

AAS Transfer Plan

Interior Design, AAS **to** Interior Design, BS

Associate in Applied Science degrees through the North Carolina Community College system are not necessarily designed to transfer to 4-year institutions. However, ECU wants to see you complete your bachelor's degree regardless of the associate degree you complete. Therefore, we have created AAS Transfer Plans for popular NCCCS AAS degrees.

The interior design major is accredited by the Council for Interior Design Accreditation (CIDA) and the National Association of Schools of Art and Design (NASAD).

Students can declare the interior design major upon

- completion of IDSN 1081, IDSN 1180, IDSN 1181, IDSN 1200, and IDSN 1500, with a C (2.0) or higher;
- a cumulative GPA of at least 2.5;
- and an acceptable level of proficiency in studio work as shown in the portfolio review.

Portfolio Review: Upon completion of IDSN foundation courses, students submit portfolios which contain representative work from IDSN 1081, IDSN 1181, and IDSN 1500. This work is evaluated by the interior design faculty, who recommend whether students are prepared to enter the professional-level interior design courses. Students who do not meet the level of proficiency needed for the professional-level courses have the opportunity to resubmit a portfolio a maximum of two additional times. Meeting the minimum standards does not guarantee entry into the professional level.

Admission to professional-level courses is competitive and limited.

Upon transfer to ECU, your official transcript will be evaluated. Any courses without current articulations will be sent to the department contacts for possible credit. This plan gives you a potential look at what we know will transfer, but keep in mind you could obtain more transfer credits when you official apply and are admitted to ECU!
