Late/incomplete applications, flags or pending adverse action may result in denial of funding.

Funding is based on availability and is a reimbursement program. It may not meet the time obligations of my institution. It may be necessary to "front" the money to the school.

I understand that I am obligated to two years of service with the North Carolina National Guard past the end date of the courses for which I am requesting funding. Failure to comply will result in debt to the state and recoupment.

ROTC Cadets who branch outside of the North Carolina National Guard will incur a debt back to the State. Therefore, any NCTAP funds adversely used within the last two years will be held accountable, and recouped.

I will need to maintain at least a 2.0 GPA for undergrad and 3.0 for grad at the end of course for that semester. Failure to do so will result in hold of NCTAP funding for the following term. Unsuccessful completion of certification/training program will result in hold of funding for the following term.
