,S) Registration preference given to declared majors with a minimum 2.5 GPA. P: MKTG 3832. Strategic implications of marketing products or services to organizations. Focus on group buying processes, interfirm dynamics and relationship building, marketing mix considerations, and effects of global marketplace.

MUSC: APPLIED MUSIC, PRIVATE

Applied music fee for all private and group courses is \$31 per semester hour credit.

Courses in applied music are required for all music majors and are open to qualified nonmusic major university students when teaching time is available.

Minor applied students receive one half-hour lesson per week. Major applied students receive one hour lesson per week.

Each music major is required to have a performance medium. The minimum entrance performing proficiency level is III, and the minimum graduation level ranges from VI to VIII. A minimum of a half recital is required of all music majors for graduation; 2 recitals are required of performance majors. 2 semester hours credit per semester is required as a minimum for the major performing medium. Instruction is available for the following instruments:

01-Piano	08-Viola	14-Bassoon	19-Trombone
02-Organ	09-Cello	15-Clarinet	20-Euphonium
03-Harpsichord	10-String Bass	16-Saxophone (alto or tenor)	21-Tuba
05-Guitar	11-Flute	17-Trumpet	22-Percussion
06-Voice	13-Oboe	18-Horn	23- Jazz
07-Violin			

In addition to the above, instruments such as piccolo, English horn, bass clarinet, contrabassoon, etc., may be studied in conjunction with 1 of these applied majors, but not as a separate major or minor.

Catalog numbers are set by the registrar as follows: the first digit indicates level, the middle 2 digits indicate the applied areas as listed above, and the last digit indicates credit. Credit is variable: 1-4 s.h. If the last digit is 0, the applied music course is for students who do not meet minimum performance proficiency requirements as determined by the student's auditioning committee and the course may not count toward general education fine arts requirements, certification, or degree requirements.

Below are the catalog numbers and credit for each class. The 2 digits to be substituted for the blanks will indicate the applied

SECTION 8: COURSES

PHLY: PHYSIOLOGY

4330. Human Physiology (5) P: BIOL 1050, 1051; CHEM 1120. Physiological principles fundamental to living tissue. All body systems related to normal and pathological conditions in humans.

PHYS: PHYSICS

1050. Physics and the Environment (4) (F,S,SS) (GE:SC) Basic principles of physics and their uses and consequences in the world and our lives. Comprises, along with PHYS 1080, 1081 or 1090, 1091, a nonmathematical science sequence designed primarily for nonscience majors.

1080, 1081. Physics and the Universe (3,1) (F,S) (GE:SC) 3 lecture and 2 lab hours per week. C for 1081: PHYS 1080. Nonmathematical study of universe from earth to galaxies. Topics include appearance of sky, physical nature of moon and planets, birth and evolution of stars, and galaxies.

1090. Physics of Sound (3) (S) (GE:SC) Musical sound, including its properties, production, behavior, and reproduction. Topics include basic physical principles, sound reception and the ear, basic acoustics, and sound production by musical instruments.

1091. Physics of Sound Laboratory (1) (S) (GE:SC) 2 lab hours per week. C: PHYS 1090.

1250, 1260. General Physics (3,3) (F,S,SS) (GE:SC) P for 1250: MATH 1065 or 1066; P for 1260: PHYS 1250. Basic principles of physics, including mechanics, heat, thermodynamics, electricity, magnetism, light, wave motion, and modern developments in physics.

1251, 1261. General Physics Laboratory (1,1) (F,S,SS) (GE:SC) 2 lab hours per week. C for 1251: PHYS 1250 or 2350; C for 1261: 1260 or 2360. Experiments involving general concepts.

2021. Experimental Physics (1) (F-04) 3 lab hours per week. P: PHYS 1261, 2360. Experiments involving basic electricity and digital electronics concepts.

2350, 2360. University Physics (4,4) (F,S,SS) (GE:SC) C: MATH 2121 or 2171; P for PHYS 2360: PHYS 2350. Calculus-based introduction to basic principles of physics. Mechanics, thermodynamics, electricity and magnetism, optics, and modern physics.

3516, 3517, 3518. Problems in Physics (1,1,1) Equivalent of 1 lecture hour per week. P: Consent of instructor and dept chair. Research under faculty supervision.

3700, 3701. Advanced Laboratory (3,0) (3700:WI) (S) 1 lecture and 6 lab hours per week. P: PHYS 2360. Advanced experimental physics. Major writing requirement.

3716, 3717, 3718. Advanced Physics Laboratory (1,2,3) Equivalent of 2, 4, or 6 hours of lab work per week. May be repeated for maximum of 9 s.h. P: Consent of instructor and dept chair. Experiments and investigations to supplement any physics course.

4080, 4081. Astronomy (3,0) 2 lecture and 2 lab hours per week. P: PHYS 2360. Astronomy as birthplace of great concepts of physics. Nature of solar system, stars, and galaxies.

4120. Thermodynamics (3) (S-OY) P: PHYS 2360. Topics include laws of thermodynamics with applications and introduction to kinetic theory and statistical mechanics.

4226. Mechanics I (3) (F) P: MATH 2173; PHYS 2360. Topics include motion of particle and system of particles, statics of rigid bodies, gravitation, and moving coordinate systems.

4227. Mechanics II (3) P: PHYS 4226. Topics include mechanics of continuous media, Lagrange's and Hamilton's equations, rigid body rotations, and theory of small vibrations.

4310. Modern Optics (3) (F-EY) P: PHYS 2360. Topics include image information and ray theory, wave optics, optical transformation theory, and quantum optics.

4326. Electricity and Magnetism I (3) (F) P: MATH 2173; PHYS 2360. Topics include electrostatics, dielectrics, electric current, magnetic properties of steady currents and of matter, and electromagnetic induction.

4327. Electricity and Magnetism II (3) P: PHYS 4326. Topics include properties of slowly varying currents, Maxwell's equations, and electromagnetic waves.

4416. Modern Physics I (3) (F) P: PHYS 2360. Topics include special relativity, early quantum theory, solution to the Schrodinger equation, and theory of hydrogen atom and complex atoms.

4417. Modern Physics II (3) (S) P: PHYS 4416. Topics include nuclear models, elementary particles, quantum statistics, molecular structure, solid-state physics, and astrophysics.

4560. Mathematical Methods for Physics (3) (S) P: MATH 2173; PHYS 2360. Vector calculus, matrix applications, tier series, complex variables, and numerical methods.

4610. Electronics (3) (F-OY) 2 lecture and 2 lab hours per week. P: PHYS 2021, 2360. Theoretical and experimental survey of electric and electronic circuits.

5311. Mathematical Physics I (3) Same as MATH 5311 P: MATH 4331; PHYS 2360; or consent of instructor. Mathematical methods important in physics. Emphasis on application. Functions of complex variables, ordinary and partial differential equations, integrals and integral transforms, and special functions.

5400. Quantum Mechanics I (3) P: Intermediate modern physics. Fundamentals of quantum theory as applied to atomic and molecular systems.

5600, 5601. Modern Electronics (3,0) 2 lecture and 2 lab hours per week. P: PHYS 4610. Theory and application of modern electronic devices. Circuit design using linear, nonlinear, and hybrid integrated circuits and their application in a graphical (GUI), computer-based environment for scientific instrument and process control.

5700. Health Physics (3) P: PHYS 2600, 4417; or consent of instructor. Broad spectrum of topics in radiation protection. Emphasis on interactions of radiation with matter; methods of radiation detection, dosimetry; principles of shielding, and regulations pertaining to work with radiation.

5715. Biomedical Physics (3) P: BIOL 1050; CHEM 1160; PHYS 2360; or consent of instructor. Applications of physics principles in biology and medicine. Topics include statistical analysis, biomechanics, structure of cells and membranes, transport in medium and through membranes, interaction of photons and charged particles with biological systems.

5900, 5901. Computational Physics (3,0) 1 lecture and 4 lab hours per week. P: MATH 4331; PHYS 2360 or 5311. Application of modern computer program with symbolic, numerical, and graphical capabilities to problems in physics.

SECTION 8: COURSES

PLAN: PLANNING

I900. Planning for the Human Environment (3) (F,S,SS) Theories, concepts, and methodologies used to plan for man and environment. Planning process examined in context of urban, regional, environmental, site, and institutional scenarios.

3000. Urban Planning (3) (F,SS) Philosophy, theories, and principles involved in planning urban areas. History of urban planning profession, analysis of urban planning process, overview of institutional context within which planning occurs, and discussion of problems confronting contemporary urban areas.

3010. Regional Planning (3) (F,S,SS) Philosophy, theories, and principles of regional planning. History of regional planning and analysis of problems, issues, and techniques in planning regions.

3015. Planning for Circulation (3) (S) Theories and principles involved in planning for circulatory systems in urban and regional settings. Historical aspects of circulation, overview of planning concerns, and discussion of practice of planning as related to transportation.

3018, 3028, 3038. Planning Internship (1,2,3) (F,S,SS) Minimum of 50 hours of work responsibility per semester hour of credit. P: Completion of minimum of 80 s.h. of course work, including 4 of the 5 required core courses specified in BS in urban and regional planning degree; approval by member of planning faculty and dept chair based upon student's submitting written proposal indicating applicability of planning internship to his or her educational and professional objectives. Supervised experience with professional planning personnel in approved agency or organization.

3020. Environmental Planning (3) (F) Concepts and issues of environment in relation to planning and management principles and practices.

3021. Introduction to Planning Techniques (3) (F) 2 lecture and 2 lab hours per week. Communication, computation, data analysis, and other analytical techniques for effective urban and regional planning.

3022. History and Theory of Planning (3) (WI*) (F) Past and present planning concepts, methods, and theories. In-depth examination of evolution of cities and history of planning in US.

3031. Quantitative Analysis in Planning (3) (S) P: PLAN 3021 or consent of the instructor. Basic application in demographic, economic, land use, and transportation methods in policy context to develop effective community planning.

3032. Planning Legislation and Administration (3) (WI) (S) State enabling acts, zoning ordinances, subdivision regulations, and other legislative bases essential to effective planning. Administrative methods and theory presented in context of planning practice.

3041. Computer Applications in Planning (3) (F) 2 lecture and 2 lab hours per week. Various computer hardware, software, and operating systems for effective planning and design at urban and regional scales.

3051. Introduction to GIS in Planning (3) (F) 2 hours lecture and 2 hours lab per week. P: GEOG 3410 or consent of instructor. Overview of principles and applications of GIS in planning. Focuses on use of GIS to facilitate decision making in planning process.

4003. Urban Form and Design (3) (S) General types, scales, features, and determinants of urban form. Design concepts, problems, and potentials associated with urban development projects of varying scales.

4015. Emergency Management Planning (3) (F,SS) Case studies examine emergency management planning and techniques. Emphasis on mitigation of, preparation for, response to, and recovery from natural and technological disasters.

4021. Advanced GIS Applications in Planning (3) (S) 2 lecture and 2 lab hours per week. P: PLAN 3051 or GEOG 3410 or consent of instructor. Overview of advanced principles and applications of GIS in planning using vector, raster, and TIN data models. Focuses on use of GIS to facilitate and support decision-making in planning process.

4025. Housing and Neighborhood Planning (3) (F) Substantive and methodological issues related to housing and neighborhood planning. Current local, state, and federal statutory planning requirements in housing and community development examined in relationship to planning process.

4041. GPS Applications in Planning (3) (S,SS) 2 lecture and 1 lab hours per week. P: PLAN 305 I or consent of instructor. Provides an in-depth survey of Global Positioning Systems (GPS) technology developments, applications, concepts, and operation. Emphasis is on field data collection, processing, and integration with GIS to provide accurate mapping for many essential decision-making and planning applications.

4046. Planning and Design Studio (3) (F,S) 2 lecture and 2 lab hours per week. Analytical and practical skills involved in real world planning, development, and management.

4099. Practicum in Planning (3) (F,S) (WI) 1 lecture and 2 lab hours per week. Culmination of undergraduate preparation for professional practice. Planning process used to prepare high-quality planning document.

4132. Land Use Law (3) (S) A survey of land use law in the United States; covering the legal authority for land use regulations and the legal requirements of zoning ordinances and land use decisions.

4142. Technology Law and Economic Development (3) (F) This course is designed to introduce concepts and principles required for successful local government tech-based economic development; and to laws pertaining to protecting, licensing, and managing intellectual property.

4152. Environmental Law (3) (S) This course is designed to acquaint the student with the basic concepts and mechanisms of federal and state environmental law and policy.

5025. Coastal Area Planning and Management (3) 2 classroom and 3 studio hours per week. P: Consent of instructor. Conceptual approach to planning and management problems, policies, and practices in coastal area.

5035. Community Planning for Health Facilities (3) Theories, methodologies, and principles essential to establishing an effective community planning process for health facilities.

5045. Environmental Resources Planning and Management (3) Frame of reference for studying natural resources for purpose of development.

5065. Land Use Planning (3) (F) 2 lecture and 2 lab hours per week. Social, economic, physical, and environmental aspects of urban land use and planning. Other tools for effective planning.

5121, 5131. Problems in Planning (2,3) (5131:WI) 3 hours per week per credit hour. P: Consent of instructor. Analysis of specific problem in planning to be approved prior to registration.

5985. Historic Preservation Planning (3) Same as HIST 5985 Historic preservation planning. Examination of theoretical, legal, historical, and design bases of preservation planning.

- 3235. East European Political Systems (3) (F) (GE:SO)** Political structures, institutions, and processes of eastern European states. Communist legacy; socioeconomic transformations, and patterns of institutional change.
- 3236. The Soviet Successor States (3) (GE:SO)** Political structures, institutions, and processes in selected successor states of former Soviet Union, particularly Russia and Ukraine. Legacies of communism and current political, economic, and social transformations.
- 3240. State and Local Government (3) (F,S) (GE:SO)** May receive credit for one of POLS 2102, 3240. P: POLS 1010 or consent of instructor. Structures, principles, and policies of subnational government in US.
- 3241. Urban Political Systems (3) (S)** Issues confronting US urban areas.
- 3242. Municipal Policy and Administration (3)** Decision-making process in urban governments. Survey of selected policy areas.
- 3243. Comparative State Politics (3)** Major state political institutions, political context within which they function, and processes by which they work. Comparative analysis rather than detailed account of a particular state government.
- 3244. North Carolina Politics (3) (GE:SO)** Forces that shaped NC politics and public policy. Survey of NC government.
- 3252. Public Administration (3) (GE:SO)** Federal government administration and role of administrative agencies in formulation and implementation of public policy.
- 3253. Government Fiscal Administration (3)** RP: POLS 1010. Government budgeting, fiscal policy, principles, and problems of taxation.
- 3254. Governmental Personnel Administration (3)** RP: POLS 3252 or consent of instructor. Public personnel administration. Emphasis on modern personnel procedures in federal, state, and local jurisdictions.
- 3255. Domestic Public Policy (3) (S)** American policy-making process and major issues in several public policy areas.
- 3256. Environmental Politics (3) (F)** Energy and environmental policies, especially governmental responses to conflicting goals of clean environment and energy sufficiency.
- 3257. International Environmental Policy (3) (S)** Structures and processes used in formulation and implementation of international environmental treaties and agreements. Focus on international environmental policy, law, and cooperation.
- 3260. Middle Eastern Political Systems (3) (S) (GE:SO)** Comparative study of government and politics in selected countries of Middle East.
- 3265. African Political Systems (3) (GE:SO)** Comparative study of government and politics in selected countries in Africa.
- 3270. Latin-American Political Systems (3) (S)** Selected Latin-American governments. Emphasis on internal processes and systems.
- 3280. South Asian Political Systems (3) (SS)** Comparative analysis of development and change in India, Pakistan, Ceylon, and Burma.
- 3290. Conflict and Peace in the Post-Cold War Era (3) (S)** Political, economic, socio-cultural, and ecological issues in post-Cold War international system that structure nature of conflict and prospects for future cooperation and peace.
- 3293. International Organizations (3)** Origins, structures, and functions of United Nations, Organization of American States, North Atlantic Treaty Organization, and other international organizations.
- 3295. International Law (3)** P: POLS 2020 or consent of instructor. Basic survey of international law.
- 3297. International Political Economy (3) (F) (GE:SO)** P: POLS 2020 or consent of instructor. Major theoretical issues and political problems surrounding interaction of international politics and international economics.
- 3370. American Political Thought (3) (S) (GE:SO)** American political thought from Puritans to present.

SECTION 8: COURSES

4000. Political Leadership (3) P: 12 s.h. in POLS or consent of instructor. Theoretical analysis of leadership as defined, developed, and practiced in diverse political settings.

4107. Topics in Comparative Politics (3) May be repeated for maximum of 6 s.h. with change of topic. P: 12 s.h. in comparative government and politics courses or consent of instructor. Selected topics and issues include executive-legislative relations, ethnicity and nationalism, revolutions, etc.

4310. Public Policy and the Media (3) (S) (GE:SO) Role of media in formulation and analysis of public policies primarily in US, also comparisons with other nations.

4321. Contemporary Southern Politics (3) (S) Comprehensive study of southern regional politics. Emphasis on role of mass movements, power structures, political parties, and factionalism. Underlying cultural and economic factors.

4360. Politics of Developing Areas (3) (GE:SO) Major theoretical issues and political problems central to processes of modernization and socioeconomic development in Third World.

4371. Western Political Thought I: Moses to Montesquieu (3) RP: POLS 2070. Major political thinkers from ancient Hebrews to Enlightenment.

4373. Western Political Thought II: Rousseau to Camus (3) RP: POLS 2070. Major political thinkers from romantic period to Existentialism and "New Left."

4380. Topics in International Politics (3) May be repeated for maximum of 6 s.h. with change of topic. P: POLS 2020 or consent of instructor. Selected topics and issues in contemporary international politics.

4382. Politics of Terrorism (3) (S) Explores the phenomenon of terrorism throughout the world with a particular focus on characteristics of terrorism, reasons why groups choose terrorist action, and issues in counterterrorism.

4383. War in the Modern Age (3) Broad-ranging study of politics of modern war: Causes, weaponry and strategy, and effects. Arms control issues and analysis of potential for armed conflict in post-Cold War era.

4501, 4502. Independent Study in Political Science (1,2) (WI,WI) (F,S,SS) May count maximum of 6 s.h. of POLS 4501, 4502, 4521, 4522, 4981, 4982, 4992 toward any degree offered by the political science dept. P: Consent of dept chair. Individualized program developed through student initiative in consultation with professor of choice as an extension of material offered through formal courses in departmental curriculum. Available only as extended study program when regular course offerings in a particular field of discipline have been exhausted and student is interested in additional study in that field.

4521, 4522. Directed Readings in Political Science (1,2) (F,S,SS) May count maximum of 6 s.h. of POLS 4501, 4502, 4521, 4522, 4981, 4982, 4992 toward any degree offered by the political science dept. P: Consent of dept chair. Advanced students read basic literature in field.

4551, 4552. Honors (3,3) (WI,WI) (F,S,SS) P for 4551: POLS major; invitation to participate in honors program; P for 4552: POLS 4551 with a minimum grade of B.

4981, 4982. Internship in Practical Politics (1,2) (F,S,SS) 6 hours per week for 4981; 12 hours per week for 4982. May be taken concurrently. May count maximum of 6 s.h. of POLS 4501, 4502, 4521, 4522, 4981, 4982, 4992 toward any degree offered by the political science dept. P: Consent of dept chair. Experiential learning under academic supervision in political setting.

4991, 4992. Internship in Public Administration (1,2) (F,S,SS) 6 hours per week for 4991; 12 hours per week for 4992. May be taken concurrently. May count maximum of 6 s.h. of POLS 4501, 4502, 4521, 4522, 4981, 4982, 4991, 4992 toward POLS BS degree; may consult dept chair for waiver to count 6 s.h. toward BS degree. P: Consent of instructor. Experiential learning under academic supervision in public agency setting.

5000. American Government and Politics (3) May not count toward POLS major or minor or MPA degree. P: Consent of instructor. Introductory survey of readings in American national government and politics for students interested in graduate work, but who have no undergraduate background in political science or public administration.

PSYC: PSYCHOLOGY

1000. Introductory Psychology (3) (F,S,SS) (GE:SO) May receive credit for one of PSYC 1000, 1060. General survey of fundamental principles underlying human behavior: Introduction, learning, memory, development, physiological, motivation, social and abnormal behavior; and one or two additional topics as time permits.

1060. Honors Introduction to Psychology (3) (F,S) (GE:SO) May receive credit for one of PSYC 1000, 1060. Introduction to fundamental concepts in psychology in seminar format.

2101. Psychological Statistics (4) (F,S,SS) (GE:SO) 3 lecture and 2 lab hours per week. P: MATH 1065 or equivalent or MATH 2127; PSYC 1000 or 1060. Descriptive statistics. Measures of central tendency, variability, and correlation. Probability, with emphasis on sampling distributions used for prediction and hypothesis testing. Selection, computation, and interpretation of parametric and nonparametric inferential statistics, including introduction to analysis of variance.

2201. Psychology of Childhood (3) (F,S,SS) (GE:SO) May not count toward PSYC major or minor. P: PSYC 1000 or 1060. Psychological bases of growth and development of children. Brief introduction of major theories and scientific findings and their application to learning, cognitive development, motivation, personality, and social relations (including parent-child, peers, and school relations).

2210. Experimental Psychology (4) (WI) (F,S) (GE:SO) P: MATH 1065 or equivalent or MATH 2127; PSYC 2101. Methods of experimentation, including problems of experimental control and data evaluation.

2250. Selected Topics in Psychology (3) (GE:SO) P: PSYC 1000 or 1060. Important current developments. Topics vary according to faculty preferences.

2275. Psychology of Adjustment (3) (F,S,SS) (GE:SO) P: PSYC 1000 or 1060. Overall dynamic adjustive process in individuals in situations of stress, frustration, conflict, disease, disability, and other psychologically thwarting situations.

3206. Developmental Psychology (3) (WI*) (F,S,SS) (GE:SO) P: PSYC 1000 or 1060. Psychological development throughout life span. Emphasis on perceptual, cognitive, social, and personality development.

3221. Social Psychology (3) (F,S,SS) (GE:SO) P: PSYC 1000 or 1060. Interaction of individual and society. Topics include study of basic psychological factors such as perception and motivation, which shape and reflect social influence; nature, formation, and change of attitudes; attitude measurement; conformity; role expectations; leadership and dynamics.

3225. Psychology of Learning (3) (F,S,SS) (GE:SO) P: PSYC 1000 or 1060. Introductory survey of experimental methods, basic research, principles, and theories of learning and forgetting.

3226. Human Learning and Cognition (3) (F,S,SS) (GE:SO) P: PSYC 1000 or 1060. Principles of learning. Focus on human research and cognition. Topics include attention, perception, consciousness, memory, concept learning, language, symbolic behavior, and problem solving.

3240. Psychology of Adolescence (3) (F,S,SS) (GE:SO) May not count toward PSYC major or minor. P: PSYC 1000 or 1060. Nature and source of adolescent problems and behavior in Western culture in areas of physical, emotional, social, intellectual, and personality development.

In-depth overview of psychology as a science organized around five main questions: How do humans (and, where relevant, animals) act, how do they know, how do they interact, how do they develop, and how do they differ from each other?

4280. History of Psychology (3) (WI) P: PSYC major; PSYC 2210; 2 courses from learning and cognition, biological bases, or general course groups. Psychological thought from ancient Greek philosophers to present.

4305. Educational Psychology (3) (F,S,SS) P: PSYC 2201 or 3206 or 3240 or equivalent. Psychological principles applied to educational settings, including learning, motivation, classroom management, and psychological assessment.

4312. Laboratory Methods in Behavioral Neuroscience (3) Formerly PSYC 5312, 5313 1 lecture and 4 lab hours per week. P: PSYC 3310, 3311; or consent of instructor. Basic techniques of animal surgery, histological, examination, drug administration, and behavior testing.

4315. Neuroscience: Literature and Laboratory Experience (3) (F,S) Formerly PSYC 5315, 5316 1-hour seminar and 8 hours lab per week. May be repeated for maximum of 12 s.h. May count a maximum of 12 s.h. toward PSYC major. P: PSYC 2210; 3310 or 3311; consent of instructor. Recently published research in behavioral neuroscience and lab work on ongoing research project.

4333. Contingency Management in the Classroom (3) (F,S) P: PSYC 3225 or 3226. Application of elementary principles of learning to classroom situations.

4335. Psychology of Women (3) (GE:SO) P: PSYC 1000 or 1060. Psychological issues pertaining to women. Impact of sex and gender on cognitive and personality development, mental health, methodological issues in research, roles of women in psychology, and influence of feminist theories.

4340. Behavioral Pharmacology Seminar (3) Formerly PSYC 5320 P: PSYC 3310, 3311; or consent of instructor. Behavioral and neurophysiological effects of psychoactive drugs in experimental animals and clinical populations.

4350. Psychology of Sexual Behavior (3) P: 6 s.h. of PSYC to include PSYC 1000 or 1060. Research relating to psychological aspects of sexual behavior: Historical and cultural perspectives and conventional and unconventional sexual expression.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive

Semester of course offering is not guaranteed. Anticipated semester of course offering:

(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P, C, or P/C

4372. Psychology of Thinking (3) P: PSYC 3225, 3226; or equivalent; or consent of instructor: Theory and research on complex human behavior: Focus on problem solving, conceptual behavior; memory, psycholinguistics, and creativity.

4375. Abnormal Psychology (3) (F,S,SS) (GE:SO) P: PSYC 1000 or 1060. Systematic appraisal of development of human deviant behavior: Examination of formation of deviancy and current diagnostic procedures.

4401. Thesis Research (3) P: PSYC major; PSYC 2210. Research under direction of full-time faculty member leading to preparation of written senior thesis proposal.

4402. Senior Thesis/Project (3) (WI) 9 lab hours per week. P: PSYC major; PSYC 4401; 2 courses from the learning and cognition, biological bases, or general course groups. Design, conduct, analyze, interpret, and write up an experiment. Conducted in lab or field setting.

4501, 4502. Psychological Research I, II (2,2) (F,S,SS) P: PSYC 1000 or 1060; consent of instructor and dept chair. Supervised research involving planning, conducting, and writing of behavioral study.

4521, 4522, 4523. Readings in Psychology (1,1,1) (F,S,SS) Application form obtained from Department of Psychology. No class meetings; performance mode and reporting to be arranged with the instructor. P: PSYC major; PSYC 1000 or 1060. Survey, review, and/or critical analysis of reading material appropriate to students' interests and needs.

4601. Honors Research (3) To be taken in second semester of junior year. P: PSYC 2210; admission to PSYC Honors Program. Research with full-time faculty member leading to preparation of written senior thesis proposal.

4602. Senior Honors Thesis (3) (WI) Satisfies departmental requirements for capstone course. Minimum of 9 hours per week. P: PSYC 4601 with minimum grade of B. Research with full-time faculty member resulting in senior thesis.

4990, 4991, 4992. Field Experience in Psychology (1,1,1) (F,S) May be taken concurrently. Approximately 10 hours per week for 1 s.h. credit. May count maximum of 3 s.h. field experience toward PSYC major. Additional hours may count as general electives. P: PSYC major; minimum cumulative and major 2.0 GPA; 9 s.h. in PSYC; consent of dept chair. Application of concepts and principles from related courses to applied situations in field. Lab and/or field experiences under joint supervision of field supervisor and university instructor.

5250. Topics in Psychology (3) (WI*) P: Minimum of 9 s.h. in PSYC. Selected topics at advanced level. Topics vary.

5311. Sensation and Perception (3) P: PSYC 3310, 3311; or consent of instructor: Psychophysics and psychophysiology of various sense systems together with current theoretical approaches to perception.

5325. Introduction to Psychological Testing (3) P: PSYC 1000 or 1060; a statistics course. Principles of testing, including requirements for validity, reliability, norm samples, and examples of psychological tests.

5380. Psychology of the Exceptional Child (3) P: PSYC 1000 or 1060. Study of children who are markedly different from the average child in physical, mental, emotional, academic, or social characteristics.

5400. Advanced Gerontology (3) P: PSYC 1000 or 1060; GERO 2400 or consent of instructor. Seminar on psychological research and its applications to the aged.

5990, 5991, 5992. Field Experience in Psychology (1,1,1) May be taken concurrently. Accepted graduate psychology students spend approximately 10 hours per week per credit hour in lab/field experiences under joint supervision of field supervisor and university instructor. May count maximum of 3 s.h. of field experience toward BA or MA PSYC requirement. Additional hours may count toward electives. P for undergraduate students: PSYC major; 9 s.h. in PSYC; minimum cumulative and PSYC major 2.0 GPA; dept consent. P for graduate students: PSYC major; minimum cumulative and major GPA of 3.0 in PSYC; dept consent. Application of concepts and principles from related courses to applied situations in the field.

PSYC Banked Courses

2010. Memory and Thinking (3)

2150. Applied Psychology (2)

4320, 4321. Behavioral Research (3,0)

5370. Mental Hygiene in Schools (2)

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

(GE:EN)=English; (GE:EX)=Exercise and Sport Science; (GE:FA)=Fine Arts; (GE:HL)=Health; (GE:HU)=Humanities; (GE:MA)=Mathematics; (GE:SC)=Science; (GE:SO)=Social Science

SECTION 8: COURSES

RCLS: RECREATION AND LEISURE STUDIES

2000. Introduction to Leisure Services (3) (F,S,SS) Introduction to profession of recreation and contemporary leisure services.

2230. Recreational Therapy Foundations (3) (F,S) P: RCLS 2000 or consent of instructor: Overview of therapeutic recreation profession. Historical development, service delivery models, and service settings across health care continuum. Emphasis on recreational therapy, treatment process, and outcomes of treatment services. Professional development and components of professional behavior.

SECTION 8: COURSES

4700, 4701, 4702. Independent Study in Recreation (1,2,3) (F,S,SS) 3 hours per week per 1 s.h. credit. May be repeated for credit with change of topic up to 6 s.h. P: RCLS 2000 or consent of instructor. Work with recreation faculty member on project directly related to recreation profession.

4901. Management of Recreation Facilities and Services Internship Pre-Placement Seminar (1) (F,S) To be taken in semester preceding RCLS 4990. P: Declared MRFS major; minimum cumulative 2.0 GPA; consent of RCLS adviser. Explores purpose and objectives of internship experience. Utilizes resources to identify and obtain quality internship placement. Instruction related to internship academic assignments.

4902. Recreational Therapy Internship Pre-Placement Seminar (2) (F,S) To be taken in semester preceding RCLS 4990. P: Declared RT major; minimum cumulative 2.0 GPA; consent of RCLS adviser. Purpose and objectives of internship experience. Utilization of resources to identify and obtain quality internship placement. Instruction related to internship academic assignments.

4990. Recreation Internship (12) (WI) (F,S,SS) P: Senior standing; declared RT or MRFS major; RCLS 4901 or 4902; minimum cumulative 2.0 GPA; minimum grade of C in all RCLS courses; successful completion of all other degree requirements and current certification in First Aid and CPR. In-depth practical work experience with approved professional agency or business. Direct supervision of approved full-time professional.

5000. Theoretical Foundations of Aquatic Rehabilitation (3) Examines treatment principles in aquatic rehabilitation environment. Develop understanding of benefits, contraindications, and use of aquatic therapy to address needs of participants with specific health conditions.

5001. Applied Techniques in Aquatic Rehabilitation (3) P: RCLS 5000 or consent of instructor. Develop fundamental techniques in aquatic therapy. Additional attention to management of aquatic rehabilitation services.

5100. Aquatic Facility Management (3) Operation, maintenance, and management of aquatic facilities used for recreation, exercise, therapy, competition, education programs, and other aquatic-related programs.

5101. Waterfront Facility Operations (3) Principles and practices of waterfront facility management, maintenance, and operations.

5111. Recreational Facility Management (3) P: RCLS 3104 or 3120 or consent of instructor. Principles and practices of parks and recreational facility management, maintenance, operations, and evaluation.

5130. Biofeedback: Principles and Practices (3) Formerly RCLS 6130 Introduces basics of biofeedback, its history, instrumentation, and intervention techniques, including assessment, treatment, and evaluation processes. Covers clinical (treatment of pathology) and nonclinical (human performance) applications of biofeedback.

5131. Biofeedback Lab (1) Develop biofeedback skills by directly applying biofeedback techniques in a variety of health and human performance related situations. Introduces various feedback measuring and monitoring systems.

READ: READING

0092. Remedial Reading (0) Base for continued practice in improving reading instruction for teachers. Aids freshmen and other undergraduates whose SAT scores indicate individual difficulties in vocabulary power; comprehension, speed, and functional reading skills.

1031. Personalized Reading for Speed and Understanding (1) 1 classroom hour per week plus completion of individualized prescriptions. Not open to students in READ 0092. Individualized to assess and increase student's study skills, reading power, and efficiency.

1032. Reading as a Language Process (1) 2 classroom hours per week. May not count toward certification or degree. P: READ 0092 or 1031 or placement by testing. Language arts approach to reading improvement based on test results. Expands student's understanding of reading process and provides strategies for deepening reading comprehension.

1033. Reading Skills for Academic Study (1) 2 classroom hours per week. May not count toward certification or degree. P: READ 1031 or 1032 and/or placement by testing. Development of knowledge and use of specialized reading and study skills for effective study in various academic areas as indicated by test results. Functional approach for learning study strategies used in literature, social sciences, sciences, and math.

1034. Reading for Appreciation and Evaluation (1) 2 classroom meetings per week. May not count toward certification or degree. P: READ 0092, 1031, and/or placement by testing. Development of evaluative and creative reading abilities using wide variety of printed media.

3204. Fundamentals of Reading (3) (F,S,SS) Practicum required. P: ELEM 3250. Development of student's knowledge of total reading program, including word recognition, comprehension, whole language, developmental reading program, and strategies for teaching reading.

3205. Diagnostic/Prescriptive Teaching of Reading (3) (F,S,SS) P: READ 3204; C: READ 3206. Diagnosis of individual's needs, levels of reading, and design of reading programs on basis of group and individual prescriptions.

3206. Practicum in Diagnostic/Prescriptive Teaching of Reading (1) (F,S,SS) P: READ 3204. Diagnostic/prescriptive instruction of child in clinical setting.

3210. Assessment, Design, and Implementation of Elementary Classroom Reading Instruction (3) (F,S,SS) P: Admission to upper division; READ 3204. Assessment, design, and implementation of instructional reading program in group and whole class settings at primary and intermediate levels.

3211. Practicum in Assessment, Design, and Implementation of Elementary Classroom Reading Instruction (1) (F,S,SS) 3 lab hours per week. P: READ 3204; C: READ 3210. Assessment, design, and implementation of reading instruction at primary and intermediate levels.

3990. Teaching Reading in the Content Areas in the Secondary School (2) (F,S,SS) May receive credit for one of READ 3990, 5317. P: Secondary education and designated K-12 program majors. Knowledge and skills necessary to assure continuing development of student's reading capabilities.

4532, 4533, 4534. Problems in the Teaching of Reading (1,2,3) (F,S,SS) May count maximum of 3 s.h. P: Consent of instructor and dept chair. Independent study of problems in teaching of reading.

5312. Improvement of Reading Instruction (3) May not be taken by students who have had READ 3204. Beginning reading process. Understanding of essential skills. Early detection and remediation of possible reading problems.

5313. Reading Remediation and Practicum (3) May not be taken by students who have completed READ 3205. P: READ 3204 or 5312. Guidance in designing reading programs on basis of individual and group presentations. Practicum experience in guiding individual and group student activities in reading instructional program.

5316. Applied Phonics (3) Skill in phonics as one kind of help in identifying written words. Essentials of phonics and linguistically sound approach in methodology.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

5910. Foundation Skills in Social Work Practice (3) P: Graduate standing in SOCW. Basic practice skills. Foundation for internship preparation.

5920. Social Welfare Policy (3) P: Graduate standing or consent of dean. Historical development and current status of social welfare policies and programs.

5940. Research Methodology for Social Workers (3) P: Graduate standing or consent of dean. Evaluation of published social work research. Interpretation of research articles which employ common statistical measures and identify basic limitations of research methodology. Research methods used by social workers in practice. Defines research and the ethical issues in conducting research.

SOCW Banked Courses

4991, 4992. Field Education and Seminar (5,5)
5000. Organization and Management of Social Service Agencies (3)
5003. Processes of Group Intervention (3)

5005. Community Programming and Development in Social Welfare (3)
5006. Planning within Social Welfare Agencies and Institutions (3)

SPAN: SPANISH

1001. Spanish Level I (3) Lab work. Recommended early in college career for BA students and potential SPAN majors and minors. First of four-course sequence. Focus on basic skills of listening, speaking, reading, and writing Spanish. Emphasis on life and culture of Spanish-speaking world.

1002. Spanish Level II (3) Lab work. Recommended early in college career for BA student and potential SPAN majors and minors. P: SPAN 1001 or equivalent or placement by Spanish, placement test. Second of four-course sequence. Increased exposure to and command over basic skills of listening, speaking, reading, and writing Spanish. Fosters understanding of Hispanic cultures.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive

Semester of course offering is not guaranteed. Anticipated semester of course offering:

(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P, C, or P/C

1003. Spanish Level III (3) Lab work. Recommended early in college career for BA students and potential SPAN majors and minors. P: SPAN 1002 or equivalent or placement by Spanish placement test. Third of four-course sequence. Further refinement of command over basic skills of listening, speaking, reading, and writing Spanish. Fosters understanding of Hispanic cultures.

1004. Spanish Level IV (3) Recommended early in college career for BA students, and potential SPAN majors and minors. P: SPAN 1003 or equivalent or placement by Spanish placement test. Fourth of four-course sequence. Further refinement of command over basic skills of listening, speaking, reading, and writing Spanish. Readings further acquaint student with life, literature, and cultures of Hispanic world.

1220. Conversational Spanish Practiced in a Spanish-Speaking Country (3) P: Consent of dept chair. Practice in formal classroom situation and in Spanish-speaking country. Exception to classroom requirement would be Spanish language program approved by dept chair.

1440. Spanish Culture Experienced in a Spanish-Speaking Country (2) 3 months' residence in Spanish-speaking country. Culture (social customs, the fine arts, architecture, historical and political influences) of Spanish-speaking country experienced in the country.

2110. Cultural Readings in Spanish (3) P: SPAN 1004 or consent of dept chair. Further development of language proficiency and cultural appreciation through study of selected works of literature (including children's literature), film, and fine arts.

2117. Spanish for Professions (3) P: SPAN 1004 or consent of dept chair. Introduction to vocabulary and cultural concepts necessary to communicate and function effectively in Spanish-speaking professional world. Fields may include but are not limited to business, criminal justice, health sciences, and social sciences.

2222. Intermediate Spanish Conversation (3) For students with limited experience in Spanish-speaking environments. P: SPAN 1004 or consent of dept chair; RC: SPAN 2330. Development of oral communication skills. Emphasis on use of language in everyday situations, vocabulary growth, listening comprehension, and correctness in grammar.

2330. Intermediate Spanish Composition and Review of Grammar (3) P: SPAN 1004 or consent of dept chair; RC: SPAN 2222. Intensive practice in task-oriented compositions and comprehensive review of grammatical forms and usage. Emphasis on vocabulary development.

2440. Spanish Culture and Civilization (3) (WI*) P: SPAN 2222 or 2330 or consent of dept chair. Readings, films, and discussion about artistic, political, historical, and social development of Spain and its geography and regional diversity.

2441. Latin-American Culture and Civilization (3) P: SPAN 2222 or 2330 or consent of dept chair. Overview and contrastive study of geography, history, social and political structures, currents of thought, and artistic expressions of Latin America which contribute to contemporary life.

2550. Approaches to the Study of Hispanic Literature (3) (GE:HU) P: SPAN 2222 or 2330 or consent of dept chair. Interpretation of Spanish literature. Relevant terminology and its application to representative Spanish and Spanish-American prose, poetry, and drama.

2611. Early Experiences for the Prospective Teacher (1) For prospective teachers. Minimum of 16 hours of directed observations and planned participation in appropriate school environments and 8 hours of seminar class instruction in the teaching area. May not count toward BA major or minor. Introduction to teaching Spanish.

2700. Special Topics in Hispanic Studies (3) May be repeated for maximum of 6 s.h. with change of topic. P: SPAN 1004 or consent of dept chair. Selected topics relating to language, literature, culture, or civilization of Spain or Latin America.

3220. Advanced Oral Communication Through Multimedia (3) P: SPAN 2222 or consent of dept chair. Advanced practice in spoken Spanish. Emphasis on topics of current interest. Use of material available through newspapers, magazines, films, radio and television broadcasts, software, and the world wide web.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

(GE:EN)=English; (GE:EX)=Exercise and Sport Science; (GE:FA)=Fine Arts; (GE:HL)=Health; (GE:HU)=Humanities; (GE:MA)=Mathematics; (GE:SC)=Science; (GE:SO)=Social Science

SECTION 8: COURSES

3225. Spanish Phonetics (3) Lab work. P: SPAN 2222, 2330; or consent of dept chair: Physiology of phonetics applied to Spanish language. Sound system of Spanish contrasted with English. Introduction to various dialects. Emphasis on improving pronunciation. Phonetic transcription.

3330. Advanced Composition (3) (WI) P: SPAN 2222 or 3220; 2330. Refinement of Spanish writing skills through exercises which enhance control of grammar; expand vocabulary; and promote greater awareness of rhetoric, critical reading, and revising.

3335. Structure of the Spanish Language (3) P: SPAN 3330 or consent of dept chair: Contemporary linguistic theory and its practical application to teaching of syntactic and semantic components of Spanish. Contrasts structures of Spanish and English.

3340. Introduction to Translation (3) P: SPAN 3330 or consent of dept chair; RC: SPAN 3335. History, theory, and techniques of translation. Intense practice in Spanish-English and English-Spanish translations. Short prose texts from areas of general knowledge, such as those dealing with cultural information and current events.

3700. Special Topics in Hispanic Studies (3) May be repeated for maximum of 6 s.h. with change of topic. P: SPAN 2222 or 3220; 2330; or consent of dept chair: Selected topics relating to language, literature, culture, or civilization of Spain or Latin America.

4340. Intermediate Translation (3) P: SPAN 3335, 3340; or consent of dept chair: Further practice in Spanish-English and English-Spanish translation. Longer texts from areas of general knowledge. Introduction to translation of specialized material (such as business, medical and legal documents, and literary texts). Study of related lexical and stylistic.

4555. Medieval Spain (900-1499) (3) (WI) (GE:HU) P: SPAN 2440, 2550; or consent of dept chair: Selected texts of Medieval Spain from primitive lyric to *La Celestina* examined against background of cultural, social, and historical transformations of Spanish Middle Ages.

4556. Renaissance and Baroque Spain (1500-1681) (3) (GE:HU) P: SPAN 2440, 2550; or consent of dept chair: Reading and discussion of representative works from drama, poetry, and prose of great literary figures of Renaissance and Golden Age (such as Garcilaso de la Vega, the Mystics, Cervantes, Lope de Vega, Calderon de la Barca, Gongora). Cultural, social, and political factors that influenced their development.

4611. Teaching Second Languages in Grades K-12 (5) 5 lectures per week and approximately 60 hours of field experience per semester. May not be used to fulfill requirements for BA major or minor. P: 18 s.h. of SPAN above 1004 or consent of dept chair: Modern methodologies, techniques and strategies, instructional resources, and evaluation procedures.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive

Semester of course offering is not guaranteed. Anticipated semester of course offering:

(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

452 P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P, C, or P/C

4700. Special Topics in Hispanic Studies (3) May be repeated for maximum of 6 s.h. with change of topic. P: Consent of dept chair. Selected topics relating to language, literature, culture, or civilization of Spain or Latin America.

4880. Internship in Spanish (10) Full-time, semester-long internship. P: Admission to upper division; SPAN 2110, 2440, 2441, 3225, 3330; 15 s.h. in SPAN above 2999, including 9 s.h. in SPAN 4555, 4556, 4557, 4558, 4560, 4561, 4562, 4563, with a minimum of 3 s.h. in SPAN 4555, 4556, 4557, 4558 and 3 s.h. in SPAN 4560, 4561, 4562, 4563. Observation and supervised internship in an assigned Spanish K-12 public school classroom.

4881. Internship Seminar: Issues in Spanish Teaching (1) P: Admission to upper division; C: SPAN 4880. Individualized study of problems or issues related to teaching Spanish.

4882, 4883, 4884. Internship for Professions (1, 1, 1) (F, S, SS) Supervised internship in appropriate professional setting during junior or senior year of the Hispanic studies degree program. P: Consent of dept chair. Fields may include but are not limited to business, criminal justice, health sciences, and social sciences.

4950, 4951, 4952, 4953, 4954. Directed Readings in Spanish (1 each) P: Consent of dept chair. In-depth exploration of selected topics relating to language, literature, culture, or civilization of Spain or Latin America.

4990. Honors (3) P: Minimum 3.5 GPA in SPAN. Independent study of selected aspect of Spanish culture under direction of faculty member in student's major area of interest.

5340. Advanced Translation I (3) P: SPAN 4340. Practice of translation skills with greater variety of style and subject matter.

5440. Contemporary Issues of the Hispanic World (3) May be repeated for maximum of 6 s.h. with change of topic. P: Consent of dept chair. Selected events, artistic trends, and currents of thought that significantly contribute to life in contemporary Hispanic societies.

5445. Hispanic Cinema (3) May be repeated for maximum of 6 s.h. with change of topic. P: Consent of dept chair. Films as cultural product reflecting social, political, and economic realities. Power to represent, inform, and create. Viewed and discussed by representative directors.

5550. Hispanic Women Writers (3) May be repeated for maximum of 6 s.h. with change of topic. May not be repeated for credit by students in WOST program. P: Consent of dept chair. In-depth study and discussion of representative writings by women in Hispanic countries from variety of genres. Emphasis on relationships between society and origin, content, and form of texts.

5700. Special Topics in Hispanic Studies (3) May be repeated for maximum of 6 s.h. with change of topic. P: Consent of dept chair. Topics relating to language, literature, culture, or civilization of Spain or Latin America.

5940. Advanced Translation II (3) Candidates who successfully complete this course may be allowed to take qualifying exams for award of the Certificate in Spanish Translation. P: SPAN 5340. Continuation of skills practiced in SPAN 4340, 5340 at advanced level. Translation of written texts in variety of styles and different topics, from Spanish into English and vice versa.

SPED: SPECIAL EDUCATION

2000. Introduction to Exceptional Children (2) (F, S, SS) Incidence, causes, education, and rehabilitation of exceptional children.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

(GE:EN)=English; (GE:EX)=Exercise and Sport Science; (GE:FA)=Fine Arts; (GE:HL)=Health; (GE:HU)=Humanities; (GE:MA)=Mathematics; (GE:SC)=Science; (GE:SO)=Social Science

SECTION 8: COURSES

2102. Introduction to Mental Retardation (3) (F,S,SS) Comprehensive survey of mental retardation. Emphasis on etiology, characteristics, diagnosis, institutionalization, social and family relationship, multicultural education, and historical aspects of mental retardation.

2103. Introduction to Learning Disabilities (3) (F,S,SS) 3 lecture and 1 lab/studio hours per week. P: SPED 2000. Comprehensive survey of learning disabilities. Emphasis on characteristics, theoretical explanations and models, assessment, and placement alternatives.

2104. Introduction to Behavior Disorders (3) P: SPED 2000. Comprehensive survey of behavior disorders. Emphasis on characteristics, theoretical explanations and models, assessments, and placement alternatives.

2123. Early Experiences for Prospective Teachers (1) (F,S) For prospective teachers. Minimum of 16 hours of directed observations and planned participation in appropriate school environments and 8 hours of seminar class instruction in the teaching area. C: SPED 2000. Introduction to teaching of exceptional children.

3000. Instructional Programming in Special Education (3) (F,SS) Knowledge and skills fundamental to effective teaching of learners who have disabilities. Emphasis on assessment, instructional planning, classroom management, and program evaluation.

3001. Assessment in Special Education (3) (S,SS) P: SPED 2000; 2102 or 2103 or SPED 2104. Introduces comprehensive and socially responsible approach to formal and informal assessment of students with disabilities. Includes independent project to develop assessment skills.

3210. Instructional Programming in Mental Retardation (3) (S,SS) P: Admission to upper division; SPED 2102, 3000; C: SPED 3211. Design and delivery of instructional programs for persons who have mild to moderate mental retardation.

3211. Practicum in Mental Retardation (2) (F,S) Minimum of 20 hours of directed observation and planned participation with persons who have mild to moderate mental retardation in an appropriate school environment. Must be taken semester prior to internship in special education. P: SPED 3210.

3310. Instructional Programming in Learning Disabilities (3) (S,SS) P: Admission to upper division; SPED 2103, 3000; C: SPED 3311. Design and delivery of instructional programs for persons who have learning disabilities.

3311. Practicum in Learning Disabilities (2) (F,S) Minimum of 20 hours of directed observation and planned participation with persons who have learning disabilities in an appropriate school environment. Must be taken semester prior to internship in special education. P: SPED 3310.

3410. Instructional Programming in Behavior Disorders (3) (S,SS) P: Admission to upper division; SPED 2104, 3000; C: SPED 3411. Design and delivery of instructional programs and management interventions for persons who have behavior disorders.

3411. Practicum in Behavior Disorders (2) Minimum of 20 hours of directed observation and planned participation with persons who have behavior disorders in an appropriate school environment. Must be taken semester prior to internship in special education. P: SPED 3410.

3510. Methods in Early Childhood Special Education (3) (S) P: Admission to upper division; SPED 3000; C: SPED 3511. Assessment, classroom organization, interagency collaboration, family consultation, inclusion, and educational plan development for meeting needs of preschool children with disabilities and their families.

3511. Practicum in Early Childhood Special Education (1) (S) Minimum of 30 hours of directed observation and planned participation in an appropriate school environment with preschool children who have disabilities. C: SPED 3510.

4000. Technology in Special Education (3) (F,S,SS) 3 lecture and 2 lab hours per week. P: SPED 2000. Introduction to specialized hardware and software. Variety of adaptive and assistive devices, computer adaptations and peripherals, special educational instructional and productivity software, and issues related to each.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive

Semester of course offering is not guaranteed. Anticipated semester of course offering:

(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P, C, or P/C

4010. Exceptional Students in the Regular Classroom (2) (F,S) 2 lecture and 1 lab hours per week. RP: SPED 2000. Knowledge and skills fundamental to effective teaching of individuals with exceptionalities in the regular classroom. Emphasis on individualization, content modification, instructional techniques, and classroom management.

4302. Education and Retardation (2) P: Consent of instructor. Basic information about educational programs for persons who have mental retardation. Emphasis on curriculum development and special programs in public school and institutional settings.

4324. Internship in Special Education (10) (F,S) Full-time, semester-long internship. P: Admission to upper division; SPED 3000, 4000. Observation and teaching in assigned special education public school classroom.

4352. Seminar in Mental Retardation (2) C: SPED 4324. Integration of theory, research, ethics, and legislation related to teaching persons who have mental retardation. Emphasis on effective teaching and reflective thinking skills.

4353. Seminar in Learning Disabilities (2) C: SPED 4324. Integration of theory, research, ethics, and legislation related to teaching persons who have learning disabilities. Emphasis on effective teaching and reflective thinking skills.

4354. Seminar in Behaviorally Emotionally Handicapped (2) C: SPED 4324. Integration of theory, research, ethics, and legislation related to teaching persons who have behavior disorders. Emphasis on effective teaching and reflective thinking skills.

5101. Introduction to Exceptional Children (3) Incidence, nature, causes, rehabilitation, and education of exceptional children.

5102. Perspectives in Mental Retardation (3) Incidence, nature, causes, and education of students who have mental retardation.

5301. Tests and Measurements in Special Education (3) P: Consent of instructor. Basic testing theory in terms of exceptional children.

5501, 5502. Minor Problems in Special Education (3,3) (5501:WI) Each may be repeated for maximum of 6 s.h. P: Consent of instructor. Conference, library, or lab work in area of special education.

SPED Banked Courses

4301. Remedial Reading for Handicapped Children (2)

SYSE: SYSTEMS ENGINEERING

3010. Principles and Methods of Systems Engineering (3) (F) P: ICEE 3010. Examines variety of systems engineering topics, extending work completed in previous SYSE courses. Areas of development include systems engineering foundations, systems engineering methodologies and processes, limitations of systems engineering for complex systems, "ilities" for design of complex systems, human element in systems engineering, complex system transformation, interoperability and system architecture, planning for systems engineering, risk analysis and management, systems engineering capability maturity assessment and development, organization for performing systems engineering, and introduction to system of systems engineering.

3040. Introduction to Dynamic Systems and Controls (3) (S) P: MATH 3100, SYSE 3060. Covers application of mathematical and analytical tools to analyze and design automated control systems for dynamic systems. Topics include block diagrams, transfer functions, stability, time response, frequency domain analysis, and other topics required to design control systems for physical systems.

3060. System Optimization (3) (F) P: MATH 3100, 3307. Introduces mathematical tools applied to system optimization, including problem formulation, identification of decision variables, use of graphical methods, linear programming, concepts of duality, and sensitivity analysis. Applications include transportation, network analysis, project management and other engineering areas.

4000. Integrated Systems Engineering (3) (S) P: SYSE 3010. Explores life cycle of systems; generation and analysis of life cycle requirements and development of functional, physical, and operational architectures for the allocation and derivation of component-level requirements for the purpose of specification production. Examines interfaces and development of interface architectures. Introduces and uses software tools for portions of systems engineering cycle.

Some courses which carry general education credit are identified using the following key. Consult the offering department concerning additional courses which carry general education credit. Courses in major prefix may not count toward general education.

(GE:EN)=English; (GE:EX)=Exercise and Sport Science; (GE:FA)=Fine Arts; (GE:HL)=Health; (GE:HU)=Humanities; (GE:MA)=Mathematics; (GE:SC)=Science; (GE:SO)=Social Science

SECTION 8: COURSES

4010. Human-Machine Systems: Design and Analysis (3) (F) P: MATH 3307; SYSE 3010. Introduces measurement, evaluation, implementation, communication, equipment, and data for developing and implementing human /machine /environment systems in industrial and consumer contexts. Explores techniques to assess visual, auditory, cognitive, and physical capabilities of individuals. Emphasizes systems approach, with a special interest in the human/machine interface. Explores interaction of environment and individual to enable designers and/or managers to reduce errors, increase productivity, and enhance both safety and comfort, while performing tasks.

4065. Discrete System Simulation (3) (S) P: MATH 3307. Approaches to computer simulation models, with special emphasis on discrete event simulation. Covers model building, data integration, model verification and validation, and applications to engineering and management problems.

THEA: THEATRE ARTS

1000. Introduction to Theatre (3) (F,S,SS) (GE:FA) For non-theatre arts majors. Audience's appreciation of art of playwright, actor, director, and designer. Emphasis on development of western drama and theatrical arts in general.

1010. Introduction to Acting I (3) (F,S,SS) (GE:FA) Acting through use of exercises and improvisational techniques.

1020. Introduction to Acting II (3) (SS) P: THEA 1010. Acting through use of exercises, improvisations, and scenes.

1111. Apprentice Level Production (1) (F,S,SS) May be repeated up to three times. P: Consent of instructor. Entry level practicum in various areas of theatre and dance production supervised by faculty.

2001. Stage Scenery I (3) (GE:FA) Lectures and mandatory participation in construction and running crews on dept productions. Backstage organization and basic scenery production methods.

2002. Stage Scenery II (3) (GE:FA) Lectures and mandatory participation in construction and running crews on dept productions. P: THEA 2001. Backstage organization and basic scenery production methods.

2003. Scene Painting (3) (S) (GE:FA) 4 hours per week. P: THEA 2001, 2002. Scene painting techniques and materials.

2006. The Art of Make-up (2) (F,S) P: THEA major. Materials and techniques involved in the art of stage make-up.

2009. Decor and Ornament for the Stage (3) (F) (GE:FA) Decorative modes in Western civilization from Renaissance to present.

2010. Professional Acting Technique I (3) (F) Scene work and auditions for dept productions required. 6 hours per week. P: Audition and faculty jury; THEA 1020. Introduces reality of doing, repetition exercise, adjustment with fellow actor, independent activity, justification, and simple objectives. Frees impulses of young actor within structure of improvisational exercise.

2015. Voice and Articulation (3) (F,S,SS) P: Intended DNCE or THEA major. Development of personal and professional speech effectiveness.

2016. Vocal Production for the Actor (3) (F) P: Professional acting and musical theatre major; THEA 2015; or consent of instructor. Exercises improve and develop actor's voice.

2017. Movement for Actors (3) (F,S) May not count toward general education fine arts requirement. P: THEA 1020. Movement study and exercises. Emphasis on integration of physical action and emotional response.

2020. Professional Acting Technique II (3) Scene work and auditions for department productions are required. 6 hours per week. P: THEA 2010. Beginning work with daydream and incorporation of emotional preparation into repetition exercise. Personalizing imaginary circumstances and introduction to relationship. Sustains young actor with true inner life from moment to unanticipated moment.

2035. Theatre History-Literature I (3) (WI*) (F-03) (GE:FA) Integrated study of developments in theatre production and style. Dramatic literature from Ancient Greece to fifteenth century.

(WI)=Writing Intensive; (WI*)=Selected Sections are Writing Intensive

Semester of course offering is not guaranteed. Anticipated semester of course offering:

(F)=Fall; (S)=Spring; (SS)=Summer Session; (OY)=Odd Year; (EY)=Even Year

P=Prerequisite(s); C=Corequisite(s); P/C=Prerequisite(s) or Corequisite(s); R=Recommended P, C, or P/C

2123. Early Experiences for the Prospective Teacher (1) For prospective teachers. Minimum of 16 hours of directed observations and planned participation in appropriate school environments and 8 hours of seminar class instruction in the teaching area. May not count toward a BA major or minor: Introduction to teaching of theatre arts.

2222. Intern Level Production (2) (F,S,SS) May be repeated up to three times. P: Consent of instructor: Basic level practicum in various areas of theatre and dance production supervised by faculty.

3000, 3001. Special Theatre Projects (1,1) (F,S,SS) May not be taken concurrently with THEA 2001 or 2002. P: Consent of instructor: Various areas of theatre production and performance supervised by faculty.

3002. Advanced Theatrical Drafting (3) P: THEA 2002 or consent of instructor: Techniques and tools with primary focus on computer-aided drafting.

3003. Stage Lighting (3) P: Consent of instructor: Theory and practice of methods of stage lighting.

3004. Scenery Design I (3) P: THEA 2002 or consent of instructor: Principles of scenery design for production.

3005. Scenery Design II (3) (S) P: THEA 3004. Further development of design responses and rendering ability.

3007. Costume Design (3) (GE:FA) 3 lecture and 2 lab hours per week. Principles and process of stage costume design.

3008. Advanced Costume Design (3) (S) 6 studio hours per week. P: THEA 3007 or consent of instructor: Design process through design phase. Emphasis on character development and rendering skills.

3010. Professional Acting Technique III (3) Scene work and auditions for dept productions required. 6 hours per week. P: THEA 2020. Interpretation with emotional colors of previous work. Introduction to character idea and characterization work through a physical impediment. Organizes and synchronizes student to role.

3015. Oral Interpretation (3) (F) P: THEA 2015 or consent of instructor: Reading of prose, narrative, dialogue, and poetry to audience.

3020. Professional Acting Technique IV (3) (S) Scene work and auditions for dept productions required. 6 hours per week. P: THEA 3010. Monologue work. Text work includes actions, beats, paraphrasing, phrasing, particularizations, and justification. Play reality of action from consistent and meaningful point of view.

3025. Intermediate Voice and Articulation (3) (S) P: THEA 2015 or consent of instructor: Professional competence in pronunciation, intonation, and strenuous use of voice.

3027, 4027, 4028. Vocal Production Laboratory I, II, III (1,1,1) (3027:F; 4027:S; 4028:F) 2 hours per week. P: THEA 2016, 3025. Exercises to maintain acting student's vocal technique.

SUBSTANCE ABUSE POLICY

East Carolina University is dedicated to the pursuit and dissemination of knowledge and, as such, expects all members of the academic community to behave in a manner conducive to that end. The highest standards of personal and professional conduct must be maintained by faculty, staff, and students. Illegal or abusive use of drugs or alcohol, referred to in this policy as substance abuse, by members of the university community adversely affects the mission of the university and is prohibited.

Accordingly, the East Carolina University Board of Trustees adopts the following policy, consistent with The UNC Board of Governors' Policy on Illegal Drugs. The policy is intended to accomplish the following:

- (1) Prevent substance abuse through a strong educational effort;
- (2) Encourage and facilitate the use of counseling services and rehabilitation programs by those members of the academic community who require their assistance in stopping substance abuse; and
- (3) Discipline appropriately those members of the academic community who engage in illegal drug or alcohol-related behaviors.

Educational Efforts to Prevent Substance Abuse

In keeping with its primary mission of education, East Carolina University will conduct a strong educational program aimed at preventing substance abuse and illegal drug or alcohol use. Educational efforts shall be directed toward all members of the academic community and will include information about the incompatibility of the use or sale of illegal substances with the goals of East Carolina University; the health hazards associated with illegal drug or alcohol use; the incompatibility of substance abuse with the maximum achievement of educational, career, and other personal goals; and the potential legal consequences of involvement with illegal drugs or alcohol.

Counseling and Rehabilitation Services to Prevent Substance Abuse

Those faculty, staff, or students who seek assistance with a substance-related problem shall be provided with information about drug counseling and rehabilitation services available through East Carolina University and also through community organizations. Those who voluntarily avail themselves of university services shall be assured that applicable professional standards of confidentiality will be observed.

Disciplinary Actions to Prevent Substance Abuse

Students, faculty members, administrators, and other employees are responsible, as citizens, for knowing about and complying with the provisions of North Carolina law that make it a crime to possess, sell, deliver, or manufacture those drugs designated collectively as "controlled substances" in Article 5 of Chapter 90 of the North Carolina General Statutes. Any member of the university community who violates that law is subject both to prosecution and punishment by the civil authorities and to disciplinary proceedings by the university.

It is expected that East Carolina University students, faculty members, administrators, and other employees who use or possess alcoholic beverages will do so as legally prescribed by the laws of the State of North Carolina, within the regulations of East Carolina University, and in a manner which does not disrupt the lives of others. A person whose conduct is outside these parameters will be subject to the judicial rules and procedures of the university.

It is not double jeopardy for both the civil authorities and the university to proceed against and punish a person for the same specified conduct. The university will initiate its own disciplinary proceedings against a student, faculty member, administrator, or other employee when the alleged conduct is deemed to affect the interests of the university.

Penalties will be imposed by the university in accordance with procedural safeguards applicable to disciplinary actions against students, faculty members, administrators, and other employees, as required by Sections V and VI of Appendix D of the East Carolina University Faculty Manual, by board of governors' policies applicable to the employees exempt from the State Personnel Act, by the East Carolina University Student Judicial System, and by regulations of the State Personnel Commission.

APPENDIX

The penalties to be imposed by the university may range from written warnings with probationary status to expulsions from enrollment and discharges from employment*. However, the following minimum penalties shall be imposed for the particular offenses described.

- (1) Trafficking in Illegal Drugs
 - (a) For the illegal manufacture, sale or delivery, or possession with intent to manufacture, sell or deliver, of any controlled substance identified in Schedule I, NC General Statutes 90-89, or Schedule II, NC General Statutes 90-90 (including, but not limited to, heroin, mescaline, lysergic acid diethylamide, opium, cocaine, amphetamine, methaqualone), any student shall be expelled and any faculty member, administrator, or other employee shall be discharged.
 - (b) For a first offense involving the illegal manufacture, sale, or delivery, or possession with intent to manufacture, sell or deliver, of any controlled substance identified in Schedules III through VI, NC General Statutes 90-91 through 90-94, (including but not limited to, marijuana, pentobarbital, codeine) the minimum penalty shall be suspension from enrollment or from employment for a period of at least one semester or its equivalent. For a second offense, any student shall be expelled and any faculty member, administrator, or other employee shall be discharged.
- (2) Illegal Possession of Drugs
 - (a) For a first offense involving the illegal possession of any controlled substance identified in Schedule I, NC General Statutes 90-89, or Schedule II, NC General Statutes 90-90, the minimum penalty shall be suspension from enrollment or from employment for a period of at least one semester or its equivalent.
 - (b) For a first offense involving the illegal possession of any controlled substance identified in Schedules III through VI, NC General Statutes 90-91 through 90-94, the minimum penalty shall be probation, for a period to be determined on a case-by-case basis. A person on probation must agree to participate in a drug education and counseling program, consent to regular drug testing, and accept such other conditions and restrictions, including a program of community service, as the chancellor or the chancellor's designee deems appropriate. Refusal or failure to abide by the terms of probation shall result in suspension from enrollment or from employment for any unexpired balance of the prescribed period of probation.
 - (c) For second or other subsequent offenses involving the illegal possession of controlled substances, progressively more severe penalties shall be imposed, including expulsion of students and discharge of faculty members, administrators, or other employees.
- (3) Possession and Use of Alcohol
 - (a) For offenses involving the illegal possession, use, sale and/or distribution of alcohol in violation of NC General Statutes 18B-300 & 18B-301 & 302; 18B-1006 (a); or Greenville Ordinance No. 812-1-2, a student will be subjected to a progressive penalty system based on the type of infraction and the circumstances involved. Penalties may be a warning, probation, fine, volunteer community service, and/or removal from the residence system or the university.
 - (b) In certain circumstances, involvement in an alcohol education and/or counseling program may be offered to a student in lieu of being referred to the honor board with a recommendation for suspension. Specifically, a student given this option will be required to participate in a program of assessment, education and counseling; pay a fee of sixty dollars (\$60), and be placed on university probation. A student may participate in this program only once in lieu of disciplinary action.
 - (c) University employees subject to the State Personnel Act may be disciplined in accordance with the rules and regulation for personal misconduct, i.e., final written warning, which may include a three (3) day suspension without pay, or dismissal.

When a student, faculty member, administrator, or other employee has been charged by the university with a violation of policies concerning illegal drugs or alcohol, he or she may be suspended from enrollment or employment before initiation or completion of regular disciplinary proceedings if, assuming the truth of the charges, the chancellor or, in the chancellor's absence, the chancellor's designee concludes that the person's continued presence within the university community would constitute a clear and immediate danger to the health or welfare of other members of the university community; provided, that if such a suspension is imposed, an appropriate hearing of the charges against the suspended person shall be held as promptly as possible thereafter:

In the case of employees, anyone convicted of a criminal drug statute violation occurring in the workplace shall notify the university no later than five days after such a conviction. The university will commence disciplinary action against such an individual within thirty (30) days of notice of the conviction.

Responsibilities Under This Policy

Authority to implement the policy shall reside in the chancellor.

The chancellor shall designate a coordinator of drug and alcohol education who shall, acting under the authority of the chancellor, be responsible for overseeing all actions and programs relating to this policy.

All employees and students shall be responsible for abiding by the provisions of this policy. In the case of employees, adherence with the provisions of the policy shall be a condition of employment.

The chancellor will render an annual report to the board of trustees on the effectiveness of this policy.

Dissemination of This Policy

A copy of this policy shall be given annually to each employee and to all new employees at the beginning of their employment. Each student shall receive a copy and new students shall be given a copy during orientation.

The policy shall be printed on appropriate student documents and posted on official bulletin boards of the university.

Amended October, 1990

The Board of Trustees of East Carolina University

EAST CAROLINA UNIVERSITY AFFIRMATIVE ACTION/EQUAL OPPORTUNITY POLICY

East Carolina University is committed to equality of opportunity and does not discriminate against applicants, students, or employees based on race, religion, color, creed, national origin, sex, age, sexual orientation, or disability.

All employment decisions will be made so as to further the principle of equal employment opportunity. The university will recruit, hire, train, and promote persons in all positions without regard to race, religion, color, creed, national origin, sex, age, or disability. Consistent with this principle, all promotion decisions will be made using valid requirements and all personnel actions (such as compensation, benefits, transfers, layoffs, return from layoff, university sponsored training, education, tuition assistance, and social and recreational programs) will be administered without regard to race, religion, color, creed, sex, national origin, age, sexual orientation, or disability.

This policy on nondiscrimination and the Affirmative Action Program of East Carolina University are consistent with and pursuant to the guidelines set forth in Executive Order 11246 and its implementing regulations. The Affirmative Action Program implements guidelines set forth under Title VII of the Civil Rights Act of 1964, the Rehabilitation Act of 1973, the Age Discrimination In Employment Act of 1976, the Vietnam Veterans Readjustment Assistance Act of 1974 as amended, and the Americans with Disabilities Act of 1992.

The university's policy is consistent with NCGS 126-16: "All State ... agencies ... of North Carolina shall give equal opportunity for employment without regard to race, religion, color, creed, national origin, sex, age, or handicapping condition to all persons qualified, except where specific age, sex, or physical requirements constitute bona fide occupational qualifications necessary to proper and efficient administration. This section with respect to equal opportunity as to age shall be limited to individuals who are at least forty years of age but less than seventy years of age." It is also consistent with *The Code of The University of North Carolina*, Section 103: "Admission to, employment by, and promotion in The University of North Carolina and all of its constituent institutions shall be on the basis of merit and there shall be no discrimination on the basis of race, color, creed, religion, sex, national origin, age, or disability."

The responsibility for implementation of this plan rests with the chancellor. The vice chancellors, dean of the College of Arts and Sciences, deans of professional schools, departmental chairpersons, and principal administrative directors are responsible for assisting him in implementing these policies. These responsibilities also include coordination of the university's efforts to comply with all applicable aspects of the Americans with Disabilities Act of 1992. They will assure that decisions involving recruitment, selection, appointment, and promotion of faculty and staff at all levels are made in a nondiscriminatory manner and in accordance with the goals of the ECU Affirmative Action Plan.

The chancellor has also appointed the EEO officer to coordinate all aspects of the Affirmative Action Plan, initiate programs to assist in reaching the goals of the Affirmative Action Plan, maintain a record system, identify problem areas, monitor progress, and assist faculty, staff, and students to resolve problems. These responsibilities also include coordination of the university's efforts to comply with all applicable aspects of the Americans with Disabilities Act of 1992.

APPENDIX

Any student of East Carolina University who has a complaint of discrimination should follow the procedure outlined in the student handbook, *The Clue Book*. Current, former, or prospective faculty or staff who have a complaint should follow the procedures outlined in the *Faculty Manual* or the *East Carolina University Business Manual*. The EEO officers will provide information to any individual concerning the appropriate grievance procedures.

Copies of the Affirmative Action Plan are available in the Office of Equal Opportunity and via the Internet at www.ecu.edu/eeo.

This Affirmative Action Plan will be evaluated annually and a report prepared by the EEO officer for review by the chancellor. The EEO officer is Taffye Benson Clayton. The associate EEO officer is Amy Waters. The Office of Equal Opportunity Programs is located in 104 Spilman; telephone 252-328-6804.

NOTICE OF NONDISCRIMINATION

East Carolina University is committed to equality of educational opportunity and does not discriminate against applicants, students, or employees based on race, color; national origin, religion, gender; sexual orientation, age, or disability.

East Carolina University supports the protections available to members of its community under all applicable federal laws, including Titles VI and VII of the Civil Rights Act of 1964; Title IX of the Education Amendments of 1972; Section 799A and 845 of the Public Health Service Act; the Equal Pay Act; the Age Discrimination Act of 1975; the Rehabilitation Act of 1973, as amended by the Rehabilitation Act Amendments of 1974; the Vietnam Era Veteran's Readjustment Assistance Act of 1974; the Americans with Disabilities Act of 1992; and Executive Order 11246, as amended by Executive Order 11375.

In compliance with Section 504 of the Rehabilitation Act of 1973, as amended, and the Americans with Disabilities Act of 1992, accommodations of the disabled extend to student programs, employment practices, elimination of physical barriers, and special assistance to disabled students and employees within the university.

This nondiscrimination policy covers admission, readmission, access to, and treatment and employment in university programs and activities, including, but not limited to, academic admissions, financial aid, any services, and employment.

Any student who believes that he or she has been discriminated against by the university because of his or her race, color, national origin, religion, gender, age, sexual orientation, or disability may speak with the director of the Office of Student Conflict Resolution, Mary Louise Antieau, 201 Whichard Building, East Carolina University. Following that discussion, a student who wishes to file a formal or informal grievance will be directed to the appropriate office. Any member of the university community desiring information or having a complaint or grievance in regard to these provisions should contact the assistant to the chancellor/EEO officer, Taffye Benson Clayton, 104 Spilman, East Carolina University, Greenville, NC 27858-4353; telephone 252-328-6804 or the associate EEO officer.

SEXUAL HARASSMENT PREVENTION PLAN, POLICY, AND GRIEVANCE PROCEDURE FOR COMPLAINTS OF SEXUAL HARASSMENT

Sexual harassment and discrimination are illegal and endanger the environment of tolerance, civility, and mutual respect that must prevail if the university is to fulfill its mission. East Carolina University is committed to providing and promoting an atmosphere in which employees can realize their maximum potential in the work place and students can engage fully in the learning process. Further, amorous relations between a student and a university employee who is responsible for supervising or evaluating the student, or between an employee and the person supervising that employee may derogate the merit principle of supervision and evaluation. This policy is the university's statement of its intent to prohibit sexual harassment and discrimination and to prohibit amorous relations between the university's employees and students, and employees and supervisors when these relations create a risk of favoritism.

The following constitute sexual harassment: making verbal remarks or committing physical actions that propose to people of either sex that they engage in or tolerate activities of a sexual nature in order to avoid some punishment or to receive some reward; singling out people of either sex and creating or attempting to create a hostile university or working environment or otherwise attempting to harm or harming people because of their sex; and continuing verbal or physical conduct of a sexual nature when the person the conduct is directed toward has indicated clearly, by word or action, that this conduct is unwanted.

Sexual discrimination consists of actions that subject employees or students to unequal treatment on the basis of their sex.

It is the responsibility of members of the university community to strive to create an environment free of sexual harassment and discrimination and free of unprofessional bias in the supervision and evaluation of students and employees. It is against the policies of East Carolina University for its employees or students to propose to other employees or students that they engage in or tolerate activities of a sexual nature in order to avoid some punishment or to receive some reward; to create a hostile university or work place environment for an individual or group because of the individual's or the group's sex; to continue verbal or physical conduct of a sexual nature when the employees or students of the university such conduct is directed toward have indicated clearly, by word or action, that such conduct is unwanted; to engage in consensual amorous relationships with students or other university employees whom the employee is or will be supervising or evaluating; and to subject other employees or students to unequal treatment on the basis of their sex.

Complaints brought against East Carolina University students by East Carolina University students, faculty, staff, administrators, or visitors are governed by the grievance procedures presented in The Clue Book.

Complaints brought against East Carolina University staff by East Carolina University students, faculty, staff, administrators, or visitors are governed by the grievance procedures stated in the East Carolina University Business Manual, Policy Statement 7: Employee Relations in the Human Resources Section.

Complaints brought against East Carolina University faculty members or administrators holding faculty status by East Carolina University students, faculty, staff, administrators, or visitors are governed by the grievance procedures presented in the East Carolina University Faculty Manual.

Any person having a complaint of sexual harassment should contact Taffye Benson Clayton, equal employment opportunity officer, 104 Spilman; telephone 252-328-6804. The associate EEO officer is Amy Waters, whose office is located in the Taylor-Slaughter Alumni Center, 901 East Fifth Street, telephone 252-328-1957.

RACIAL AND ETHNIC HARASSMENT POLICY

Section I. Rationale

The faculty, staff, administration, and students of East Carolina University maintain that it is important to create an atmosphere in which instances of racial and ethnic harassment are discouraged. Well-publicized policies and procedures such as these will help to create an atmosphere in which individuals who believe that they are the victims of racism or ethnic harassment are assured that their grievances will be dealt with in a timely, confidential, fair, and effective manner. Toward this end, all members of the university community should understand that racial and ethnic harassment violates university policy and will not be condoned. Members of the university community are encouraged to express freely, responsibly, and in an orderly way their opinions and feelings about any problem or complaint of harassment prohibited under these policies. Any act by a university employee or student of reprisal, interference, restraint, penalty, discrimination, coercion, or harassment against a student or an employee for using these policies responsibly interferes with free expression and openness and violates this policy. Accordingly, members of the university community are prohibited from acts of reprisal against those who bring charges or are involved as witnesses or otherwise try to responsibly use this policy.

Section II. Racial and Ethnic Harassment Policy

A. Introduction. Racial and/or ethnic harassment endangers the environment of tolerance, civility, and mutual respect that must prevail if the university is to fulfill its mission. Such harassment will not be condoned by members of the university community. This policy is the university's statement of its intent to protect its educational environment by prohibiting specific forms of racial and/or ethnic harassment. The university recognizes that the free and unfettered interchange of competing views is essential to the institution's educational mission, and that the peoples' right to express opinions is guaranteed by the United States Constitution.

B. Definitions. The following constitute racial and/or ethnic harassment:

- a. Singling out people because of their race or ethnic affiliation and subjecting them to unequal or unfair treatment.
- b. Harming, attempting to harm, or threatening to harm people because of their race and/or ethnic affiliation.

C. Policy. It is the responsibility of members of the university community to strive to create an environment free of racial and/or ethnic harassment.

C-1. It is against the policies of East Carolina University for its employees or students to single out employees or students of the university because of their race or ethnic affiliation and subject them to unequal or unfair treatment.

C-2. It is against the policies of East Carolina University for its employees or students to single out employees or students of the university or visitors to the university because of their race or ethnic affiliation and subject them to conduct which causes severe emotional disturbance.

Section III. Grievances Against East Carolina University Students

Complaints brought against East Carolina University students by East Carolina University students, faculty, staff, administrators, or visitors are governed by the grievance procedures presented in the Clue Book.

Section IV. Grievances Against East Carolina University Staff

Complaints brought against East Carolina University staff by East Carolina University students, faculty, staff, administrators, or visitors are governed by the grievance procedures stated in the East Carolina University Business Manual, Volume 2, Section VIII.

Section V. Grievances Against East Carolina University Faculty Members or Administrators Holding Faculty Status

Complaints brought against East Carolina University faculty members or administrators holding faculty status by East Carolina University students, faculty, staff, administrators, or visitors ordinarily are governed by the grievance procedures stated in the East Carolina University Faculty Manual, Appendix X. However, if a faculty member raises allegations of racial or ethnic harassment or discrimination during a hearing he or she requested before the Due Process Committee, the Reconsideration Committee, or the Faculty Hearing Committee (in accordance with the policies and procedures set forth in the East Carolina University Faculty Manual, Appendix D), the relevant committee shall determine the merits and bearing, if any, of the allegations raised by the faculty member on the matter before the committee. Such actions by the Due Process Committee, the Reconsideration Committee, or the Faculty Hearing Committee shall not preclude a faculty member from independently bringing a complaint of racial or ethnic harassment or discrimination in accordance with the grievance procedures stated in the East Carolina University Faculty Manual, Appendix X. The outcome of an Appendix X grievance brought by a faculty member against other faculty members or administrators holding faculty status either may be appealed in accordance with the provisions for appeal set forth in section J of Appendix X or may be appealed before the Faculty Affairs Committee in accordance with the policies and procedures set forth in Appendix D of the East Carolina University Faculty Manual, but not both.
