

AAS Transfer Plan

Accounting & Finance, AAS **to** Accounting, BSBA

Associate in Applied Science degrees through the North Carolina Community College system are not necessarily designed to transfer to 4-year institutions. However, ECU wants to see you complete your bachelor's degree regardless of the associate degree you complete. Therefore, we have created AAS Transfer Plans for popular NCCCS AAS degrees.

The Accounting, BSBA is intended for students who aspire to enter the accounting profession in the private and public sector (e.g., governmental, internal audit, and managerial accounting positions).

It is not intended to prepare students for professional certification as a certified public accountant. However, the BSBA does provide a strong foundation for pursuing professional certification. If professional certification as a certified public accountant is desired, then students will need to pursue the MSA degree program after completing the BSBA.

Students pursuing the Accounting, BSBA must earn a minimum grade of C (2.0) in accounting courses to satisfy any upper-level accounting course prerequisites. Also, to graduate, students must earn a minimum grade of C (2.0) in each of the concentration courses and must have a cumulative GPA of 2.0 from all concentration courses attempted.

To declare Accounting as a major at ECU, students must

- Have 45 semester hours,
- Have a 2.5 overall GPA, and
- Have successfully completed ACCT 2401, ACCT 2521, ECON 2113, ECON 2133, FINA 2244, MATH 1065, MATH 2228 or 2283, AND MIS 2223 with a "C-" or higher.

Students may only attempt each of the 8 declaration courses twice.
