

## AAS Transfer Plan

Human Services Technology, AAS to Social Work, BSW

*Associate in Applied Science degrees through the North Carolina Community College system are not necessarily designed to transfer to 4-year institutions. However, ECU wants to see you complete your bachelor's degree regardless of the associate degree you complete. Therefore, we have created AAS Transfer Plans for popular NCCCS AAS degrees.*

The Social Work, BSW is a program of classroom study and fieldwork. The program supports the concept that professional social work practitioners in human services have a strong professional knowledge, skill, and value base from which they offer services. Thus, the Social Work, BSW ensures graduates master the following nine generalist practice social work competencies:

- Demonstrate ethical and professional behavior.
- Engage diversity and difference in practice.
- Advance human rights and social, economic, and environmental justice.
- Engage in practice-informed research and research-informed practice.
- Engage in policy practice.
- Engage with individuals, families, groups, organizations, and communities.
- Assess individuals, families, groups, organizations, and communities.
- Intervene with individuals, families, groups, organizations, and communities.
- Evaluate practice with individuals, families, groups, organizations, and communities.

Admission to the Social Work, BSW is by application only. Students must have at least 32 hours of general education credit, an overall 2.5 GPA, and have completed the equivalent of SOCW 1010 and SOCW 2010 with a 2.5 GPA. For more information, [click here](#).
